A13. SHIPS, OFFSHORE FLOATING ASSET AND OTHER PROPERTY, PLANT AND EQUIPMENT

Included in ships, offshore floating asset and other property, plant and equipment are construction work-in-progress, mainly for the construction of ships totalling RM3,201.3 million (31 December 2025: RM2,484.5 million) and right-of-use assets amounting to RM511.2 million (31 December 2025: RM562.2 million).

The volatility of charter hire rates, expired charter contracts or contracts approaching expiry dates were identified as indications that the carrying amount of certain ships may be impaired. The Group has performed a review of the recoverable amount of the ships at the end of the quarter. The recoverable amount was based on the higher of fair value less costs of disposal or value-in-use, and determined at the cash generating unit ("CGU") level of each asset.

The review led to the recognition of net impairment losses of ships amounting to RM56.1 million in the current financial year as the recoverable amount of the ships was lower than their carrying value.

Goodwill is tested for impairment annually, or when circumstances indicate that the carrying value may be impaired. The Group's goodwill impairment test is a comparison of the goodwill's carrying value against its recoverable amount. The recoverable amounts are based on value-in-use for cash generating units ("CGU"), calculated using cash flow projections. The key assumptions used to determine the value-in-use of CGUs were disclosed in the annual consolidated financial statements for the year ended 31 December 2025.

The other intangible assets relate to the fair value of long-term customer contracts from acquisition of a subsidiary at the date of acquisition, which is amortised over the remaining contract periods.

PART B – OTHER EXPLANATORY NOTES (continued)

Current quarter's performance against the quarter ended 31 March 2025

Revenue of RM422.4 million was RM88.0 million (17.2%) lower than the same quarter last year, mainly due to higher revenue recognised in the corresponding quarter relating to mobilization activities of a Floating Production, Storage and Offshore (FPSO) for operational readiness, and the effect of strengthening RM against the USD in the current quarter.

Operating profit of RM195.2 million was RM65.9 million or 25.2% lower than the corresponding quarter's profit of RM261.1 million following operational shutdown of an FPSO.

Marine & Heavy Engineering

Revenue of RM524.0 million was RM70.9 million or 15.6% higher than the corresponding quarter's revenue of RM453.1 million primarily driven by higher revenue contribution from the Heavy Engineering segment from the ongoing projects advancing into higher construction phases partially offset by lower revenue from post sail-away projects.

B5. GROUP CURRENT YEAR PROSPECTS

LNG Carrier (LNGC) long-term charter rates rose modestly in early March, driven by heightened geopolitical tensions in the Middle East. Looking ahead, LNGC rates are expected to remain elevated relative to the pre-Middle East conflict period, underpinned by robust long-term LNG demand. Meanwhile, steam LNGC rates are expected to remain subdued as charterers continue to favour more efficient and modern tonnage. The segment continues to focus on advancing its fleet rejuvenation strategy through the delivery of modern and efficient LNGCs and securing new long-term charters. In parallel, the segment continues to implement strategic measures for vessels currently off charter, including lay-ups to optimise costs, monetisation of assets to redeploy capital, and the exploration of redeployment opportunities.

In the Petroleum & Products segment, the crude tanker rates surged in March 2026 following the disruption to Strait of Hormuz before gradually moderating at elevated levels, supported by resilient tonne-mile demand arising from shifting global oil trade flows. Going forward, crude tanker rates are expected to stay above 2025 levels, depending on the duration and evolution of the disruptions in the Middle East. Against this backdrop, our Petroleum & Products segment will continue to prioritise secured and recurring income while progressively rejuvenating its fleet with dual-fuel vessels, expanding its contract portfolio and optimising fleet deployment to maximise earnings.

Meanwhile, the offshore market outlook remains robust, supported by a strong pipeline of Floating Production Storage and Offloading (FPSO) unit awards expected in 2026 across key regions such as South America, Africa and Asia Pacific. At the same time, project start-ups are expected to remain strong driven by persistently high oil prices amid ongoing geopolitical tensions. This positive market outlook presents growth opportunities across high potential markets for the Offshore segment to capitalise on, further reinforcing its strategic position and supporting sustainable long-term value creation.

In the Marine & Heavy Engineering segment, the operating environment is expected to remain volatile, shaped by ongoing geopolitical tensions that continue to create trade and economic uncertainties. Despite these challenges, growing demand for offshore floater conversions and LNGC repairs is expected to create opportunities for the segment. Against this backdrop, the Heavy Engineering sub-segment will continue to prioritise project execution excellence and strengthen its order book across conventional and new energy projects, while remaining vigilant in addressing operational challenges. Concurrently, the Marine sub-segment is expected to deliver steady performance, supported by continued demand for repair, maintenance and conversion works, as well as strong project management capabilities and enhanced operational efficiency and project delivery.

Taxation for the period comprises the following charge:	
Income tax charge

Section 54A of the Malaysian Income Tax Act, 1967 was amended effective from Year of Assessment (“YA”) 2012, in which the tax exemption on shipping profits was reduced from 100% to 70%. The implementation of the amended Section 54A, however, has previously been deferred up to YA 2023 via several gazette orders issued by the Ministry of Finance (“MOF”).

On 5 July 2024, MOF issued another Gazette Order (i.e. Income Tax (Exemption for Malaysian Ship) Order 2024 (P.U. (A) 184) granting a further extension of the 100% shipping tax exemption from YA 2024 to YA 2026. The exemption is granted subject to the Malaysian shipping companies comply with the minimum substance requirements in terms of annual operating expenditure and minimum number of full-time Malaysian employees for each Malaysian ship for both shore employees and ship personnel.

Based on the latest Gazette Order, the Group would be able to continue to enjoy the 100% shipping tax exemption up to YA 2026 on the basis that the substance requirements as per Gazette Order are duly met.

QUARTERLY REPORT

FOR FIRST QUARTER ENDED 31 MARCH 2026

PART B – OTHER EXPLANATORY NOTES (continued)

PCPP is a joint operating company with shareholders comprising PETRONAS Carigali Sdn Bhd (40%) (“PCSB”), PT Pertamina Hulu Energi (30%) (“PPHE”) and PetroVietnam Exploration Production Corporation Ltd (30%) (“PVEP”).

A dispute has arisen between the parties in relation to the Contract and there are substantial sums due and owing to MOMPL. Attempts to resolve the matter by means of a commercial settlement agreement failed to materialise and MOMPL was constrained to proceed with legal proceedings against PCPP to seek to recover the sums outstanding to MOMPL for the lease rates, payment for completed variation works, early termination fees, reimbursement of demobilisation costs and associated costs under the Contract totalling to approximately USD99.8 million and service rates totalling approximately RM22.6 million. In this respect, the following actions have been filed:

Adjudication

1. Adjudication proceedings under the Construction Industry Payment and Adjudication Act 2012 (“CIPAA”) was first commenced to recover MOMPL’s claim for the completed variation works amounting to approximately USD9.9 million. On 9 January 2019, MOMPL was awarded its entire claim of USD9.9 million plus interest and costs.
2. The second adjudication proceedings under CIPAA was commenced to recover the disputed demobilisation costs amounting to approximately USD4.8 million. On 7 October 2019, MOMPL received the second Adjudication decision dated 26 July 2019 where MOMPL was awarded its entire claim of USD4.8 million plus interest and costs.
3. The Federal Court (“FC”) had on 16 October 2019 made a ruling that the CIPAA, which provides the basis upon which the Adjudication Proceedings were commenced, only applies prospectively to construction contracts entered into after the date CIPAA became effective i.e. 15 April 2014. The MOMPL lease agreement is dated 28 November 2008 and as such, falls outside the purview of CIPAA.
4. In view of the FC decision, MOMPL has stayed its hand on moving for the enforcement of the Adjudication decisions and will focus on the Arbitration Proceedings in order to recover the monies owing by PCPP.
5. As far as MOMPL is aware, there is no pending application to set aside the said Adjudication decisions.

Arbitration

6. The first arbitration proceedings seek to claim for part of the outstanding sums amounting to approximately USD18.8 million and RM17.9 million. MOMPL’s Statement of Claim was filed on 21 December 2016.
7. MOMPL has re-filed the Notice of Arbitration for the second arbitration proceedings for part of the outstanding sums amounting to approximately USD81.0 million and RM4.7 million. PCPP has responded to the Notice of Arbitration on 15 July 2020.
8. The arbitral tribunal for both arbitration proceedings have now been constituted respectively, and parties are amid negotiating and finalising the terms of appointment. However, given the development in the filing of the Winding-up Proceedings, MOMPL has written to the arbitral tribunal for both the first and second arbitrations to request for proceedings to be kept in abeyance until the Winding-up Proceedings is disposed of by the High Court.

QUARTERLY REPORT FOR FIRST QUARTER ENDED 31 MARCH 2026

PART B – OTHER EXPLANATORY NOTES (continued)

- a. On 30 May 2019, the High Court, allowed PCPP's application to stay the Originating Summons pending the disposal of the arbitration proceedings. MOMPL filed an appeal to the Court of Appeal ("CA") against this decision which was heard on 12 April 2021. The CA set aside the stay application granted by the High Court and instead imposed a conditional stay on PCPP wherein PCPP is required to deposit a sum of USD7.8 million into a joint account held by both parties' solicitors within 30 days, failing which MOMPL will be able to proceed with the full hearing in the High Court action against PCPP. PCPP failed to make any such deposit and therefore the Originating Summons was reinstated in the High Court at MOMPL's request.
- b. The matter was heard on both 7 October 2021 and 26 October 2021, the High Court decided the matter in favour of MOMPL. MOMPL has now been awarded the full sum claimed amounting to USD42.3 million together with interest and costs which is to be paid by PCPP. PCPP did not file any appeal against the High Court's decision however PCPP failed to pay the sum awarded to MOMPL. Due to PCPP's failure to pay the sum awarded, MOMPL proceeded to issue a Statutory Notice pursuant to Sections 465 and 466 of the Companies Act 2016 against PCPP on 14 December 2021.

Writ Action for Declaration against the Shareholders of PCPP

10. A writ action in the High Court was also filed on 13 August 2018 against PCSB, PPHE and PVEP (being the shareholders of PCPP) seeking for a declaration that the shareholders be liable for the amounts due and owing by PCPP to MOMPL under the Contract. PCSB and PCPP filed applications in the High Court to strike out ("PCSB's Striking Out Application") and stay the proceedings pending the disposal of the arbitration proceedings ("PCPP's Stay Application") which were allowed on 26 October 2018 and 11 December 2018 respectively. MOMPL appealed against both decisions to the Court of Appeal.
 - a. MOMPL's appeal against PCSB's Striking Out Application by the High Court was dismissed by the Court of Appeal on 26 September 2019. MOMPL has filed leave to appeal against the Court of Appeal's decision to uphold the High Court's decision to strike out the proceedings against PCSB to the Federal Court. On 18 August 2020, the Federal Court dismissed MOMPL's appeal.
 - b. MOMPL's appeal against PCPP's Stay Application by the High Court was heard by the Court of Appeal on 19 June 2020. The Court of Appeal has set aside the stay against the shareholders i.e. PCSB, PPHE and PVEP, whilst the stay against PCPP is affirmed. Pursuant to this decision, MOMPL has proceeded to serve the cause papers out of jurisdiction on PPHE and PVEP. PVEP failed to respond to MOMPL's claim and therefore MOMPL applied for a summary judgment against PVEP. PPHE filed an application in the High Court of Malaysia to challenge the service of the cause papers in Indonesia which was heard on 11 August 2021. On 24 September 2021, the High Court allowed PPHE's application. MOMPL has elected to await the outcome of the Winding-up Proceedings against PCPP and will consider whether to file a fresh claim against PCPP's shareholders thereafter.

Winding Up of PCPP

11. MOMPL issued a Statutory Notice pursuant to Sections 465 and 466 of the Companies Act 2016 against PCPP on 14 December 2021 ("Statutory Notice"). PCPP failed to comply with the Statutory Notice and therefore on 25 March 2022, MOMPL proceeded to file a winding-up petition against PCPP in the High Court ("Winding-up Petition"). The Winding-up Petition was heard on 6 September 2022 and a Winding-Up Order against PCPP was granted in the terms prayed for together with costs. This means that PCPP has been wound up and a liquidator has been appointed.

Proceedings Post Winding Up of PCPP

12. On 24 October 2022, MOMPL filed its Proof of Debt against PCPP together with the supporting documents to substantiate its entire claim
 - a. During the first creditor’s meeting which was held on 11 April 2023, MOMPL was informed by PCPP’s liquidator that it was PCPP’s only creditor and that the liquidator has admitted the full amount of MOMPL’s claim against PCPP amounting to USD121.9 million as stated in the Proof of Debt. The liquidator has since requested a cash call from PCPP’s shareholders pursuant to the terms of the Joint Operating Agreement executed in respect of PCPP. PCSB responded to dispute the cash call. Following this, the liquidator requested for further information to support PCSB’s position. Since there was no response, the liquidator instructed their solicitors to file an application for directions in the Winding Up Court for the cash call to be effectively ordered against PCSB, PPHE and PVEP.
 - b. On 15 August 2023 a Forms of Summons was filed by the liquidator to seek directions from the High Court for the cash call (“**Application for Directions**”). On 2 November 2023, the High Court allowed the liquidator’s application to serve the court papers out of the jurisdiction, to allow the liquidator to serve the cause papers on PPHE and PVEP in Vietnam and Indonesia.
 - c. PCSB appointed solicitors and filed an application to intervene (for PCSB to be added as the party to the proceedings) and the Court allowed PCSB’s application to intervene as a party to the liquidator’s application on 8 January 2024. A further case management was fixed for 24 January 2024 for the Court to give directions on filing of affidavits, written submissions and to fix a hearing date for the liquidator’s Application for Directions.
 - d. MOMPL also filed an application to intervene as a party to the liquidator’s Application for Directions to enable MOMPL to actively participate in the proceedings. MOMPL’s application to intervene was heard and allowed by the High Court on 23 January 2024.
 - e. On 29 July 2024, the liquidator withdrew the Application for Directions, with no liberty to file afresh and with costs of RM5,000 to be paid to MOMPL.
 - f. On 2 August 2024, MOMPL’s solicitors wrote to the liquidator to inquire what further active steps are being taken to explore recovery. On 6 August 2024, the liquidator responded to confirm that upon the advice of PCPP’s solicitors, the liquidator intends to commence arbitration proceedings against the shareholders of PCPP.
 - g. MOMPL’s solicitors continue to engage with the liquidator and explore avenues for recovery. (collectively referred to as the “**Legal Proceedings**”)

iii) Malaysia Marine and Heavy Engineering Sdn Bhd (“MMHE”) and Haumea Offshore Sdn Bhd (“Haumea”)

On 15 April 2025 MMHE received a Notice of Arbitration dated 11 April 2025 (“the Arbitration”) from the solicitors for Haumea Offshore Sdn Bhd (formerly known as Trans Fame Offshore Sdn Bhd) in relation to claims arising from Subcontract No. 3900007170 titled “Hook-up And Commissioning Works And Marine Vessels For Bokor Phase 3 Redevelopment Project (Package A)” (hereinafter referred to as “the Subcontract”).

Under the Subcontract, Haumea was appointed by MMHE as the subcontractor to provide Hook-up and Commissioning (“HUC”) works, including marine vessels, for the Bokor Phase 3 Redevelopment Project (“the Works”). In the Notice of Arbitration, Haumea claims that there were disputes between Haumea and MMHE under the Subcontract in relation to Haumea’s performance of the Works. Haumea has included an indicative amount of its alleged loss as part of the Notice of Arbitration, at approximately RM57.3 million, including interest, costs and/or other reliefs.

On 20 May 2025, the High Court of Johor Bahru granted an ex-parte injunction in favour of MMHE, restraining Haumea from registering the Notice of Arbitration (“NOA”), commencing or proceeding with arbitration in connection with the said NOA pending the determination by the High Court of its validity.

The High Court has proceeded with the inter-parte hearing of the interim injunction application on 3 July 2025 and fixed the decision on 5 August 2025. The court also on the same date fixed for case management to MMHE’s Originating Summons (“OS”) on:

- a) A declaration that the NOA is invalid, premature and wrong in law; and
- b) An injunction to restrain Haumea from registering, proceeding and/or commencing any arbitration proceedings in relation to the NOA.

On 5 August 2025, the High Court at Johor Bahru allowed Haumea’s application to set aside MMHE’s ex-parte injunction with the cost of RM10,000 and on 27 October 2025 allowed Haumea’s application to set aside MMHE’s OS with cost of RM10,000 subject to allocatur fees. MMHE had filed the Notice of Appeal against both decisions.

Following the High Court’s decision on the OS, Haumea may proceed with the arbitral proceedings under the Notice of Arbitration. Nevertheless, in the event MMHE’s appeal against the High Court’s decision is allowed by the Court of Appeal, the arbitral proceedings, if any, commenced under the Notice of Arbitration, would be rendered null and void.

PART B – OTHER EXPLANATORY NOTES (continued)

B12. DERIVATIVES

As part of the Group's efforts to hedge its interest rate risks, the Group entered into interest rate swap ("IRS") arrangements, a form of derivative to convert its interest exposure from floating rate into fixed rate. The maturity of the IRS arrangements coincides with the maturity of the original floating rate loans.

The Group had also entered into forward currency contracts to manage its foreign currency risk.

Details of the Group's derivative financial instruments outstanding as at 31 March 2026 are as follows:

Contract/Tenure	Notional Value RM million	Fair Value as at 31 March 2026 RM million
Foreign currency contracts		
Within 1 year	162.1	(1.4)

More than 3 years	12,696.9	75.6
	<u>12,917.0</u>	<u>198.0</u>

The Group had entered into IRS arrangements to hedge against adverse movements in interest rates in compliance with the facility agreement as well as forward currency contracts designated as hedges of expected future payments denominated mainly in United States Dollars.

There is no significant change for the financial derivatives in respect of the following since the last financial year ended 31 December 2025:

- (a) the credit risk, market risk and liquidity risk associated with these financial derivatives;
- (b) the cash requirements of the financial derivatives; and
- (c) the policy in place for mitigating or controlling the risks associated with these financial derivatives.

B13. FAIR VALUE CHANGES OF FINANCIAL LIABILITIES

The Group's derivative financial instruments such as interest rate swaps and foreign currency contracts are measured at fair value. The fair value of the derivative financial instruments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business at the end of reporting date. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include:

- (a) using recent arm's length market transactions;
- (b) reference to the current fair value of another instrument that is substantially the same; and
- (c) discounted cash flow analysis or other valuation models.
