Quarter Ended 31 December 2025 compared to Quarter Ended 31 December 2024

The Group's revenue for the current quarter ended 31 December 2025 decrease to RM15.477 million, compared to RM17.590 million in the corresponding quarter of the previous year. The decrease was mainly due to the reasons as explained below:

During the current quarter ended 31 December 2025, the Animal Health Product Division recorded revenue of RM8.135 million, compared to RM8.894 million in the corresponding quarter ended 31 December 2024. The decrease of approximately 8.53% was primarily due to the reduce in demand by customers.

During the current quarter ended 31 December 2025, the Foodservice Equipment Division recorded revenue of RM6.264 million, compared to RM6.123 million in the corresponding quarter ended 31 December 2024. This represents a 2.3% increase in sales, mainly driven by higher servicing activity from retail customers.

The most significant decline was attributable to lower sales in the Food Supplies Division. Although overseas orders were secured during the year, the revenue recorded was lower compared to the corresponding quarter of the previous year.

The decrease in cost of sales is primarily due to improved margins across a different products mix. Additionally, favorable currency exchange rates also contributed to the reduction. As a result of the lower cost of sales, gross profit increased during the current quarter.

QUARTERLY REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2025

The current quarter's profit is lower than the previous quarter primarily due to higher administrative expenses.

B3. Prospects

The Group remains optimistic about its outlook as livestock farming continues to play an important role in Malaysia's agricultural sector. Sustained demand for animal health products is expected to contribute positively to the Group's revenue. Additionally, the gradual recovery in sentiment toward the international food and beverage industry signals a positive trend for the Group. Looking ahead, the business is expected to continue strengthening, underpinned by sustained growth momentum.

The Food Manufacturing Division will continue to actively engage with overseas customers to reinforce relationships and maintain stability in international markets. Building on the encouraging performance in the previous financial year, the Group anticipates further progress in the coming periods.

The Board of Directors remains committed to navigating evolving market dynamics, with a strong emphasis on business innovation to drive sustainable profitability. The Group continues to prioritise financial discipline, responsiveness to market needs, and value creation for stakeholders. These collective efforts aim to ensure the Group's resilience and long-term success amid ongoing challenges.
