Part B: Explanatory Notes Pursuant to Appendix 9B of The Listing Requirements of Bursa Malaysia Securities Berhad.

B1. **Review of Performance**

For the financial period ended 30 Sep 2020, the Group's revenue decreased by 44% to RM123.52 million from RM220.49 million in the preceding year corresponding period. The main contributor to the decrease in revenue was due to reduced billings for the Group's aviation services, oil and gas and marine manufacturing sectors from a slowdown in the industries.

Additionally, the Group faced a challenging start of the year from weak client sentiment due to the COVID-19 pandemic. A majority of the world economy was disrupted from enforced quarantines, lockdowns and travel restrictions. Destini's marine manufacturing facility in Nantong, China had to pause its operations for three months to comply with a mandatory requirement of the Chinese Government to curb the spread of the pandemic. Locally, restricted movements imposed by the government created delays in project execution.

Destini recorded a loss after tax and non-controlling interests of RM27.16 million as compared to profit after tax and non-controlling interests of RM1.82 million profit after tax and noncontrolling interests reported in the preceding year's corresponding period. Lower income for the Group was due to lower revenue that resulted to margin compression which in turn was insufficient to cover the Group's overall administrative expenses.

Review of Current Quarter against Preceding Quarter B2.

The Group registered a revenue of RM59.21 million for the current quarter under review which represents a 96% increase compared to a revenue of RM30.26 million in the preceding quarter.

The Group recorded profit after tax and non-controlling interests of RM0.50 million for the current quarter under review as compared to a loss after tax and non-controlling interests of RM15.87 million in the preceding quarter. Destini's profit in the current quarter was mainly due to higher revenue registered under its aviation for defence and marine businesses.

B3. **Commentary on Prospects for the Next Financial Quarter**

The COVID-19 pandemic have severely impacted global economies and created market turbulence, volatility in global crude oil prices and weak consumer sentiment. These uncertainties are expected to negatively impact all nations and businesses throughout the year

Foreseeing this, the Group has taken pre-emptive measures to be resilient in weathering the current challenging environment by focusing more in strengthening the Group's balance sheet and managing its cash flow prudently. Plans, controls, regular review and actions are taken to tighten capital expenditure, operating expenditure, and investment assessments and decisions towards optimising the Group's balance sheet, including its capital structure, where necessary.

Destini has not only implemented a series of cost cutting measure to ensure its sustainability. To ensure stable revenue stream, the Group will continuously bid on tenders that are available in the public and private sectors that are within its core expertise. In addition to that, the Government has

implemented several stimuluses' that is encouraging for the local economy and Destini will constantly engage with the Government for opportunities moving forward.

The directors expect the Group's operating environment to remain challenging and competitive in the short to medium-term. Nevertheless, the Group remains confident to weather these uncertainties.

B4. Profit Forecast and Profit Guarantee

The Group did not announce any profit forecast nor profit guarantee for the current financial period.
