**QUARTERLY REPORT ON CONSOLIDATED RESULTS**  
**For the Third (3<sup>rd</sup>) Quarter Ended 30 September 2019**

**A NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**A1. Basis of preparation**

The interim financial statements of the Group are unaudited and have been prepared in accordance with the requirements of Malaysian Financial Reporting Standards ("MFRS") 134, Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB") and Rule 9.22 and Appendix 9B of the ACE Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") ("Listing Requirements").

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2018. These explanatory notes attached to the interim financial statements provide explanation of events and transactions that are significant for the understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2018.

The Group has adopted merger method for the preparation of this interim financial statement.

**A2. Changes in accounting policies**

Except as described below, the same accounting policies and methods of computation are followed in the consolidated financial statements as compared with the consolidated financial statements for 31 December 2018.

As of 1 January 2018, the Group has adopted the following new and revised MFRSs and amendments to MFRS and IC interpretation (collectively referred to as "pronouncements") which are effective for annual years beginning on or after 1 January 2019.

MFRS 16	Leases
Amendments to MFRS 128	Investment in Associates and Joint Ventures : Long-term Interests in Associates and Joint Ventures
IC Interpretation 23	Uncertainty over Income Tax Treatments

The initial application on the above pronouncements did not have any material impact on the financial statements, except for MFRS 16 as disclosed below:

**MFRS 16, Leases**

The Group has adopted MFRS 16, Leases from 1 January 2019.

MFRS 16 replaces the guidance in MFRS 117, Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases – Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

The Group has applied MFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 January 2019. Accordingly, the comparative information presented for 2018 has not been restated – i.e. it is presented, as previously reported, under MFRS 117 and related interpretations. The details of the changes in accounting policies are disclosed below.

**KRONOLOGI ASIA BERHAD (Company no. 1067697-K)**  
**QUARTERLY REPORT ON CONSOLIDATED RESULTS**  
**For the Third (3<sup>rd</sup>) Quarter Ended 30 September 2019**

**A2. Changes in accounting policies (Cont'd)**

**I. Definition of a lease**

Previously, the Group determined at contract inception whether an arrangement was or contained a lease under IFRIC 5 Determining Whether an Arrangement contains a Lease. The Group now assesses whether a contract is or contains a lease based on the new definition of a lease. Under MFRS 16, a contract is, or contains, a lease of the contract which conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative standalone prices. However, for leases of properties in which it is a lease, the Group has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

**II. As a lessee**

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under MFRS 16, the Group recognises right-of-use assets and lease liabilities for most leases – i.e. these leases are on balance sheet. However, the Group has elected not to recognise right-of-use assets and liabilities for some leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

**a) Significant accounting policies**

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the by-country risk free rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Group has applied judgment to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use recognised.

**b) Transition**

Previously, the Group classifies property leases as operating leases under MFRS 117.

At transition, for leases classified as operating leases under MFRS 117, lease liabilities were measured at the present value of the remaining lease payments, discounted at the by-country risk free rate as at 1 January 2019. Right-of-use assets are measured at their carrying amount as if MFRS 16 has been applied since the commencement date, discounted using the lessee's by-country risk free rate at the date of initial application.

**QUARTERLY REPORT ON CONSOLIDATED RESULTS**  
**For the Third (3<sup>rd</sup>) Quarter Ended 30 September 2019**

**A2. Changes in accounting policies (Cont'd)**

II. As a lessee (cont'd)

b) Transition (cont'd)

For leases previously classified as finance leases the Group recognised the carrying amount of the lease asset and lease liability immediately before transition as the carrying amount of the right of use asset and the lease liability at the date of initial application. The measurement principles of MFRS 16 are only applied after that date

The Group used the following practical expedients when applying MFRS 16 to leases previously classified as operating leases under MFRS 117.

- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Excluded initial direct costs for measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

c) Impact of transition

On transition to MFRS 16, the Group recognised additional right-of-use assets and additional lease liabilities, recognising the difference in retained earnings. The impact on transition is summarised below:-

	Impact to adoption of MFRS 16 to opening balance at 1 January 2019
In RM'000	
Increase in right-of-use assets	4,731
Increase in accumulated depreciation – right-of-use assets	(2,251)
Increase in lease liabilities	(2,546)
Decrease in retained earnings	66
