1. INTRODUCTION

On 19 May 2025, TA Securities, on behalf of our Board, announced that our Company proposed to undertake the Proposals.

Bursa Securities had, vide its letter dated 9 June 2025, approved the following:

- (i) admission of up to 209,969,782 Warrants to the Official List of the ACE Market of Bursa Securities pursuant to the Proposed Free Warrants Issue;
- (ii) listing of and quotation for up to 209,969,782 Warrants to be issued pursuant to the Proposed Free Warrants Issue and up to 209,969,782 new Shares to be issued arising from the exercise of the Warrants on the ACE Market of Bursa Securities; and
- (iii) listing of and quotation for such number of OVH Shares, representing up to 30% of our Company's total number of issued shares (excluding treasury shares, if any) that may be issued pursuant to the Proposed SIS on the ACE Market of Bursa Securities;

subject to the conditions as set out in **Section 9** of this Circular.

Further details of the Proposals are set out in the ensuing sections of this Circular.

THE PURPOSE OF THIS CIRCULAR IS TO PROVIDE YOU WITH THE RELEVANT INFORMATION ON THE PROPOSALS, TO SET OUT OUR BOARD'S RECOMMENDATION ON THE PROPOSALS AND TO SEEK YOUR APPROVAL FOR THE RESOLUTIONS PERTAINING TO THE PROPOSALS TO BE TABLED AT OUR FORTHCOMING EGM. THE NOTICE OF EGM TOGETHER WITH THE FORM OF PROXY ARE ENCLOSED IN THIS CIRCULAR.

YOU ARE ADVISED TO READ AND CONSIDER THE CONTENTS OF THIS CIRCULAR TOGETHER WITH THE APPENDICES CONTAINED HEREIN CAREFULLY BEFORE VOTING ON THE RESOLUTIONS PERTAINING TO THE PROPOSALS TO BE TABLED AT OUR FORTHCOMING EGM.

2. DETAILS OF THE PROPOSED FREE WARRANTS ISSUE

2.1. Basis and number of Warrants to be issued

The Proposed Free Warrants Issue entails the issuance of up to 209,969,782 Warrants, on the basis of 1 Warrant for every 2 existing Shares held by the Warrants Entitled Shareholders on the Warrants Entitlement Date.

As at the LPD, the total issued share capital of our Company is RM39,187,557 comprising 419,939,564 Shares. Our Company does not have any treasury shares or any convertible securities as at the LPD.

The enlarged number of Shares and the illustration of compliance with Rule 6.51 of the Listing Requirements is illustrated as follows:

	No. of Shares
Total number of issued Shares as at the LPD (A)	419,939,564
To be issued assuming full exercise of the Warrants (B)	209,969,782
Enlarged issued share capital after the Proposed Free Warrants Issue	629,909,346
(B) / (A)	50.0%

The actual number of Warrants to be issued under the Proposed Free Warrants Issue will depend on the number of OVH Shares in issue on the Warrants Entitlement Date. In determining the Warrants Entitled Shareholders' entitlements to the Warrants, fractional entitlements arising from the Proposed Free Warrants Issue, if any, will be disregarded and/or dealt with by our Board in such manner as it may in its absolute discretion deem fit and expedient and in the best interest of our Company.

The basis of 1 Warrant for every 2 existing Shares held on the Warrants Entitlement Date was determined after taking into consideration, amongst others, the following:

- (i) rationale for the Proposed Free Warrants Issue as detailed in **Section 4.1** of this Circular;
- (ii) the potential dilutive effect on the consolidated earnings per Share of our Company upon exercise of the Warrants; and
- (iii) compliance with Rule 6.51 of the Listing Requirements, which states that the number of new OVH Shares arising from the exercise or conversion of all outstanding convertible securities, must not exceed 50% of the total number of issued Shares (excluding treasury shares and before the exercise of the convertible securities) at all times.

The Warrants Entitlement Date will be determined and announced at a later date by our Board upon receipt of all relevant approvals. The Proposed Free Warrants Issue will be implemented in a single tranche and is not intended to be implemented in stages over a period of time.

2.2. Indicative salient terms of the Warrants

The Warrants shall have a tenure of 3 years at an exercise price to be determined and announced later. The Warrants will be issued in registered form and constituted by the provisions of the Deed Poll. The indicative salient terms of the Warrants are set out in **Appendix I** of this Circular.

2.3. Basis and justification of determining the exercise price of the Warrants

The Warrants will be issued at no cost to the Warrants Entitled Shareholders. The exercise price of the Warrants will be determined and announced by our Board at a later date prior to the Warrants Entitlement Date, after obtaining all relevant approvals. In determining the exercise price of Warrants, our Board will take into consideration, amongst others, the following:

- (i) the historical price movement of OVH Shares;
- (ii) the 5D-VWAP of OVH Shares up to and including the last trading day prior to the price-fixing date of the exercise price of the Warrants;
- (iii) the future funding requirements of our Group as set out in **Section 2.5** of this Circular; and
- (iv) the prevailing market conditions.

In any event, the exercise price of the Warrants shall be priced at a premium, within a range of 20.00% to 40.00% to the 5D-VWAP of OVH Shares up to and including the last trading day prior to the price-fixing date. For illustrative purposes, the indicative exercise price of the Warrants is at RM0.19 per Warrant, which represents a premium of RM0.0493 or 35.04% to the 5D-VWAP of OVH Shares immediately prior to the LPD of RM0.1407 each (“**Assumed Exercise Price**”).

Our Board wishes to emphasise that the Assumed Exercise Price of Warrants should not be taken as an indication of or reference to the actual exercise price of the Warrants, which will be determined and announced later on the price-fixing date.

2.4. Ranking of the Warrants and the new Shares to be issued arising from the exercise of Warrants

The holders of the Warrant will not be entitled to any voting rights or right to participate in any form of dividend, distribution and/or offer of further securities in our Company until and unless such holders of the Warrant exercise their Warrants into new Shares and such new Shares have been issued and allotted.

The new Shares to be issued arising from the exercise of Warrants shall, upon allotment, issuance and full payment of the exercise price of the Warrants, rank equally in all respects with the existing Shares, save and except that the new Shares shall not be entitled to any dividends, rights, allotments and/or other forms of distributions which may be declared, made or paid to the shareholders of our Company, where the entitlement date of which is prior to the date of allotment and issuance of the new Shares arising from the exercise of Warrants.

2.5. Utilisation of proceeds from the exercise of Warrants

The Proposed Free Warrants Issue is not expected to raise any immediate funds as the Warrants will be issued at no cost to the Warrants Entitled Shareholders.

The exact quantum of proceeds that may be raised by our Company from the exercise of Warrants is dependent on the actual number of Warrants exercised during the tenure of the Warrants as well as the exercise price of the Warrants, which will be determined and fixed by our Board at a later date.

As such, the amount of proceeds to be raised, exact timeframe and the breakdown for the utilisation of the proceeds are not determinable at this juncture. Our Company expects to utilise the proceeds derived from the exercise of Warrants within 24 months from the date of receipt of the proceeds.

For illustrative purposes, the gross proceeds that may be raised upon the full exercise of the Warrants based on the Assumed Exercise Price of RM0.19 per Warrant is approximately RM39.89 million.

Notwithstanding the above, our Company intends to utilise the proceeds raised from the exercise of Warrants for the general working capital requirements of our Group. The proceeds for general working capital will be utilised to finance our Group's day-to-day operational costs including, amongst others, repayment to trade creditors as well as general expenses such as but not limited to staff costs, office rental costs and utilities. The detailed allocation to each component of working capital cannot be determined at this juncture as these will depend on the number of Warrants exercised during the tenure of the Warrants as well as the operating and funding requirements of our Group at the time of utilisation.

Pending utilisation, the proceeds to be raised as and when the Warrants are exercised may be placed as deposits with financial institutions and/or short-term money market instruments, as our Board may deem fit. Any interest income derived from the deposits with financial institutions and/or any gains arising from the short-term money market instruments will be used as additional funds for the working capital requirements of our Group (such as payment of general administration and operating expenses including but not limited to staff costs, office rental costs and utilities). The allocation and breakdown of each component of working capital can only be determined later subject to, amongst others, the amount of interest income earned and our Group's operational and funding requirements at the time of utilisation.

3. DETAILS OF THE PROPOSED SIS

The Proposed SIS will involve the granting of SIS Options to the Eligible Persons to subscribe for new OVH Shares at the Exercise Price in accordance with the By-Laws.

The Proposed SIS shall come into force on the Effective Date.

The Proposed SIS shall be in force for a period of 5 years from the Effective Date. The Proposed SIS may be extended or renewed on or before the expiry of the above initial 5 year period, as the case may be, for a further period of up to 5 years at the sole and absolute discretion of our Board upon the recommendation of the SIS Committee, subject always that the initial period and such extension of the Proposed SIS shall not in aggregate exceed a duration of 10 years or such other period as may be prescribed by Bursa Securities or any other relevant authorities from the Effective Date.

For the avoidance of doubt, no further sanction, approval or authorisation of our Company's shareholders in a general meeting is required for any such extension. In the event the Proposed SIS is extended in accordance with the provision of the By-Laws, the SIS Committee shall furnish appropriate notices to the Grantees and our Company shall make the necessary announcements to Bursa Securities prior to such extension.

Subject to compliance with the requirements of Bursa Securities and any other relevant regulatory authorities' requirements, guidelines or directives, the Proposed SIS may be terminated by our Company at any time before its date of expiry without obtaining the approvals or consents from the Grantees or our shareholders, provided that our Company makes an announcement immediately to Bursa Securities.

3.7. Termination of SIS

In the event of termination of the SIS, the following provisions shall apply:

- (i) no further offer shall be made by the SIS Committee from the Termination Date;
- (ii) all offers which have yet to be accepted by the Eligible Persons shall automatically lapse on the Termination Date; and
- (iii) all outstanding SIS Options which have yet to be exercised by the Grantees and/or vested (if applicable) shall be automatically terminated on the Termination Date.

3.8. Rights of Grantee

The SIS Options shall not carry any right to vote at any general meeting of our Company or to participate in any dividends, rights, allotments or any other form of distributions that may be declared, made or paid, or offer of further securities in our Company unless and until the Grantee becomes a shareholder of our Company by exercising the SIS Options.

3.9. Retention period

The SIS Committee shall be entitled to prescribe or impose, in relation to any offer, any condition relating to any retention period or restriction on sale, transfer, assignment or otherwise disposal of the new OVH Shares to be issued pursuant to the exercise of the SIS Options as it deems fit. The Grantees are encouraged to hold the new OVH Shares as investment rather than for any speculative purposes and/or for the realisation of any immediate gain.

3.10. Amendment and/or modification to the Proposed SIS

Subject to the compliance with the By-Laws and the Listing Requirements and any other relevant rules and regulations, the SIS Committee may at any time and from time to time recommend to our Board any additions, modifications or amendments to or deletions of the By-Laws as it shall at its absolute discretion think fit and our Board shall have the power at any time and from time to time by resolution to add to, amend, modify and/or delete all or any of the By-Laws upon such recommendation by the SIS Committee subject to our Company submitting a confirmation letter to Bursa Securities each time an amendment and/or modification is made, stating that the said amendment and/or modification is in compliance with the provisions of the Listing Requirements pertaining to the Proposed SIS and Rules of Bursa Depository.

The approval of shareholders of our Company in a general meeting shall not be required in respect of additions, modifications or amendments to or deletion of the By-Laws provided that no additions, modifications or amendments to or deletions of these By-Laws shall be made which would:

- (i) prejudice any rights which would have accrued to any Grantee without the prior consent or sanction of that Grantee;
- (ii) increase the number of Shares available under the SIS beyond the Maximum Shares;

- (iii) prejudice any rights of the shareholders of our Company; and
- (iv) alter any matter which are required to be contained in the By-Laws by virtue of the Listing Requirements to the advantage of the Eligible Persons and/or Grantee.

3.11. Alteration of share capital and adjustment

In the event of any alteration in share capital structure of our Company during the duration of the Proposed SIS, whether by way of a rights issue, bonus issue or other capitalisation issue, consolidation or subdivision of OVH Shares or reduction of capital or any other variation of capital, our Company shall cause such adjustment to be made to the number of SIS Options granted to each Grantee (excluding the SIS Options already exercised) and/or Exercise Price.

Save as provided for in the By-Laws, the external auditors or the Adviser of our Company (acting as an expert and not as an arbitrator) must confirm in writing that the adjustments are in their opinion fair and reasonable.

3.12. Utilisation of proceeds

The proceeds arising from the exercise of the SIS Options, if any, will be used as general working capital requirements of our Group within 24 months from the date of receipt of such proceeds. The proceeds for general working capital will be utilised to finance our Group's day-to-day operational costs including, amongst others, repayment to trade creditors as well as general expenses such as but not limited to staff costs, office rental costs and utilities. The detailed allocation to each component of working capital cannot be determined at this juncture as these will depend on the timing and the number of SIS Options granted and exercised at the relevant points of time and the Exercise Price.

4. RATIONALE FOR THE PROPOSALS

4.1. Proposed Free Warrants Issue

Our Board is of the view that the Proposed Free Warrants Issue is an appropriate avenue of rewarding existing shareholders of our Company as the Proposed Free Warrants Issue is intended to:

- (i) enable our existing shareholders to participate in convertible securities issued by our Company at no cost to them and tradable on the ACE Market of Bursa Securities;
- (ii) strengthen our Group's capital base and shareholders' funds as well as potentially provide funds for our Group to finance our working capital requirements as and when the Warrants are exercised, without incurring interest cost, as compared to bank borrowing;
- (iii) provide our existing shareholders with an opportunity to increase their equity in our Company at a predetermined price during the tenure of the Warrants; and
- (iv) allow our existing shareholders to participate in and benefit from the future growth of our Group when the Warrants are exercised.

4.2. Proposed SIS

The Proposed SIS is intended to achieve the following objectives:

- (i) to drive and motivate the Eligible Persons to work towards achieving our Group's goals and objectives;
- (ii) to reward the Eligible Persons in recognition of their accumulated contribution to the operations and continued growth of our Group;

- (iii) to retain the Eligible Persons by giving the Eligible Persons a sense of ownership, loyalty and belonging to our Group by enabling them to participate directly in the equity of our Company and thereby provides an incentive for the Eligible Persons to participate in the future growth of our Group and motivate them towards better performance through greater productivity and loyalty;
- (iv) to align the interests of the Eligible Persons, including management personnel of our Group, with the interests of the shareholders via direct participation in the equity of our Company; and
- (v) to attract and retain high-calibre Eligible Persons, hence the chances of loss of key personnel will be reduced.

5. PREVIOUS FUND-RAISING EXERCISE

Our Company had not undertaken any fund-raising exercise in the past 12 months prior to the date of this Circular.

6. INDUSTRY OUTLOOK AND PROSPECTS OF OUR GROUP

6.1. Overview and outlook of the Malaysian economy

The Malaysian economy grew by 5.1% in 2024 (2023: 3.6%), due to continued expansion in domestic demand and a rebound in exports. On the domestic front, growth was mainly driven by stronger household spending reflecting favourable labour market conditions, policy measures to support households and healthy household balance sheets. In addition, strong investment approvals and further progress of multi-year projects by the private and public sectors, which includes catalytic initiatives under national master plans (i.e. New Industrial Master Plan, National Energy Transition Roadmap, and National Semiconductor Strategy) provided further impetus to investment growth. On the external front, exports recovered amid steady global growth, continued tech upcycle as well as higher tourist arrivals and spending. This provided support to the current account, leading to a continued surplus of 1.7% of gross domestic product in 2024 (1.5% in 2023).

(Source: Economic and Financial Developments in Malaysia in the Fourth Quarter of 2024, Bank Negara Malaysia)

The growth in 2025 is projected between 4.5% and 5.5%, supported by a resilient external sector, benefitting from improved global trade and stronger demand for electrical and electronics goods, leveraging the country's strategic position within the semiconductor supply chain. Additionally, robust domestic demand, fuelled by strong private sector expenditure, will support the expansion, through continued implementation of key national master plans and ongoing initiatives. A pertinent initiative which is Government-linked Enterprises Activation and Reform Programme (GEAR-uP), will synergise efforts across government-linked entities to catalyse growth in high growth sectors, encompassing energy transition, advanced manufacturing, food security, healthcare, Islamic finance and biopharmaceuticals. The potential investment from this initiative is expected to amount to RM120 billion over the span of five years. On the production side, most sectors are expected to expand, highlighting the resilience and agility of Malaysia's economy.

(Source: Economic Outlook 2025, Ministry of Finance Malaysia)

The Malaysian economy expanded by 4.4% in the first quarter of 2025 (4Q 2024: 4.9%), driven by the steady expansion in domestic demand. Household spending was sustained amid positive labour market conditions and income-related policy measures, including the upward revision of minimum wage and civil servant salary. The steady expansion in investment activities was supported by realisation of new and existing projects. In the external sector, export growth was slower due mainly to lower mining exports. This was partially offset by stronger electrical and electronics (“E&E”) exports and tourism activity. At the same time, imports growth, although more moderate, continued to be driven by strong demand for capital goods, reflecting continued investment and trade activities.

On the supply side, growth was driven by the services and manufacturing sectors. Services sector was supported by higher Government services while strong E&E production underpinned the performance in the manufacturing sector. However, normalisation in motor vehicle sales and production following strong performances over the last three years affected the growth of services and manufacturing sectors respectively. Overall growth was also weighed down by a contraction in the mining sector amid lower oil and gas production. On a quarter-on-quarter, seasonally-adjusted basis, growth expanded by 0.7% (4Q 2024: -0.2%).

Headline inflation moderated to 1.5% in the first quarter (4Q 2024: 1.8%). The moderation was largely due to lower utilities inflation at 3.0% (4Q 2024: 18.1%). This followed the dissipation of the effects of earlier water tariff adjustments and higher electricity charges for high-usage households in 1Q 2024. Inflation in mobile communication services continued to decline, averaging at -13.5% (4Q 2024: -10%). Core inflation, however, edged higher to 1.9% (4Q 2024: 1.7%). It was driven mainly by rental inflation, which rose to 2.1% (4Q 2024: 1.7%). Inflation pervasiveness, measured by the share of Consumer Price Index items recording monthly price increases, experienced an uptick amid seasonal menu price adjustments. Nonetheless, it remained well below the long-term average for the first quarter (43.3%; 4Q 2024: 39.8%; 1Q 2011-2019: 52.2%).

Credit to the private non-financial sector grew by 5.5% in the first quarter of 2025 (4Q 2024: 5.2%) amid sustained growth in outstanding loans and higher growth in outstanding corporate bonds. Outstanding business loans expanded by 4.8% (4Q 2024: 5.1%), with higher growth in working capital loans. Additionally, demand for financing remained forthcoming, especially among small and medium-sized enterprises, with sustained levels of applications across loan purposes. Household loans grew by 6.0% (4Q 2024: 5.9%) amid broadly steady loan growth across most loan purposes.

The rapidly-evolving developments surrounding trade tariffs are expected to affect the global outlook for the rest of the year. As a small and open economy, Malaysia will inevitably face both direct and indirect impact from these tariffs. Growth of the Malaysian economy is expected to be slightly lower than the earlier forecast of 4.5% - 5.5% in 2025. The high uncertainty surrounding outcomes of trade negotiations and how these will reshape global trade complicates a clear assessment of their impact on growth at this juncture. The new official growth forecast will be released in the near future once there is a greater visibility in these factors.

Notwithstanding the external risks, growth will continue to be anchored primarily by resilient domestic demand. This provides a strong buffer against external headwinds. Household spending is expected to continue expanding, supported by continued wage and employment growth, particularly within domestic-oriented sectors as well as income-related policy measures. Investment activities will be driven by the continued implementation of multi-year projects across private and public sectors, further realisation of approved investments with a larger share by domestic players and the implementation of catalytic initiatives under the national master plans. Additionally, the continued demand for E&E goods, alongside higher tourist receipts will also provide cushion to growth.

6.2. Overview and outlook of the O&G industry

Global oil demand growth for 2025 has been revised down by 300 thousand barrels/day (“**kb/d**”) as escalating trade tensions have negatively impacted the economic outlook. Growth is expected to slow further in 2026, to 690 kb/d, but risks to the forecasts remain rife given the fast-moving macro backdrop. The downgrade comes on the heels of robust oil consumption in 1st quarter of 2025, up by 1.2 million barrels/day (“**mb/d**”) year-on-year (“**y-o-y**”) – its strongest rate since 2023.

World oil supply rose by 590 kb/d to 103.6 mb/d in March, up 910 kb/d y-o-y, with non-Organisation of the Petroleum Exporting Countries Plus (“**OPEC+**”) leading both monthly and annual gains. OPEC+ will lift output targets by 411 kb/d in May, but the increase may be substantially lower given overproduction by some countries. Global supply growth for 2025 has been cut by 260 kb/d to 1.2 mb/d, due to a decrease in the United States and Venezuelan output. Production in 2026 is set to rise by 960 kb/d, with offshore projects taking the lead.

Global crude runs are forecast to average 83.2 mb/d this year, as demand growth expectations cut the projected annual increase by 230 kb/d to 340 kb/d. In 2026, throughputs are set to rise by 360 kb/d to 83.6 mb/d. Refining margins were mixed in March, with declines in the Atlantic Basin but gains for processing sour crude in Singapore. Weaker middle distillate cracks drove much of last month’s decline in profitability.

Global observed oil inventories rose by 21.9 million barrels (“**mb**”) to 7647 mb in February but still hovered near the bottom of the five-year range. Crude, Natural Gas Liquids (“**NGLs**”) and feedstocks surged by 41.2 mb, of which Organization for Economic Co-operation and Development (“**OECD**”) onshore stocks accounted for 14.1 mb. Oil products fell by 19.2 mb as a 34.2 mb reduction in the OECD overwhelmed gains in oil on water. Preliminary data indicate global oil stocks increased further in March, led by crude builds in the non-OECD and oil on water.

Global oil prices tumbled by around \$10 per barrel (“**bbl**”) in March and early April as risk sentiment soured in the wake of proliferating United States tariffs and mounting recession fears. The decision by some OPEC+ members to accelerate the unwinding of extra voluntary production cuts added to the bearish momentum. At the time of writing, Brent futures were trading at around \$65/bbl, after earlier hitting their lowest levels in more than four years to below \$60/bbl.

6.3. Prospects of our Group

As at the LPD, our Group is primarily involved in the provision of EPC and project management, supply of manpower, supply of materials, tools and equipment as well as drilling rig charter.

Our Group remains focused on executing key strategic initiatives to drive long term value creation, by prioritising operational efficiency, leveraging its core competencies and technical expertise as well as exploring untapped regions like South America and the broader Asia Pacific regions in our existing core businesses to expand our market presence and enhance the earnings sustainability of our Group.

Sarawak remains a key development hub with increasing emphasis on carbon capture and storage as part of the energy transition. The Sarawak government, through Petroleum Sarawak Berhad (“**Petros**”), is playing a more prominent role in boosting local participation and economic benefits which include key developments such as greater state involvement, downstream expansion, strategic collaborations and a stronger emphasis on maximising natural gas resources, all of which present significant opportunities for our Group. Our Group’s expansion of downstream activities in Sarawak, particularly the surge in pipeline installation projects, is expected to generate significant EPC opportunities, aligning with our Group’s strategic focus on East Malaysia.

In addition, our Group remains committed to executing its long-term strategies, broadening its revenue streams, and maintaining steady growth amid the ongoing energy transition. Our Group continues to explore opportunities across the energy sector, spanning the entire oil and gas value chain, as well as diversifying into power generation. Additionally, our Group is aggressively pursuing EPC project tenders, particularly in East Malaysia, as part of its efforts to drive revenue growth. With these strategic initiatives in place, our Group anticipates a positive turnaround in the coming financial year, supported by evolving market opportunities and its strengthened positioning within the industry.

7. EFFECTS OF THE PROPOSALS

7.1. Issued share capital

The Proposals will not have an immediate effect on our Company's share capital until such time when the Warrants and SIS Options are exercised. Our Company's share capital will increase progressively as and when new OVH Shares are issued arising from the exercise of Warrants and SIS Options.

For illustration, the pro forma effect of the Proposals on the issued share capital of our Company is as follows:

	No. of Shares	Share capital (RM)
Issued share capital as at the LPD	419,939,564	39,187,557
To be issued assuming full exercise of Warrants	209,969,782	39,894,259 ⁽¹⁾
	629,909,346	79,081,816
To be issued pursuant to the exercise of SIS Options	188,972,800 ⁽²⁾	23,999,546 ⁽³⁾
Enlarged issued share capital	818,882,146	103,081,362

Notes:

- (1) Assuming all 209,969,782 Warrants are exercised at the Assumed Exercise Price of RM0.19 per Warrant.
- (2) Based on 30% of the total number of issued Shares after full exercise of Warrants.
- (3) Based on an illustrative exercise price of RM0.1270 per SIS Option, representing a discount of approximately 9.74% to the 5D-VWAP of OVH Shares up to and including the LPD of RM0.1407 per OVH Share.

7.2. Earnings / Losses and EPS / LPS

7.2.1. Proposed Free Warrants Issue

The Proposed Free Warrants Issue will not have any material effect on the consolidated earnings / losses and EPS / LPS of our Group for the FYE 31 December 2025. However, the EPS / LPS of our Group is expected to be diluted as a result of the increase in the number of Shares arising from the exercise of Warrants.

The effects of the Proposed Free Warrants Issue on the future earnings and EPS of our Company cannot be ascertained at this juncture as it would depend on, amongst others, the actual exercise price of the Warrants, the number of Shares issued pursuant to the exercise of Warrants at any point in time, the potential benefits from the utilisation of proceeds and our Company's future earnings.

7.2.2. Proposed SIS

The Proposed SIS is not expected to have any material effect on the earnings of our Group, save for the possible impact of the Malaysian Financial Reporting Standard 2 – Share-based Payment (“MFRS 2”) upon granting of the SIS Options. However, any potential effect on the EPS of our Group in the future would depend on the impact of MFRS 2, the number and exercise price of the SIS Options exercised as well as the utilisation of the proceeds arising therefrom.

Under the MFRS 2, the potential cost arising from the issuance of the SIS Options, which is measured by the fair value of the SIS Options after taking into account, inter-alia, the number of SIS Options granted and vested and the exercise price, will need to be measured at the grant date and to be recognised as an expense over the vesting period, and therefrom may affect the future earnings of our Group, the quantum of which can only be determined at the grant date. However, the estimated cost does not represent a cash outflow by our Company as it is merely an accounting treatment.

Nonetheless, our Group has taken note of the potential impact of MFRS 2 on our Group’s future earnings and shall take into consideration such impact in the allocation and granting of SIS Options to the Eligible Persons.

Notwithstanding the above, the EPS of our Group will be diluted due to our Company’s enlarged issued share capital arising from the issuance of new OVH Shares if and when the SIS Options are exercised in the future. The effects of any exercise of the SIS Options on the EPS of our Group would depend on the returns to be generated by our Group from the utilisation of proceeds from the exercise of the SIS Options.

7.3. NA per OVH Share and gearing

7.3.1. Proposed Free Warrants Issue

The pro forma effects of the Proposed Free Warrants on the NA and gearing of our Group based on the audited consolidated financial statements as at 31 December 2024 are as follows:

	(Audited) As at 31 December 2024 (RM’000)	After the Proposed Free Warrants Issue (RM’000)⁽¹⁾
Share capital	39,188	79,082
Other reserve	2,336	2,336
Reorganisation deficit	(15,031)	(15,031)
Retained earnings	44,217	43,917 ⁽²⁾
Shareholders’ funds/ NA	70,710	110,304
No. of Shares in issue (‘000)	419,940	629,909
NA per Share (RM)	0.17	0.18
Total borrowings (RM’000)	3,372	3,372
Gearing (times)	0.05	0.03

Notes:

(1) Assuming all 209,969,782 Warrants are exercised at the Assumed Exercise Price of RM0.19 per Warrant.

(2) After deducting the estimated expenses of RM300,000 in relation to the Proposals.

7.3.2. Proposed SIS

The effects of the Proposed SIS on our Group's NA would depend on factors such as the number of SIS Options granted and the fair value of the SIS Options after taking into account, amongst others, the Exercise Price as well as any vesting condition. Whilst the granting of the SIS Options under the Proposed SIS is expected to result in recognition of a charge in the statement of comprehensive income of our Group pursuant to the MFRS 2, as issued by the Malaysian Accounting Standard Board, the recognition of such MFRS 2 charge would not affect the NA of our Group as the corresponding amount will be classified as an equity compensation reserve which forms part of shareholders' equity.

If none of the granted SIS Options are exercised within the duration of the Proposed SIS, the amount outstanding in the said equity reserve would be transferred into our Company's retained earnings. On the other hand, if the granted SIS Options are exercised, the amount outstanding in the said equity reserve would be transferred into the share capital account of our Company.

The Proposed SIS will not have any immediate effect on the consolidated NA per OVH Share until such time when the SIS Options granted under the Proposed SIS are exercised. The consolidated NA per OVH Share following the exercise of the SIS Options will increase if the Exercise Price exceeds the consolidated NA per OVH Share at the point of exercise of the SIS Options and conversely will decrease if the Exercise Price is below the consolidated NA per OVH Share at the point of the exercise of the SIS Options.

The Proposed SIS is not expected to have an immediate effect on our Group's gearing level until such time when the SIS Options granted are exercised. The effect on the gearing will depend on the change in the NA, which in turn will depend on the actual number of new OVH Shares to be issued as well as the Exercise Price payable upon the exercise of the SIS Options.

7.4. Substantial shareholders' shareholdings

7.4.1. Proposed Free Warrants Issue

The Proposed Free Warrants Issue will not have any immediate effect on the substantial shareholders' percentage of shareholding in our Company as the Warrants will be allotted on a pro-rata basis to all Warrants Entitled Shareholders. However, the number of OVH Shares held by each substantial shareholder will increase proportionately assuming full exercise of the Warrants. The effects of the Proposed Free Warrants Issue on the substantial shareholders' shareholdings in our Company as at the LPD (based on Record of Depositors) are as follows:

7.4.2. Proposed SIS

The Proposed SIS is not expected to have any immediate effect on our Company's substantial shareholders' shareholdings until such time when the SIS Options are exercised into new OVH Shares. Any potential effect on our Company's substantial shareholders' shareholdings will depend on the actual number of SIS Options granted and new OVH Shares issued pursuant to the exercise of the SIS Options at the relevant point in time.

7.5. Convertible securities

As at the LPD, our Company does not have any convertible securities.

$$(i) \quad \text{New Exercise Price} = EP \times \frac{FT}{RT}$$

$$(ii) \quad \text{Additional number of Options} = T \times \left(\frac{RT}{FT} \right) - T$$

Where:-

EP = Existing Exercise Price;

FT = The aggregate number of total issued Shares immediately before such consolidation, subdivision or conversion;

RT = The aggregate number of total issued Shares immediately after such consolidation, subdivision or conversion; and

- (b) If and whenever the Company shall make any issue of new Shares to ordinary shareholders, by way of bonus issue or capitalisation of profits or reserves of the Company (whether of a capital or income nature), the Exercise Price shall be adjusted by multiplying it by the following fraction:-

$$\frac{A}{A+B}$$

A = the aggregate number of issued Shares on the Entitlement Date immediately before such bonus issue or capitalisation of profits or reserves of the Company (whether of a capital or income nature);

DRAFT BY-LAWS (CONT'D)

Such adjustment will be effective (if appropriate, retroactively) from the commencement of the next Market Day immediately following the Entitlement Date for such issue.

(c) If and whenever the Company shall make:-

- (i) a Capital Distribution (as defined below) to ordinary shareholders whether on a reduction of capital or otherwise (but excluding any cancellation of capital which is lost or unrepresented by available assets); or
- (ii) any offer or invitation to ordinary shareholders whereunder they may acquire or subscribe new Shares by way of rights; or
- (iii) any offer or invitation to ordinary shareholders by way of rights whereunder they may acquire or subscribe for securities convertible into new Shares or securities with rights to acquire or subscribe for new Shares attached thereto,

then and in respect of each such case, the Exercise Price shall be adjusted by multiplying it by the following fraction:-

$$\frac{C - D}{C}$$

and in respect of the case referred to in By-Law 15.3(c)(ii) hereof, the number of additional Options to be issued shall be calculated as follows:-

$$\text{Additional number of Options} = T \times \left(\frac{C}{C - D^*} \right) - T$$

Where:-

T = T as in By-Law 15.3(a) above;

C = the Current Market Price (as defined in paragraph (g) below) of one (1) Share on the Market Day immediately preceding the date on which the Capital Distribution or, as the case may be, the offer or invitation is publicly announced to Bursa Securities or (failing any such announcement) immediately preceding the date of the Capital Distribution or, as the case may be, of the offer or invitation; and

D = (aa) in the case of an offer or invitation to acquire or subscribe for new Shares under By-Law 15.3(c)(ii) above or for securities convertible into Shares or securities with rights to acquire or subscribe for new Shares under By-Law 15.3(c)(iii) above, the value of rights attributable to one (1) existing Share (as defined below); or

$$\frac{C - E}{F + 1}$$

Where:-

- E = the subscription price for one (1) additional Share under the terms of such offer or invitation or one (1) additional security convertible into Shares or one (1) additional security with rights to acquire or subscribe for Shares; and
- F = the number of existing Shares which is necessary to hold in order to be offered or invited to acquire or subscribe for one (1) additional Share or security convertible into Shares or one (1) additional security with rights to acquire or subscribe for Shares.

Any dividend charged or provided for in the audited accounts of the Company for any period shall (whenever paid and howsoever described) be deemed to be a Capital Distribution unless it is paid out of the aggregate of the net profits attributable to the ordinary shareholders as shown in the audited statement of comprehensive income of the Company for any period as shown in the audited statement of comprehensive income of the Company.

Each such adjustment will be effective (if appropriate, retroactively) from the commencement of the next Market Day immediately following the Entitlement Date for such issue.

Save as disclosed below, as at the LPD, our Group is not engaged in any other material litigation, claims, or arbitration, either as plaintiff or defendant and our Board confirmed that there are no proceeding pending or threatened against our Group or of any fact likely to give rise to any proceeding which may materially affect the financial position or business of our Group:

(i) **OVE v. Andeli Solar Sdn Bhd (“ASSB”) and Kong Yeng Kin (“KYK”)**
(Shah Alam High Court Suit No.: BA-22C-30-06/2023)

OVE initiated a legal action against ASSB and KYK for an outstanding sum of RM11,000,000.00. OVE’s claim is for the work performed by OVE in its capacity as a sub-contractor to ASSB for a solar farm project (“**Project**”) pursuant to a letter of award dated 4 November 2020 issued by ASSB to OVE (“**LOA**”). The legal action is also made against KYK as KYK has provided a guarantee and indemnity in favour of OVE for the Project sum. Subsequently, judgments in default have been entered against ASSB on 5 July 2023 and KYK on 25 September 2023 respectively, which includes interest at 5% per annum from 19 November 2021 onwards together with costs (“**Judgment**”).

To enforce the Judgment, OVE filed a garnishee application against ASSB and a writ of seizure and sale against KYK. However, the garnishee application was later withdrawn due to insufficient funds in ASSB’s bank accounts. The execution attempt for the writ of seizure and sale on 9 January 2024 was also unsuccessful as the occupant refused entry. The Judgment sum remains unsettled.

On 23 July 2024, OVE commenced a winding-up petition against ASSB bearing petition no. BA-28NCC-434-07/2024 at the Shah Alam High Court. However, the matter was deferred to 23 April 2025 to facilitate a settlement negotiation between ASSB and a third party. A subsequent winding up search conducted on ASSB revealed that ASSB has already been wound up by AimFlex Solutions Sdn Bhd since 10 September 2024. As a result, OVE withdrew its winding-up petition against ASSB on 23 April 2025. OVE had on 14 May 2025 lodged its proof of debt with the Malaysia Department of Insolvency. The solicitors of OVE are of the view that OVE is unlikely to recover the Judgment sum from ASSB and the extent of ASSB’s assets available for distribution will only be determined at the creditor’s meeting of ASSB.

FURTHER INFORMATION (CONT'D)

Separately, OVE had on 30 April 2025 filed a bankruptcy notice against KYK. The case management in respect of the said bankruptcy notice has been fixed for 30 July 2025. In view of the fact that KYK is a guarantor, a leave application to commence bankruptcy proceedings against KYK was filed on 26 May 2025. The hearing date for the said leave application has been fixed for 25 June 2025.

(ii) **OVE v. Petrofac Engineering Services (Malaysia) Sdn Bhd (“Petrofac”)**

OVE as the unpaid party, has vide a payment claim dated 5 June 2025 initiated adjudication proceedings against Petrofac under the Construction Industry Payment and Adjudication Act 2012 (“CIPAA”) to recover payment for construction works carried out by OVE which remain unpaid as at 11 June 2025 (“**Payment Claim**”).

In this regard, OVE is seeking, among others, payment of the outstanding sum of RM5,374,247.68 in respect of construction works that were duly performed and completed under the subcontract agreement dated 1 April 2022 between OVE and Petrofac (“**Subcontract Agreement**”). The Payment Claim was duly served on Petrofac on 10 June 2025. Pursuant to Section 6 of CIPAA, Petrofac is required to respond to the Payment Claim by 24 June 2025, either by admitting or disputing (in whole or in part) the claim, or by failing to respond, in which case Petrofac will be deemed to have disputed the entire claim. As at 11 June 2025, Petrofac has yet to respond to OVE’s Payment Claim.

It is noted that a substantial portion of the claimed amount pertains to construction works that were completed and were duly certified as work completed by Petrofac between 2024 and 2025. Accordingly, our Board is of the view that OVE has a reasonable chance of success in its claim under CIPAA, subject always to the rights and defences available to Petrofac under the terms of the Subcontract Agreement.
