Dated: 28 October 2020

Resolution 7

Notice of Annual General Meeting (cont'd.)

Explanatory Notes

(a) Audited Financial Statements for the financial year ended 30 June 2020

Agenda 1 is meant for discussion only as the provision of Section 340(1)(a) of the Companies Act 2016 does not require a formal approval of the shareholders for the Audited Financial Statements. Hence, it will not be put forward for voting.

(b) Ordinary Resolution – Proposed Retention of Independent Non-Executive Director

In relation to the proposed Resolution 5, the Board of Directors has via the Nomination Committee assessed the independence of Mr Loh Thian Sang @ Lo Thian Siang who has served as an Independent Non-Executive Director of the Company for a cumulative term of more than twelve (12) years, and recommended him to continue to act as Independent Non Executive Director of the Company based on the following justifications:-

- (i) He fulfils the criteria of an Independent Director pursuant to the Main Market Listing Requirements of Bursa Malaysia Securities Berhad;
- (ii) He has extensive experience and knowledge in the marine industry which are relevant to the Group's activities;
- (iii) He has demonstrated his capability as an independent director and provided numerous constructive suggestions to the Board; and
- (iv) His level of independence and competency has not been impaired with time.

The proposed Resolution No. 5, if passed, will enable Mr Loh Thian Sang @ Lo Thian Siang to continue in office as Independent Non-Executive Director until the next Annual General Meeting.

In accordance with Practice 4.2 of the Malaysian Code on Corporate Governance, the retention of an independent director who has served the Company for a cumulative term of more than 12 years as independent director is subject to shareholders' approval via a two-tier voting process.

(c) Ordinary Resolution - Authority to issue shares pursuant to the Companies Act 2016

The proposed Resolution No. 6, if passed, shall give power to the Directors to issue ordinary shares in the capital of the Company up to an aggregate amount not exceeding 20% of the total number of issued shares in the ordinary share capital of the Company for the time being. This authority unless revoked or varied at a general meeting will expire at the next Annual General Meeting. This general mandate is a renewal of the mandate that was approved by the shareholders on 26 November 2019. The Company did not utilise the mandate that was approved last year. The renewal of the general mandate is to facilitate the Company to raise funds expeditiously for the purpose of funding future investment, working capital and/or acquisition without having to convene a general meeting to seek shareholders' approval when such opportunities or needs arise.

(d) Ordinary Resolution - Proposed Renewal of Share Buy-Back Authority

The proposed Resolution No. 7, if passed, shall empower the Directors of the Company to buy back and/or to hold the shares of the Company not exceeding 10% of the total number of issued shares in the ordinary share capital of the Company from time to time being quoted on Bursa Malaysia Securities Berhad as may be determined by the Directors of the Company from time to time through Bursa Malaysia Securities Berhad upon such terms and conditions as the Directors may deem fit and expedient in the interests of the Company. Shareholders are directed to refer to the Share Buy-Back Statement dated 28 October 2020 for more information.

Notes:

Directors' Profiles

The Board currently has six members, comprising three Executive Directors (including the Chairman) and three Independent Non-Executive Directors. A brief description of the background of each Director is presented below:

NG CHIN HENG, Male, Aged 71, Malaysian
Executive Chairman

Mr Ng Chin Heng was appointed as Executive Chairman to the Board on 8 August 2000 and serves as a member of the Remuneration Committee.

He is the principal founder of Coastal Group. Soon after completing the Lower Certificate of Education and gaining work experience in various capacities, Mr Ng Chin Heng started his business endeavour in 1977 trading in animal feed, fertilisers and raw rubber. Subsequently, he ventured into vessel chartering business in 1982 when he acquired Coastal Transport (Sandakan) Sdn. Bhd., a tug and barge hire company, which then owned and operated 4 small old tankers. He then acquired the technical and management skills in tugboat and barge repairs and fabrications. He further learned and improved the technical and management aspects of shipyard operations by visiting some of the shipyards in Malaysia, Indonesia, Singapore and China.

Mr Ng Chin Heng is responsible for leadership of the Board of the Company, ensuring its effectiveness and setting its agenda. He meets with shareholders to ensure that there is sufficient and effective communication to understand shareholders' issues and concerns. He is responsible for executing the strategy agreed by the Board and developing objectives through leadership of the senior executive team. He also ensures that the Group's risks are adequately addressed and appropriate internal controls are in place.

Mr Ng Chin Heng attended all five Board meetings held during the financial year ended 30 June 2020.

As at 25 September 2020, Mr Ng Chin Heng has direct interests of 5.46% and indirect interests of 41.31% by virtue of Ivory Asia Sdn Bhd's, his wife's and children's shareholdings in Coastal Contracts Bhd. He is the brother of Mr Ng Chin Shin and Mr Ng Chin Keuan, both the Directors of the Company, and the husband of Madam Pang Fong Thau, a substantial shareholder of the Company. Save as disclosed on pages 121 and 122 of the Annual Report on related party transactions, he has no conflict of interest with the Company.

NG CHIN SHIN, Male, Aged 61, Malaysian
Executive Director

Mr Ng Chin Shin was appointed as Executive Director to the Board on 8 August 2000.

He is one of the co-founders of Coastal Group. Shortly after completing the Lower Certificate of Education, he went on to become a mechanic and welder in 1975 and subsequently a mechanic and construction supervisor. He gained his experience in the shipbuilding industry when he worked for a shipbuilding contractor between 1980 and 1985. With his valuable knowledge, he was invited to join the Group in 1986 and has been involved in the Group for 34 years. He has been instrumental in shaping and laying the foundations for the Group's products and workmanship quality in vessel manufacturing and repair works. His vast experience and in-depth knowledge in the vessel manufacturing and repair activities will continue to benefit the Group.

Mr Ng Chin Shin attended four for the five Board meetings held during the financial year ended 30 June 2020.

As at 25 September 2020, Mr Ng Chin Shin has direct interests of 4.54% in Coastal Contracts Bhd. He is the brother-in-law of Madam Pang Fong Thau, a substantial shareholder of the Company. Chairman's Statement

Dear Shareholders,

The Coronavirus ("Covid-19") was declared as a world health emergency in the beginning of the year 2020, since then, it has caused an unprecedented global disruption, with significant negative impacts on the public health and economic activities around the world. In the wake of Covid-19, the global economy is in a synchronized slowdown and once again, it is at its weakest pace since the global financial crisis. The massive outbreak of Covid-19 has added a major layer of uncertainty to the oil and gas market outlook in terms of demand, supply, investment strategies and business models. Even though the global oil price has gradually improved with the commitment of the Organisation of the Petroleum Exporting Countries and its allies ("OPEC+") to stabilise the global oil and gas market, the market outlook remains unpredictable due to the potential further worsening in United States-China trade war and rising geopolitical tensions as well as the effects of Covid-19 on the global economic.

Ng Chin Heng
Executive Chairman

Coastal Contracts Bhd. and its subsidiaries ("Coastal Group") has implemented effective standard operating procedures and best practices at its business premises in compliance with the Ministry of Health and World Health Organization guidelines to safeguard the health and safety of all employees. In line with the government's strong emphasis on the culture of "New Normal", the Group has committed to be resilience in the face of Covid-19 pandemic crisis, with the implementation of the remote working through work-from-home arrangement, webinars and virtual meetings for maintaining the continuous engagement with all employees and developing alternative business associates arrangement as well as ensuring the smooth continuity of the business operations.

Notwithstanding the unprecedented challenges across the global economic and the oil and gas market, Coastal Group has continued to maintain its prudent financial management policy to preserve cash and maintain low gearing in its balance sheet. Furthermore, Coastal Group has committed to upholding its prudent business concept and always be well prepared for unforeseeable events that could hamper its business activities.

The venture by Coastal Group into the oil and gas sector of Mexico, through the long-term charter of its high-valued Jack-up Gas Compression Service Unit ("JUGCSU") to the national oil company Petróleos Mexicanos ("PEMEX"), has continued to provide the Group with recurring profit and free cash flows.

In this regard, I am pleased to present the Annual Report and Audited Financial Statements of Coastal Group for the financial year ended 30 June 2020 ("FY2020").

OPERATION HIGHLIGHTS

Shipbuilding and Ship Repair Division

In the 1st half of FY2020, there were showing signs of recovery for the Shipbuilding and Ship Repair Division with the successful delivery of four units marine transportation vessels. As the Covid-19 pandemic engulfed the world, the outlook for the shipping and offshore industry in the 2nd half of FY2020 continued to be worsen. Consequently, it adversely affected this Division which contributed sales of one unit marine transportation vessel only amidst this outbreak.

In order to deal with adverse impacts of the prolonged market downturn on the Shipbuilding and Ship Repair Division, Coastal Group has started to transform itself gradually from Offshore Support Vessel ("OSV") builder to OSV operator since then. In line with this, this Division has transferred one unit of OSV inventory to its Chartering Division during the financial year.

Vessel Chartering Division

The long-term charter of JUGCSU, namely AGOSTO 12 is now in its fourth year anniversary since achieving its first gas in August 2016. JUGCSU has been producing and supplying compressed gas smoothly to PEMEX since then.

In addition, the one unit of OSV transferred from Shipbuilding and Ship Repair Division had secured a good charter contract in the 1st half of FY2020.

Despite of the Group successfully secured new OSV charter contracts and improved the OSV fleet utilisation in the 1st half of FY2020, the Covid-19 pandemic crisis has a significant spill over impact on the OSV market in the 2nd half of FY2020, which added more downside risks to the path to recovery.

REVIEW OF FINANCIAL PERFORMANCE

Revenue and Profitability

On the whole, the Group revenue for FY2020 increased to RM211 million by RM54.7 million, from RM156.3 million reported in FY2019.

In FY2020, the Shipbuilding and Ship Repair Division contributed RM28.1 million to the total Group revenue, which was higher by RM24 million compared to RM4.1 million reported in FY2019, primarily resulting from the higher sales of low-end vessels in FY2020.

Meanwhile, the Vessel Chartering Division generated a higher revenue of RM183 million in FY2020, which was increased by RM30.8 million, from RM152.2 million in FY2019. This was mainly attributed to the charter income generated from new charter contracts and higher utilisation for our OSV fleet.

The Group registered net loss attributable to shareholders of RM105.1 million in FY2020, in contrast with the net profit attributable to shareholders of RM14.4 million, which was recorded in FY2019. The significant decline of RM119.5 million at the bottom line was mainly due to one-off inventories written-down and impairment loss on receivables recognised in FY2020, which was attributed to the adverse change in market conditions caused by Covid-19 pandemic crisis.

Correspondingly, basic loss per share for FY2020 stood at 19.88 sen compared to earnings per share of 2.73 sen in FY2019.

Financial Position

Coastal Group maintains a healthy financial position with shareholders' equity of RM1.1 billion in FY2020, which was a slightly lower compared to RM1.2 billion in FY2019. The RM0.1 billion decrease in FY2020 was mainly related to current year's loss.

In FY2020, total bank borrowings were declined by RM17.1 million to RM276.8 million from RM293.9 million in FY2019 mainly due to recurring repayments of term loan for JUGCSU were made which was offset by the drawdown of new loans for the Vessel Chartering Division during the financial year.

On the other hand, liquidity reserve of the Group was increased to RM523.8 million for FY2020 from RM502.7 million in FY2019. The Group's liquidity reserve for FY2020 comprises of short-term investments of RM260 million and cash and bank balances of RM263.8 million.

Overall, our financial position remains healthy with a low gearing ratio of 0.25 times for both of FY2019 and FY2020. The low gearing ratio allows us ample room to pursue growth opportunities and weather current challenges in the near future.

PROSPECTS AND GROWTH STRATEGIES

Even though the shipping market remains active in the midst of Covid-19 pandemic, many vessels have been impacted, leading to a number of vessels lying idle. In the meantime, the global impact of the ongoing Covid-19 pandemic has led to imposition of unprecedented measures by worldwide governments, which has caused the decline in economic activities across the world.

Despite the uncertainties in global economic is increasing, our business direction and growth strategies will remain unchanged. Coastal Group will continue to pursue new projects such as Mobile Offshore Production Unit (MOPU), Floating Production Storage and Offloading (FPSO), Floating Production Unit (FPU), Floating Storage and Offloading (FSO), Floating Storage and Regassification Unit (FSRU) and other similar oil and gas projects.

Overall, the shipping and oil and gas industries have been playing crucial roles in sustaining the global economy. Due to massive outbreak of Covid-19, both industries are facing an unprecedented set of challenges as the medium and long-term impacts will be determined by the global macroeconomic trends. Nevertheless, Coastal Group has taken all precautions to overcome the future market uncertainties and moving forward to create new business opportunities and to protect its long-term shareholders value.

APPRECIATION TO STAKEHOLDERS

Finally, I sincerely appreciate to my fellow Board members, management, and all employees for your invaluable dedication, strong commitment and steadfast support in a challenging FY2020.

On behalf of the Board of Directors, I would like to express my appreciation to our business partners, bankers, customers and suppliers for your continued confidence and support as we navigate through the challenging environment. Further, we are grateful for our shareholders for your unwavering support and honoured by the trust you place in us. A combination of hard work by the Coastal teams and continued stakeholders support has placed us to move forward and pursue growth opportunities in the near future.

Management Discussion and Analysis

BUSINESS OVERVIEW

Coastal Group is regarded as one of the more prestigious oil and gas companies. Its revenues are primarily derived from shipbuilding, ship repair, vessel chartering and trading of marine support vessels. Coastal Group serves a diverse clientele worldwide - the offshore oil & gas industry, mining sector and commodities sectors, marine traders, The Royal Malaysian Navy and many more.

The Group operates in two main business divisions:

- Shipbuilding and Ship Repair; and
- Vessel Chartering

Shipbuilding and Ship Repair Division is made up of two key operations, one being the fabrication and sale of Offshore Support Vessels ("OSVs") and marine transportation vessels, ranging from subsea support vessels, subsea maintenance vessels, platform support vessels, utility support vessels, anchor handling tug supply vessels and accommodation work barges, to oil barges, dumb barges, harbour tugs, landing crafts and tug boats. The other area of operation is in Maintenance, Repair and Overhaul services such as steel hull maintenance, electrical works, engines and generators overhaul, and modification works of various scales.

Through its Vessel Chartering Division, the Group offers a wide range of solutions to its customers. Jack-Up Gas Compression Service Unit ("JUGCSU") is the key contributor under the Vessel Chartering Division. In the first quarter of 2014, the Group successfully secured a USD372 million contract for the fabrication and 12-year charter of the JUGCSU to the national oil company of Mexico. The JUGCSU has the ability to compress sour gas, for injection into the reservoir the high content of associated gas to oil, in order to help maintain reservoir pressure and maximise the exploitation of hydrocarbons. The JUGCSU named AGOSTO 12 marked its fourth year anniversary since Commercial Operation Date achieved in August 2016.

FINANCIAL HIGHLIGHTS

Shipbuilding and Ship Repair Division – Overall Financial Performance:

For the financial year ended 30 June 2020 ("FY2020"), revenue for Shipbuilding and Ship Repair Division was increased by RM24 million to RM28.1 million from RM4.1 million in the previous financial year ("FY2019"). The increase was mainly attributable to the higher sales of marine transportation vessels during the year. This division recorded a loss before tax of RM178.5 million for FY2020 with an increase of 229% as compared to loss before tax of RM54.3 million reported in FY2019. The loss before tax in FY2020 was significantly higher than FY2019 due to impairment loss provided on deposits and vessel milestone progress payment made on certain OSV work-in-progress.

Vessel Chartering Division– Overall Financial Performance:

In FY2020, Vessel Chartering Division's revenue increased by 20.2%, from RM152.2 million in FY2019 to RM183 million. The increase in revenue was mainly attributable to the earnings derived from new vessel charter contracts secured and better vessel utilisation during the financial year. Consequently, this division's profit before tax for FY2020 was improved to RM90.8 million as compared to RM84.1 million reported in FY2019.

Management Discussion and Analysis (cont'd.)

FINANCIAL HIGHLIGHTS (Cont'd)

Gross profit margin and net (loss)/ profit margin

The Group recorded gross profit margin and net loss margin of 36.40% and 49.77% respectively in FY2020 as compared to gross profit margin and net profit margin of 42.95% and 9.22% respectively in FY2019. The Group's gross profit margin for FY2020 was comparable to FY2019. In terms of net margin, the sharp reduction from FY2019 to FY2020 was mainly due to the vessel inventories written-down and impairment loss on receivables.

Gearing ratio

The Group maintained a constant gearing ratio of 0.25 in FY2019 and FY2020. This was mostly due to the recurring repayment of borrowings which were made for the Vessel Chartering Division, but this repayment was mostly offset by drawdown of new loans for the division. The Group's gearing ratio remains healthy and at a manageable level enabling the Group to have room for more borrowings should we manage to secure new projects in future.

Current ratio and quick ratio

The Group's current ratio decreased to 1.94 times in FY2020 from 3.96 times recorded in FY2019. Meanwhile, the Group recorded a lower quick ratio of 1.62 times in FY2020, which was declined from 2.90 times reported in FY2019. The decreases in the liquidity position was mainly due to a term loan with an outstanding amount of approximately RM237.3 million was reclassified as current liability according to its maturity date. Nevertheless, we expect the quick ratio will be improved after the loan was refinanced in September 2020.

Inventories turnover

In FY2020, the inventories turnover decreased significantly from 1,322 days in FY2019 to 531 days mainly due to reclassification of a vessel inventory to property, plant and equipment because the completed vessel was deployed in chartering business. Furthermore, certain OSVs work-in-progress were written down during FY2020.

Debtors turnover

The debtors turnover decreased from 237 days in FY2019 to 186 days in FY2020 primarily due to better collections from customers during FY2020.

Creditors turnover

The creditors turnover decreased from 526 days in FY2019 to 361 days in FY2020 mainly due to prompt payments were made to suppliers during the financial year.

Capex Requirement:

Given the current adverse market conditions and in line with the Group's prudent business strategy, Coastal Group has maintained a minimal capital expenditure budget in both FY2020 and FY2019, and will instead preserve more cash to place itself in a better position to weather the downturn.

Known Trends and Events in the Oil and Gas Sector

In the 1st half of FY2020, there was a positive outlook for oil and gas market after experiencing prolonged downturn since the oil price crashed in year 2014.

The unprecedented Covid-19 pandemic rapid spread over the world in the beginning of the year 2020, it has had a huge effect on the oil and gas sector, which led to changes in global oil and gas supply and demand equilibrium as many countries have implemented movement control order or prompted lockdown to reduce social interaction among peoples.

In addition, the oil price volatility was also triggered by the changing dynamic among OPEC+ members and Saudi Arabia-Russia price war.

Management Discussion and Analysis (cont'd.)

FINANCIAL HIGHLIGHTS (Cont'd)

Known Trends and Events in the Oil and Gas Sector (Cont'd)

Apart from that, Covid-19 pandemic caused a major impact on the global economic with raising the risk of prolonged global economic recession. The relationship between United States-China are increasingly tense after the coronavirus-driven slump in the global economic. All these combined headwinds would be a hurdle on the path of the sector recovery.

Nevertheless, Coastal Group will continue pursuing expansion opportunities via a more conservative approach.

REVIEW OF OPERATING ACTIVITIES

The Shipbuilding and Ship Repair Division achieved higher sales of marine transportation vessels in FY2020 which was in line with the gradual improvement of the shipping market in the 1st half FY2020. Unfortunately, the outbreak of Covid-19 pandemic has adversely affected most of the economic activities across the world since February 2020. As a result, the Shipbuilding and Ship Repair Division was hardly hit by the Covid-19 pandemic crisis. In view of this adverse change in the market condition, significant impairment and write-off were recognised on certain OSV work-in-progress and deposits paid to suppliers.

On the other hand, the Vessel Chartering Division also badly affected by the Covid-19 pandemic crisis despite the Group successfully secured several new OSV charter contracts and improved the utilisation of the OSV fleet in 1st half FY2020. The unprecedented change in the market conditions due to Covid-19 pandemic had weaken the demand of the OSV chartering in the 2nd half of FY2020.

Notwithstanding the challenges caused by the Covid-19 pandemic crisis, our JUGCSU is operating smoothly during the FY2020, our JUGCSU has marked its fourth year anniversary since achieving its first gas in August 2016. The unit has contributed substantially the earnings of the Vessel Chartering Division during the financial year. Even though Mexico is seen as the epicentre of Covid-19 in Central America, our operation team continued to maintain smooth operation of JUGCSU during this difficult time. Our operation team has been strictly following the standard operating procedures imposed by local authorities in order to mitigate the risk of Covid-19.

SIGNIFICANT BUSINESS RISK

The Management viewed that our current significant business risk is the market risk. The oil and gas market remained unpredictable while experiencing lower oil price over prolonged periods of time. The market volatility has significantly escalated in the beginning of the year 2020 due to the market has further deteriorated with the impact of Covid-19 pandemic and collapse of oil price. In spite of the oil price gradually recovering, the global economy grows at its weakest pace. In line with above situation, most of project executions are postponed by oil and gas companies in order to revise investment plans and reduce operational and capital spending. Apart from that, the potential for further worsening in United States-China relations and outbreak of Covid-19 will exacerbate the global economic slowdown and global recession risk.

In order to mitigate this significant risk, Management will continue with its prudent cash management strategy to implement appropriate cost-cutting measures on existing operations as well as to enhance cost efficiency. Furthermore, Coastal will maintain its prudent business strategy to pursue business expansion opportunities and growth objectives by selecting good projects with long term earnings visibility.

PROSPECTS

While we have seen many companies have struggled to experience the prolonged industry downturn and the outbreak of Covid-19 pandemic, Coastal Group remain cautious in the medium term. With its history of having successfully navigated through many challenges and economic crisis in the past decades, the Group is well poised to weather the current storm and volatility. Moving forward, the Group will continue to explore business opportunities for growth within the oil and gas sector in order to enhance its sustainability and profitability.

Sustainability Statement

Coastal Contracts Bhd. ("Coastal") is pleased to present its Sustainability Statement which covers its corporate office, shipyards and business operations. This report has been prepared in accordance with the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia"). The contents of this statement and the identified material economic, environmental and social risks were identified by referring to the Sustainability Reporting Guide issued by Bursa Malaysia.

GOVERNANCE STRUCTURE

The Board of Directors oversees the development of the sustainability performance of the organization. The senior management and Heads of divisions will give recommendations and convey the material matters identified to the Board. The Board is kept informed and regularly updated on the progress of sustainability matters and any issues arising therefrom.

KEY SUSTAINABILITY MATTERS

The materiality assessment was conducted by taking into consideration the view and responses from the Group's stakeholders on significant economic, environment and social risks and opportunities which are crucial for the success and continued growth of the Group. The key sustainability matters identified are discussed below.

ECONOMIC

Procurement

As a key consideration to conducting a sustainable business, a proper management of the Group's procurement practice is required. In order to support domestic economy, the Group's local Purchasing team sources significant portion of products and services for its business from the local domestic suppliers. Should the local domestic suppliers be unable to provide such products or services, the team shall then source from international suppliers.

The Group's local shipyards maintain an appropriate Procurement Policy to ensure that the procured products and services are fit for purpose and represent value for money. The Procurement Policy ensures a standard of ethical conducts with fair assessment of quotations or proposals submitted by vendors.

Whistleblowing Policies and Procedures

Coastal maintains a Whistleblowing Policies and Procedures which provide a platform for all employees to disclose any improper conduct which affect the Group. Any Director, officer or employee of the Group can report any improper conduct by writing to the Audit Committee Chairman, Mr. Jacob O Pang Su Yin at jacob.pang@coastalcontracts.com.

Anti-Bribery and Corruption Policy

Coastal has established an Anti-Bribery and Corruption Policy ("ABC Policy") to set out the Group's zero-tolerance approach against all forms of corruption and bribery. The Group is committed to conducting its business activities in an ethical and transparent manner, as well as to acting professionally and integrity in all business dealings and relationships.

Any Director, officers or employees of the Group who has concern about suspected contravention of the ABC Policy, is encouraged to report the violations via the procedure as provided under the Group's Whistleblowing Policies and Procedures.

Code of Conduct

The Group maintains a Code of Conduct for all its employees intended to preserve business integrity and accountability. The Code of Conduct lists out the Group's expectations of its employees, outlining acceptable behavior throughout the organisation during the tenure of their employment. To ensure that the entire workforce is aware of this code, all new employees are presented with the Employees Handbook on joining the Group.

Sustainability Statement (cont'd.)

ENVIRONMENTAL

Environmental Compliance

One of the Group's initiatives is to switch to more environmentally friendly alternatives to minimise or reduce greenhouse gas footprint – by sourcing from suppliers' fuel-efficient marine engines that comply with the nitrogen oxide emission level requirements set by the governing International Maritime Organisation (IMO).

Under our CSR-conscious industrial practices, only non-toxic and non-polluting tin-free antifouling paints are used in the coating of ship hulls. Onboard, our manned ships are equipped with energy-efficient bulbs and sewerage treatment systems which cut down effluent discharge into waterways and the sea, as well as refrigeration systems with more eco-friendly refrigerants that sharply reduce emissions of ozone-depleting substances and greenhouse gas into the atmosphere. With the exception of certain vanes, joints and insulations, we do not use asbestos as this is known to cause very serious, often life-threatening illnesses such as mesothelioma and lung cancer.

Energy Efficient Practices

Coastal recognises that reducing environmental impact will not only lessen our unnecessary costs, but will also decrease additional carbon in the environment. Our employees are reminded to switch off all printers and lights when not in use. The same policy extends to the pantry, reception area and meeting rooms. Employees are also encouraged to print documents only when necessary to not only reduce paper wastage but also reduce energy costs and increase the lifespan of printers. All emails from the Company contain the footnote, "Please consider the environment before printing this email".

SOCIAL

Employee Benefits and Retention

In order to mitigate high employee turnover, the Group provides a competitive compensation and benefits packages to its employees, which are aligned with industry practices. The Group also provides training, personal development and a healthy workplace environment.

Diversity and Equal Employment Opportunities

Recognising that our people are the lifeblood and core to the success of Coastal Group, we are resolute in creating a conducive atmosphere, by introducing educational and self-development programmes thus enriching our personnel with career development prospects. It is the policy of the Group to provide equal employment opportunities for all qualified persons regardless of race, religion, sex, age, nationality, veteran status, and disability. This policy applies to recruitment, placement, promotion, training, transfer, retention, salary rate and other terms and conditions of employment.

For the current financial year, we have 203 employees with a male to female ratio of 72 : 28 compared to 196 employees (75 : 25) in the previous financial year. Our employees are made up of diverse nationalities for both its domestic and international operations.

Safety Measures to the Covid-19 Pandemic

To mitigate the impact of Covid-19 pandemic in the workplace environment, Coastal Group has implemented a set of standard operating procedures which aligned to the government guidelines. The Group is committed to encourage the practice of good personal hygiene and maintain the social distancing, which in line with the new normal concept of 3W (wash, wear and warn) and 3C (crowded places, confined space and close conversation) in order to promote health awareness among employees upon their return to the workplace.

The Group strives to maintain a safe and health working environment with implementing various preventive measures such as body temperature scanning, distribution of personal protective equipment including face masks, face shields and hand gloves, availability of hand sanitizers placed at strategic locations, printable posters regarding Covid-19 adhered at bulletin boards, routine disinfection and cleaning activities within the office premises.

In addition, the Group is committed to safeguard the health of all employees with a mandatory requirement of self-quarantining for employees return from overseas, and restriction of non-essential overseas travel is introduced as well.

Sustainability Statement (cont'd.)

SOCIAL (Cont'd)

Local Community

Coastal Group fully subscribes to the concept of giving back to the community and remains active in providing financial assistance towards worthy causes such as schools, sport and leisure bodies as well as the community and other charitable organisations in support of education, children and youth development.

During the financial year, Coastal Group made monetary donations to:

- i) Hospis Sandakan
- ii) Yong Peng High School for its Development Fund

Corporate Governance Overview Statement

The Board of Directors considers corporate governance as a fundamental part of its responsibilities in managing the business and affairs of the Group and is fully committed to maintaining high standards at all times. Set out below is a statement on how the Group has applied the principles and the extent of its compliance with the best practice as stipulated in the Malaysian Code on Corporate Governance ("MCCG") 2017.

The Board of Directors plays a primary role in corporate governance by setting out the strategic direction of the Group, establishing goals and monitoring the achievement of the said goals. A Strategic Plan has been adopted as one of the key policies in ensuring that the Group crystallises its future plans and provides a clear direction for the Board and the Management of the Group. A structured risk management process has been established to better identify, formalise, monitor within the various operating units and manage the business risk functions affecting the Group. This is elaborated in greater details in the Statement on Risk Management and Internal Control on pages 37 to 38 of this Annual Report.

The Executive Directors take the primary responsibility of managing the Group's business and resources. The intimate knowledge of the Executive Directors and their hands-on management practices have enabled the Group to become a leader in the industry.

PRINCIPLE A – BOARD LEADERSHIP AND EFFECTIVENESS

I. BOARD RESPONSIBILITIES

Practice 1.1 Roles and Responsibilities of the Board

In order to ensure effectiveness and discharge of its fiduciary and leadership duties, the Board:

- Retains full and effective control of the affairs of the Group;
- Formulates policies and strategies;
- Actively oversees and monitors management's performance;
- Reviews and adopts strategic corporate plans;
- Approves the Group's annual budget, including major capital commitments;
- Conducts periodic review of the achievements against business targets;
- Identifies principal risks and ensures the implementation of appropriate internal control systems and mitigation strategies;
- Oversees and evaluates the conduct of the Group's business;
- Ensures effective communication amongst the shareholders;
- Considers emerging issues which may be material to the business affairs of the Group;
- Ensures that the Group has a proper succession plan for its senior management and Board members; and
- Any other matters which require the Board's approval pursuant to the applicable rules, laws and regulations.

Apart from its statutory duties and responsibilities stated above, the Board oversees the management and affairs of the Group. Certain matters are specifically reserved for the Board's decision, including overall strategic direction, operational plan, capital expenditure, mergers and acquisitions, capital projects, Group's operating and financial performance and review of risks affecting the Group. The Board also delegates the formulation of business strategies and policies, and day-to-day management to the Executive Director and the Management. The Board is responsible for overseeing that the delegated tasks to Executive Directors and Management are carried out in accordance with the Group's core values and ethical guidelines with reference to the Directors' Code of Conduct of the Group.

Overall, the Board's key responsibilities reflect the recommendations prescribed by MCCG 2017.

Practice 1.2 Roles of Chairman

Mr. Ng Chin Heng serves as Executive Chairman. He provides top-level leadership and manages the overall direction of the Group. He also ensures that the views of shareholders are communicated to the Board as a whole in order to identify issues and concerns. He is responsible for executing the strategy as agreed by the Board and developing objectives by leading the senior executive team. In addition, he ensures that the Group's risks are adequately addressed and appropriate internal controls are in place. Scheduling regular and effective evaluations of the Board's performance is also one of the Executive Chairman's responsibilities.

Corporate Governance Overview Statement (cont'd.)

PRINCIPLE A – BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)

I. BOARD RESPONSIBILITIES (Cont'd)

Practice 1.3 Separation of roles of Chairman and Chief Executive Officer (“CEO”)

Although the position of Chairman of the Board is to be held by a Non-Independent Executive Director, Mr. Ng Chin Heng, it however does not imply that the independence of the Board is compromised. This is perceived as appropriate and of benefit to the Group given that Mr Ng has continued to demonstrate strong leadership to the Board and proven his competency as an Executive Director, especially in driving the Group to grow year-on-year. The Nomination Committee, which comprises of all the Independent Non-Executive Directors, takes the views that the current composition and mix of Executive Directors and Independent Non-Executive Directors for the Board is appropriate.

Practice 1.4 Company Secretaries

The Company Secretaries who are experienced, competent and knowledgeable on the laws and regulations, as well as directives issued by the regulatory authorities, provide clear and sound advice on requirements and procedures to be formulated and adopted by the Group arising from new statutes and guidelines implemented by regulatory authorities. The Board is also briefed on proposed contents and timing of material announcements to be made to Bursa Malaysia. In ensuring that Board meetings are properly convened, the Company Secretaries fulfil their attendance in Board meetings. Not only that, the Company Secretaries also work collaboratively with the Management in assuring timely and appropriate information flows within the Group.

Practice 1.5 Information and Support of Directors

Prior to Board meetings, an agenda together with the relevant documents and information are distributed to all Directors within sufficient time to enable the Directors to review, seek additional information or clarification on the matters to be deliberated at Board meetings unless in unavoidable circumstances. The Senior Management and/or other relevant Board members will provide comprehensive explanation of pertinent issues and recommendations. The issues would then be deliberated and discussed thoroughly by the Board prior to decision-making.

Apart from the above, the Board members are supplied with information and reports on financial, operational, corporate, regulatory, business development and audit matters by way of board reports or upon specific request to enable them to discharge their duties and responsibilities.

Meetings and Time Commitments

Board meetings are held at least four (4) times a year at quarterly intervals with additional meetings convened when necessary. In intervals between Board meetings, when matters require Board decision, Board approvals are sought via Directors' Circular Resolutions (DCR) with sufficient information required to make an informed decision.

The proceedings of the Board meetings are conducted in line with a planned agenda in order to facilitate constructive and profound deliberations. The agenda is furnished to the Directors at least 7 days prior to the Board meeting, together with proposal papers and reports to allow sufficient time for the Directors to review the Board papers and to provide insightful comments during the Board meeting. The Board had held five (5) meetings during the financial year from 1 July 2019 to 30 June 2020 where the Board deliberated and considered a variety of matters including the Group's financial results, major investments, strategic decisions and direction of the Group.

Where a potential conflict arises in the Group's transactions involving any Director's interest, such Director is required to declare his/her interests and abstain from the decision making process.

The Board is satisfied with the level of time commitment given by the Directors towards fulfilling their roles and responsibilities. Shown below are the number of meetings attended by each Director for the financial year from 1 July 2019 to 30 June 2020, which were held at the registered office on 30 August 2019, 7 October 2019, 25 November 2019, 26 February 2020 and 29 June 2020.

Meetings and Time Commitments (Cont'd)

Name of Director	Designation	No. of Meetings Attended	%
Ng Chin Heng	Executive Chairman	5/5	100%
Ng Chin Shin	Executive Director	4/5	80%
Ng Chin Keuan	Executive Director	4/5	80%
Loh Thian Sang @ Lo Thian Siang	Independent Non-Executive Director	5/5	100%
Jacob O Pang Su Yin	Independent Non-Executive Director	5/5	100%
Tuan Hj. Ir Intizam Bin Ayub	Independent Non-Executive Director	5/5	100%

The Directors are aware of the time commitment expected from each of them to attend to the Group's matters, including attendance at Board and other committees' meetings.

All Directors are required to immediately notify the Board when accepting any new external board appointments. Pursuant to paragraph 15.06(1) of Main Market Listing Requirements of Bursa Malaysia Securities Berhad, any Board member shall not hold more than five (5) directorships in public listed companies at any one time.

Practice 2.1 Board Charter

A Board Charter has been established and approved by the Board. The Board Charter acts as a source of reference and primary induction literature in providing insights to Board members and senior management. The Board will review Board Charter annually to ensure that it remains consistent with the Board's objectives and responsibilities as well as relevant standards of corporate governance. The last review was done on 6 October 2020.

The details of the Board Charter are available for reference at www.coastalcontracts.com.

Practice 3.1 Code of Conduct and Ethics

A Directors' Code of Conduct has been established and approved. This code sets out the standards of conducts and basic principles to guide the Board in carrying out their duties and responsibilities to the highest standards of honesty and integrity.

The Group is committed to ensuring that its business and operations are conducted in an ethical, moral and legal manner.

Practice 3.2 Whistleblowing Policies and Procedures

Whistleblowing Policies and Procedures provide an avenue for all employees to disclose any improper conduct occurring in the course of dealing with Coastal and its businesses and operations. Under the policy, confidentiality of the matter raised and the identity of the whistle blower is protected. Any Director, officer or employee of the Group can report any improper conduct by writing to the Audit Committee Chairman, Mr. Jacob O Pang Su Yin at jacob.pang@coastalcontracts.com.

PRINCIPLE A – BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)

I. BOARD RESPONSIBILITIES (Cont'd)

Practice 3.3 Anti-Bribery and Corruption Policy

An Anti-Bribery and Corruption Policy ("ABC Policy") was established to provide information and guidance to those working for Coastal Group on how to recognise and deal with bribery and corruption issues, as well as understand their responsibilities. In addition, the implementation of ABC Policy is aimed at ensuring that the Group has adequate procedures to prevent and detect bribery and corruption.

The Board will monitor compliance and review regularly with the ABC Policy in order to ensure that the ABC Policy continues to remain relevant and appropriate. Besides that, any Director, officers or employees of the Group suspects contravention of the ABC Policy are required to promptly report the violations in accordance with the Group's Whistleblowing Policies and Procedures.

II. BOARD COMPOSITION

Practice 4.1 Board Composition and Independence Board Composition

The Board currently comprises of six (6) members of whom three (3) are Executive Directors and three (3) are Independent Non-Executive Directors. The presence of the Independent Non-Executive Directors provides effective check and balance to the functioning of the Board. The three (3) Independent Non-Executive Directors are not employees and there are no relationships or circumstances which are likely to affect, or could appear to affect, the Independent Non-Executive Directors' judgement. They bring an external perspective and help develop strategic plans, as well as scrutinising the Management's performance in attaining its goals.

The Board views the number and composition of the Directors to be optimal and well-balanced given that its members are drawn from varied backgrounds with proper mix of skills, character, integrity, competence and time commitment, bringing in-depth and diverse experiences and perspectives to the Group's business operations. The profile of each Director is presented on pages 10 to 12 of this Annual Report.

Annual Assessment of Independence

The Nomination Committee shall assess the independence of each Independent Director in accordance with the definition of Independent Director as listed on paragraph 1.01 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The Nomination Committee believes that the independence of the Board will not be impaired by its current board composition.

Practice 4.2 and 4.3 Tenure of Independent Director

The Board is fully aware of one of the recommendations of MCCG 2017 which states that the tenure of an Independent Director should not exceed a cumulative term of nine (9) years. Should such a case occur, he may continue subject to his re-designation as Non-Independent Non-Executive Director. Alternatively, he may also be retained as Independent Non-Executive Director subject to shareholders' approval with justification of his retention.

In the event that the Board continues to retain the Independent Director after the twelfth (12th) year, annual shareholders approval must be sought through a two-tier voting process to retain the said Director as an Independent Director.

Practice 4.4 and 4.5 Board Diversity

The Group practices non-discrimination in the age, gender, ethnicity or religion towards the organisation, which includes the selection of Board members. It is important to have a Board that is composed of best-qualified individuals who possess the requisite knowledge, experience, independence and good judgement so as to ensure that the Board functions effectively and able to discharge its duties in the best interests of the Group and the Company's shareholders.

Although no female member has been appointed to the Board of Directors, it does not imply that the Board is not in favour of having a female Board member. The Board has always believed in providing equal opportunities to all genders based on merit and selecting the best candidate to attain the Company's strategic objectives and goals.

PRINCIPLE A – BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)

II. BOARD COMPOSITION (Cont'd)

Practice 4.6 Sourcing of Directors

The Nomination Committee is responsible to ensure that the procedures for appointing new Directors are transparent and also appointments are made on merits. The process for the appointment of a new director is summarised in the sequence as follows:

- i) The candidate is identified upon the recommendation by the existing Directors and/or Senior Management;
- ii) In evaluating the suitability of candidates to the Board, the Nomination Committee considers the competency, experience, commitment, contribution and integrity of the candidates, and in the case of candidates proposed for appointment as Independent Non-Executive Directors, the candidate's independence;
- iii) Recommendation to be made by Nomination Committee to the Board. This also includes recommendation for appointment as a member of the various Board Committees, where necessary; and
- iv) Decision to be made by the Board on the proposed new appointment, including appointment to the various Board committees.

Any new nomination received is put to the full Board for assessment and endorsement.

Practice 4.7 Nomination Committee

The Nomination Committee comprises of the following members:

Name	Designation	Directorship
Jacob O Pang Su Yin	Chairman	Independent Non-Executive Director
Loh Thian Sang @ Lo Thian Siang	Member	Independent Non-Executive Director
Tuan Hj. Ir Intizam Bin Ayub	Member	Independent Non-Executive Director

The Nomination Committee held two (2) meetings during the financial year from 1 July 2019 to 30 June 2020. These meetings were held at the registered office on 7 October 2019 and 29 June 2020. Details of the attendance of the meetings by the Committee Members are as follows:

Name of Director	No. of Meetings Attended	%
Jacob O Pang Su Yin	2/2	100%
Loh Thian Sang @ Lo Thian Siang	2/2	100%
Tuan Hj. Ir Intizam Bin Ayub	2/2	100%

A summary of the activities of the Nomination Committee during the year is as follows:

- Reviewed the mix of skills, experience and other qualities, including core competencies, of the Board members;
- Assessed the effectiveness of the Board as a whole, the Committees of the Board and the contribution of each individual Director;
- Provide recommendations on candidates for directorship, re-appointment and re-election of Board members and the Board members to sit on Board Committees;
- Discussed and reviewed the Board's succession plans; and
- Support Directors' induction programs and continuing development.

Corporate Governance Overview Statement (cont'd.)

PRINCIPLE A – BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)

II. BOARD COMPOSITION (Cont'd)

Practice 5.1 Evaluation of Board, Board Committees and Individual Directors

Annual Assessment of Existing Directors and Board Committees

The Nomination Committee assesses the performance of all the Directors due for re-election and makes recommendations to the Board for their re-election to be tabled for shareholders' approval at the forthcoming AGMs. The process of assessing the Directors is an on-going responsibility of the entire Board, made possible by a formal evaluation process to annually assess the effectiveness of the Board Committees, as well as the contribution and performance of each individual Director. The criteria used includes an assessment of their roles, duties, responsibilities, competency, expertise and contribution whereas for the Board and Board Committees, the criteria used include composition, structure, accountability, responsibilities, adequacy of information and processes.

The Nomination Committee also assesses the independence of each Independent Director in accordance with the definition of Independent Director as listed on paragraph 1.01 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The Nomination Committee believes that the independence of the Board will not be impaired by its current board composition.

Directors' Training

The Board sees Directors' training as an on-going practice and regularly assesses their training needs so as to develop and appraise their knowledge and skills required to fulfil their responsibilities.

All the Directors have attended the Mandatory Accreditation Programme as prescribed by Bursa Malaysia Securities Berhad within four (4) months of their appointments. During the financial year from 1 July 2019 to 30 June 2020, the details of seminars attended by the Directors are as follows:

Name of Director	Seminar
Ng Chin Heng	• 2020 Budget and Tax Conference
Ng Chin Shin	• 2020 Budget and Tax Conference
Ng Chin Keuan	• 2020 Budget and Tax Conference
Jacob O Pang Su Yin	• Corporate Board Leadership Symposium 2020
Loh Thian Sang @ Lo Thian Siang	• Corporate Board Leadership Symposium 2020
Tuan Hj. Ir Intizam Bin Ayub	• Corporate Liabilities Under The MACC Effective From 1 June 2020 And Its Mitigations

The Directors will continue to undergo relevant training programmes to keep abreast with latest changes in laws, regulations and the business environment to equip them with the knowledge to discharge their duties effectively. Furthermore, the Company Secretary circulates the relevant guidelines on statutory and regulatory requirements from time to time for the Directors' reference and will brief the Board members on these updates as and when required.

III. REMUNERATION

Practice 6.1 Remuneration Policy and Procedures for Directors and Senior Management

Basic salaries for Executive Directors are fixed for the duration of their contract and any adjustment of the basic salary will be reviewed and endorsed by the Remuneration Committee, considering factors such as individual performance, inflation price index, affordability, industry's practices and benchmarks. As for Non-Executive Directors, the quantum of Directors' fees is recommended by the Remuneration Committee to the Board after taking into account of the fiduciary duties and responsibilities of the Non-Executive Directors under the relevant regulatory requirements.

Bonus scheme which is based on the individual and Company's performance is offered to the Executive Directors and the bonuses payable are to be reviewed by the Remuneration Committee and approved by the Board.

III. REMUNERATION (Cont'd)

Practice 6.1 Remuneration Policy and Procedures for Directors and Senior Management (Cont'd)

All benefits in kind are made available as appropriate. In respect of the Executive Directors, contribution is made to the Employees Provident Fund ("EPF"), the national mandatory defined contribution plan. The Company is subject to reimbursement of associated expenses incurred by the Directors in the course of fulfilling their duties as Executive Directors.

The Board as a whole determines and endorses the remuneration of the Directors after considering the proposals from the Remuneration Committee. Individual Directors concerned shall abstain from discussions and decisions in respect of their own remuneration. The Directors' remuneration shall be determined by an ordinary resolution of the Company pursuant to Clause No.123 of the Company's Constitution.

Practice 6.2 Remuneration Committee

The Remuneration Committee comprises the following members:

Name	Designation	Directorship
Jacob O Pang Su Yin	Chairman	Independent Non-Executive Director
Ng Chin Heng	Member	Executive Chairman
Loh Thian Sang @ Lo Thian Siang	Member	Independent Non-Executive Director

The Committee shall meet when there are matters referred to them for consideration or as necessary. The Committee has access to professional advice on remuneration matter from within the Group and external specialists of the field in making recommendations to the Board.

The Remuneration Committee held one (1) meeting during the financial year, which was attended by all of the Committee members. The Remuneration Committee ensures that formal and transparent remuneration policies and procedures have been put in place to attract and retain Directors of adequate competency in order to run the Group successfully. Remuneration packages for executive directors shall be fair in accordance with their achievements and contributions to the Group. The Committee has the right to obtain independent consultants' advice and information about remuneration practices elsewhere.

The Terms of Reference of Remuneration Committee is available for reference at the Company's website at www.coastalcontracts.com.

Corporate Governance Overview Statement (cont'd.)

PRINCIPLE B – EFFECTIVE AUDIT AND RISK MANAGEMENT

Practice 8.1 Audit and Risk Management Committee Composition and Chairman Practice 8.4 (Step Up) Independence of Audit and Risk Management Committee

The Audit Committee is made up exclusively of Independent Directors based on the Step-Up recommendation of the Code and also meets the Listing Requirements of which states the Audit Committee is to comprise no fewer than three (3) members and that all members must be Non-Executive Directors with a majority being Independent Directors. The Chairman of the Audit Committee is an Independent Director. The role and responsibilities of the Audit Committee as well as their rights are set out in the Terms of Reference contained on the corporate website. Details of the activities carried out by the Audit Committee in FYE 2020 are set out on pages 23 to 25.

There is no separate committee to govern risk management, that task being undertaken by the Audit Committee.

Practice 8.2 and 8.3 Oversight and Assessment of the Suitability and Independence of External Auditors

To ensure independence, the Company obtains written assurance from the external auditors confirming that they have been independent throughout the conduct of the audit engagement in accordance with the terms of all relevant professional and regulatory requirements. The Audit Committee also reviews and assesses the appointment and re-appointment of the external auditors via an assessment checklist in accordance with the assessment criteria covering regulatory requirements. Terms of engagement for services provided by the external auditors are also reviewed by the Audit Committee prior to submission to the Board for approval. The Board, upon concurrence with the outcome of the assessment approved the re-appointment of external auditor based on the Audit Committee's recommendation subject to shareholder's approval at the annual general meeting.

It is the policy of the Audit Committee to meet with the external auditors at least two (2) times a year to discuss the audit plan, audit findings and views in respect of the integrity of the Group's financial statements. The external auditors are also invited to attend the annual general meeting.

Practice 8.5 Financial Literacy of the Audit Committee

The Audit Committee possesses the right mix of skills to discharge its duties effectively.

All members of the Audit Committee play key supporting roles by contributing their knowledge, guidance and experience towards making independent judgement on issues of strategies, performance, resources and standards of conduct. Majority of the members of the Audit Committee have the necessary financial, technical and commercial expertise required to meet their responsibilities and provide an effective level of challenge to management.

Practice 9.1 and 9.2 Risk Management and Internal Control Framework

The Board acknowledges that it is responsible for maintaining a sound system of internal control covering not only financial controls but also operational, compliance as well as risk management. The internal control system is designed to meet the Group's particular needs and to manage the risk to which it is exposed. The system, by its inherent limitations, can only provide reasonable but not absolute assurance against misstatement or loss. The Board reviews risk exposures, evaluates risk and approves risk management policies to ensure effective risk management profile is in place.

The Board's statement on risk management and internal control is set out on pages 37 to 38 of this Annual Report.

Practice 10.1 and 10.2 Internal Audit Function

The Group's internal audit function was outsourced to an independent professional firm to provide independent assurance and assist the Audit Committee in discharging its duties and responsibilities. The functions of the internal audit include the review and/or appraisal of the effectiveness of the risk management, internal control and governance processes within the Group. The internal audit function is prescribed in more detail in the Audit Committee Report of this Annual Report.

Corporate Governance Overview Statement (cont'd.)

PRINCIPLE C – INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

Financial Reporting

The Board aims to provide and present a balanced and comprehensive assessment of the Group's financial performance and prospects in all their reports and announcements to the shareholders, investors, regulatory bodies and the general public. The Board is assisted by the Audit Committee to oversee the Group's financial reporting process and the quality of its financial reporting while providing transparent and up-to-date disclosures of the Group's performance. The Audit Committee also reviews the annual and interim financial results released by the Group including the appropriateness of accounting policies and compliance with approved accounting standards and regulatory requirements. When significant accounting and auditing issues arise, the Audit Committee will hold discussion on their observations with the external auditors. The Statement by Directors pursuant to Section 251(2) of the Companies Act 2016 is set out on page 47 of this Annual Report.

Corporate Disclosures Policies and Procedures

Practice 11.1 Communication with Stakeholders

The Board recognises the importance of an effective communication channel between the Board, shareholders and the general public. The Board reviews and implements corporate communication policies with the shareholders, other key stakeholders and the public. The annual reports, quarterly results, press releases and any announcements on material corporate exercises are the primary modes of disseminating information on the Group's business activities and performance.

Practice 11.2 Integrated Reporting

The Group has yet to adopt integrated reporting.

Practice 12.1 Notice of Annual General Meeting

The Company's AGM provides an opportunity for direct interaction with shareholders where questions and concerns raised would serve as feedback to the Group's business and corporate decisions. The notice of AGM will be published in at least one newspaper of national circulation for a wider dissemination of such notice and to encourage greater shareholders' participation at general meeting.

Practice 12.2 Directors to attend the General Meeting

All the Directors shall endeavour to attend the General Meetings to allow the shareholders to raise questions and clarify any issues they may have relating to each resolution tabled for approval.

Practice 12.3 Electronic Voting

The Board has taken note of paragraph 8.29A(1) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, which states that any resolution set out in the notice of any general meeting or in any notice of resolution which may properly be moved and is intended to be moved at any general meeting is voted by poll. The Board shall ensure compliance with this requirement. The votes cast at general meetings shall be validated by an independent scrutineer.

The appointed scrutineer must not be an officer of the Company or any of its subsidiary companies and shall be an independent person undertaking the polling process. In the event the scrutineer is interested in any resolutions to be passed, the Board will ensure that the scrutineer concerned must refrain from acting as the scrutineer for that resolution.

As leveraging on technology is a concept introduced, the Company would require more time to study the availability of such software and hardware as well as writing the programmes to facilitate such mode of voting.

Corporate Governance Overview Statement (cont'd.)

STATEMENT ON COMPLIANCE WITH BEST PRACTICES OF THE CODE

This statement is prepared in compliance with Paragraph 15.25 of the Bursa Malaysia Main Market Listing Requirements and it is to be read together with the Corporate Governance Report 2020 of the Company which is available in the Company's website at www.coastalcontracts.com.

The Board is satisfied that the Company has complied with the Code during the financial year with regard to the recommendations supporting the Principles except as otherwise stated.

This statement was presented and approved at the Board of Directors' Meeting held on 6 October 2020.

Statement On Risk Management And Internal Control

The Board of Directors (“Board”) is pleased to present the Group’s Statement on Risk Management and Internal Control for the financial year ended 30 June 2020. This statement has been prepared in accordance with Bursa Malaysia Main Market Listing Requirements, Paragraph 15.26(b), and in compliance with Malaysian Code on Corporate Governance 2017.

RESPONSIBILITY

The Board of Directors recognises the importance of sound systems of internal control and effective risk management practices to safeguard shareholders’ investments and the Group’s assets.

The Board confirms that there is an ongoing process for identifying, assessing and managing the principal risks faced by the Group, which is in accordance with the guidance as contained in the “Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers”. This process includes reviewing and updating the system of internal controls to take into consideration changes in the regulatory and business environment.

In view of the limitations inherent in any system of internal control, the Group’s internal control system can only provide reasonable but not absolute assurance against material misstatement or loss, as it is designed to manage rather than eliminate the risks that may impede the achievement of the Group’s business objectives.

The review of the risk management and internal control reports is delegated by the Board to the Audit Committee.

RISK MANAGEMENT FRAMEWORK

Risk management has been firmly embedded in the Group’s management system. It is a process of understanding and managing the risks that the Group is inevitably subject to in attempting to achieve its business objectives. The Board’s primary objective and direction in managing the Group’s risks are focused on sustaining the achievement of the Group’s business objectives with the lowest possible chance of failure. The Board and the Management are responsible to ensure there is an appropriate risk management process for identifying, assessing, responding, monitoring and reviewing significant risks faced by the Group in all aspects. The Management and Head of Departments are responsible for managing the risks of their respective departments on an ongoing basis.

The diagram above sets out the Group Risk Management framework. At least once a year, a Group-wide risk assessment shall be performed to identify the nature and extent of such risks and determine respective mitigating steps. The Group has formalised the Risk Register, which identifies the risks and associated mitigating control activities and future actions.

Risks are identified by assessing the probability and impact of their occurrence and are evaluated as Low, Medium or High. The level of residual risk is determined after identifying and evaluating the effectiveness of existing controls or mitigating measures.

The Group’s identified risks are categorised into external risks, business risks, financial risks and operational risks. Based on the Risk Register, the Board and the Management, after further analysis and discussion, shall annually review the previously identified risks, update their likelihood of occurrence and potential impact. Should there be new risks emerging as a result of the changing environment, the Board and the Management will update the Risk Register immediately and ensure appropriate action plans be taken in response to the new risks.

Statement On Risk Management And Internal Control (cont'd.)

OTHER KEY ELEMENTS OF INTERNAL CONTROL

Ad hoc and scheduled meetings at operation sites are held to identify, discuss and resolve operational issues. The Board is aware of and involved when necessary in resolving any significant issue identified at those meetings. The Group is structured as such that the heads of each operating unit has clear reporting line. There is also proper segregation of duties to ensure safe custody of the Group's assets.

The Executive Directors are actively involved in the day-to-day operations of the Group. The Executive Directors ensure that all employees have clear understanding of their roles and responsibilities and that the Group's operations are carried out in accordance with standards set and expected by the Board.

The Executive Directors has established a structured and formal employee appraisal system that ensures employees are remunerated based on their performance.

INTERNAL AUDIT FUNCTION

The Group outsources its Internal Audit function to an independent professional firm, whose remit is to the Audit Committee. The Internal Auditors have carried out the internal audit covering the period under review and presented their report to the Audit Committee. The Audit Committee has deliberated on the contents of the report and is satisfied that appropriate actions are being taken to address all the weaknesses highlighted. The costs incurred for the Internal Audit function in respect of the financial year ended 30 June 2020 was RM38,000.

ADEQUACY AND EFFECTIVENESS OF THE GROUP'S RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM

In addition to the assurance received from the Executive Chairman and Chief Financial Officer on the adequacy and effectiveness of the Group's risk management and internal control system, the Board is of the view that the system of risk management and internal control, which has been implemented within the Group is sound and effective. It has not resulted in any material losses and contingencies during the financial year ended 30 June 2020. The risk management and internal control procedures will be reviewed continuously in order to improve and strengthen the system to ensure ongoing adequacy, integrity and effectiveness so as to safeguard the Group's assets and shareholders' investments.

REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

Pursuant to Paragraph 15.23 of the Listing Requirements of Bursa Malaysia Securities Berhad, the External Auditors have reviewed this Statement for inclusion in the Annual Report 2020. Their reviews were performed in accordance with Audit and Assurance Practice Guide 3 ("APPG3") issued by the Malaysian Institute of Accountants.

Based on their review, the External Auditors reported to the Board that nothing has come to their attention which has caused them to believe that this statement is not prepared, in all material respects, in accordance with the disclosures required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers to be set out, nor is factually incorrect.

This statement was presented and approved at the Board of Directors' Meeting held on 6 October 2020.

Statement Of Directors' Responsibility For Preparing The Financial Statements

The Directors are required by the Companies Act 2016 to prepare financial statements for each financial year which have been made out in accordance with the applicable approved accounting standards and give a true and fair view of the state of affairs of the Group and the Company at the end of the financial year and of the results and cash flows of the Group and the Company for the financial year.

In preparing the financial statements, the Directors have:

- Selected suitable accounting policies and applied them consistently;
- Made judgement and estimates that are reasonable and prudent;
- Ensured that all applicable approved accounting standards have been followed; and
- Prepared financial statements on the going concern basis as the Directors have a reasonable expectation, having made due enquiries, that the Group and Company have adequate resources to continue in operational existence for the foreseeable future.

The Directors have responsibility for ensuring the Company keeps proper accounting records which disclose with reasonable accuracy the financial position of the Group and the Company and which enable them to ensure that the financial statements comply with the Companies Act 2016.

The Directors have overall responsibilities for taking such steps as are reasonably available to them to safeguard the assets of the Group as well as to prevent and detect fraud and other irregularities.

The above statement of the Directors' responsibilities for preparing the financial statements was made in accordance with a Board resolution dated 6 October 2020.

Directors' Report (cont'd.)

Directors' Interests (Cont'd)

Ng Chin Heng, by virtue of his interests in shares in the Company, is deemed interested in the shares of all the subsidiaries to the extent the Company has an interest, in accordance with Section 8 of the Companies Act 2016.

The other Directors holding office at the end of the financial year had no interest in shares of the Company or its related corporations during the financial year.

Issue of Shares and Debentures

During the financial year, the Company increased its issued and paid-up share capital from RM302,518,900 to RM307,049,826 by way of the issuance of 3,461,100 new ordinary shares from the exercise of options under the Company's Employees' Share Option Scheme at the exercise price of RM0.96 per ordinary share.

The new ordinary shares issued rank pari passu in all respects with the existing ordinary shares of the Company.

The Company did not issue any debentures during the financial year.

Treasury Shares

During the financial year, the Company repurchased 4,269,600 of its issued ordinary shares from the open market at an average price of approximately RM0.79 per share. The total consideration paid for the repurchase including transaction costs was RM3,354,112. The shares repurchased are being held as treasury shares in accordance with Section 127(6) of the Companies Act 2016 and are presented as a deduction from equity.

As at 30 June 2020, the Company held as treasury shares a total of 8,466,400 of its 535,350,031 issued and fully paid-up ordinary shares. Such treasury shares are held at a carrying amount of RM10,399,459 and further relevant details are disclosed in Note 30 to the financial statements.

Options Granted Over Unissued Shares

During the financial year, no options were granted by the Company to any person to take up any unissued shares in the Company except for the share options granted pursuant to the Company's Employees' Share Option Scheme below.

Employees' Share Option Scheme

The Employees' Share Option Scheme of the Company ("ESOS") is governed by the ESOS By-Laws and was approved by shareholders on 2 December 2015. The ESOS is to be in force for a period of 5 years effective from 2 February 2016.

The details of the ESOS are disclosed in Note 30(c) to the financial statements.

Other Statutory Information

- (a) Before the statements of profit or loss, statements of comprehensive income and statements of financial position of the Group and of the Company were made out, the Directors took reasonable steps:
 - (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for impairment losses on receivables, and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for impairment losses on receivables; and
 - (ii) to ensure that any current assets which were unlikely to realise their value as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.

Directors' Report (cont'd.)

Other Statutory Information (Cont'd)

- (b) At the date of this report, the Directors are not aware of any circumstances which would render:
 - (i) the amount written off for bad debts or the amount of the allowance for impairment losses on receivables inadequate to any substantial extent; and
 - (ii) the values attributed to the current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the Directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) At the date of this report, there does not exist:
 - (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year.
- (f) In the opinion of the Directors:
 - (i) no contingent or other liability of the Group and of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

Subsidiaries

The details of the Group's subsidiaries are disclosed in Note 17 to the financial statements.

Significant Events During The Financial Year

The significant events of the Group and of the Company during the financial year are disclosed in Note 40 to the financial statements.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Coastal Contracts Bhd., which comprise the statements of financial position as at 30 June 2020 of the Group and of the Company, and the statements of profit or loss, statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 52 to 146.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 30 June 2020, and of their financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Recoverability of Trade Receivables Refer to Note 21 to the financial statements	
Key Audit Matter	How our audit addressed the key audit matter
<p>Trade receivables are a major component of the financial position of the Group. Given the unfavourable macro-economic factors from prolonged weakness in the crude oil prices, the recoverability of trade receivables may be uncertain and the risk of trade receivables becoming insolvent may be high.</p> <p>There is significant degree of Management judgement involved in the assessment of recoverability of trade receivables, particularly regarding estimation of future cash collection and in calculating allowance for impairment losses.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> Performing the subsequent collections on the significant trade receivables balances and trade receivables aged more than one (1) year. Reviewing the ageing of trade receivables. Reviewing the recoverability of trade receivables and enquiring the Management of the adequacy of allowance for impairment losses on trade receivables.

Net Realisable Value of Inventories Refer to Note 20 to the financial statements	
Key Audit Matter	How our audit addressed the key audit matter
<p>Inventories are a major component of the financial position of the Group. The unfavourable macro-economic factors from prolonged weakness in the crude oil prices has resulted in the drop in demand for offshore support vessels which might lead to slow moving inventories. The significant decline in sales of offshore support vessels has led Management to assess the net realisable values of the Group's unsold vessels, both completed and under construction, which were included in inventories as at 30 June 2020 with reference to the valuation report prepared by an independent valuer.</p> <p>The net realisable values of the unsold offshore support vessels were assessed on the basis of their respective completed state and after taking into consideration of the prevailing market conditions for the supply and demand for such vessels.</p> <p>There is a significant degree of Management judgement involved and assumptions of future events that are inherently uncertain. Possible changes in judgements and related estimates of the offshore support vessels' net realisable value could result in material adjustments to the inventory carrying amounts.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Evaluating the qualifications, objectivity and competency of the independent external valuer engaged in the valuation of the unsold vessels. ▪ Assessing the methodologies and reasonableness of the assumptions used in arriving at the vessel valuation. ▪ Checking the accuracy and relevance of the input data provided by Management to the independent external valuer. ▪ Assessing the adequacy for inventory writedown.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As a part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

For the Financial Year Ended 30 June 2020

1. Corporate Information

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad. The registered office and principal place of business of the Company are located at Block G, Lot 3B, Bandar Leila, W. D. T. 259, 90009 Sandakan, Sabah. The principal activity of the Company is investment holding.

The principal activities of the subsidiaries are stated in Note 17 to the financial statements. There have been no significant changes in the nature of the principal activities during the financial year.

2. Summary of Significant Accounting Policies

2.1 Basis of Preparation

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (MFRSs), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have been prepared on a historical cost basis, except as disclosed in the accounting policies below.

The financial statements are presented in Ringgit Malaysia (RM).

2.2 Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except as follows:

On 1 July 2019, the Group and the Company adopted the following amended MFRSs mandatory for annual financial periods beginning on or after 1 July 2019.

Description

MFRS 16 Leases
IC Interpretation 23 Uncertainty Over Income Tax Treatments
Amendments to MFRS 9: Prepayment Features with Negative Compensation
Amendments to MFRS 16: Covid-19 – Related Rent Concessions
Amendments to MFRS 119: Plan Amendment, Curtailment or Settlement
Amendments to MFRS 128: Long-term Interests in Associates and Joint Ventures
Annual Improvements to MFRS Standards 2015 – 2017 Cycles

The adoption of the above amended MFRSs did not have any material impact on the Group's and the Company's financial statements except as follows:

MFRS 16 Leases

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases. MFRS 16 requires a lessee to recognise right-of-use assets and lease liabilities for all leases with a term of more than 12 months whereby the right-of-use assets are subject to depreciation and the interest on lease liabilities are calculated using the effective interest method. For a lessor, MFRS 16 continues to allow the lessor to classify its leases as either operating leases or finance leases and to account them differently.

The Group has adopted MFRS 16 using the modified retrospective approach under which the cumulative effect of initial application is recognised as an adjustment to the retained earnings as at 1 July 2019 (date of initial application) without restating any comparative information.

The Group has applied MFRS 16 only to contracts that were previously identified as leases under MFRS 117 'Leases' and IC Interpretation 4 'Determining Whether an Arrangement Contains a Lease'. Therefore, MFRS 16 has been applied only to contracts entered into or changed on or after 1 July 2019.

2. Summary of Significant Accounting Policies (Cont'd)

2.2 Changes in Accounting Policies (Cont'd)

The adoption of the above amended MFRSs did not have any material impact on the Group's and the Company's financial statements except as follows: (Cont'd)

MFRS 16 Leases (Cont'd)

(a) Lessee accounting

At 1 July 2019, for leases that were classified as operating leases under MFRS 117, the Group measured the lease liabilities at the present value of the remaining lease payments, discounted using the rates implicit in the lease. The right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease.

The Group has used the following practical expedients in applying MFRS 16 for the first time:

- Applied for the exemption not to recognise operating leases with a remaining lease term of less than 12 months as at 1 July 2019;
- Excluded initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- Used hindsight in determining the lease term where the lease contract contains options to extend or terminate the lease.

For leases that were classified as finance leases, the Group has recognised the carrying amount of the leased asset and lease liability immediately before 1 July 2019 as the carrying amount of the right-of-use asset and the lease liability as at the date of initial application.

The following table explains the difference between the operating lease commitments disclosed in the last financial year (determined under MFRS 117) and the lease liabilities recognised at 1 July 2019:

	RM
Group	
Operating lease commitments as at 30 June 2019 as disclosed in last financial year	1,543,872
Discounted using the rate implicit in the lease as at 1 July 2019	1,302,033
Add: Finance lease liabilities recognised as at 30 June 2019	72,930
Add: Cancellable operating lease as at 30 June 2019	27,970
Lease liabilities recognised as at 1 July 2019	1,402,933

There were no financial impacts to the Company's financial statements upon the transition to MFRS 16 at the date of initial application.

(b) Lessor accounting

The Group did not make any adjustments to the accounting for assets held as lessor under operating leases as a result of the adoption of MFRS 16.

There were no financial impacts to the Group's and the Company's retained earnings as at 1 July 2019.

2.3 Standards Issued But Not Yet Effective (Cont'd)

The standards and interpretations that are issued but not yet effective up to the date of issuance of the Group's and the Company's financial statements are disclosed below. The Group and the Company intend to adopt these standards, if applicable, when they become effective. (Cont'd)

* The effective date has been deferred from annual reporting periods beginning on or after 1 January 2021 to 1 January 2023 pursuant to the amendments to MFRS 17 issued by the MASB, namely 'Amendments to MFRS 17 Insurance Contracts'.

** The effective date has been deferred from annual reporting periods beginning on or after 1 January 2022 to 1 January 2023 pursuant to the amendments to MFRS 101 issued by the MASB, namely 'Classification of Liabilities as Current or Non-current – Deferral of Effective Date'.

The adoption of the above standards and interpretations (including the consequential amendments, if any) is expected to have no material impact on the financial statements of the Group and of the Company upon their initial application.

2.4 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the reporting date. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied for like transactions and events in similar circumstances.

The Company controls an investee if and only if the Company has all the following:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its involvement with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

When the Company has less than a majority of the voting rights of an investee, the Company considers the following in assessing whether or not the Company's voting rights in an investee are sufficient to give it power over the investee:

- (i) The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- (ii) Potential voting rights held by the Company, other vote holders or other parties;
- (iii) Rights arising from other contractual arrangements; and
- (iv) Any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Subsidiaries are consolidated when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full.

Losses within a subsidiary are attributed to the non-controlling interests (NCI) even if that results in a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the NCI are adjusted to reflect the changes in their relative interests in the subsidiaries. The resulting difference is recognised directly in equity and attributed to owners of the Company. No gain or loss is recognised on the change.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

2. Summary of Significant Accounting Policies (Cont'd)

2.4 Basis of Consolidation (Cont'd)

When the Group loses control of a subsidiary, a gain or loss calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets and liabilities of the subsidiary and any NCI, is recognised in profit or loss. The subsidiary's cumulative gain or loss which has been recognised in other comprehensive income and accumulated in equity are reclassified to profit or loss or where applicable, transferred directly to retained earnings. The fair value of any investment retained in the former subsidiary at the date control is lost is regarded as the cost on initial recognition of the investment in an associate or a joint venture.

Business combinations

With the exception of business combinations involving entities under common control, acquisitions of subsidiaries are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or a liability, will be recognised in accordance with MFRS 9 either in the statement of profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it is not remeasured until it is finally settled within equity.

In business combinations achieved in stages, previously held equity interests in the acquiree are remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in the statement of profit or loss.

The Group elects for each individual business combination, whether NCI in the acquiree is recognised on the acquisition date at fair value, or at the NCI's proportionate share of the acquiree's identifiable net assets.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of NCI in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in the statement of profit or loss on the acquisition date.

2.5 Subsidiaries

A subsidiary is an entity over which the Group has all the following:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its involvement with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses. The cost of the investments includes transaction costs. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

2. Summary of Significant Accounting Policies (Cont'd)

2.6 Foreign Currencies

The Group's consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the parent company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and has elected to recycle the gain or loss that arises from disposal of a foreign operation using this method.

(a) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in other comprehensive income or profit or loss, respectively).

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amount of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

(b) Foreign operations

On consolidation, the assets and liabilities of foreign operations are translated into RM at the rate of exchange prevailing at the reporting date and their income statements are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income and accumulated in equity; attributed to the owners of the Company and non-controlling interest, as appropriate. On the disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

In the consolidated financial statements, when settlement of an intragroup loan is neither planned nor likely to occur in the foreseeable future, the exchange differences arising from translating such monetary item are considered to form part of a net investment in the foreign operation and are recognised in other comprehensive income. The cumulated foreign currency differences are not reclassified to profit or loss on the disposal of the net investment.

2. Summary of Significant Accounting Policies (Cont'd)

2.7 Property, Plant and Equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Cost includes expenditure that are directly attributable to the acquisition of the asset and other costs directly attributable to bringing the asset to working condition for its intended use.

Subsequent to recognition, all property, plant and equipment are measured at cost less accumulated depreciation and any impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation of property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life. The estimated useful lives are as follows:

Long leasehold land	Not applicable (2019: 64 - 83 years)
Buildings and workshops	10 - 15 years
Heavy machinery and equipment	5 - 18 years
Motor vehicles	5 years
Renovation	5 - 10 years
Slipway and shipyard infrastructure	10 - 20 years
Telecommunications and office equipment, furniture and fittings	5 - 10 years
Vessels and offshore assets	8 - 15 years

Assets under construction are not depreciated as these assets are not yet available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful lives and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate. Any changes are accounted for as a change in accounting estimate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the assets is included in the profit or loss in the year the asset is derecognised.

2.8 Investment Properties

Investment properties are properties which are owned or right-of-use asset held to earn rental income or for capital appreciation or both. Investment properties which are owned are initially measured at cost, including transaction costs. The right-of-use asset held under a lease contract that meets the definition of investment property is measured initially similarly as other right-of-use assets. Subsequent to recognition, investment properties are measured at cost less accumulated depreciation and impairment losses.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets of 50 years.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognised in profit or loss in the year of retirement or disposal.

2. Summary of Significant Accounting Policies (Cont'd)

2.9 Current versus Non-Current Classification

The Group presents assets and liabilities in statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current. A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.10 Financial Instruments

Financial assets and financial liabilities are recognised in the statements of financial position when the Group has become a party to the contractual provisions of the instruments.

Financial instruments are classified as financial assets, financial liabilities or equity instruments in accordance with the substance of the contractual arrangement and their definitions in MFRS 132. Interest, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

A financial instrument is recognised initially at its fair value (other than trade receivables without significant financing component which are measured at transaction price as defined in MFRS 15: Revenue from Contracts with Customers at inception). Transaction costs that are directly attributable to the acquisition or issue of the financial instrument (other than a financial instrument at fair value through profit or loss) are added to/deducted from the fair value on initial recognition, as appropriate. Transaction costs on the financial instrument at fair value through profit or loss are recognised immediately in profit or loss.

Financial instruments recognised in the statements of financial position are disclosed in the individual policy statement associated with each item.

(a) Financial assets

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value (through profit or loss, or other comprehensive income), depending on the classification of the financial assets.

2. Summary of Significant Accounting Policies (Cont'd)

2.10 Financial Instruments (Cont'd)

(a) Financial assets (Cont'd)

Debt instruments

Amortised cost

The financial asset is held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset. When the asset has subsequently become credit-impaired, the interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), excluding expected credit losses, through the expected life of the financial asset or a shorter period (where appropriate).

Fair value through other comprehensive income

The financial asset is held for both collecting contractual cash flows and selling the financial asset, where the asset's cash flows represent solely payments of principal and interest. Movements in the carrying amount are taken through other comprehensive income and accumulated in the fair value reserve, except for the recognition of impairment, interest income and foreign exchange difference which are recognised directly in profit or loss. Interest income is calculated using the effective interest rate method.

Fair value through profit or loss

All other financial assets that do not meet the criteria for amortised cost or fair value through other comprehensive income are measured at fair value through profit or loss.

The Group reclassifies debt instruments when and only when its business model for managing those assets change.

Equity instruments

All equity investments are subsequently measured at fair value with gains and losses recognised in profit or loss except where the Group has elected to present the subsequent changes in fair value in other comprehensive income and accumulated in the fair value reserve at initial recognition.

The designation at fair value through other comprehensive income is not permitted if the equity investment is either held for trading or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise.

Dividend income from this category of financial assets is recognised in profit or loss when the Group's right to receive payment is established unless the dividends clearly represent a recovery of part of the cost of the equity investments.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies (Cont'd)

2.10 Financial Instruments (Cont'd)

(b) Financial liabilities

Financial liabilities at fair value through profit or loss

Fair value through profit or loss category comprises financial liabilities that are either held for trading or are designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. The changes in fair value of these financial liabilities are recognised in profit or loss.

Other financial liabilities

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), through the expected life of the financial liability or a shorter period (where appropriate).

(c) Equity instruments

Equity instruments classified as equity are measured initially at cost and are not remeasured subsequently.

Ordinary shares

Ordinary shares are classified as equity and recorded at the proceeds received, net of directly attributable transaction costs.

Dividends on ordinary shares are recognised as liabilities when approved for appropriation.

Treasury shares

When the Company's own shares recognised as equity are bought back, the amount of the consideration paid, including all costs directly attributable, are recognised as a deduction from equity. Own shares purchased that are not subsequently cancelled are classified as treasury shares and are presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of treasury shares.

Where treasury shares are reissued by resale, the difference between the sales consideration received and the carrying amount of the treasury shares is recognised in equity.

Where treasury shares are cancelled, their costs are transferred to retained earnings.

(d) Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in fair value on derivatives during the reporting period, other than those accounted for under hedge accounting, are recognised directly in profit or loss.

Any derivative embedded in a financial asset is not accounted for separately. Instead, the entire hybrid contract is classified and subsequently measured as either amortised cost or fair value as appropriate.

An embedded derivative is recognised separately from the host contract which is a financial liability as a derivative if, and only if, its risks and characteristics are not closely related to those of the host contract and the host contract is not measured at fair value through profit or loss.

2. Summary of Significant Accounting Policies (Cont'd)

2.10 Financial Instruments (Cont'd)

(e) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the carrying amount of the asset and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified from equity to profit or loss. In contrast, there is no subsequent reclassification of the fair value reserve to profit or loss following the derecognition of an equity investment.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(f) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specific debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts are recognised initially as liabilities at fair value, net of transaction costs. Subsequent to initial recognition, financial guarantee contracts are recognised as income in profit or loss over the period of the guarantee or, when there is no specific contractual period, recognised in profit or loss upon discharge of the guarantee. If the debtor fails to make payment relating to a financial guarantee contract when it is due and the Company as the issuer, is required to reimburse the holder for the associated loss, the liability is measured at the higher of the amount of the credit loss determined in accordance with the expected credit loss model and the amount initially recognised less cumulative amortisation.

(g) Derivative financial instruments and hedge accounting

The Group enters into derivative financial instruments to manage its exposure to interest rate risks, including interest rate swap.

Hedge accounting

The Group designates the derivatives as hedging instruments in respect of interest rate risk in cash flow hedges.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in cash flows of the hedged item.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in equity under the cash flow hedge reserve, limited to the lower of cumulative gain or loss on the hedging instrument and cumulative change in fair value of the hedged item, from inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss.

(g) Derivative financial instruments and hedge accounting (Cont'd)

Cash flow hedges (Cont'd)

Subsequently, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss in the same period or periods during which the hedged forecast cash flows affects profit or loss. If the hedged item is a non-financial asset or liability, the associated gain or loss recognised in other comprehensive income is removed from equity and included in the initial amount of the asset or liability directly. However, loss recognised in other comprehensive income that will not be recovered in one or more future periods is reclassified from equity into profit or loss.

Hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated, or exercised, or when a hedge no longer meets the criteria for hedge accounting. Any gain or loss accumulated in the cash flow hedge reserve at that time remains in equity and is reclassified to profit or loss when the forecast transaction occurs recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in the cash flow hedge reserve is reclassified immediately to profit or loss.

2.11 Contract Costs

(a) Incremental costs of obtaining a contract

The Group recognises incremental costs of obtaining contracts with customers as an asset when the Group expects to recover these costs. When the amortisation period of the asset is one year or less, such costs are recognised as an expense immediately when incurred.

(b) Costs to fulfil a contract

The Group recognises costs that relate directly to a contract (or an anticipated contract) with customer as an asset when the costs generate or enhance resources of the Group, will be used in satisfying performance obligation in the future and are recovered.

The contract costs are initially measured at cost and amortised on a systematic basis that is consistent with the pattern of revenue recognition to which the asset relates.

An impairment loss is recognised in the profit or loss when the carrying amount of the contract cost exceeds the expected revenue less expected cost that will be incurred. Any impairment loss recovered shall be reversed to the extent of the carrying amount of the contract cost does not exceed the amount that would have been recognised had there been no impairment loss recognised previously.

2.12 Contract Asset and Contract Liability

A contract asset is recognised when the Group's right to consideration is conditional on something other than the passage of time. A contract asset is subject to impairment requirements of MFRS 9: Financial Instruments.

A contract liability is stated at cost and represents the obligation of the Group to transfer goods or services to a customer for which consideration has been received (or the amount is due) from the customers.

2.13 Cash and Cash Equivalents

Cash and cash equivalents in the statements of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less and short term deposits pledged to banks.

For the purpose of the consolidated statements of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts.

2. Summary of Significant Accounting Policies (Cont'd)

2.14 Inventories

Inventories are valued at lower of cost and net realisable value.

The cost of raw materials and spare parts are determined using the weighted average method. The cost of raw materials comprises costs of purchase. The cost of finished goods and work-in-progress are determined using specific identification of their individual costs. The costs of finished goods and work-in-progress comprise costs of raw materials, direct labour, other direct costs and appropriate proportions of manufacturing overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

At each reporting date, the Group assesses whether any inventories are impaired by comparing the carrying amount of each item of inventory with its selling price less costs to complete and sell. If an item of inventory is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised in profit or loss immediately.

2.15 Impairment

(a) Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost, trade and other receivables and contract assets, as well as on financial guarantee contracts.

The expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The Group recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at fair value through other comprehensive income, for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

(b) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGU are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the units or groups of units on a pro-rata basis.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

2. Summary of Significant Accounting Policies (Cont'd)

2.15 Impairment (Cont'd)

(b) Impairment of non-financial assets (Cont'd)

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit or loss in expense categories consistent with the function of the impaired asset, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

2.16 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

2.17 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they are incurred by using the effective interest method. Borrowing costs consist of interest and other costs that the Group and the Company incurred in connection with the borrowing of funds.

2.18 Employee Benefits

(a) Short-term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

2. Summary of Significant Accounting Policies (Cont'd)

2.18 Employee Benefits (Cont'd)

(b) Defined contribution plans

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. The Malaysian companies in the Group make contributions to the Employee Provident Fund in Malaysia, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

(c) Share-based payment transactions

The Group operates an equity-settled share-based compensation plan, under which the Group receives services from employees as consideration for equity instruments of the Company (known as “share options”).

At grant date, the fair value of the share options is recognised as an expense on a straight-line method over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding credit to share option reserve in equity. The amount recognised as an expense is adjusted to reflect the actual number of the share options that are expected to vest. Service and non-market performance conditions attached to the transaction are not taken into account in determining the fair value.

In the Company's separate financial statements, the grant of the share options to the subsidiaries' employees is not recognised as an expense. Instead, the fair value of the share options measured at the grant date is accounted for as an increase to the investment in subsidiary undertaking with a corresponding credit to the employee share option reserve.

Upon expiry of the share option, the share option reserve is transferred to retained earnings.

When the share options are exercised, the share option reserve is transferred to share capital if new ordinary shares are issued, or to treasury shares if the share options are satisfied by the reissuance of treasury shares.

2.19 Leases

The Group assesses whether a contract is or contains a lease, at the inception of the contract. The Group recognises a right-of-use asset and corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for low-value assets and short-term leases with 12 months or less. For these leases, the Group recognises the lease payments as an operating expense on a straight-line method over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The Group has elected not to separate non-lease components from lease components. Instead, the Group has accounted for the lease component and the associated non-lease components as a single lease arrangement.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use assets that do not meet the definition of investment property and the associated lease liabilities are presented as a separate line item in the statements of financial position.

The right-of-use asset is initially measured at cost. Cost includes the initial amount of the corresponding lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, less any incentives received.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

2. Summary of Significant Accounting Policies (Cont'd)

2.19 Leases (Cont'd)

The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses, and adjusted for any remeasurement of the lease liability. The depreciation starts from the commencement date of the lease. If the lease transfers ownership of the underlying asset to the Group or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those property, plant and equipment.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in the future lease payments (other than lease modification that is not accounted for as a separate lease) with the corresponding adjustment is made to the carrying amount of the right-of-use asset or is recognised in profit or loss if the carrying amount has been reduced to zero.

Accounting policies applied until 30 June 2019

(a) Finance leases

A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incidental to ownership. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. The corresponding liability is included in the statement of financial position as hire purchase payables.

Minimum lease payments made under finance leases are apportioned between the finance costs and the reduction of the outstanding liability. The finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised in the profit or loss and allocated over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each accounting period.

Leasehold land which in substance is a finance lease is classified as property, plant and equipment.

(b) Operating leases

All leases that do not transfer substantially to the Group all the risks and rewards incidental to ownership are classified as operating leases and, the leased assets are not recognised on the statement of financial position of the Group and of the Company.

Payments made under operating leases are recognised as an expense in the profit or loss on a straight-line method over the term of the lease. Lease incentives received are recognised as a reduction of rental expense over the lease term on a straight-line method. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

2.20 Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.21 Revenue from Contracts with Customers

Revenue from contracts with customers is recognised by reference to each distinct performance obligation in the contract with customer. Revenue from contracts with customers is measured at its transaction price, being the amount of consideration which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, net of sales and service tax, returns, rebates and discounts.

The Group recognises revenue when (or as) it transfers control over a product or service to customer. An asset is transferred when (or as) the customer obtains control of that asset.

Depending on the substance of the contract, revenue is recognised when the performance obligation is satisfied, which may be at a point in time or over time. The Group transfers control of a good or service at a point in time unless one of the following over time criteria is met:

- The customer simultaneously receives and consumes the benefits provided as the Group performs.
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The Group's performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

2. Summary of Significant Accounting Policies (Cont'd)

2.21 Revenue from Contracts with Customers (Cont'd)

(a) Construction of vessels

The Group builds vessels under long-term construction contracts on both build-to-order and build-to-stock basis. For build-to-order vessels, it typically commences the construction process only upon securing a firm order from a customer. For build-to-stock vessels, however, it commences the construction of the vessels in anticipation of future or potential orders and seeks to sell the vessels to customers at a later stage when the selling prices are favourable.

Revenue from construction contract for built-to-order vessel is recognised over time in the period in which the services are rendered using the output method by reference to the construction progress based on the physical proportion of construction work. Transaction price is computed based on the price specified in the contract and adjusted for any variable consideration such as penalties. Past experience is used to estimate and provide for the variable consideration, using expected value method and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

The Group has assessed and determined that the performance obligations for built-to-stock vessels are satisfied at a point in time as none of the criteria for satisfaction of performance obligations over time is met. The Group performance does not create an asset with alternative use to the Group and the Group does not have an enforceable right to payment for work completed to date.

(b) Vessel chartering

The service element of the Group's vessel charter contracts is recognised over time in the period when the services are rendered, since the performance obligation is satisfied over time. When the customer simultaneously receives and consumes the benefits provided by the Group's performance (such as revenues from reimbursements, bunkers and other goods and services provided to customers), related revenues are recognised in the period in which such goods or services are transferred to the customers.

(c) Ship repair and maintenance services

Revenue from providing ship repair and maintenance are recognised over time in the period in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided because the customer receives and uses the benefits simultaneously. For variable-price contracts, revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. Past experience is used to estimate and provide for the variable consideration.

2.22 Revenue from Other Sources and Other Operating Income

(a) Rental income

Rental income from investment property is recognised in profit or loss as it accrues over the term of the lease.

(b) Dividend income

Dividend income is recognised in profit or loss on the date that the Group's or the Company's right to receive payment is established.

(c) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss except for interest income arising from temporary investment of borrowings taken specifically for the purpose of obtaining a qualifying asset which is accounted for in accordance with the accounting policy on borrowing costs.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

2. Summary of Significant Accounting Policies (Cont'd)

2.23 Income Taxes

(a) Current tax

Current tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amount for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

2. Summary of Significant Accounting Policies (Cont'd)

2.23 Income Taxes (Cont'd)

(b) Deferred tax (Cont'd)

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.24 Operating Segment

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the chief operating decision maker, which in this case is the Executive Chairman of the Group, to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

2.25 Earnings per Ordinary Share

Basic earnings per ordinary share is calculated by dividing the consolidated profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the reporting period, adjusted for own shares held.

Diluted earnings per ordinary share is determined by adjusting the consolidated profit or loss attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares of share options granted to employees.

2.26 Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that an outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements, unless the probability of outflow of economic benefits is remote. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

2.27 Joint Arrangement

Joint arrangement is arrangement of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements returns.

Investment in joint arrangement is classified as either joint operations or joint venture depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangement and determined it to be joint venture.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

2. Summary of Significant Accounting Policies (Cont'd)

2.27 Joint Arrangement (Cont'd)

Joint Venture

A joint venture is a joint arrangement whereby the Group has rights only to the net assets of the arrangement.

The investment in a joint venture is accounted for in the consolidated financial statements using the equity method, based on the financial statements of the joint venture made up to the reporting date. The Group's share of the post acquisition profits and other comprehensive income of the joint venture is included in the consolidated statement of profit or loss and other comprehensive income, after adjustment if any, to align the accounting policies with those of the Group, from the date that joint control commences up to the effective date when the investment ceases to be a joint venture or when the investment is classified as held for sale. The Group's interest in the joint venture is carried in the consolidated statement of financial position at cost plus the Group's share of the post acquisition retained earnings and reserves. The cost of investment includes transaction costs.

When the Group's share of losses exceeds its interest in a joint venture, the carrying amount of that interest is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation.

Unrealised gains on transactions between the Group and the joint venture are eliminated to the extent of the Group's interest in the joint venture. Unrealised losses are eliminated unless cost cannot be recovered.

The Group discontinues the use of the equity method from the date when the investment ceases to be a joint venture or when the investment is classified as held for sale. When the Group retains an interest in the former joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as the initial carrying amount of the financial asset in accordance with MFRS 9. Furthermore, the Group also reclassifies its share of the gain or loss previously recognised in other comprehensive income of that joint venture to profit or loss when the equity method is discontinued. However, the Group will continue to use the equity method when an investment in a joint venture becomes an investment in an associate. Under such change in ownership interest, the retained investment is not remeasured to fair value but a proportionate share of the amounts previously recognised in other comprehensive income of the joint venture will be reclassified to profit or loss where appropriate. All dilution gains or losses arising in investments in joint ventures are recognised in profit or loss.

3. Significant Accounting Judgements and Estimates

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below.

(a) Useful lives of property, plant and equipment

The cost of property, plant and equipment is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these property, plant and equipment to be within 5 to 20 years. These are common life expectancies applied in the vessels construction and transportation industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised. The carrying amount of the Group's property, plant and equipment at the reporting date is disclosed in Note 15 to the financial statements.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

3. Significant Accounting Judgements and Estimates (Cont'd)

Key Sources of Estimation Uncertainty (Cont'd)

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below. (Cont'd)

(b) Impairment of receivables and contract assets

The loss allowances for receivables and contract assets are based on assumptions about risk of default and expected loss rates. The contract assets are grouped with receivables for impairment assessment because they have substantially the same risk characteristics as the receivables for the same types of contracts. The Group uses judgement in making these assumptions and selecting appropriate inputs to the impairment calculation, based on the past payment trends, existing market conditions as well as forward-looking estimates at the end of each reporting period. The carrying amounts of receivables as at the reporting date are disclosed in Note 21 to the financial statements.

(c) Impairment of non-financial assets

When the recoverable amount of an asset is determined based on the estimate of the value in use of the cash-generating unit to which the asset is allocated, the management is required to make an estimate of the expected future cash flows from the cash-generating unit and also to apply a suitable discount rate in order to determine the present value of those cash flows.

(d) Write-down of inventories

Reviews are made periodically by management on damaged, obsolete and slow-moving inventories. These reviews require judgement and estimates. Possible changes in these estimates could result in revisions to the valuation of inventories. The carrying amount of inventories as at reporting date is disclosed in Note 20 to the financial statements.

(e) Cash flow hedges

The effective portion of changes in fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss related to the ineffective portion is recognised immediately in profit or loss.

Subsequent, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss in the same period or periods during which the hedged forecast cash flows affects profit or loss. If the hedged item is a non-financial asset or liability, the associated gain or loss recognised in other comprehensive income is transferred from equity and included in the initial amount of the asset or liability. However, loss recognised in other comprehensive income that will not be recovered in one or more future periods is reclassified from equity into profit or loss.

Critical Judgements Made in Applying Accounting Policies

Management believes that there are no instances of application of critical judgement in applying the Group's accounting policies which will have a significant effect on the amounts recognised in the financial statements.

(a) Classification between Investment Properties and Owner-occupied Properties

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes.

Notes to the Financial Statements

For the Financial Year Ended 30 June 2020 (cont'd.)

3. Significant Accounting Judgements and Estimates (Cont'd)

Critical Judgements Made in Applying Accounting Policies (Cont'd)

(b) Lease terms

Some leases contain extension options exercisable by the Group before the end of the non-cancellable contract period. In determining the lease term, management considers all facts and circumstances including the past practice and any cost that will be incurred to change the asset if an option to extend is not taken. An extension option is only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

(c) Contingent liabilities

The recognition and measurement for contingent liabilities is based on management's view of the expected outcome on contingencies after consulting legal counsel for litigation cases and experts, for matters in the ordinary course of business.

(d) Share-based payments

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity investments at the date at which they are granted. The estimating of the fair value requires determining the most appropriate valuation model for a grant of equity instruments, which is dependent on the terms and conditions of the grant. This also requires determining the most appropriate inputs to the valuation model including the expected life of the option volatility and dividend yield and making assumptions about them.

13. (Loss)/Earnings Per Share

Basic (loss)/earnings per share are calculated by dividing (loss)/profit for the financial year net of tax attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share are calculated by dividing the (loss)/profit attributable to owners of the Company by the weighted average number of ordinary share outstanding during the financial year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The following reflect the (loss)/profit and share data used in the computation of basic and diluted earnings per share for the financial year ended 30 June 2020 and 30 June 2019:

	Group	
	2020 RM	2019 RM
(Loss)/Profit net of tax attributable to owners of the Company used in the computation of basic and diluted earnings per share	(105,051,364)	14,412,837
	2020 Number of shares	2019 Number of shares
Weighted average number of ordinary shares for basic and diluted earnings per share computations*	528,392,346	527,479,143
Basic (loss)/earnings per ordinary shares (sen)	(19.88)	2.73
Diluted (loss)/earnings per ordinary shares (sen) #	(19.88)	2.73

* The weighted average number of ordinary shares in issue was derived at after taking into account the weighted average effect of changes in treasury shares transactions.

The potential conversion of employee share options is anti-dilutive as the exercise price is higher than the average market price of the Company's ordinary shares. Accordingly, the exercise of employee share options has been ignored in the calculation of dilutive earnings per share.

	<u>547,626,076</u>	<u>544,394,623</u>

Impairment of assets

At the reporting date, the Group conducted a review of the recoverable amount of its vessels within vessel chartering segment. An impairment loss of RM5,554,813 (2019: Nil), representing the write-down of the vessels to the recoverable amounts was recognised in "Other expenses" line item of the consolidated statement of profit or loss for the financial year ended 30 June 2020. The recoverable amounts of the vessels were measured at their fair value less costs to sell based on the valuation report prepared by an independent valuer.

Assets leased under operating leases

Certain vessels of the Group have been leased to customers under operating leases with rentals payable monthly. The leases contain initial non-cancellable periods ranging from 3 to 8 years and their subsequent renewals are negotiated separately on a contract by contract basis.

The Group requires 1 to 4 months of rental payments from the customers as security deposit. The leases do not include residual value guarantee and variable lease payments.

As at the reporting date, the future minimum rentals receivable under the non-cancellable operating leases are as follows:

	2020 RM

16. Right-of-Use Assets (Cont'd)

The comparative information is not presented as the Group and the Company have applied MFRS 16 using the modified retrospective approach.

- (a) The Group leases certain pieces of leasehold land, buildings and motor vehicle of which the leasing activities are summarised below:
 - (i) Leasehold land - The Group has entered into 16 non-cancellable operating lease agreements for the use of land. The leases are for a period of 99 years.
 - (ii) Buildings - The Group have leased a number of buildings that run between 1 year and 3 years, with an option to renew the lease after that date. The Group is not allowed to sublease the buildings without prior consent of the lessors.
 - (iii) Motor vehicle - The Group has leased its motor vehicle under hire purchase arrangement. The lease is secured by the lease asset. The Group has an option to purchase the asset at the expiry of the lease period at an insignificant amount.
- (b) The Group also has leases with lease terms of 12 months or less and leases of office equipment with low value. The Group has applied the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.
- (c) The Group has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the portfolio of leased asset and align with the Group's business needs. Management exercises judgement in determining whether these extension and termination options are reasonably certain to be exercised.
- (d) Certain leasehold land of the Group with total carrying amount of RM4,198,683 has been pledged to a licensed bank as security for banking facilities granted to the Group.

Fair value of investment properties

The fair value of investment properties as at the reporting date amounted to approximately RM6,700,000 (2019: RM5,100,000).

Fair value hierarchy disclosures for investment properties have been disclosed in Note 35 to the financial statements.

Fair value is arrived at by reference to market evidence of transaction prices for similar properties.

Properties leased under operating leases

The investment properties of the Group are leased to customers under operating leases with rentals payable monthly. The leases contain initial periods ranging from 2 to 10 years and their subsequent renewals are negotiated separately on a contract by contract basis.

The Group requires 2 to 3 months of advanced rental payments from the customers. The leases do not include residual value guarantee and variable lease payments that depend on an index or rate.

As at the reporting date, the future minimum rentals receivable under the non-cancellable operating leases are as follows:

21. Trade and Other Receivables (Cont'd)

Trade receivables that are individually determined to be impaired at the reporting date relate to debtors that are in significant financial difficulties and have defaulted on payments.

(a) Trade receivables

Trade receivables are on 30 to 45 days (2019: 30 to 45 days) terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

Trade receivables comprised mainly:

- (i) Outstanding proceeds from disposal of vessels of the Group amounting to approximately RM9.8 million (2019: RM15.0 million), and they are to be repayable by 60 monthly installments bearing an interest rate of 4.89% p.a. The Group holds the title of the vessels in custody for these amounts.
- (ii) Outstanding bareboat charter hire proceeds of the Group including interest charges of approximately RM59.8 million (2019: RM52.5 million) where recovery is secured under a charter earnings account managed by an independent trustee.

Ageing analysis of trade receivables

The ageing analysis of the Group's trade receivables is as follows:

30. Share Capital and Treasury Shares (Cont'd)

(a) Share Capital

The holders of ordinary shares (except treasury shares) are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions and rank equally with regard to the Company's residual assets.

(b) Treasury Shares

Treasury shares relate to ordinary shares of the Company that are held by the Company. The amount consists of the acquisition costs of treasury shares.

The Directors of the Company are committed to enhancing the value of the Company for its shareholders and believe that the repurchase plan can be applied in the best interests of the Company and its shareholders. The repurchase transactions were financed by internally generated funds. The shares repurchased are being held as treasury shares.

(c) Employees' Share Option Scheme ("ESOS")

The Employees' Share Option Scheme of the Company ("ESOS") is governed by the ESOS By-Laws and was approved by shareholders on 2 December 2015. The ESOS is to be in force for a period of 5 years effective from 2 February 2016.

The salient features of the ESOS are as follows:

- (i) the maximum number of options to be offered under the ESOS shall not exceed fifteen percent (15%) of the issued and paid-up ordinary share capital of the Company at any point in time during the duration of the ESOS, or such percentage that may be permitted by the relevant regulatory authorities during the duration of the ESOS.
- (ii) the aggregate maximum number of shares that may be offered and allocated to the various grades of eligible employees shall be subject to the following:
 - (a) not more than seventy percent (70%) of the new shares available under the ESOS should be allocated, in aggregate, to the directors and senior management of the Group; and
 - (b) not more than ten percent (10%) of the new shares available under the ESOS should be allocated to any individual director or employee who, either singly or collectively through persons connected with the eligible employees, holds twenty percent (20%) or more in the issued and paid-up capital of the Company.
- (iii) Subject to the discretion of the ESOS Committee, employees who have been confirmed in the employment of the Group and have served for at least 6 months before the date of the offer, and non-executive Directors who have been appointed for at least 1 year, shall be eligible to participate.
- (iv) The exercise price shall be determined by the ESOS Committee based on the 5-day weighted average market price of ordinary shares of the Company immediately preceding the offer date of the option, with a discount of not more than 10%, or at the par value of ordinary shares of the Company, whichever is higher.
- (v) The new shares to be allotted and issued upon any exercise of the options shall, upon allotment and issue, rank pari passu in all respects with the existing issued and fully paid-up ordinary shares of the Company save and except that the new shares will not be entitled to any dividends, rights, allotments and/or other distributions, the entitlement date of which is prior to the date of allotment of the new shares and shall be subject to the provisions of the Articles of Association of the Company.

30. Share Capital and Treasury Shares (Cont'd)

(c) Employees' Share Option Scheme ("ESOS") (Cont'd)

The option prices and the details in the movement of the options granted are as follows:

Date of Offer	Exercise Price	Number of Options Over Unissued Ordinary Shares				30.6.2020
		1.7.2019	Granted	Exercised	Forfeited	
16.2.2016	RM1.40	42,912,000	-	-	(360,000)	42,552,000
4.3.2019	RM0.96	8,879,700	-	(3,461,100)	(128,200)	5,290,400

The options forfeited during the financial year were due to resignations of employees.

No person to whom the share option has been granted above has any right to participate by virtue of the option in any share issue of the any other company.

During the previous financial year, the Company had granted 9,376,800 share options under the ESOS. These options expire on 1 February 2021 and are exercisable immediately.

The number of options exercisable as at 30 June 2020 was 47,842,400 (2019: 43,209,300) and have an exercise price in the range of RM0.96 to RM1.40 (2019: RM0.96 to RM1.40) and a remaining contractual life of 0.58 year. The options' exercisable period are as follows:

Date of Offer	Exercise Price	Maximum percentage of option exercisable				
		16.2.2016 to 31.12.2016	1.1.2017 to 31.12.2017	1.1.2018 to 31.12.2018	1.1.2019 to 31.12.2019	1.1.2020 to 1.2.2021
16.2.2016	RM1.40	20%	20%	20%	20%	20%

The fair value of the share options granted were estimated using a Black-Scholes model, taking into account the terms and conditions upon which the options were granted. The fair value of the share options measured at grant date and the assumptions used are as follows:

	Date of Offer	
	4.3.2019	16.2.2016
Fair value at grant date (RM)	0.3491	0.6038
Weighted average share price (RM)	1.10	1.55
Exercise price (RM)	0.96	1.40
Expected volatility (%)	42.90	46.05
Option life (years)	1.92	5
Expected dividend yield (%)	-	3.24
Risk free rate (%)	3.72	3.80

(a) Foreign currency translation reserve

The foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency.

(b) Cash flow hedge reserve

The cash flow hedge reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedges related to hedged transactions that have not yet occurred.

(c) Share option reserve

The share option reserve comprises the cumulative value of employee services received for the issue of share options. When the option is exercised, the amount from the share option reserve is transferred to share capital. When the share options expire, the amount from the share option reserve is transferred to retained earnings.

32. Retained Earnings

The Company may distribute dividends out of its entire retained earnings as at 30 June 2020 and 30 June 2019 under the single tier system.

36. Fair Value of Financial Instruments

The following are classes of financial instruments that are not carried at fair value and whose carrying amount are not reasonable approximation of fair value:

Group	Carrying amount		Fair value	
	2020 RM	2019 RM	2020 RM	2019 RM
Financial liabilities				
Interest-bearing loans and borrowings:				
- Hire purchase payable (non-current)	-	5,703	-	5,449
Lease liabilities (non-current)	11,398	-	10,924	-
	<u>11,398</u>	<u>5,703</u>	<u>10,924</u>	<u>5,449</u>
Company				
Financial liabilities				
Financial guarantees	28,098	42,974	-*	-*
Lease liabilities (non-current)	2,967	-	2,855	-
	<u>31,065</u>	<u>42,974</u>	<u>2,855</u>	<u>-</u>

* The fair value is Nil as the Company considered the financial guarantees to be performing, have low risks of default and historically there were no instances where these financial guarantee contracts were called upon by the parties of which the financial guarantee contracts were issued to.

The management assessed that cash and bank balances, loans and borrowings (current), loans and borrowings (non-current) at BLR – 1.85% p.a., LIBOR + 2.85% p.a. and LIBOR + 2.75% p.a., lease liabilities (current), trade and other payables (current) except for deposits received from vessel buyers, trade and other receivables except for prepayment and deposits paid to suppliers and contractors approximate their carrying amounts largely due to their short-term nature or that they are floating rate investments that are re-priced to market interest rates on or near the reporting date.

The fair values of the financial assets and liabilities are included at the amounts at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair value:

Hire purchase payable and lease liabilities

The fair values of these financial instruments are estimated by discounting expected future cash flows at market interest rate for similar types of lending, borrowing or leasing arrangements at the reporting date.

Financial guarantees

Fair value is determined based on probability weighted discounted cash flow method. The probability has been estimated and assigned for the following key assumptions:

- The likelihood of the guaranteed party defaulting within the guaranteed period;
- The exposure on the portion that is not expected to be recovered due to the guaranteed party's default; and
- The estimated loss exposure if the party guaranteed were to default.

Notes to the Financial Statements

37. Financial Risk Management Objectives and Policies

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk. The Board reviews and agrees policies for managing each of these risks.

The following sections provide details regarding the Group's and Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash and bank balances), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

Exposure to credit risk

At the reporting date, the Group and the Company's maximum exposure to credit risk is represented by:

- The carrying amount of each class of financial assets recognised in the statements of financial position.
- A nominal amount of RM764,087,768 (2019: RM701,705,268) relating to corporate guarantees provided by the Company to banks on certain subsidiaries' bank borrowings.

Credit risk concentration profile

The Group determines concentrations of credit risk by monitoring the country profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's trade receivables at the reporting date are as follows:

	Group		Group	
	2020		2019	
	RM	% of total	RM	% of total
By country:				
India	7,018,880	5%	-	-
Indonesia	9,797,751	7%	15,037,086	15%
Malaysia	6,237,769	4%	8,070,420	8%
Mexico	113,141,859	83%	76,843,232	76%
Others	709,237	1%	684,575	1%
	136,905,496	100%	100,635,313	100%

Assessment of impairment losses

At each reporting date, the Group assesses whether any of the financial assets at amortised cost and contract assets are credit impaired.

The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery (i.e. the debtor does not have assets or sources of income to generate sufficient cash flows to repay the debt) despite the fact that they are still subject to enforcement activities.

37. Financial Risk Management Objectives and Policies (Cont'd)

(a) Credit Risk (Cont'd)

Assessment of impairment losses (Cont'd)

(i) Trade receivables and contract assets

The Group applies the simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. Therefore, the Group concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

The Group considers any receivables having financial difficulty, are deemed credit impaired.

The expected loss rates are based on the customers' payment profiles and the corresponding historical credit losses experienced. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle their debts.

The information about the exposure to credit risk and the loss allowances calculated under MFRS 9 for trade receivables are summarised below:

Group	Gross amount RM	Lifetime loss allowance RM	Carrying amount RM

(ii) Other receivables

Other receivables are also subject to the impairment requirements of MFRS 9. The Group applies the 3-stage general approach to measure expected credit losses for other receivables. Loss allowance is measured on either 12 month ECL or lifetime ECL.

To measure the expected credit losses, the Group considers historical data and assessed forward-looking macroeconomic data which may affect the ability of the debtors to settle their debts.

The information about the exposure to credit risk and the loss allowances calculated under MFRS 9 for other receivables are summarised below:

	Gross amount RM	Lifetime loss allowance RM	Carrying amount RM
2020			
Group			
Significant increase in credit risk	235,318,617	(196,677,530)	38,641,087
Company			
Significant increase in credit risk	16,924,712	(4,136,769)	12,787,943

Group			
Significant increase in credit risk	50,669,338	(14,220,464)	36,448,874
Company			
Significant increase in credit risk	17,709,180	(4,431,689)	13,277,491

The movements in the loss allowances are disclosed in Note 21 to the financial statements.

(iii) Fixed deposits with licensed banks, cash and bank balances

The Group considers these banks and financial institutions have low credit risks. Therefore, the Group is of the view that the loss allowance is immaterial and hence, it is not provided for.

(iv) Amounts due from subsidiaries

The Company applies the 3-stage general approach to measure expected credit losses for all inter-company balances. Generally, the Company considers loans and advances to subsidiaries have low credit risks. The Company assumes that there is a significant increase in credit risk when a subsidiary's financial position deteriorates significantly. As the Company is able to determine the timing of payments of the subsidiaries' loans and advances when they are payable, the Company considers the loans and advances to be in default when the subsidiaries are not able to pay when demanded. The Company considers a subsidiary's loan or advance to be credit impaired when the subsidiary is unlikely to repay its loan or advance in full or the subsidiary is continuously loss making or the subsidiary is having a deficit in its total equity.

The information about the exposure to credit risk and the loss allowances calculated under MFRS 9 for amounts due from subsidiaries are summarised below:

	Gross amount RM	Lifetime loss allowance RM	Carrying amount RM
Company

(v) Financial guarantee contracts

All of the financial guarantee contracts are considered to be performing, have low risks of default and historically there were no instances where these financial guarantee contracts were called upon by the parties of which the financial guarantee contracts were issued to. Accordingly, no loss allowances were identified based on 12-month expected credit losses.

(b) Liquidity Risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

(b) Liquidity Risk (Cont'd)

As part of its overall liquidity management, the Group maintains sufficient levels of cash or cash equivalents to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position. As far as possible, the Group raises committed funding from financial institutions and balances its portfolio with some short term funding so as to achieve overall cost effectiveness. At the reporting date, approximately 88% (2019: 21%) of the Group's loans and borrowings (Note 26) will mature in less than one year based on the carrying amount reflected in the financial statements.

Analysis of financial instruments by remaining contractual maturities

* The fair value is Nil as the Company considered the financial guarantees to be performing, have low risks of default and historically there were no instances where these financial guarantee contracts were called upon by the parties of which the financial guarantee contracts were issued to.

(c) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates.

The Group's and the Company's exposure to interest rate risk arises primarily from their loans and borrowings. All of the Group's and the Company's financial assets and liabilities at floating rates are contractually re-priced at intervals of less than 6 months (2019: less than 6 months) from the reporting date.

Sensitivity analysis for interest rate risk

Any reasonably possible change in the interest rates of floating rate bank loans at the end of the reporting period does not have material impact on the (loss)/profit net of tax of the Group and of the Company and hence, no sensitivity analysis is presented.

(d) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group has transactional currency exposures arising from sales or expenses that are denominated in a currency other than the respective functional currencies of the Group entities, primarily RM, United States Dollars ("USD"), Singapore Dollar ("SGD") and Mexican Peso ("MXN"). The major foreign currencies in which these transactions are denominated are RM, USD, SGD, Euro and MXN.

The Group's foreign currency exposures arising from receivable and payable balances at the reporting date are as follows:

	2020 RM	2019 RM
Trade receivables	7,083,471	67,926
Other receivables	32,644,245	42,853,086
Trade payables	1,377,956	113,410
Other payables	152,726	246,532
Lease liabilities	9,497	-

The Group also hold cash and cash equivalents denominated in foreign currencies for working capital purposes. At the reporting date, such foreign currency balances (mainly in USD) amounted to RM125,120,275 (2019: RM110,455,225) for the Group.

The Group is also exposed to currency translation risk arising from its net investments in foreign operations, including The British Virgin Islands, Singapore and Mexico. These investments are not hedged as currency positions in USD, SGD and MXN are considered to be long-term in nature.

The Group's exposure to foreign currency risk, based on the carrying amounts of the financial assets and financial liabilities not denominated in RM, which is one of the Group's entities functional currency as at the end of the reporting period was as follows:

(e) Hedging Activities

Cash flow hedge

The Group entered into an interest rate swap ("IRS") to hedge the cash flow risk in relation to the floating interest rate of a term loan as disclosed in Notes 24 and 26 to the financial statements. The IRS has the same nominal value of RM161,322,774 (2019: RM213,980,944) and is settled monthly, consistent with the interest repayment schedule of the term loan.

The following table indicates the periods in which the cash flows associated with the IRS are expected to occur and affect profit or loss:

38. Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholders value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 30 June 2020 and 30 June 2019.

The Group monitors capital using a gearing ratio, which is total loans and borrowings divided by equity attributable to equity owners of the Company. The Group's policy is to maintain the gearing ratio at manageable level.

The calculations of the Group's gearing ratios are as follows:

	Note	2020 RM	Group 2019 RM
Loans and borrowings	26	276,799,092	293,937,786
Equity attributable to owners of the Company		1,085,939,333	1,176,861,663
Gearing ratio		25.49%	24.98%

There was no change in the Group's approach to capital management during the financial year.

The Group is also required to comply with certain loan covenants as disclosed in Note 26 to the financial statements, failing which, the bank may call an event of default. The Group has complied with this requirement.

39. Segment Information

For management purposes, the Group is organised into business units based on their products and services, and has two reportable operating segments as follows:

- (a) Vessels manufacturing and repairing - services Fabrication and sale of offshore support and marine transportation vessels, and provision of ship repairs and maintenance services.
- (b) Vessels chartering and equipment hire - Provision of vessels transportation and equipment hiring services.

Except as indicated above, no operating segments has been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respect as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements. Group financing (including finance costs) and income taxes are managed on a group basis and are not allocated to operating segments.

The Directors are of the opinion that all inter-segment transactions have been entered into in the normal course of business and have been established on terms and conditions mutually agreed between the relevant parties.

Information about major customers

There is one (2019: one) major customer from the vessels chartering segment that contributed more than 10% to the Group's revenue.

40. Significant Events During The Financial Year

- (a) The outbreak of COVID-19 in early 2020 has affected the business and economic environments of the Group and hence, may impact its performance and financial position in the future. However, given the unpredictability associated with the COVID-19 outbreak and any further contingency measures that may be put in place by the governments and various private corporations, the potential financial impact of the COVID-19 outbreak on the Group's 2020 financial statements could not be reasonably quantified at this juncture.
- (b) On 5 November 2019, the Company had incorporated a wholly-owned subsidiary in Singapore known as Coastal Supreme 1 Pte. Ltd. ("CS1"). The issued and paid-up ordinary share capital of CS1 amounted to SGD1,000. CS1 is a company limited by shares and registered under the Companies Act (CAP.50), Singapore. The principal activity of CS1 is the provision of offshore support vessel chartering services.
- (c) On 17 December 2019, the Company had incorporated a wholly-owned subsidiary in Singapore known as Coastal C I Pte. Ltd. ("CCI"). The issued and paid-up ordinary share capital of CCI amounted to SGD1,000. CCI is a company limited by shares and registered under the Companies Act (CAP.50), Singapore.

41. Event Occuring After The Reporting Period

On 25 September 2020, Coastal Energy Solutions Pte. Ltd., a wholly-owned subsidiary of the Company has entered into a loan extension agreement in respect of an existing term loan with the banks to refinance the loan amount partially. The amount of refinancing is USD20 million, equivalent to RM85.6 million, which to be repayable over 27 monthly instalments commencing from 28 October 2020 until 28 December 2022.

42. Authorisation of Financial Statements for Issue

The financial statements for the financial year ended 30 June 2020 were authorised for issue in accordance with a resolution of the Directors on 20 October 2020.
