NOTES TO INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2020

A1. Basis Of Preparation

The interim financial statements, for the financial period ended 30 September 2020, have been prepared in accordance with Malaysian Financial Reporting Standard ("MFRS") 134 Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements have also incorporated those activities relating to the Islamic banking business undertaken by the Group.

The significant accounting policies adopted in preparing these interim financial statements are consistent with those of the audited financial statements for the financial year ended 31 December 2019. The Group has not adopted any other standard, interpretation or amendment that have been issued but not effective yet.

As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. On 28 May 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for rent concessions in the same way as they would if they were not lease modifications.

The practical expedient only applies to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met:

- (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (ii) any reduction in lease payments affects only payments due on or before 30 June 2021; and
- (iii) there is no substantive change to other terms and conditions of the lease.

The Group and the Bank has applied the practical expedient as all the rental discount received from lessors met all the three conditions specified. The discount received from landlord are short term and total amount recorded in the statement of profit or loss for the period ended 30 September 2020 was RM127 thousand.

A2. Condensed financial statements

The interim financial statements have been prepared on a condensed basis and as such should be read in conjunction with the audited financial statements for the financial year ended 31 December 2019. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2019.

A3. Preceding financial year audit report

The preceding financial year audit report in respect of the financial year ended 31 December 2019 was not qualified by the external auditors.

NOTES TO INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2020

A4. Seasonal or Cyclical Factors

The Group's performance was mainly dependent on Bursa Malaysia market volume and value which in turn were affected by market sentiment and the country's macro economic conditions.

A5. Nature and amounts in relation to assets, liabilities, equity, net income or cash flows that are unusual because of their nature, size or incidence

There were no exceptional items which have affected the assets, liabilities, equity, net income or cash flows.

A6. Changes in the nature and amount of estimated figures reported in prior interim periods and financial years

There were no changes made to the estimated figures reported in prior interim periods and financial years.

A7. Issuance, cancellation, repurchase, resale or repayment of debt and equity securities

There were no issuance, cancellation, repurchase, resale or repayment of debt and equity securities during the financial period ended 30 September 2020 other than the issuance of RM50 million and RM47 million of Tier 2 Subordinated Notes on 20 March 2020 and 28 August 2020 respectively and the transfer of 6,353,100 units of treasury shares to staff pursuant to the exercise of ESS.

A8. Dividends paid per share

An interim dividend of 3.25 sen per share in respect of the financial year ended 31 December 2019, which amounted to RM22,707,356 was paid on 15 April 2020.

A9. Significant event during and subsequent to the financial interim period

There was no significant event during and subsequent to the financial interim period other than as disclosed in Note B10 and the impact of Coronavirus pandemic (COVID-19) as per below:

On 11 March 2020, the World Health Organisation declared COVID-19 outbreak as a pandemic as it has continued to spread across the world. This pandemic has significantly impacted the global business environment and financial conditions.

The Malaysian government had implemented a Movement Control Order (MCO) to restrict human movements and closed all non-essential business offices in a move to curb the spread of COVID-19. The MCO was subsequently relaxed to allow certain businesses to recommence business activities. In order to mitigate the weaker economy outlook, the Malaysian government has implemented several relief measures to help to stimulate the economy, including a 6 months moratorium on repayments of loans and financing from 1 April 2020 to 30 September 2020.

As the Group's businesses are considered essential services, we have continued to operate during the restricted period. The following paragraphs provide an analysis of the impact to the Group:

NOTES TO INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2020

A9. Significant event during and subsequent to the financial interim period (cont'd.)

(a) Impact on business operation

As mentioned above, the Group's businesses continued to operate during these restricted period. There were no material contracts being suspended or terms that have been waived, modified or newly imposed to the Group's activities. The disruption on the supply chain and distribution networks of our services arising from the COVID-19 pandemic was also minimal despite closure of certain branches as we were able provide our services digitally.

The Group's digital journey that started a few years ago which focused not only on customer-centric technologies but also automation of operational processes had allowed us to capitalise on the sudden customer shift to online broking as well as the increase in trading volume during this period.

(b) Impact on cash flows, liquidity, financial performance and position

The Group's financial performance for current financial period was not significantly affected by the COVID-19 pandemic. Although there may be higher impaired loans as macroeconomic conditions weaken and consequently some increase in credit costs, these are largely due to market volatility and is not expected to be permanent. Our overall asset quality remains intact.

In addition, moratoriums granted to customers will have minimal impact on the Group's cash flow, operations and financial performance. The Group also continues to maintain healthy capital adequacy and liquidity ratios throughout the period under review.

(c) Strategy and steps taken to address the impact of the COVID-19

In response to this "new normal" environment, appropriate and effective measures were put in place by the Group.

For our employees, we have split our operations in separate locations for critical departments and enforced work-from-home arrangements to ensure our essential services continue with minimal disruptions. To protect our employees who have to work from office, daily sanitisation of areas, temperature checking and social distancing are adopted. We are in compliance with the recommendations from Ministry of Health that are issued from time to time.

We will continue to monitor and assess our credit, operational and liquidity risks on regular basis through the various policies and procedures that are in place to safeguard the financial position, performance and cash flows of the Group.

We have and will continue our efforts to use digital tools to enable business and operational activities to be managed efficiently and effectively in a post-COVID-19 environment.

A28. Fair value of financial instruments

Fair value measurements

The Group and the Bank use the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2 - other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3 - techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Valuation techniques and sensitivity analysis

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted prices is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an on-going basis. This would include quoted securities.

Where fair value is determined using unquoted market prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Group and the Bank then determine fair value based upon valuation techniques that use inputs, market parameters including but not limited to yield curves, volatilities and foreign exchange rates. The majority of valuation techniques employ only observable market data. These would include certain bonds, government bonds, corporate debt securities and derivatives.

B1. Performance Review

Group:

	Individual period		Cumulative period	
	3 months ended	3 months ended	9 months ended	9 months ended
	30 September 2020 (3Q20)	30 September 2019 (3Q19)	30 September 2020 (9M20)	30 September 2019 (9M19)
(RM'000)				
Revenue	319,486	159,418	694,324	485,110
Net income	289,494	110,458	576,995	335,173
Profit before tax	63,325	9,077	81,633	28,517
Profit after tax	49,428	4,292	62,949	17,679

The Group reported profit before tax ("PBT") of RM63.3 million for current quarter ("3Q20") as compared to RM9.1 million for corresponding quarter in the previous year 2019 ("3Q19"). Despite the challenging time arising from Covid-19 pandemic, the Group generated higher net income of RM289.5 million for 3Q20 from RM110.5 million a year ago. This was contributed by higher net interest income, net brokerage income, trading and investment income, placement fee income and management fees income as well as share of profits from joint venture company.

The Group reported higher PBT of RM81.6 million for the period ended 30 September 2020 ("9M20") compared to the corresponding period in the previous year (9M19), mainly due to higher contribution from our stockbroking and investment management business as well as higher share of profits from our joint venture with Rakuten Trade.

Performance analysis of the Group's major operating segments are as follows:

Stockbroking:

	Individual period		Cumulative period	
	3 months ended	3 months ended	9 months ended	9 months ended
	30 September 2020 (3Q20)	30 September 2019 (3Q19)	30 September 2020 (9M20)	30 September 2019 (9M19)
(RM'000)				
Revenue	225,423	55,926	412,655	184,313
Net income	223,050	52,978	402,546	175,348
Profit before tax	52,544	(3,797)	52,712	821

Stockbroking segment has achieved higher PBT for 3Q20 mainly due to higher net brokerage income generated from the significant increase in Bursa trading volume. There was also higher trading and investment income generated during the period.

On year to date basis, this segment achieved higher PBT for 9M20 mainly due to higher net brokerage income, trading and investment income and reversal of provision for credit loss.

Profit before tax	8,426	10,175	20,163	18,894

Investment Banking ("IB") registered lower PBT for 3Q20 compared to 3Q19 mainly due to lower IB fee income, processing fee income and trading and investment income, partially mitigated by higher net interest income.

IB recorded higher PBT of RM20.2 million for 9M20 (9M19: PBT of RM18.9 million) mainly due to higher interest income and trading and investment income. However, these were partially negated by lower IB fees income and processing fee income.

Investment and Wealth Management:

B3. Prospects for 2020

The Malaysian Gross Domestic Product (“GDP”) contraction is expected to ease further in the 4Q20 (-1.7%; 3Q20: -2.7%), underpinned by expansionary fiscal measures and modest recovery in external demand. However, the rate of recovery would be slowed by the implementation of the Conditional Movement Control Order (CMCO) amid the third wave of COVID-19 infections and easing pent-up demand. Overall, we forecast the GDP growth to be between 6.0% to 6.5% in 2021. Our forecast is subjected to several downside risks including a prolonged surge of COVID-19 infections resulting in a reinstatement of lockdown measures in major export markets, tightening of the CMCO in the Klang Valley leading to a closure of all non-essential services, rising domestic political jitters and weakness in global oil prices.

Even with Bank Negara Malaysia’s optimism with regards to growth prospect, we believe there may still be the probability of a 25 bps Overnight Policy Rate cut at the next Monetary Policy Committee meeting in January 2021, contingent on the course of COVID-19 pandemic locally and the degree of tightening of the COVID-19 containment measures in the immediate term.

Despite the current challenging environment, the Group has enjoyed a significant increase in income due to exceptionally high Bursa volumes as well as an increase in market share in 3Q20. While Bursa volume has tapered down in the recent months, the Group is on track to achieve improved profits for the year.

NOTES TO INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2020

REQUIREMENTS OF PART A, APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B11. Derivative financial instruments (Cont'd.)

Changes in the risk, cash requirement, policies in place and accounting policies reported in prior financial years

There have been no changes since the end of the previous financial year ended 31 December 2019 in respect of the following:

- (i) the market risk and credit risk associated with the derivatives;
- (ii) the cash requirements of the derivatives;
- (iii) the policies in place for mitigating or controlling the risks associated with the derivatives; and
- (iv) the related accounting policies

Types of derivative financial instruments

Options are contractual agreements or embedded in other financial instruments under which seller/issuer grants the purchaser the right, but not the obligation, either to buy a call option or sell a put option at or by a pre-defined date during a pre-defined period, a specific amount of an underlying assets at a pre-determined price.

The Seller may receive a premium from the purchaser in consideration of risk. Options may be either exchange-traded, negotiated between the purchaser and the seller at the over-the-counter market or embedded components in other financial instruments.

A swap is an agreement between two parties to exchange a series of future cash flows. Each cash flow comprises one leg of the swap. One cash flow is generally fixed, while the other is variable and based on a benchmark interest rate, floating currency exchange rate or index price.

A swap contract is essentially a derivative contract in which the value of the contract derived from the assets it represents. These assets are called the underlying assets and their value typically changes, resulting in a change of the value of the derivative itself. Most swaps contracts are traded over-the-counter that are customized to the needs of both parties.

Purposes of engaging in derivative financial instruments

There have been no changes since the end of the financial year in respect of the type of derivative financial instruments, the rationale and expected benefits accruing to the Group from these derivative financial instruments.

Loss arising from fair value changes of derivative financial instruments

The unrealised loss arising from fair value changes of derivative financial instruments for the current quarter amounted to RM98,763,650 (2Q20 loss: RM30,719,464). This was arrived at based on the fluctuation in the market prices of the derivative financial instruments or underlying assets which are listed on Bursa Malaysia.

REQUIREMENTS OF PART A, APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B12. Contingent liabilities

	Group and Bank	
	30 September	31 December
	2020	2019
	RM'000	RM'000
(a) On 27 November 2019, the Bank was served with a sealed Writ of Summons and Statement of Claim filed by Lai Sing Foo ("the Plaintiff"). The Plaintiff is alleging that, inter alia, the 2nd Defendant (who is a Dealer's Representative ("DR") of KIBB) has arranged for the Plaintiff to purchase shares of a public listed company with a promise to buy back at a higher price from the 3rd Defendant (a third party). The Plaintiff alleges that the 3rd Defendant has failed to buy back the said shares which caused the Plaintiff to suffer losses and claims, inter alia, the difference between the sale proceeds of the said shares and RM3.6 million. The Plaintiff's claims against KIBB are on the basis that, inter alia, the 2nd Defendant is a DR with KIBB. In this regard, KIBB will contest the Plaintiff's claim in the Court. The matter is fixed for case management on 22 September 2020 and the trial dates are from 11 to 13 August 2021.	<u>3,600</u>	<u>3,600</u>
(b) On 18 December 2019, the Bank was served with a sealed Writ of Summons and Statement of Claim filed by Opes Capital Berhad ("the Plaintiff"). The Plaintiff is alleging that, inter alia, the 1st Defendant (who was a dealer representative of KIBB) and another third (3rd) party had failed to purchase certain shares of a public listed company on its behalf upon transmitting a total of RM16,000,000, and had caused the Plaintiff to suffer losses. KIBB's solicitors are of the view that the claim against KIBB is without merit and KIBB will contest the claim in the court. The trial dates of 26 to 29 July 2021 has been vacated and is now pending for case management on 20 October 2020.	<u>16,000</u>	<u>16,000</u>

Based on legal advice obtained, the Board of Directors are of the opinion that the Bank has good grounds to defend these claims and that no provisions are necessary as at reporting date.
