GLOMAC BERHAD
NOTES TO THE UNAUDITED INTERIM REPORT FOR THE FINANCIAL PERIOD ENDED
31 OCTOBER 2019

A. EXPLANATORY NOTES

A1. Accounting Policies and Methods of Computation

The unaudited interim financial report has been prepared in accordance with *MFRS 134 "Interim Financial Reporting"* and *Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad*.

The unaudited interim financial report should be read in conjunction with the Group's audited financial statements for the financial year ended 30 April 2019.

The explanatory notes attached to the unaudited interim financial report provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 30 April 2019.

The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted in the financial statements for the year ended 30 April 2019, except for the adoption of new MFRSs, amendments to MFRS and IC Interpretations effective for annual financial periods beginning on or after 1 May 2019 as listed below:

MFRS 16	Leases
Amendments to MFRS 9	Prepayment Features with Negative Compensation
Amendments to MFRS 119	Plan Amendment, Curtailment or Settlement
Amendments to MFRS 128	Long-term Interests in Associates and Joint Ventures
IC interpretation 23	Uncertainty over Income Tax Treatments
Annual Improvements to MFRSs 2015-2017 Cycle	

The adoption of these new MFRSs, amendments to MFRSs and IC interpretations did not have any material impact on the interim financial report of the Group, except for the following:

MFRS 16

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of lease. It introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases within a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use ("ROU") asset representing its right to use the underlying leased asset and lease liability representing its obligation to make lease payments.

The Group adopted the simplified transition approach without restating the comparatives. The reclassifications and adjustments arising from the new leasing rules are therefore recognised in the opening balance of statement of financial position as at 1 May 2019.

At the date of initial application, 1 May 2019, all ROU assets are measured at an amount equal to the lease liabilities measured at the present value of the remaining lease payments discounted using the incremental borrowing rate at the date of initial application.

On a lease-by-lease basis, the Group has applied the following practical expedients:

- (a) The use of a single discount rate to a portfolio of leases with reasonably similar characteristics.
- (b) Reliance on previous assessments on whether leases are onerous.
- (c) The accounting for operating leases with a remaining lease term of less than 12 months as at 1 May 2019 as short-term leases
- (d) The exclusion of initial direct costs for the measurement of the right-of-use of asset at the date of initial application.
- (e) The use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The table below shows the impact of changes to the condensed consolidated statement of financial position of the Group resulting from the adoption of MFRS 16 as at 1 May 2019.

B8. Material Litigation

On 16 August 2017, a subsidiary company, Glomac Alliance Sdn. Bhd. (“GASB”), received an Amended Writ and Amended Statement of Claim dated 10 August 2017 from a former joint venture (“JV”) partner of a property development project (“the Project”). The suit was inter alia based on the JV Agreement dated 17 January 2003, which was subsequently terminated and the underlying Project Land was acquired by GASB from the receiver of the said former JV partner. In the suit dated 10 August 2017, the said former JV partner is claiming for:

- (i) A compensation sum of RM107,800,000 for the loss of the Project Land;
- (ii) An unspecified amount of loss of expenses of the Project; and
- (iii) 22% of gross development value of the Project or a minimum of RM47,000,000, whichever the higher (collectively referred to as “Claim”).

In 2011, similar claims were brought up by the said former JV partner in a civil suit whereby it has been struck off by the High Court and the Court of Appeal.

On 19 September 2017, GASB filed an application to strike out the Claim, but on 17 April 2018, the High Court dismissed GASB’s striking out application. Thereafter, on 3 May 2018, GASB appealed to the Court of Appeal against the dismissal of GASB’s striking out application (“Striking Out Appeal”).

On 17 July 2019, the Court of Appeal unanimously allowed GASB’s Striking Out Appeal with no order as to costs, thereby resulting in the Claim against GASB being struck out. Accordingly, on 31 July 2019, GASB filed a Notice of Withdrawal of Appeal in respect of the Security for Costs Appeal.

On 15 August 2019, the said former JV partner filed an application for leave to appeal to the Federal Court in respect of the Striking Out Appeal (“Federal Court Motion”). The Federal Court Motion is fixed for hearing on 16 January 2020.

As at to-date, the said former JV partner has been unsuccessful in their attempts at pursuing and/or sustaining a claim against GASB.

No provision for losses has been made in the financial statements of the Group in respect of this claim as it has been struck out earlier by the Court of Appeal, while the Federal Court Motion is currently at the preliminary stage whereby the outcome is not presently determinable.
