* Administrative, non-core activities and inter-segment transactions

The Group revenue of RM106.3 million was 9.7% higher than the corresponding quarter last year contributed by higher revenue of both Chemicals and Polymers Divisions. Despite the higher revenue, the Group recorded a lower profit before tax (PBT) in the current quarter of RM1.2 million compared to RM5.3 million, recorded in the same quarter last year.

The Group's result for the quarter under review was affected by the following factors:

- a) Continued margin squeeze arising from lower average selling price of its chlor-alkali products;
- b) Share of loss from its associate company, Orica-CCM Energy Sdn. Bhd.("OCES") of RM0.9 million. OCES result was affected by the closure of its manufacturing business since end of 2019 and compressed margin in its trading business,

offset by;

- c) Improved performance from its Polymers business arising from the surge in demand from glove producers,
- d) Debt recovery during the current quarter amounting to RM1.7 million

B1) Review of Performance (continued)

Segmental review of performances against the corresponding quarter are as below:

Chemicals

Chemicals Division recorded increase in revenue by 5.7% to RM78.7 million from RM74.4 million recorded in the same period last year. Despite higher revenue the division registered a lower PBT of RM0.03 million compared to RM5.8 million achieved in the same period last year. The lower PBT was due to the following:

- a) Continued margin squeeze arising from lower average selling price of its chlor-alkali products;
- b) Additional depreciation incurred for the newly reactivated plant in Pasir Gudang (PGW1) which was commissioned in February 2020 amounting to RM2.7 million;
- c) Share of loss from OCES of RM0.9 million (Q3 2019 share of profit: RM0.5 million).

Polymers

Revenue increased by 19.4% to RM28.7 million from RM24.0 million for the current quarter as compared to same quarter last year, primarily due to the surge in demand from the glove industry amidst concerns over prolonged Covid-19 outbreak. Accordingly, the Division's PBT increased from RM3.7 million to RM5.5 million as a result of the higher revenue from both its polymer coatings and cleaner products.

The Group revenue of RM306.8 million was 7.0% higher than the corresponding period last year, contributed by higher revenue of both Chemicals and Polymers Divisions. Despite higher revenue, the Group recorded a lower PBT in the current period of RM4.9 million, a decrease of 74.1% from RM19.0 million recorded in the same period last year.

B1) Review of Performance (continued)

Commentary for Cumulative Quarter ended 30 September 2020 (continued)

The Group's result for the period under review was affected by the following factors:

- a) Continued margin squeeze arising from lower average selling price of its chlor-alkali products;
- b) Share of loss from OCES amounting to RM3.4 million as it was affected by the closure of its manufacturing business since end of 2019, compressed margin in its trading business and was also impacted by the Movement Control Order (MCO);
- c) Impairment on underutilised assets of RM1.6 million,

offset by;

- d) Improved performance from its Polymers business arising from the surge in demand for gloves.
- e) Debt recovery during the current period amounting to RM1.7 million

Segmental review of performances against the corresponding quarter are as below:

Chemicals

Chemicals Division recorded increased revenue of 3.4% to RM227.0 million from RM219.6 million in the same period last year. The Division incurred a loss before tax of RM0.1 million for the current period compared to a PBT of RM18.7 million in the same period last year. The loss recorded during the period was due to the following:

- a) Continued margin squeeze arising from lower average selling price of its chlor-alkali products;
- b) Additional depreciation incurred for the newly reactivated plant in Pasir Gudang (PGW1) and provision for doubtful trade receivables, all totalling to RM6.2 million;
- c) Share of loss from OCES of RM3.4 million as its result was affected by the closure of manufacturing business since end of 2019, compressed margin in its trading business and was also impacted by the MCO being a non-essential services.

Polymers

Revenue increased by 18.6% to RM83.9 million from RM70.7 million recorded in the same quarter last year, primarily due to the surge in demand from the glove industry amidst concerns over prolonged Covid-19 outbreak. Accordingly, the Division's PBT increased to RM17.1 million from RM13.2 million recorded in the same period last year, as a result of the higher revenue from both its polymer coatings and cleaner products.

Impact of Covid-19

The Covid-19 pandemic is not expected to have any material impact to the financial performance of the Group as the Group's manufacturing activities are classified as essential industry and were allowed to operate during the Movement Control Order. The Group's products are used in the production of personal hygiene and disinfectants and key chemicals for the water treatment sector and the manufacturing of gloves.

B2) Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter

* Administrative, non-core activities and inter-segment transactions

The Group's revenue for the current quarter of RM106.3 million was higher by 2.3% as compared to the preceding quarter's revenue of RM103.9 million primarily due to higher volume of both its Chemicals and Polymers business.

Group's PBT for the current quarter increased to RM1.2 million compared to the preceding quarter of RM0.01 million. The current quarter's result includes debt recovery amounting to RM1.7 million while the preceding quarter's result includes an impairment of underutilised asset of RM1.6 million.

B3) Prospects

Bank Negara Malaysia reported that latest indicators had pointed towards significant improvement in economic activity in the third quarter. However, the introduction of targeted measures to contain COVID-19 in several states in Malaysia could affect the momentum of the recovery in the fourth quarter, though growth for the year 2020 is expected to be within the earlier forecasted range.

Chemicals

The Group remains cautious of the continuous softer regional caustic soda prices amidst the uncertainty in global economy, which will unfavourably impact the overall performance of the chemical business. Nevertheless, the demand for our key products is expected to gradually increase with the anticipated continuous measure to allow economy to remain opened.

The Group expects the Quarter 4 performance to be affected by lower overall plant utilisation from 91% to 83%. The Group is mitigating the shortfall in volume through the sales of its traded chlor-alkali product.

Polymers

The strong demand for Polymers' products from gloves manufacturers is expected to continue for the remaining of the year. Polymers Business will endeavour to maintain its margins, amidst the fluctuation in foreign currencies, by embarking on various cost efficiency initiatives.

The Group is closely monitoring the market situation and will optimise its operations to adapt to the fast-changing and volatile business environment.
