ADDITIONAL INFORMATION REQUIRED BY BURSA SECURITIES LISTING REQUIREMENTS

B1 Review of Performance

	Year To Date (30/6/23) RM'000	Year To Date (30/6/22) RM'000	Variance	
			RM'000	%
Revenue	367,991	367,683	308	0.08
Profit before tax (PBT)	44,805	48,119	(3,314)	(6.89)
Profit after tax (PAT)	35,172	36,602	(1,430)	(3.91)

The Group recorded a revenue and PBT of RM367.99 million and RM44.81 million respectively for current period ended 30 June 2023 as compared to RM367.68 million and RM48.12 million in last year. Positive sales growth was achieved in the private prescription pharmaceutical market, ethical specialty sector and export segment, compared to the corresponding period last year. However, this growth was tempered by the lower demand from the consumer healthcare sector, resulting in only a marginal increase in the Group's overall revenue compared to same period in the previous year.

During the current period, the Group's PBT is lower primarily due to increased operational costs resulting from the upward adjustment in electricity tariff, elevated labor cost pursuant to the amendments to the Employment Act 1955, higher finance costs due to the rising Overnight Policy Rate (OPR), once-off costs incurred due to temporary shutdown of small volume injectable plant for upgrading and maintenance, and the incremental costs associated to commencement of production in the new K3 facility.

B2 Comparison with the Preceding Quarter's Results

	Qtr 2 2023 (30/6/23) RM'000	Qtr 1 2023 (31/3/23) RM'000	Variance	
			RM'000	%
Revenue	167,516	200,475	(32,959)	(16.44)
Profit before tax (PBT)	16,515	28,292	(11,777)	(41.63)
Profit after tax (PAT)	12,541	22,633	(10,092)	(44.59)

In the current quarter ended 30 June 2023, the Group's revenue lowered to RM167.52 million as compared to RM200.48 million in the preceding quarter mainly due to lower demand in all main sectors. The Group's PBT is lower in the current quarter, primarily due to lower revenue coupled with the impacts of increased operational costs resulting from the upward adjustment in electricity tariff, higher finance costs due to the rising Overnight Policy Rate (OPR), once-off costs incurred due to temporary shutdown of small volume injectable plant for upgrading and maintenance, and the incremental costs associated to commencement of production in the new K3 facility.

B3 Prospects for the Remainder of Current Financial Year

According to the Ministry of Finance Malaysia's press release on 12 May 2023, the Malaysian economy displayed a robust expansion of 5.6% in the first quarter of 2023. This growth was primarily driven by sustained domestic demand, bolstered by strong private consumption and improvements in labour conditions. Nevertheless, the world economic outlook remains susceptible to geopolitical tensions, inflationary price pressures and tighter financial conditions.

The Bank Negara Malaysia ("BNM") has, in its Economic and Monetary Review 2022 report and Quarterly Bulletin 1Q 2023 released on 29 March 2023 and 6 July 2023 respectively, projected the Malaysian economy to grow between 4.0% and 5.0% in 2023. Despite the impact of slower external demand, the Malaysian economy is expected to continue its expansion. This growth will be fueled by domestic demand, supported by improving labour market conditions, higher tourism activity and further progress of multiyear investment projects.

The revised Budget 2023 is highly encouraging, as it includes a substantial 12.0% increase from the previous year's allocation for healthcare, amounting to RM36.3 billion. This record-high allocation signals the right direction towards the much-needed reforms in the healthcare system, which is expected to drive greater demand for medicines, benefiting pharmaceutical players in the market. The following developments also augur well for the overall business of Duopharma Group:

a) The Government of Malaysia had accepted the tender offer from Duopharma Marketing Sdn. Bhd. ("DMktg") (a wholly-owned subsidiary of Duopharma Biotech Berhad) and Biocon Sdn. Bhd. ("Biocon") to supply Insugen-Insulin Recombinant Human Formulations (hereinafter referred to as the "Products") under the Ministry of Health's ("MOH") procurement for a period of three (3) years commencing on 29 April 2022 until 28 April 2025 with a total contract value of RM375 million (hereinafter referred to as the "Revised Letter of Award"). DMktg and Biocon have acknowledged receipt and acceptance of the Revised Letter of Award on 25 April 2022 and submitted the same to the Ministry of Health on 25 April 2022. The supply of the Products to the Government of Malaysia has already commenced. Pursuant to the Revised Letter of Award, the formal agreement for the procurement via direct negotiation for the supply of insulin medicine as a package ('Perjanjian Perolehan Secara Rundingan Terus Pembekalan Ubat Insulin Secara Pakej') between the Government of Malaysia, DMktg as the Supplier/Distributor and Biocon as the manufacturer has been executed on 30 September 2022.

b) The Contract Period for the supply of pharmaceutical and/or non-pharmaceutical products to hospitals, clinics and others under the Government of Malaysia for APPL 2017-2019 vide the Supply Agreements between Pharmaniaga Logistics Sdn Bhd and Duopharma (M) Sendirian Berhad ("DMSB") (a wholly-owned subsidiary of Duopharma Biotech Berhad) has expired on 30 June 2023. Subsequent to the expiry of the Supply Agreements, the supply and delivery of the pharmaceutical and/or non-pharmaceutical products are based on purchase orders issued, albeit at a slower pace.

c) Based on the Finance Act 2021 gazetted on 31 December 2021, the special reinvestment allowance incentive that is under the PENJANA stimulus package has been extended until the year of assessment 2024. Accordingly, the Group may enjoy potential savings of around RM10 million upon completion of the qualifying assets including K3 by 2024.

Albeit the positive developments in the healthcare industry, the fluctuation of United States Dollar (USD) globally, increased finance costs as a result of the rising OPR, rising electricity tariff, elevated labor cost pursuant to the amendments to the Employment Act 1955, temporary shut down of small volume injectable plant for upgrading and maintenance, and the incremental costs associated to the commencement of production in our new K3 facility, pose challenges to Duopharma Biotech as they affect our production and other operational costs. These factors are expected to put pressure on manufacturing margin and hence our profit thereof.

Barring unforeseen market changes and developments, the Group aims to deliver a satisfactory performance in 2023.

B4 Profit Forecast

No commentary is made on any variance between actual profit from forecast profit as it does not apply to the Group.

B5 Taxation

Details of taxation are as follows :-

	Current Year Quarter 30/6/23 RM'000	Current Year To Date 30/6/23 RM'000
Based on results for the quarter/year	(2,392)	(3,306)
Transfer (from)/to deferred tax	(1,582)	(6,327)
	<u>(3,974)</u>	<u>(9,633)</u>

The Group's effective tax rate is estimated to be lower than statutory tax rate after taking into consideration the potential tax allowances and incentives to be claimed during the year.

B6 Unquoted Investments and Properties

On 30 June 2023, Duopharma Biotech had entered into a Series A Preferred Stock Purchase Agreement and a supplemental letter of agreement with The Live Green Group, Inc., a Delaware, USA company ("TLGG") and The Live Green Company SpA, incorporated under the laws of the Republic of Chile and subsidiary of TLGG (the "Chilean Subsidiary"), and the other investors listed in Exhibit A attached to the Series A Preferred Stock Purchase Agreement, for the purchase by Duopharma Biotech of 105,065 shares of Series A Preferred Stock, \$0.00001 par value per share representing approximately 0.65% holding in the TLGG for a total purchase price of USD1,000,000.00 ("the Acquisition") upon the terms and conditions set out in the Stock Purchase Agreement.

The Acquisition was completed on 11 July 2023.

There was no other acquisition, disposal of unquoted investment and/or properties during the current financial quarter.

B7 Status of Corporate Proposals

a) On 23 February 2023, the Board of Directors had resolved that the Dividend Reinvestment Plan ("DRP") approved by the shareholders at the Company's Extraordinary General Meeting held on 31 May 2018 would apply to the Second Interim Dividend of 1.8 sen per share amounting to approximately RM17.14 million. The issue price of the new ordinary shares in the Company issued pursuant to the DRP was fixed at RM 1.35 per new Duopharma Biotech Berhad share. The issue price was at a discount of approximately 9.87% to the 5-day ex-dividend volume weighted average market price (VWAMP) of RM 1.4978.

A total of 9,702,761 new shares have been issued and allocated pursuant to the Dividend Reinvestment Plan. The aforesaid new Duopharma Biotech Shares were listed and quoted on the Main Market of Bursa Malaysia Securities with effect from 10 May 2023.

b) The Company had established an Islamic medium term notes programme for the issuance of Islamic medium term notes ("Sukuk Wakalah") of up to RM2.0 billion in nominal value based on the Shariah principle of Wakalah Bi Al-Istithmar ("Sukuk Wakalah Programme") and lodged the Sukuk Wakalah Programme with the Securities Commission Malaysia ("SC") on 24 August 2023 ("Lodgement Date").

The Sukuk Wakalah Programme has a 30-year programme tenure. The first issuance under the Sukuk Wakalah Programme shall be made within ninety (90) business days from the Lodgement Date or such other period as specified by the SC.
