**NOTES TO THE UNAUDITED INTERIM REPORT FOR THE FINANCIAL PERIOD ENDED**  
**31 OCTOBER 2018**

**A. EXPLANATORY NOTES**

**A1. Accounting Policies and Methods of Computation**

The unaudited interim financial report has been prepared in accordance with *MFRS 134 "Interim Financial Reporting"* and *Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad*.

The unaudited interim financial report should be read in conjunction with the Group's audited financial statements for the year ended 30 April 2018.

The explanatory notes attached to the unaudited interim financial report provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 30 April 2018.

For the periods up to and including the year ended 30 April 2018, the Group prepared its financial statements in accordance with the Financial Reporting Standards ("FRS"). The accounting policies and methods of computation adopted for the interim financial report are consistent with those adopted in the financial statements for the financial year ended 30 April 2018, except for the effects arising from the transition from FRSs to MFRSs, which are disclosed below.

The interim financial report of the Group for the current quarter ended 31 July 2018 is the first interim financial report prepared in accordance with MFRS Framework, including MFRS 1 *First-time Adoption of Malaysian Financial Reporting Standards*. The Group adopts this standard using the full retrospective method.

The Group has consistently applied the same accounting policies in its opening MFRS statement of financial position as at 1 May 2017, being the transition date, and throughout all comparable interim periods presented, as if these policies had always been in effect. Comparative information in these interim financial statements have been restated as a result of transition to MFRS Framework.

**Transition from FRSs to MFRSs**

The Group, in its consolidated financial statements, measured the assets and liabilities of subsidiaries and associates at the same carrying amounts as in the financial statements of these subsidiaries and associates that have adopted the MFRS framework or International Financial Reporting Standards (IFRS) earlier than the Group, after adjusting for consolidated adjustments.

The effects of first-time adoption of MFRS are primarily from the following:

(i) MFRS 9 *Financial Instruments*

MFRS 9 introduces the expected credit losses (“ECL”) model on impairment that replaces the incurred loss impairment model used in the MFRS 139. The ECL model requires impairment to be recognised on initial recognition including expected future credit losses whilst the incurred loss impairment model only requires recognition of credit losses incurred as at reporting date.

The assessment of credit risk, as well as the estimation of ECL, are required to be unbiased, probability-weighted and should incorporate all available information which is relevant to the assessment, including information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL should also take into account the time value of money.

The Group has assessed the impact of the adoption of MFRS 9 and concluded that the adoption does not have any significant impact to the financial performance or position of the Group.

(ii) MFRS 15 *Revenue from Contracts with Customers*

MFRS 15 replaces MFRS 118 *Revenue*, MFRS 111 *Construction Contracts* and related interpretations.

With the adoption of MFRS 15, revenue is recognised by reference to each distinct performance obligation in the contracts with customers. Transaction price is allocated to each performance obligation on the basis of the relative standalone selling prices of each distinct good or service promised in the contract. Depending on the substance of the contract, revenue is recognised when the performance obligation is satisfied, which may be at a point in time or over time.

As a result of adoption of MFRS Framework, the following comparatives in the interim financial report have been restated.

The effects of the transition from FRSs to MFRSs are as follows:
