CHAIRMAN'S STATEMENT

DEAR SHAREHOLDERS

On behalf of the Board of Directors, it is my pleasure to present the Annual Report and Audited Financial Statements of Dagang NeXchange Berhad (formerly known as TIME Engineering Berhad) and its Group of Companies for the financial year ended 31 December 2014.

**TAN SRI ABD
RAHMAN MAMAT**
*Chairman/Independent
Non-Executive Director*

2014 IN REVIEW

For the year under review, Dagang NeXchange Berhad ("DNeX") reported a turnaround in financial performance from its loss-making position to profitability for the financial year ended 31 December 2014 ("FY2014").

The Group posted profit after tax of RM17.77 million as compared to a net loss of RM21,000 in the financial year ended 31 December 2013 ("FY2013"). The 2013 results were affected by one off asset impairment at its Integrated Enterprise Centre, and settlement resulting from a legal claim made against a subsidiary company totalling RM12.8 million.

At the operational level, the Group also remains profitable, with earnings before interests, taxes, depreciation and amortisation ("EBITDA") and legal provisions improving by 18.7 per cent from RM33.0 million in FY2013 to RM39.2 million in FY2014.

Despite marginal revenue growth, the Group's focused efforts in improving operational efficiencies in all areas of business has resulted in lower costs of operations specifically in its trade facilitation business.

Notwithstanding 2014's improvements, the Company's reserves remains at a net loss position and considering the need for reinvestment towards business growth bearing in mind the expiry of the exclusive agreement to operate the National Single Window ("NSW"), the Board does not recommend the payment of any dividend for the financial year ended 31 December 2014.

CHAIRMAN'S STATEMENT

(continued)

CORPORATE DEVELOPMENTS

The Group needs to ensure sustainable revenue stream through undertaking measures in preparing itself for the expiry of the exclusive agreement, which will end 24 September 2016, as the service provider of the NSW for Trade Facilitation, currently the Group's main generator of revenue. Moreover, the Group will need to ascertain opportunities within the uCustoms system, to be implemented by the Royal Malaysian Customs.

Hence, with this on sight the Group made a decision to diversify its business into oil, gas and energy. The Group, on 18 June 2014, announced its proposed acquisition of the entire equity interest of OGPC Sdn Bhd and OGPC O&G Sdn Bhd (collectively known as OGPC Group), a leading provider of equipment and services for oil and gas, petrochemical and power industries, thus marking a move by the Group to diversify into the oil, gas and energy industry.

The Group proposed to acquire OGPC Group at RM203,000,000, to be satisfied via RM100,000,000 in cash payment deriving from a proposed rights issue, proposed share issue and/or internal funds, and the remaining RM103,000,000 to be satisfied via issuance of 396,153,846 DNeX shares at RM0.26 per share together with 198,076,923 free Warrants.

The Group had later, on 5 March 2015, announced a revised purchase price of RM170,000,000 to be satisfied partially via cash consideration of RM83,000,000 and the remaining RM87,000,000 via issuance of 362,500,000 new DNeX shares with 181,250,000 Warrants at a revised issue price of RM0.24 per share.

The revised purchase price of DNeX's proposed acquisition of OGPC Group is reflective of current market conditions as the result of recent downturn in crude oil prices since we first announced our plan on 18 June 2014.

The Group's decision to acquire OGPC Group is based on its intrinsic value and potential to the Group's long-term investment in the oil, gas and energy sector. The upstream oil and gas is a cyclical business and the Group is taking a long-term view of the strategic merit for its diversification into this sector.

To further strengthen the foundation of its oil, gas and energy diversification, the Group also undertook acquisition of 51 per cent of the issued and paid up capital of Forward Energy Sdn Bhd ("FESB") for a total cash consideration of RM1,530,000. FESB is involved in power plant, energy, energy-related business specifically in the area of Independent Power Producer.

BUSINESS OUTLOOK

Moving forward in 2015, the Group strives to continue providing end-to-end, comprehensive e-commerce services for Trade Facilitation particularly expanding on Business-to-Business ("B2B") services and into regional markets via its involvement in the Pan Asia e-commerce Alliance ("PAA"), an alliance formed by 11 service providers that are authorised by Customs and other trade regulatory agencies in their respective economies. Also in progress is the company's diversification into oil, gas and energy through its proposed acquisition of OGPC Group as well as acquisition of FESB.

We are committed to deliver customer satisfaction as it assures not only higher volume of business but also brand loyalty for our existing as well as future services thus positioning ourselves as the leading player in e-commerce services in the whole Trade Facilitation sector.

In addition, we will continue measures to effectively manage our resources by prudent spending and being cost-efficient to improve operating income and profitability, measures which we successfully implemented in the year under review in bringing about significant savings. Ultimately our aim is to create value for shareholders who are really our key stakeholders through developing a sustainable and compelling business for years to come.

ACKNOWLEDGEMENTS

On behalf of the Group, I would like to thank our shareholders, customers, business associates, financiers, the Government and in particular Ministry of Finance, Ministry of International Trade & Industry, Royal Malaysian Customs Department and other regulatory bodies and agencies for their continued support.

I would like to record my appreciation to my fellow Board members who have given their support and hard work over the past year.

My appreciation also goes to the management and employees for their commitment and selfless dedication to the Group.

Thank you.

TAN SRI ABD RAHMAN MAMAT

Chairman

REVIEW OF OPERATIONS 2014

In the year under review, the Group undertook to strengthen its position in e-commerce while at the same time continued measures to effectively manage its resources.

ZAINAL 'ABIDIN ABD JALIL
Group Managing Director

In the year under review, the Group undertook to strengthen its position in e-commerce while at the same time continued measures to effectively manage its resources. Through this two-pronged strategy, the Group has managed to improve on growth and profitability as reflected in its financial results achieved during the year.

The Group took to maintain its leadership in the Business-to-Government (“B2G”) segment and at the same time pursued the Business-to-Business (“B2B”) segment by offering new services to help companies and organisations improve their productivity and operational efficiencies. All these measures were undertaken by the Group driven by its ultimate aim to create value for shareholders through developing a sustainable and compelling business for years to come.

In line with our stated objective to reposition the Group strategically to create long-term sustainable growth, we have made a decision to diversify into oil, gas and energy. Several early moves made during the year are critical building blocks to develop a business of scale that will propel profitable growth for the Group and improve earning resiliency.

The year under review has also been a memorable one as the strong performance by DNeX came about a year after Censof Holdings Berhad (“Censof”) emerged as the new controlling shareholder of DNeX (then known as TIME Engineering Berhad or TEB) when it completed sale and purchase transaction of 45.03 per cent of TEB’s shares from Khazanah Nasional Berhad on 27 November 2013.

E-COMMERCE SERVICES

The Group, through subsidiary Dagang Net Technologies Sdn Bhd, currently operates e-commerce services that facilitate Customs-related electronic transactions and duty payments, and electronic document transfer between members of the trading community through a single window or commonly known as the National Single Window for Trade Facilitation.

With services namely eDeclare, ePCO, ePermit, ePermit STA, eManifest, ePayment and eSijil3P, the Group provides the trading community with connectivity to Customs and 28 agencies for import and export document processing.

In the year under review, all 15 schemes of the ePCO have been migrated to the new version of the service, enhanced with innovative features and improved performance including high availability, high data reusability, multiple modes of access and high security.

Moreover, through the ePermit service, the Group assisted a Business Process Reengineering of the electronic Approved Permit (“AP”) thus transforming the AP process into a paperless environment. Last year, the AP for Export was completed and in 2015, the Group is embarking on AP for Import where the AP Import for Iron and Steel has gone live earlier in the year.

REVIEW OF OPERATIONS 2014

(continued)

As part of efforts to improve operational efficiency and organisational effectiveness in servicing target market in the Trade Facilitation sector, the Group undertook to realign operations of its regional offices namely Kedai EDI. The Group ceased aspects of its Kedai EDI operations in Port Klang, Johor Bahru, Penang, Kuching, Kota Kinabalu, Kuantan, and Kuala Lumpur International Airport yet ensure support through regional representatives. The move can also be viewed as a means to empower customers be more hands on in using electronic documentation for their operations, and thus be more competitive.

In the ePayment service, customers of the Electronic Fund Transfer (“EFT”) were switched to Dagang Net’s Financial Services Payment Gateway (“FSPG”), which offers more benefits and cost effective solution to customers. Customers can make payment anytime, anywhere whereby the payment transactions are processed online and real time. With FSPG, customers can perform various types of payment including Customs duty payment, permit processing fee to Permit Issuing Agencies, eSijil3P application and inspection fee as well as Dagang Net bills.

In the year under review, the Group’s Primary Data Centre located in Integrated Enterprise Center (“IEC”) was relocated to a Data Centre facility in Petaling Jaya. The move was necessary with the cessation of business of IEC as part of efforts to improve cost efficiency of the Group. Together with the relocation exercise, the infrastructure was also upgraded to facilitate faster deployment, and higher capacity to cater for higher volume of trading transaction not only for existing services but also in anticipation of exciting new services to be introduced. We are pleased to report that the mission critical relocation exercise was successfully completed well within stipulated time.

Throughout the year, the Group was working closely with the Royal Malaysian Customs Department in its change management initiative to educate and get exporters and importers in the Trade Facilitation sector ready for the Goods and Services Tax (“GST”). The Group was involved in the department’s nationwide series of Customs GST Handholding Workshop, which covered education and training on getting relevant systems and processes ready for GST.

The Group’s focus is to strengthen its position in e-commerce services for Trade Facilitation, and towards this end, pursues to offer a comprehensive suite of end-to-end e-commerce services beyond the B2G segment where the Group currently holds a leadership. The Group is moving into the B2B segment by offering e-commerce services that can help companies and organisations leverage on e-commerce for improved processes and operational efficiencies.

Under the B2B segment, the Group has introduced new services starting with myTrade2Cash, which is a centralised online trade financing service aimed at providing timely and efficient electronic trade finance service for exporters, particularly those in the small and medium enterprise (“SME”) category.

Launched on 31 October 2014, myTrade2Cash is the first of its kind in ASEAN, and is a comprehensive trade financing, which enables SMEs to conveniently apply for trade finance facilities from a partnering local bank. myTrade2Cash can help streamline, simplify and improve access to trade finance for exporter SMEs, and deliver faster and more efficient process for application and submission of supporting documents thus helping exporter SMEs address challenges they face in getting access to trade finance.

The Group also on 22 January 2015 introduced another service - myCargo2U - Malaysia's first all-in-one solution for cargo and trade management. Targeted at forwarding agents, freight forwarders, exporters and importers, myCargo2U offers end-to-end services for cargo and trade management from the point of data entry to Pre-Declaration, Declaration and Post-Declaration services.

myCargo2U enables real time visibility, analytics and management of cargo, its data and related cross-border B2G documentation within the supply and fulfillment chain. With myCargo2U, users will have the ease of an all-in-one solution for cargo and trade management, and data reusability across applications thus eliminating multiple data entry of trade information, allowing users to save time and reduce error associated with multiple data entry.

IT CONSULTANCY SERVICES

The Group's IT Consultancy Services provide expertise in the management of large IT projects, specifically to advise clients on computing and networking solutions, developing maintenance and application services for the public sector.

In the year under review, the business division initiated efforts to expand on its offerings of providing IT consultancy and comprehensive solutioning for enterprises and organisations to include Big Data solutions.

Big Data can be described as huge amount of information in various states (structured, semi-structured and unstructured) which has the potential to be mined or analysed for information that are otherwise meaningless on its own. By having the ability to harness these mountains of data, enterprises and organisations can derive value, understand and identify new mix of opportunities.

This can be applied across multiple industries and across various horizontals such as banking and financial services, healthcare and insurance as well as retail and consumer. Such analysis can provide knowledge for enterprises and organisations that serve as invaluable input in business decisions to improve efficiency, reduce cost as well as increase revenue.

CYBERSECURITY SERVICES

The Group introduced two new products thus expanding on its offerings in cybersecurity services. The first product is X-Garda, a locally developed and all-in-one network security solution that integrates features of network security products into one box.

Targeted at small and medium-sized companies, organisations and Government agencies, X-Garda includes such features as Firewall, which provides authorised access to authorised users; IDS / IPS intrusion detection and prevention system, which is able to detect and prevent from malicious activities coming from internal or external sources; Content Filtering, which allows only permissible content to be accessed by users; and Web Accelerator, which can speed up online activities.

The second product introduced is Gasing, a locally developed social media monitoring solution covering such media as Facebook, Twitter, and YouTube. What's unique about Gasing is its ability to not only monitor social media postings but also directly engage with social media users. The product is targeted at companies, organisations, and agencies that deal and engage with users or stakeholders that rely on social media or the general public.

In the year under review, the Group also secured a renewal to its ISO / IEC 27001 : 2005 information security management system certification for its cybersecurity services.

BUSINESS DIVERSIFICATION

The Group, on 18 June 2014, announced its proposed acquisition of the entire equity interest of OGPC Sdn Bhd and OGPC O&G Sdn Bhd (collectively known as OGPC Group), a leading provider of equipment and services for oil and gas, petrochemical and power industries.

Its strategic diversification into oil, gas and energy is in line with the Group's continued commitment to achieve sustainable growth and at the same time enhance its earning resiliency. There are significant opportunities in the oil, gas and energy sector, which is a global sector that plays a prominent role in the country's economy and has been contributing some one fifth of the national gross domestic product over the past decade. The long-term potential of the regional energy sector is expected to remain robust as it is a key enabler to economic growth of the region.

By acquiring OGPC Group, DNeX's move into the sector can also be viewed as beyond an entry level because OGPC Group will serve as a platform for DNeX to jumpstart its venture in the sector especially with OGPC Group's positive performance in recent years. From here, the Group will then build up a balanced and sustainable portfolio of oil and gas assets to deepen and broaden our presence in the energy sector where acquisition of OGPC Group will serve as the launching pad.

As an additional strategic diversification into the energy sector, the Group also undertook acquisition of 51 per cent of the issued and paid up capital of Forward Energy Sdn Bhd ("FESB") a total cash consideration of RM1,530,000. FESB is involved in power plant, energy, energy-related business specifically as an Independent Power Producer. The primary focus will be in the development of small-scale power generation plants in Malaysia and the ASEAN region.

NAME CHANGE

The Group announced Dagang NeXchange Berhad as the new company name and brand identity in replacing TIME Engineering Berhad ("TEB") with effect from 19 May 2014. The new name and brand encapsulates the Group's renewed business focus of providing end-to-end, comprehensive e-commerce services for Trade Facilitation, as well as leveraging on technology leadership, strong business platforms and business efficiency in its commitment to increase shareholders' value. The Group had earlier received approval from its shareholders for a change in its name at its 44th Annual General Meeting held on 12 May 2014.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of the Company (“the Board”) is pleased to report on the manner the Group has applied the principles of corporate governance and the extent of compliance with the relevant Principles and Recommendations by the Malaysian Code on Corporate Governance 2012 (“MCCG 2012”) and the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”) during the financial year ended 31 December 2014 and up to the date of this Statement:-

1. ESTABLISH CLEAR ROLES AND RESPONSIBILITIES

Clear Functions of the Board and Management

The Board is responsible for oversight and overall management of the Group. To ensure the effective discharge of its functions and responsibilities, the Board has established a Discretionary Authority Limits (“DAL”) Model for the Group where specific functions are delegated to the relevant Board Committees and the Management. In this regard, the Management is guided by the approved limits of authority as set out in the DAL in carrying out its duties.

Clear Roles and Responsibilities

The Board reserves a formal schedule of matters for its decision which are set out in the Board Charter to ensure that the direction and control of the Group is firmly adhered to. The principal responsibilities of the Board include amongst others, strategic and oversight responsibilities, identification of risks, implementation of appropriate internal control systems, succession planning and effective communication with stakeholders.

The Board practices a clear division of responsibilities between the Chairman, Executive Deputy Chairman, Group Managing Director, Executive Director and Non-Executive Directors. The Chairman is responsible for ensuring the effectiveness and conduct of the Board as well as assuming the formal role as the leader in chairing all Board meetings and shareholders’ meetings. The Executive Deputy Chairman’s role is to assist the Chairman in carrying out his responsibilities whilst the Group Managing Director has overall responsibility over the business units and day-to-day management of the Group, Company, organisational effectiveness and implementation of Board policies, strategies and decisions.

Non-Executive Directors play a key supporting role, contributing their skills, expertise and knowledge towards the formulation of the Group’s strategic and corporate objectives, policies and decisions.

Strategies Promoting Sustainability

Sustainability has long been a key driving force in the Group’s corporate agenda, ever since the emergence of corporate responsibility in the early 2000s. It is the foundation of the Group’s commitment as a responsible corporate citizen in ensuring the sustainable growth of its profits (a commitment to its shareholders), the sustenance of the planet (a commitment to the environment and community), and the sustainable development of its people (a commitment to nurture DNeX’s talented employees and those within the community it operates).

Through its subsidiary, Dagang Net Technologies Sdn Bhd, DNeX is a corporate contributor to the Lembaga Zakat Wilayah Persekutuan. The alms-giving Zakat is intended to assist eligible recipients with financial assistance to help cope with unfortunate situations such as natural disasters; and poverty, especially one that hinders access to formal education and health service. When donating money is not an option, the Management encourages employees to donate their time, which in turn entrenches the spirit of volunteerism within the organisation culture.

Access to Information and Advice

The Directors are familiar and aware of their duties and responsibilities as well as the implementation of good corporate governance and compliance practices in the Group.

The Board Members are supplied with the relevant information on a timely basis to enable them to effectively discharge their duties and responsibilities. Board papers were circulated to the Board Members at least three (3) working days prior to the date of the meeting to facilitate the Directors to peruse the board papers and to review the issues to be deliberated at the Board Meeting. Where necessary, relevant senior management and personnel are invited to attend Board meetings to furnish details or clarifications on matters tabled for the Board's consideration.

All Directors have unrestricted access to the Group and Company's senior management and the services of a qualified company secretary to enable them to discharge their duties effectively. The Directors were kept informed on a quarterly basis on the restriction in dealing with the securities of the Company during the closed period and the internal process for compliance when dealing in securities within and outside the closed period as set out in Chapter 14 of the Main Market Listing Requirements. In addition, the Directors were given the updates issued by the various regulatory bodies and authorities which may affect the Group and the Company.

In furtherance of their duties, the Directors may, whether collectively as a Board or in their individual capacities, seek independent professional advice on specific matters, at the Company's expense.

Board Charter

A revised Board Charter was formalized on 25 March 2014. The Board Charter sets out amongst others, the roles and responsibilities of the Board. The Board Charter shall be periodically reviewed and published on the Company's corporate website www.dnex.com.my.

2. STRENGTHEN COMPOSITION

Encik Zainal 'Abidin Abd Jalil has been appointed the Group Managing Director of DNeX with effect from 19 June 2014. With his wealth of knowledge and experience in managing businesses and operations in high-technology and capital-intensive upstream oil and gas industry, and power generation utilities, Encik Zainal drives and lead DNeX in its venture in the oil and gas sector while at the same time maintain its position as a leading e-commerce player in trade facilitation.

Following Encik Zainal's appointment as Group Managing Director, the Board currently has nine (9) members comprising five (5) Independent Non-Executive Directors including the Chairman, one (1) Non-Independent Non-Executive Director, one (1) Executive Deputy Chairman, one (1) Group Managing Director and one (1) Executive Director. The Company has complied with Paragraph 15.02(1) of the Main Market Listing Requirements of Bursa Securities whereby at least two (2) directors or one-third (1/3) of the Board, whichever is higher, are Independent Directors. The profile of each Director is set out on pages 12 to 20 of this Annual Report.

The Board has delegated specific responsibilities to the Board Committees namely the Nomination and Remuneration Committee, the Audit Committee and the Board Procurement and Tender Committee. Each committee operates under their respective approved terms of reference. The Board Committees will observe the same rules of conduct and procedures as the Board, unless otherwise determined by the Board.

CORPORATE GOVERNANCE STATEMENT

(continued)

Nomination and Remuneration Committee (“NRC”)

All Board appointments were approved by the Board upon recommendation by the NRC. The Board, through the NRC, has established a formal and transparent procedure in relation to the assessment of candidates for Board appointments as well as assessing the effectiveness of the Board as a whole, the Committees of the Board and the contributions of each individual Director.

The NRC's responsibilities include, amongst others, reviewing the Board composition and making recommendations to the Board for appointments of new Directors by evaluating and assessing the suitability of candidates as Board members and Board Committee members. In making these recommendations, due consideration is given to the required mix of skills, knowledge, expertise and experience, professionalism and integrity that the proposed Directors shall bring to the Board as well as gender diversity.

The NRC meets as and when required. During the financial year 2014, the NRC met three (3) times.

Dato’ Arif Ambrose Leonard Ng (ceased as Alternate Chairman to Dato’ Seri Zainul Azman Dato’ Zainul Aziz on 4 July 2014)	1/2

Directors’ Remuneration

The remuneration for the Executive Directors link rewards to corporate and individual performances.

Non-Executive Directors are remunerated in the form of directors’ fees which are approved annually by the shareholders at Annual General Meeting (“AGM”) and an attendance allowance of RM1,000 for each Board meeting that they attend.

Based on the existing fees structure which was last revised in 2009 and approved by the shareholders at the 44th AGM for the financial year 2014, directors’ fees are at RM7,500 per month for the Non-Executive Chairman and RM3,300 per month for each Non-Executive Director.

At Board Committee level, directors’ fees are at RM2,700 per month for the Non-Executive Chairman of the Board Audit Committee and RM1,200 per month for each Non-Executive Director who are members of the Board Audit Committee.

Non-Executive Directors who are members of Board Committees are paid attendance allowance for each Committee meeting they attend, as follows:-

	Attendance allowance

5. UPHOLD INTEGRITY IN FINANCIAL REPORTING

Compliance with Applicable Financial Reporting Standards

The financial statements of the Group were prepared under the historical cost convention and modified to include other bases of valuation as disclosed therein under significant accounting policies, and in compliance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 1965.

The Board is responsible for the quality and completeness of publicly disclosed financial reports. This ensures that shareholders are provided with a balanced and meaningful evaluation of the Company's financial performance, its position and its future prospects, through the issuance of Annual Audited Financial Statements and quarterly financial reports and corporate announcements on significant developments affecting the Company in accordance with the Main Market Listing Requirements of Bursa Securities.

The Board is committed to continuously provide and present a clear, balanced and comprehensive assessment of the Group's financial performance and prospects. In order to fulfill the commitments to stakeholders, the Company ensures that the recording and reporting of financial and business information is as fair and accurate as determinable.

Statement of Directors' Responsibility in respect of the preparation of the Audited Financial Statements

The Directors are responsible in ensuring that the Company and its subsidiaries maintain and properly keep their accounting records, the register books and other statutory documents to enable the preparation of the Audited Financial Statements with reasonable accuracy in compliance with the provisions of the Companies Act, 1965.

The Directors also have a general responsibility to take steps to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The Statement of Directors' Responsibility in respect of the preparation of the Annual Audited Financial Statement of the Group pursuant to Section 169 of the Companies Act, 1965 is set out on pages 56 to 59 of this Annual Report.

Relationship with Auditors

The Board maintains a transparent and professional relationship with the Company's auditors, both external and internal. The external auditors, Messrs Crowe Horwath, provide an independent opinion, based on audit performed on the financial statements of the Group and report the same to the shareholders of the Company in accordance with Section 174 of the Companies Act 1965. The external auditors also attend each AGM in order to assist in giving clarifications to shareholders on the audited financial statements.

The internal auditors attended the Audit Committee meetings of the Company held during the financial year.

6. RECOGNISE AND MANAGE RISKS**Statement on Risk Management and Internal Control**

The Board acknowledges its responsibility for maintaining a sound system of internal control which provides reasonable assurance in ensuring the effectiveness and efficiency of the Group's operations and to safeguard shareholders' investment and its assets and interests in compliance with the relevant law and regulations as well as the Group's internal financial administration procedures and guidelines.

The Statement on Risk Management and Internal Control furnished on pages 48 to 50 of this Annual Report provides an overview on the state of internal controls and level of risks and the effectiveness of risks mitigation plans within the DNeX Group.

Internal Audit Function

The internal audit function is carried out by Baker Tilly Monteiro Heng Governance Sdn Bhd ("Baker Tilly") since March 2014. Baker Tilly reports directly to the Audit Committee and assists the Audit Committee in discharging its duties and responsibilities. Further details of the activities of the internal audit function are set out on page 47 of this Annual Report.

7. ENSURE TIMELY AND HIGH QUALITY DISCLOSURE

The Board is committed to use its best endeavour to provide accurate and complete information on a timely and even basis to enable shareholders to make informed investment decision.

The Company's website is regularly updated and provides relevant information on the Company which is accessible to the public.

8. STRENGTHEN RELATIONSHIP BETWEEN COMPANY AND SHAREHOLDERS

The Board acknowledges the need for the Company's shareholders and investors to be informed of all material business and corporate developments concerning the Group in a timely manner. In accordance with the Policy on Investor Relations and Communication with Shareholders, the Company publishes all material information as required by the regulators via the Bursa LINK as well as other publications such as the annual report, quarterly financial reports and press announcements. In addition, the Company maintains regular and effective communication with its shareholders and stakeholders through attending to shareholders' and investors' emails and phone calls enquiries, Company General Meetings and other Company events. Another communication tool to reach shareholders and investors is via our corporate website www.dnex.com.my and with a direct link to a subsidiary's website, Dagang Net Technologies Sdn Bhd at www.dagangnet.com.

Pursuant to the amendments to the Company's Articles of Association as approved by the shareholders at the 42nd AGM held on 2 May 2012, the Company had removed the limit on the number of proxies to be appointed by an exempt authorised nominee with shares in the Company for multiple beneficial owners in one securities account to allow greater participation of the beneficial owners of shares at general meetings of the Company. To further promote participation through proxy(ies), a new Article 69A had been included in the Company's Articles of Association that confers a proxy the same rights as an individual member to speak at the meeting.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

INTRODUCTION

The Board is guided by the Statement on Risk Management and Internal Control - Guidelines for Directors of Listed Issuers in making disclosures concerning the main features of the risk management framework and internal controls system of the Group pursuant to the Paragraph 15.26(b) of the Listing Requirements and Practice Note 9 of the Listing Requirement.

BOARD RESPONSIBILITIES

The Board recognises the importance of having an adequate and effective risk management addressing material matters on financial, operational and information technology to safeguard Group's assets and internal control practices as a critical framework for successful decision-making and for deriving value within the DNeX Group in accordance with Principle 6 of the Malaysian Code on Corporate Governance.

The Group has in place an ongoing process for managing significant risks affecting the achievement of its business objectives throughout the period which includes identifying, evaluating, managing and monitoring these risks. The Group's systems of internal control seeks to manage and control risks appropriately, rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement.

The Audit Committee has approved a formal Group risk management framework that has been adopted by all of its subsidiaries. It sets out the requirements to identify, measure, monitor and report various risk components and management actions.

MANAGEMENT PROCESSES AND CONTROL FRAMEWORK

The Group's activities are exposed to a variety of risks, including operating and financial risks. The Group's overall risk management objective is to ensure that the Group creates value for shareholders whilst minimising potential adverse effects on the Company's performance and positions. Annual business plans, corporate strategy and operating budgets are prepared by business and operating units, and are approved by the Board.

Where material risks have been identified within the Group, appropriate internal control environments are implemented to protect shareholders' interests. The Board is ultimately responsible for the Group's system of risk management and internal control, and it discharges its duties in this area by:

- Determining DNeX's risk appetite (the risk exposure our strategy requires us to consider in the expectation of an economic return) and risk tolerance (the risk we are prepared to face in achieving our strategic goals);
- Overseeing the risk management strategy; and
- Ensuring management implement effective systems of risk identification, assessment, mitigation and internal control. These systems are designed to manage, rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement.

The Board has formalised a reporting structure comprising the Executive Deputy Chairman, Executive Director, Managing Director, and Management to ensure that the communication of the Group's objectives, financial issues and risk matters are disseminated to all levels through monthly leadership meetings. Strategic matters and performance of subsidiaries are reviewed, deliberated and resolved during meetings.

INTERNAL CONTROL

Internal control is an integral part of objectives, risks and control continuum. Hence, the Group has in place a system of internal control that provides reasonable assurance that assets of the Company are safeguarded against losses from unauthorised use or disposition.

The Board recognises that the internal audit function is an integral component of the governance process and thus the internal audit advisory services is outsourced to an independent professional firm namely Baker Tilly Monteiro Heng Governance Sdn Bhd, which supports the Audit Committee and by extension, the Board, by providing independent assurance on the adequacy and effectiveness of the Group's system of internal controls.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(continued)

Issues noted from internal audit conducted are reported directly by the internal auditors to the Audit Committee, including suggested action plans agreed by Management to be adopted in view of improving internal controls. Follow-up audits are also conducted by the internal auditors which update the Audit Committee on the status of action plans agreed by Management to address issues highlighted in previous internal audit reports issued.

During 2014, internal audit have reviewed the application of the following guidelines and concluded that the Group has satisfactorily complied with Corporate Governance guidelines:

- Malaysian Code on Corporate Governance 2012 issued by Securities Commission of Malaysia; and
- Compliance with the Risk Management Framework and practices adopted by the Management; and
- The Board Charter and Terms of Reference for the Board of Directors.

FINANCIAL REPORTING

The Group has comprehensive planning, budgeting, forecasting and monthly Management reporting processes in place.

The Group performs a comprehensive annual planning and budgeting exercise including the development and validation of business strategies for a rolling five year period, and establishment of performance indicators against which business units and subsidiary companies are evaluated. A summary of the Group's financial results supported by commentary and performance measures is provided to the Audit Committee and Board on quarterly basis.

Internal controls over financial reporting are in place to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes.

RISK MANAGEMENT

Risk management is part of DNeX Group's strategic and internal control system to safeguard shareholders' investments and Group's assets. The risk management process, which has been in place throughout the year has identified, evaluated, managed and monitored the risks facing the business. Risks which have been identified as significant and high were reviewed together with their associated mitigating controls and are later reported to the Audit Committee on quarterly basis. In line with the guidance appended to the listing requirements, the Audit Committee reviews on a quarterly basis the effectiveness of the management system to monitor and manage risks in DNeX.

A prerequisite to effective risk assessment is the cascading of annual business and operational objectives via the Divisional Scorecard that is derived directly from Corporate Scorecard of DNeX Group. Every unit has identified the relevant risks that may hamper the accomplishments of its objective and the action required to manage such risks.

All senior managers are responsible for managing and monitoring risks in their area of responsibility and recording these risks in the risk register. The Group co-ordinates risk management activities and ensure that mitigating actions are implemented appropriately. It is mandatory for this process to take place at least once a year but in practice, the reviews often take place on a quarterly basis. For each risk identified, management assesses the root causes, probability of risk occurring, impact and mitigating controls.

Each of the business areas are supported by an Operational Risk Champion who co-ordinates risk management activities and ensures that actions are implemented appropriately. Risks are rated based on their likelihood of occurrence and potential severity. These scores are then used to escalate risks within the organisation for prompt mitigating actions to be taken. This process ensures risks are measured, monitored and reported to the Board on a consistent basis.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(continued)

ORGANISATION STRUCTURE AND AUTHORISATION PROCEDURES

The Board has put in place qualified and experienced management personnels to head the Group into delivering results as per Company's objective. The internal control of the Group is supported by a formal organisational structure with structured lines of discretionary authority limit ("DAL"). The DAL defines decision making limits for each level of management within the Group, setting out a clear line of accountability and responsibility and identifying the approving authority for the various business transactions and value including matters that require Board approval.

A Board Procurement and Tender Committee comprising three (3) of the Board members of the Company had been established to independently review, approve and provide recommendations on significant capital and operational spending to the Board. The Group's strategic directions are also reviewed at reasonable intervals taking into account changes in market conditions and significant business and operational risk.

Performance measurement against annual operating plan and budgets are reviewed on a monthly basis. These are presented to the executive directors and Management using the balanced scorecard approach and variance reporting.

The Executive Deputy Chairman reports to the Board on significant changes to the Group's business, if any. The Executive Deputy Chairman also provides the Board with quarterly financial information, which includes key financial indicators. This includes inter-alia the monitoring of results against budget and prior years and management actions taken on unfavourable variances noted. Where areas of improvement in the system are identified, the Board considers the recommendations made by both the Audit Committee and the Management.

THE MANAGEMENT'S COMMITMENT

The Board received reasonable assurance from the Executive Deputy Chairman and Chief Financial Officer that the Group's risk management and internal control system is operating adequately and effectively, in all material aspects, based on the risk management and internal control system in place.

REVIEW OF STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL BY EXTERNAL AUDITORS

The external auditors have reviewed this Statement on Risk Management and Internal Control for inclusion in this Annual Report and had reported to the Board that nothing has come to their attention that causes them to believe that the statement is inconsistent with their understanding of the process adopted by the Board in reviewing the adequacy and integrity of the system of internal control.

This statement is made in accordance with a resolution of the Board dated 15 May 2015.

- i) all known bad debts have been written off and adequate allowance had been made for impairment losses on receivables, and
- ii) any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- i) that would further render the amount written off for bad debts, or the additional amount of the allowance for impairment losses on receivables in the Group and in the Company inadequate to any substantial extent, or
- ii) that would render the value attributed to the current assets in the financial statements of the Group and of the Company misleading, or
- iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate, or
- iv) not otherwise dealt with in this report or in the financial statements, that would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

- i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or
- ii) any contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of any company in the Group has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the operations of the Group and of the Company for the financial year ended 31 December 2014 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

NOTES TO THE FINANCIAL STATEMENTS

Dagang NeXchange Berhad (formerly known as TIME Engineering Berhad) is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of the Bursa Malaysia Securities Berhad. The address of its registered office and principal place of business is as follows:

Registered office and principal place of business

Tower 3, Avenue 5
The Horizon, Bangsar South
No. 8, Jalan Kerinchi
59200 Kuala Lumpur

The consolidated financial statements of the Company as at and for the financial year ended 31 December 2014 comprise the Company and its subsidiaries (together referred to as the “Group” and individually referred to as “Group entities”).

The Company is principally engaged in investment holding whilst the principal activities of the subsidiaries are as stated in Note 5 to the financial statements.

These financial statements were authorised for issue by the Board of Directors on 24 February 2015.

1. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements of the Group are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies, and in compliance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards and the requirements of the Companies Act 1965 in Malaysia.

During the current financial year, the Group has adopted the following new accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any):-

MFRSs and/or IC Interpretations (Including The Consequential Amendments)

Amendments to MFRS 10, MFRS 12 and MFRS 127 (2011): Investment Entities
Amendments to MFRS 132: Offsetting Financial Assets and Financial Liabilities
Amendments to MFRS 136: Recoverable Amount Disclosures for Non-financial Assets
Amendments to MFRS 139: Novation of Derivatives and Continuation of Hedge Accounting
IC Interpretation 21 Levies

The adoption of the above accounting standards and interpretations (including the consequential amendments) did not have any material impact on the Group’s financial statements.

1. BASIS OF PREPARATION (CONTINUED)**(a) Statement of compliance (continued)**

The Group has not applied in advance the following accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board (MASB) but are not yet effective for the current financial year:-

MFRSs and/or IC Interpretations (Including The Consequential Amendments)	Effective Date
MFRS 9 Financial Instruments (IFRS 9 issued by IASB in July 2014)	1 January 2018
MFRS 15 Revenue from Contracts with Customers	1 January 2017
Amendments to MFRS 10 and MFRS 128 (2011): Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2016
Amendments to MFRS 11: Accounting for Acquisitions of Interests in Joint Operations	1 January 2016
Amendments to MFRS 10, MFRS 12 and MFRS 128 (2011): Investment Entities – Applying the Consolidation Exception	1 January 2016
Amendments to MFRS 101: Presentation of Financial Statements – Disclosure Initiative	1 January 2016
Amendments to MFRS 116 and MFRS 138: Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
Amendments to MFRS 116 and MFRS 141: Agriculture – Bearer Plants	1 January 2016
Amendments to MFRS 119: Defined Benefit Plans – Employee Contributions	1 July 2014
Amendments to MFRS 127 (2011): Equity Method in Separate Financial Statements	1 January 2016
Annual Improvements to MFRSs 2010 – 2012 Cycle	1 July 2014
Annual Improvements to MFRSs 2011 – 2013 Cycle	1 July 2014
Annual Improvements to MFRSs 2012 – 2014 Cycle	1 January 2016

The above accounting standard(s) and/or interpretation(s) (including the consequential amendments) are not relevant to the Group's operations except as follows:-

- (i) MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces the existing guidance in MFRS 139 and introduces a revised guidance on the classification and measurement of financial instruments, including a single forward-looking 'expected loss' impairment model for calculating impairment on financial assets, and a new approach to hedge accounting. Under this MFRS 9, the classification of financial assets is driven by cash flow characteristics and the business model in which a financial asset is held. The Group is in the process of making an assessment of the financial impact arising from the adoption of MFRS 9 and the extent of the impact has not been determined.
- (ii) MFRS 15 establishes a single comprehensive model for revenue recognition and will supersede the current revenue recognition guidance and other related interpretations when it becomes effective. Under MFRS 15, an entity shall recognise revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customers. In addition, extensive disclosures are required by MFRS 15. The Group anticipates that the application of MFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the financial statements. However, it is not practicable to provide a reasonable estimate of the financial impacts of MFRS 15 until the Group performs a detailed review.

NOTES TO THE FINANCIAL STATEMENTS

(continued)

1. BASIS OF PREPARATION (CONTINUED)

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

(c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency. All financial information is presented in RM and has been rounded to nearest thousand, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of the financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation of uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements, other than the Group's contract for the implementation of National Single Window ("NSW") which will be ending in September 2016. Thus, there can be no assurance that the Group will be able to continue to enjoy the similar level of revenue in the event that the NSW contract is not successfully renewed.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to the periods presented in these financial statements and have been applied consistently by Group entities, unless otherwise stated.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities, including structured entities, controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. The Group also considers it has de facto power as an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investments includes transaction costs.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(a) Basis of consolidation (continued)****(ii) Business combinations**

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

For new acquisitions, the Group measures the cost of goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

For each business combination, the Group elects whether it measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

(iii) Acquisitions of non-controlling interests

The Group accounts for all changes in its ownership interest in a subsidiary that do not result in a loss of control as equity transactions between the Group and its non-controlling interest holders. Any difference between the Group's share of net assets before and after the change, and any consideration received or paid, is adjusted to or against Group reserves.

(iv) Loss of control

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

(v) Non-controlling interests

Non-controlling interests at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group is presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of the profit or loss and the comprehensive income for the year between non-controlling interests and owners of the Company.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

NOTES TO THE FINANCIAL STATEMENTS

(continued)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of consolidation (continued)

(vi) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(b) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date, except for those that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments or a financial instrument designated as a hedge of currency risk, which are recognised in other comprehensive income.

(c) Financial instruments

(i) Initial recognition and measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Group or the Company becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract and the host contract is not categorised at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(c) Financial instruments (continued)****(ii) Financial instrument categories and subsequent measurement**

The Group and the Company categorise financial instruments as follows:

Financial assets***Loans and receivables***

Loans and receivables category comprises debt instruments that are not quoted in an active market.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment (see Note 2(i)(i)).

Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Fair value through profit or loss category comprises financial liabilities that are derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial liabilities that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of equity instruments that do not have a quoted price in an active market for identical instruments whose fair values otherwise cannot be reliably measured are measured at cost.

Other financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

(continued)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Plant and equipment

(i) Recognition and measurement

Items of plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and is recognised net within “other operating income” or “other operating expenses” respectively in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Group or the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment from the date that they are available for use. Plant and equipment under construction are not depreciated until the assets are ready for their intended use.

The estimated useful lives for the current and comparative periods are as follows:

- | | |
|--|--------------|
| • Office renovations | 5 years |
| • Plant and machinery | 3 - 5 years |
| • Office equipment, furniture and fittings | 5 - 10 years |
| • Computer equipment | 3 years |

Depreciation methods, useful lives and residual values are reviewed at the end of the reporting period, and adjusted as appropriate.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(e) Leased assets****Operating lease**

Leases, where the Group or the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases and, except for property interest held under operating lease, the leased assets are not recognised in the statement of financial position. Property interest held under an operating lease, which is held to earn rental income or for capital appreciation or both, is classified as investment property and measured using fair value model.

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

(f) Intangible assets**(i) Goodwill**

Goodwill arises on business combinations and is measured at cost less any accumulated impairment losses.

(ii) Research and development

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in profit or loss as incurred.

Expenditure on development activities, whereby the application of research findings are applied to a plan or design for the production of new or substantially improved products and processes, is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset.

The expenditure capitalised includes the cost of materials, direct labour and overheads costs that are directly attributable to preparing the asset for its intended use. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. Other development expenditure is recognised in profit or loss as incurred.

Capitalised development expenditure is measured at cost less any accumulated amortisation and any accumulated impairment losses.

(iii) Other intangible assets

Intangible assets, other than goodwill, that are acquired by the Group, which have finite useful lives, are measured at cost less any accumulated amortisation and any accumulated impairment losses.

(iv) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

NOTES TO THE FINANCIAL STATEMENTS

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Intangible assets (continued)

(v) Amortisation

Amortisation is based on the cost of an asset less its residual value.

Goodwill and intangible assets with indefinite useful lives are not amortised but are tested for impairment annually and whenever there is an indication that they may be impaired.

Other intangible assets are amortised from the date that they are available for use.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use.

The estimated useful live of capitalised development costs and software is 3 years respectively.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value.

The cost of inventories is measured based on cost formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in fair value. For the purpose of the statement of cash flows, cash and cash equivalents are presented net of pledged deposits and restricted cash.

(i) Impairment

(i) Financial assets

All financial assets (except for financial assets categorised as fair value through profit or loss) are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, are not recognised. For an investment in equity instrument, a significant or prolonged decline in the fair value below its cost is an objective evidence of impairment. If any such objective evidence exists, then the financial asset's recoverable amount is estimated.

An impairment loss in respect of loans and receivables is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account.

An impairment loss in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(i) Impairment (continued)****(i) Financial assets (continued)**

Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available for sale is not reversed through profit or loss.

If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed, to the extent that the asset's carrying amount does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in profit or loss.

(ii) Other assets

The carrying amounts of other assets (except for inventories) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated at each period at the same time.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units. Subject to an operating segment ceiling test, for the purpose of goodwill impairment testing, cash-generating units to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to group of cash-generating units that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (group of cash-generating units) and then to reduce the carrying amounts of the other assets in the cash-generating unit (groups of cash-generating units) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

NOTES TO THE FINANCIAL STATEMENTS

(continued)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Equity instruments

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

(k) Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) State plans

The Group's contributions to the statutory pension funds are charged to profit or loss in the financial year to which they relate. Once the contributions have been paid, the Group has no further payment obligations.

(iii) Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

(l) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(m) Revenue and other income

(i) Goods sold

Revenue from the sale of goods in the course of ordinary activities is measured at fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

(ii) Services

Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of the transaction at the end of the reporting period. The stage of completion is assessed by reference to surveys of work performed.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(m) Revenue and other income (continued)****(iii) Dividend income**

Dividend income is recognised in profit or loss on the date that the Group's or the Company's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

(iv) Rental income

Rental income is recognised in profit and loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

(v) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss except for interest income arising from temporary investment of borrowings taken specifically for the purpose of obtaining a qualifying asset which is accounted for in accordance with the accounting policy on borrowing costs.

(vi) Deferred income

Revenue invoiced in advance is deferred and recognised as revenue upon provision of the service.

(n) Borrowing costs

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

(o) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantially enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

NOTES TO THE FINANCIAL STATEMENTS

(continued)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Income tax (continued)

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to apply to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(p) Earnings per ordinary share

The Group presents basic earnings per share data for its ordinary shares ("EPS").

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

(q) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. Operating segment results are reviewed regularly by the chief operating decision maker, which in this case is the Executive Deputy Chairman of the Group, to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

(r) Contingent liabilities

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is not recognised in the statement of financial position and is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

NOTES TO THE FINANCIAL STATEMENTS

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using a valuation technique. The measurement assumes that the transaction takes place either in the principal market or in the absence of a principal market, in the most advantageous market. For non-financial asset, the fair value measurement takes into account a market's participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial reporting purposes, the fair value measurements are analysed into level 1 to level 3 as follows:-

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liability that the entity can access at the measurement date;

Level 2: Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs are unobservable inputs for the asset or liability.

The transfer of fair value between levels is determined as of the date of the event or change in circumstances that caused the transfer.

The Company assessed the recoverable amount of the investments in the subsidiaries and determined that an impairment loss should be recognised as the recoverable amount is lower than the carrying amount. The recoverable amount of the cash-generating unit is determined using the fair value less costs to sell approach, and this is derived from the net assets position of the respective subsidiaries as at end of the reporting period.

The financial position of the Company's subsidiary as at end of the current reporting period has declined in the current financial year which was attributed to DNeX Solutions Sdn. Bhd. which reported a loss after taxation amounting to RM1,447,398 in the current financial year.

25.2 Financial risk management

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

25.3 Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises principally from its receivables from customers. The Company's exposure to credit risk arises principally from loans and advances to subsidiaries and financial guarantees given to banks for credit facilities granted to subsidiaries.

Receivables

Risk management objectives, policies and processes for managing the risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Normally financial guarantees given by banks, shareholders or directors of customers are obtained, and credit evaluations are performed on customers requiring credit over a certain amount.

Receivables (continued)

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk arising from receivables is represented by the carrying amounts in the statement of financial position.

Management has taken reasonable steps to ensure that receivables that are neither past due nor impaired are measured at their realisable values. A significant portion of these receivables are regular customers that have been transacting with the Group. The Group uses ageing analysis to monitor the credit quality of the receivables. Any receivables having significant balances past due more than 120 days, which are deemed to have higher credit risk, are monitored individually.

The exposure of credit risk for receivables as at the end of the reporting period by geographical region was:

	Group	
	2014	2013
	RM'000	RM'000
Domestic	72,776	82,015

Inter-company balances*Risk management objectives, policies and processes for managing the risk*

The Company provides unsecured loans and advances to subsidiaries. The Company monitors the results of the subsidiaries regularly.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Loans and advances are only provided to subsidiaries which are wholly owned by the Company.

Impairment losses

As at the end of the reporting period, there was no indication that the loans and advances to the subsidiaries are not recoverable. The Company does not specifically monitor the ageing of the advances to the subsidiaries. Nevertheless, these advances have been overdue for less than a year.

25.4 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's exposure to liquidity risk arises principally from its various payables, loans and borrowings.

The Group maintains a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

Maturity analysis

The table below summarises the maturity profile of the Group's and the Company's financial liabilities as at the end of the reporting period based on undiscounted contractual payments:

25. FINANCIAL INSTRUMENTS (CONTINUED)**25.5 Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other prices will affect the Group's financial position or cash flows.

25.5.1 Foreign currency risk

The Group is exposed to foreign currency risk on bank balance that is denominated in the currency other than the functional currency, Ringgit Malaysia (RM). The currency giving rise to this risk is primarily United States Dollar (USD).

Risk management objectives, policies and processes for managing the risk

The Group does not have a fixed policy to hedge its sales and purchases via forward contracts. However, the exposure to foreign currency risk is monitored from time to time by management.

Exposure to foreign currency risk

The Group's exposure to foreign currency risk, based on carrying amounts as at the end of the reporting period was:

	Denominated in USD	
	2014 RM'000	2013 RM'000
Group		
Cash and cash equivalents	78	72

Currency risk sensitivity analysis

A 10% (2013: 10%) strengthening of Ringgit Malaysia against the following currency at the end of the reporting period would have decreased post-tax profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remained constant and ignores any impact of forecasted sales and purchases.

	Profit or loss	
	2014 RM'000	2013 RM'000
USD	(6)	(5)

A 10% (2013: 10%) weakening of Ringgit Malaysia against the above currency at the end of the reporting period would have had equal but opposite effect on the above currency to the amounts shown above, on the basis that all other variables remained constant.

25.5 Market risk (continued)

25.5.2 Interest rate risk

The Group's and the Company's significant interest-bearing financial assets and financial liabilities are mainly its deposit placements and borrowing.

The deposit placements as of financial position date are short term and therefore exposure to the effects of future changes in prevailing level of interest rates is limited.

Effective interest rates and repricing analysis

In respect of interest-earning financial assets and interest-bearing financial liabilities, the following table indicates their effective interest rates as at the end of the reporting period and the periods in which they reprice or mature, whichever is earlier.

25. FINANCIAL INSTRUMENTS (CONTINUED)**25.5 Market risk (continued)****25.5.2 Interest rate risk (continued)***Fair value sensitivity analysis for fixed rate instruments*

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives as hedging instruments under a fair value hedged accounting model. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

25.5.3 Other price risk

Equity price risk arises from the Group's investments in equity securities.

Risk management objectives, policies and processes for managing the risk

Management of the Group monitors the equity investments on a portfolio basis. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board of Directors.

Equity price risk sensitivity analysis

The Group does not have investments in equity securities at the end of the reporting date.

25.6 Fair value of financial instruments

The carrying amounts of cash and cash equivalents, short-term receivables and payables approximate fair values due to the relatively short term nature of these financial instruments.

The fair values of other non-current financial assets and borrowing, together with the carrying amounts shown in the statement of financial position, are as follows:

Group	Note	2014		2013	
		Carrying amount RM'000	Fair value RM'000	Carrying amount RM'000	Fair value RM'000
Trade receivables	6	22,080	20,834	48,426	45,227
Borrowing	13	(20,036)	(20,036)	(38,530)	(38,530)

For non-current financial assets of RM22,079,750 (2013: RM48,426,000), due to the lack of comparable quoted market prices and the inability to estimate fair value without incurring excessive costs, the Directors estimate the market interest rate for a comparable instrument to be approximately 3% to 4% per annum to arrive at the fair value.

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period.

Transfers between Level 1 and Level 2 fair values

There has been no transfer between Level 1 and 2 fair values during the financial year. (2013: no transfer in either directions)

26. CAPITAL MANAGEMENT

The Group's objectives when managing capital is to maintain a strong capital base and safeguard the Group's ability to continue as a going concern, so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Directors monitor and are determined to maintain an optimal debt-to-equity ratio that complies with debt covenants and regulatory requirements.

The debt-to-equity ratios are as follows:

	Group	
	2014 RM'000	2013 RM'000
Total borrowing	38,530	57,024
Less: Cash and cash equivalents (Page 65)	(63,610)	(62,733)

Total equity	108,186	91,770
Debt-to-equity ratio	Not applicable	Not applicable

There were no changes in the Group's approach to capital management during the financial year.

The debt-to-equity ratio of the Group at the end of the reporting period is not presented as the cash and cash equivalents exceeded the total borrowing.

Under the requirement of Bursa Malaysia Practice Note No. 17/2005, the Company is required to maintain a consolidated shareholders' equity equal to or not less than the 25 percent of the issued and paid-up capital (excluding treasury shares) and such shareholders' equity is not less than RM40 million. The Company has complied with this requirement.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DAGANG NeXCHANGE BERHAD
(Formerly Known As TIME Engineering Berhad)
(Incorporated in Malaysia) Company No. 10039-P

Report on the Financial Statements

We have audited the financial statements of Dagang NeXchange Berhad (formerly known as TIME Engineering Berhad), which comprise the statements of financial position as at 31 December 2014 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 60 to 113.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as of 31 December 2014 and of their financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

Other Matter

The financial statements of the Group and of the Company of the preceding financial year were audited by another firm of auditors whose report dated 25 February 2014, expressed an unmodified opinion on those statements.

BY ORDER OF THE BOARD

Keh Ching Tyng, MAICSA 7050134
Company Secretary

Kuala Lumpur
29 May 2015

NOTES:-

Proxy

1. A member entitled to attend and vote at the meeting is entitled to appoint proxy/proxies to attend and vote in his/her stead. A proxy may but need not be a member of the Company and the provisions of Section 149(1)(b) of the Companies Act 1965 shall not apply to the Company.
2. In the case of corporate member, the instrument appointing a proxy (“Form of Proxy”) shall be either (a) under its Common Seal or (b) under the hand of duly authorised officer or attorney and in the case of (b), be supported by a certified true copy of the resolution appointing such officer or certified true copy of the power of attorney.
3. A member of the Company holding 1,000 shares or less in the Company shall be entitled to appoint one (1) proxy to attend and vote at the same meeting. A member holding more than 1,000 shares in the Company shall be entitled to appoint a maximum of two (2) proxies to attend and vote at the same meeting and such appointment shall be invalid unless the member specifies the proportion of his/her shareholding to be represented by each proxy.
4. Where a member is an authorised nominee, as defined under the Securities Industry (Central Depositories) Act 1991, it may appoint at least one (1) proxy but not more than two (2) proxies in respect of each securities account it holds which is credited with ordinary shares of the Company. The appointment of two (2) proxies in respect of any particular securities account shall be invalid unless the authorised nominee specifies the proportion of its shareholding to be represented by each proxy.
5. Where a member is an exempt authorised nominee (EAN) as defined under the Securities Industry (Central Depositories) Act 1991 which holds ordinary shares in the Company for multiple beneficial owners in one securities account (omnibus account), there is no limit to the number of proxies which the EAN may appoint in respect of each omnibus account it holds. EAN is advised to list down the name of proxies and the particulars of their NRIC No. (both new and old) and attach it to the Form of Proxy.
6. Any alteration to the Form of Proxy must be initialised. The Form of Proxy duly completed must be deposited at the office of the Share Registrar, Mega Corporate Services Sdn Bhd at Level 15-2, Bangunan Faber Imperial Court, Jalan Sultan Ismail, 50250 Kuala Lumpur not less than twenty four (24) hours before the time fixed for holding the Meeting or any adjournment thereof.

NOTICE OF FORTY FIFTH ANNUAL GENERAL MEETING

(continued)

Audited Financial Statements for the financial year ended 31 December 2014

7. The audited financial statements are for discussion only under Agenda 1, as the provisions of Section 169(1) of the Companies Act 1965 do not require shareholders to approve annual audited financial statements. Hence, it is not put forward for voting.

Non-Executive Directors' Fees

8. The proposed Resolutions 4 and 5 are intended to seek mandate from the shareholders to allow the Company to pay Directors' fees to the Non-Executive Directors on a quarterly basis after the end of each quarter. The Directors' fees for the Non-Executive Directors are based on the existing rates as approved by the shareholders during the 38th AGM held on 18 June 2008.

EXPLANATORY NOTES ON SPECIAL BUSINESS

Authority to Issue Shares pursuant to Section 132D of the Companies Act, 1965

The proposed Resolution 7 is intended to seek a general mandate for the Directors of the Company to issue and allot shares in the Company up to an amount not exceeding in total 10% of the issued share capital of the Company for the time being, for such purposes as the Directors consider will be in the best interest of the Company without convening a general meeting. This authority, unless revoked or varied by the shareholders of the Company in general meeting will expire at the conclusion of the next Annual General Meeting.

The general mandate for issue of shares will provide flexibility to the Company for any possible fund raising activities, including but not limited to further placing of shares for the purpose of funding future investment, working capital and/or acquisition.

EXPLANATORY NOTES ON VOTING PROCEDURES

1. Pursuant to Article 63 of the Company's Articles of Association, voting in respect of Resolutions 1 to 7 will be on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by either:
 - the Chairman (being a person entitled to vote); or
 - not less than two (2) members present in person or by proxy and entitled to vote; or
 - a member present in person or by proxy and representing not less than one-tenth (1/10) of the total voting rights of all the members having the right to vote at the meeting; or
 - a member present in person or by proxy and holding shares in the Company conferring a right to vote at the meeting being shares on which an aggregate sum has been paid up equal to not less than one-tenth (1/10) of the total sum paid up on all the shares conferring that right.
2. In accordance with Article 69 of the Company's Articles of Association, the votes of members are calculated based on the voting method where on a show of hands every person present who is a member or proxy of a member shall have one (1) vote, and on a poll every member who is present or by proxy shall have one (1) vote for every share of which he is a holder.
3. A declaration by the Chairman of the Meeting that a resolution has on a show of hands or on a poll been carried either unanimously or by a particular majority shall be conclusive evidence of the passing of the resolution. In the case of an equality of votes, whether on a show of hands or on a poll, Article 66 of the Company's Articles of Association provides that the Chairman of the Meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote.

ABSTENTION FROM VOTING

1. Any Director referred to in Resolutions 1, 2 and 3, who is a shareholder of the Company will abstain from voting on the resolution in respect of his re-election at the 45th AGM.
2. All the Non-Executive Directors of the Company who are shareholders of the Company will abstain from voting on Resolutions 4 and 5 concerning remuneration to the Non-Executive Directors at the 45th AGM.
