PART B - EXPLANATORY NOTES PURSUANT TO PART A OF APPENDIX 9B OF THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. OPERATING SEGMENTS REVIEW

REVIEW OF PERFORMANCE AGAINST PREVIOUS YEAR'S CORRESPONDING PERIOD

During the current quarter, the Group recorded revenue of RM170.41 million, compared to RM252.58 million in the corresponding quarter of the preceding year. The Group recorded loss before tax of RM4.80 million compared to profit before tax of RM12.97 million in the corresponding quarter of the preceding year.

Correspondingly, for the current year to date, revenue increased to RM666.35 million compared to RM578.84 million in the preceding year to date. However, the profit before tax reduced to RM9.46 million compared to RM32.59 million in the preceding year to date. The decline was mainly due to additional costs incurred, and provision made for foreseeable losses and liquidated ascertained damages ("LAD") in the Construction Division, as well as the reversal of impairment losses on a joint venture project in the preceding year. Furthermore, due to the weakening of the Indonesian Rupiah, the Investment Holding segment recorded RM4.82 million in unrealised foreign exchange translation losses on intercompany balances for the current quarter, bringing cumulative losses to RM8.80 million year-to-date.

Tabulated below are the unaudited divisional contributions: -

However, the Division recorded a loss before tax of RM5.76 million compared to a profit before tax of RM14.63 million in the preceding year to date. This was mainly due to additional costs incurred for certain on-going projects and the provision made for foreseeable losses and LAD on the projects.

B1. OPERATING SEGMENTS REVIEW (Continued)

Property Division

In the current quarter, revenue decreased to RM41.84 million as compared to RM49.34 million in the corresponding quarter of the preceding year. Correspondingly, profit before tax declined to RM4.42 million from RM6.28 million in the corresponding quarter of the preceding year.

Revenue for the current year to date increased to RM186.94 million as compared to RM171.84 million in the preceding year to date. In line with the higher revenue, profit before tax rose to RM29.71 million compared to RM25.81 million in the preceding year to date. This was mainly due to higher work progress from the current development projects.

Utilities Division

Revenue for the current quarter decreased to RM9.11 million as compared to RM9.15 million in the corresponding quarter of the preceding year. Accordingly, profit before tax also reduced to RM1.87 million from RM2.15 million in the corresponding quarter of the preceding year.

Revenue for the current year to date decreased to RM24.55 million compared to RM26.72 million in the preceding year to date. Profit before tax similarly reduced to RM3.67 million compared to RM4.90 million in the preceding year to date, mainly due to lower power plant contribution from the adverse weather condition in Indonesia.

B2. MATERIAL CHANGES IN THE CURRENT QUARTER'S RESULT COMPARED TO THE PRECEDING QUARTER

	Current Quarter 28/02/2026 RM'000	Preceding Quarter 30/11/2025 RM'000	Variance %
Revenue	170,417	198,711	-14

The Group's revenue decreased to RM170.42 million in the current quarter compared to RM198.71 million in the preceding quarter, mainly due to lower construction work progress on certain construction projects, and reduced progress in ongoing development projects. Correspondingly, the Group recorded a higher loss before tax of RM4.80 million in the current quarter compared to RM3.31 million in the preceding quarter, mainly due to a provision for LAD in the Construction Division.

B3. BUSINESS PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 MAY 2026

The Construction Division continues to prioritise the completion of its ongoing projects, as efforts to secure new contracts in the infrastructure, renewable energy, and data centre sectors are increasingly constrained by challenging industry conditions. As a positive development, the Group strengthened its construction project portfolio with the recent award of the Widening of Kuala Lumpur - Karak Highway (Package 1A) project. Despite the Division's outstanding order book expanding to approximately RM474 million as of the reporting date, it remains exposed to heightened risks arising from industry-wide pressures such as rising material costs, labour shortages, regulatory complexities, and intense competition. These factors may affect project execution and future order inflows.

The Property Division continues to face persistent challenges amidst an uncertain property market outlook. The overall market continues to see a significant number of affordable housing units remain unsold, particularly in less attractive locations or where pricing is misaligned with household income levels. Additionally, stringent loan approval processes and difficulties in buyer qualification continue to hamper sales. The industry is also grappling with rising construction and labour costs, compounded by the reinstatement and expansion of the Sales and Services Tax (SST), which has further intensified cost pressures across the sector. Thus, the Division will maintain its focus on targeted marketing efforts and strategic initiatives to support upcoming launches, particularly in key developments such as Kwasa Damansara and Gelang Patah Phase 3 in the coming quarters. Backed by total unbilled sales of RM145.3 million, the Division remains committed to strengthening its portfolio through selective land acquisitions and strategic joint ventures, ensuring long-term sustainability and growth.

Under the Utilities Division, the concession water treatment assets in Indonesia continue to provide stable and sustainable recurring revenue for the Group. The 5.9 MWac solar photovoltaic plant in Tawau, Sabah, was completed in December 2025 and has since commenced commercial operations. Furthermore, the Group's successful bid to develop a 15 MWac large-scale solar photovoltaic plant in Tawau represents another important milestone in expanding our renewable energy portfolio. Collectively, these energy-generating facilities not only support the national green energy transition agenda but are also expected to contribute positively to the Group's revenue in the coming years upon commissioning.

The Group will continue to closely monitor its operating environment through regular assessments to ensure prudent financial management and operational efficiency, particularly in anticipation of increasing compliance requirements and expected revision and expansion of the tax regime. Furthermore, the Group remains vigilant amid on-going geopolitical uncertainties and global trade tensions. Meanwhile, the Group remains focused on replenishing its construction order book and expanding the landbank of its property division to support sustainable long-term growth and earnings of the Group.

The Group's effective tax rate (excluding the results of joint ventures, which are equity accounted net of tax) for the current quarter was higher than the statutory tax rate, mainly due to the non-recognition of deferred tax assets on unutilised tax losses of certain subsidiaries and certain expenses not deductible for tax purposes.
