B1. **Review of Performance**

Destini's revenue decreased by 54% to RM136.89 million for the financial period ended 31 Dec 2020, from RM297.74 million in the preceding year corresponding period. The main contributor to the decrease in revenue was due to a slowdown in the Group's business activities which meant reduced billings in the Group's four core divisions which are aviation, marine, rail and land transport, as well as oil and gas.

The main reason for the Group's reduced business activities is due to the prolonged COVID-19 pandemic which halted many economic activities as many countries had to impose restricted movement orders to curtail the spread of the pandemic. These restrictions are the main reason to the disruption in economies which translates to weak client sentiment, a halt in business activities which caused delays in project execution and obstructions in the chain of supply and services. Like many, Destini also faced these issues. Industries that were severely impacted that Destini has a foothold in are aviation, marine and oil and gas.

In aviation, the Group saw close to zero revenue from its commercial aviation business because Destini services foreign airline operators which were restricted to fly into Malaysia during the period as many countries closed its borders.

Over at marine, the fabrication of its ships saw a delay from not being able to receive construction materials on time. About 70% of its ship's construction material are sourced overseas and most of the items are shipped from China which went through a total lockdown early last year. The inability to secure construction materials due to the lockdown disrupted the timing of project deliveries.

On another hand, the Group's oil and gas business saw losses from project deferments from oil majors due to budget constraints and uncertainties in the oil and gas business environment. Most projects in 2020 were pushed to 2021 instead. Facing project deferments, mobilization costs already incurred and a rise in cost in order to comply with COVID-19 Standard Operating Procedure ("SOP") requirements, this segment took a big hit during the period under review. Destini embarked on a cost reduction exercise that includes staff downsizing. However, the impact of the staff payout in the downsizing exercise is still reflected in the Group's 2020 accounts.

Notwithstanding the above challenges and reduction in revenue, Destini reported a gross profit of RM10.58 million despite a slower progress rate on its activities. The Group also had to incur fixed costs from projects in hand which also includes absorbing overheads arising from the pandemic such as SOP requirements. This translated into a margin compression which in turn was insufficient to cover the Group's overall administrative expenses which saw an increase in cost against the reduction in revenue.

To this, Destini recorded a loss after tax and non-controlling interests of RM190.06 million, a decreased of 23% from a loss after tax and non-controlling interests of RM247.82 million in the preceding year's corresponding period. The Group also took prudent measures in making provisions and impairments on its assets and goodwill as well as embarking on cost reduction exercises that includes temporary staff salary reductions during the year in review.

B2. Review of Current Quarter against Preceding Quarter

The Group registered a revenue of RM13.38 million for the current quarter under review which represents a 77% decrease compared to a revenue of RM59.21 million in the preceding quarter. The Group recorded loss after tax and non-controlling interests of RM162.89 million for the current quarter under review as compared to a profit after tax and non-controlling interests of RM0.50 million in the preceding quarter.

Destini's loss in the current quarter was mainly due to prudent measures taken by the Group in making provisions and impairments on its assets and goodwill. The Group also saw higher administrative expenses that came from new SOP requirements; against lower revenue registered under its aviation for defense and marine businesses that saw reduced activities during the period.

B3. **Commentary on Prospects for the Next Financial Quarter**

The COVID-19 pandemic have severely impacted global economies and created market turbulence, volatility in global crude oil prices and weak consumer sentiment. These uncertainties are expected to impact all nations and businesses throughout the year 2021. However, many measures have also been set out to ensure business continuity and the economy is expected to rebound from the previous year.

Foreseeing this, the Group has taken pre-emptive measures to be resilient in weathering the current challenging environment by focusing more in strengthening the Group's balance sheet and managing its cash flow prudently. Plans, controls, regular review and actions are taken to tighten capital expenditure, operating expenditure, and investment assessments and decisions towards optimising the Group's balance sheet, including its capital structure, where necessary.

Destini's four core businesses are categorised as an "essential business", which should bode well as the economy slowly recovers from the impact of the pandemic. Destini has not only implemented a series of cost efficiency measures to ensure its sustainability but also laid out a strategy to enhance its current capabilities for expansion into new potential businesses within its related core competencies. In addition, with the continuation of the MD530G program and the award of a LNG supply and shipping licence, Destini expects that these progresses will lead to a positive forecast for Destini's business in 2021 onwards.

Furthermore, with the COVID-19 vaccine roll-out planned for 2021, Destini is hoping that it's business will return back to normal by the end of the year albeit a challenging and competitive operating environment. Nevertheless, the Group remains confident to weather these uncertainties and ride on any opportunities there are in the market in 2021.
