14 Detailed Analysis of Performance

The Group recorded a lower revenue of RM58.4 million in the current quarter ended 31 December 2016 as compared to the RM76.2 million posted in last quarter, a reduction of 23%. Year-on-year, revenue was down by RM115.2 million (or 66%) from RM173.6 million.

Shipbuilding and Shiprepair Division

In the current quarter under review, the division's revenue has drop 51% to RM19.3 million from previous quarter's RM39.1 million. Against last year's corresponding quarter, revenue has fallen 89% from RM168.1 million. Only 1 unit of vessel was delivered in the current quarter (3Q2016: 1 units; 4Q2015: 2 units).

The division incurred a greater loss margin before tax of 44% (RM8.5 million in loss) in the current quarter, as compared to the 29% (RM11.2 million in loss) recorded in last quarter, mainly owing to contribution from vessel sales is not sufficient to cover the fixed overhead. For last year corresponding quarter, the division registered a profit margin before tax of 8% (RM13.9 million). The better profit performance achieved in last year as compared to current quarter was mainly attributed to the greater margins derived from the sale of vessels.

Vessel Chartering Division

The division recorded a slight 5% increase in revenue to RM39.1 million from RM37.1 million reported in last quarter. Compared to corresponding quarter a year ago, revenue has jumped almost 7 times from RM5.6 million. The better showing was owing to the bareboat charter income derived from the charter of Jack-Up Gas Compression Service Unit ("JUGCSU").

The division registered a lower profit margin before tax of 45% (RM17.6 million) in the current quarter, as compared to the 53% (RM19.8 million) achieved in the preceding quarter. For the corresponding period a year ago, the division incurred a loss margin before tax of 21% (RM1.2 million in loss). The improved performance this quarter was mainly attributed to higher income generation in relation to the charter of JUGCSU.

- (a) Currency translation differences arising from consolidation were a result of exchange differences arising on the translation of the financial statements of foreign operations.
- (b) Included in inventories of the Group were finished goods of RM307.9 million (30 June 2016: RM294.7 million) and vessels work-in-progress of RM741.7 million (30 June 2016: RM677.3 million). For the current quarter under review and financial year-to-date, there were no provisions made for obsolete or slow-moving inventories or work-in-progress write-off.
- (c) Out of the RM136.7 million of short term trade receivables as at 31 December 2016, RM15.8 million was subsequently received by the Group.

- (d) Included in other receivables of the Group were payments made to suppliers and contractors totalling RM238.7 million (30 June 2016: RM205.4 million) to secure the supply of input materials, equipment and services intended for the Group's rolling vessel building programme.
- (e) Included in other payables were advance payments received from vessel buyers totalling RM214.1 million (30 June 2016: RM197.0 million).

15 Material Change in Profit Before Tax

The Group reported a profit before tax of RM9.1 million in the current quarter, a 6% increase quarter-on-quarter from RM8.6 million owing to higher operating margin earned. Year-on-year, profit before tax was down by 28% from RM12.7 million as a result of the lower revenue contribution from Shipbuilding Division.

16 Prospects

Roiled by global economic turmoil, rampant oil supply and weak global oil demand have translated into the sensational drop in oil prices and increased flow of Iranian oil has further worsened the glut. However, the Management believes that low oil prices environment is not sustainable and key industry players foresee a more positive outlook in the longer term where oil prices are expected to pick up from 2018 to 2020, making it essential for the OSV market to gear up for this recovery and hence, the OSV market is expected to stay firm in the long term.

Additionally, given the scarcely substitutable nature of oil and natural gas, Coastal Group envisages the medium to long term fundamentals of Oil and Gas industry to remain positive. In accommodating sustaining demand for fossil fuels in the medium to long term, Enhanced Oil Recovery (EOR) technology has been practised immensely since the past few years to ensure optimum exploitation of oil resources. With the Jack-up Gas Compression Service Unit charter contract secured by the Group, which is currently in operation, the Group is able to effectively leverage its competitive advantage and strong foothold in this sector with promising prospects. Coastal Group is determined to build up its expertise and global network in this market to procure opportunities ahead.

Coastal Group remains optimistic toward surviving the transition by venturing into the Oil and Gas downstream sector and moving further up the value chain in terms of technology, technical knowledge and expertise in the downstream sector. Moving forward, the Group will maintain its diversified portfolio and sharpen its focus on the Oil and Gas downstream sector in pursuit of growth while enhancing its long term sustainability.

23 Material Litigation

(a) On 9 October 2015, the Company's wholly-owned subsidiary, Thaumas Marine Ltd ("TM"), a party to a shipbuilding contract ("SBC") with Yantai CIMC Raffles Offshore Limited ("Builder") and Dynamic Driller Limited ("Co-Builder"), has filed a Notice of Arbitration with the Singapore International Arbitration Centre against the Builder and Co-Builder to refer certain disputes to arbitration, thereby commencing arbitration proceedings against the same. The arbitration proceedings were commenced following disputes resulting from 1) the late delivery of 1 unit brand new JU 2000E F&G Design Jack-Up Drilling Rig ("Vessel") by the Builder and Co-Builder to TM, and 2) the non-conformities of the Vessel's parts and equipment against the Technical Specifications as agreed between the Parties. TM claims from the Builder and Co-Builder the liquidated damages of USD3,650,000 for the 73-days delay after the Cancellation Date in accordance to the terms and conditions of the SBC and USD2,000,000 being the damages incurred by TM as a result of the non-conformities of the Vessel's parts and equipment, specifically with regard to the Vessel's generators and cranes. TM is, as a result, claiming for the sum USD5,650,000 and applicable interest, any other damages as the arbitration tribunal deems fit and the costs of the arbitration. TM has on 4 March 2016 filed its Statement of Claim.

Subsequently on 11 April 2016, TM received the Statement of Defence and Counterclaim from the Builder and Co-Builder (collectively referred to as "the Respondents"). The Respondents are counter-claiming from TM 1) the sum of approximately USD2,516,843.43 arising from alleged Change Proposals and/or additional work carried out by the Respondents; 2) a declaration that TM is in breach of its obligation and/or duty of confidentiality arising from disclosures made to its parent company relating to the arbitration proceedings, and for damages payable to the Respondents for such alleged breach; 3) a declaration that TM has improperly, illegally and/or bad faith procured, induced, encouraged, abetted and/or conspired with one of the Respondents' former employees to leave the Respondents' employ and enter into a subsequent contract of employment with TM, and damages to be assessed for such alleged improper, illegal and/or bad faith conduct; 4) interest as applicable; and 5) such further and/or other relief or remedies as the Tribunal may deem fit and proper. TM has then on 25 April 2016 filed its Statement of Reply and Defence to Counterclaim to the Statement of Defence and Counterclaim from the Respondents.

In July 2016, the Subsidiary terminated the shipbuilding contract with its suppliers for the failure to deliver the Vessel on time and in accordance with the terms and conditions of the shipbuilding contract.

Further to the Subsidiary's termination of the shipbuilding contract, the Subsidiary has also written to its suppliers for:

- (i) The refund of all sums paid to the suppliers under the shipbuilding contract; and
- (ii) The payment of liquidated damages in accordance with the terms and conditions of the shipbuilding contract.

The suppliers have not quantified their claim under Notice of Arbitration until after the Subsidiary has filed its Response to the Notice of Arbitration (and Counter-claim). The suppliers' current and provisional quantification of their claim is at USD37,400,000. This value directly reflects the Subsidiary's Counter-claim against the suppliers in its Response to the Notice of Arbitration.

As far as the Group is aware, there is no further update on the arbitration proceedings.
