MFRS 16 Leases

MFRS 16 replaces the guidance in MFRS 117, Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases – Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. As permitted by MFRS 16, the Group has applied MFRS 16 using modified retrospective approach. The Group has elected to recognise the cumulative effects of the initial recognition at the date of application.

Under MFRS 16, The Group recognises a right-of-use representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. The Group has applied the recognition exemptions for short-term leases and leases of low-value items.

Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

A3. Restatement of comparative figures

- (a) As reported in previous financial year ended 31 December 2018, the Group has made provision for affordable housing loss for future projects. Upon adoption of the MFRS framework in the prior year, provision for foreseeable losses is to be recognised progressively as the related premium housing is constructed.
 - As such, the Group has re-estimated the provision for affordable housing and reduced the provision by RM36 million at 1 January 2018 with a corresponding decrease in land held for development and inventories. During the financial year 2018, the Group has reestimated the percentage of completion to exclude the effect of provision of affordable housing loss. As a result, the revenue, cost of sales and deferred tax have been adjusted by RM10 million, RM3 million and RM2 million respectively.
- (b) The Group had previously capitalised borrowing costs incurred for certain property development projects and such costs were included in the inventories balances. This has been restated by charging out the interest to finance cost.
- (c) The Group has reclassified interest expense of RM7 million from administrative expenses to finance cost to conform to the current year's presentation.
- (d) The Group has reclassified impairment of goodwill of RM5 million from administrative expenses to other expenses to conform to the current year's presentation.

A3. Restatement of comparative figures (contd.)

- (e) The prior year comparatives have been restated to reflect the current accretion of the deferred payment for land held for development. The trade and other payable balance as at 1 January 2018 and 31 December 2018 has been increased by RM40 million and RM59 million respectively, with a corresponding increase in the land held for development.
- (f) In prior year, the Group has estimated the deferred tax on the fair value adjustment in investment properties based on 5% RPGT tax rate. The Group has restated RM 2 million in deferred tax liability based on 10% RPGT tax rate.

The financial impact from the restatement are summarised as follows:-

EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 DECEMBER 2019 (contd.)

PART B: EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA

B1. Performance review

a) Performance of the current quarter against the preceding year corresponding quarter (4Q19 vs. 4Q18)

The Group's revenue for the quarter ended 31 December 2019 ("4Q19") of RM62.3 million is 34.1% lower than the previous year's quarter ended 31 December 2018 ("4Q18") revenue of RM94.5 million. The decrease in Group revenue is reflective of the overall weak property market, particularly in the high-rise commercial development and retail market sectors.

Group loss before tax for 4Q19 widened to RM17.7 million against the previous year's corresponding quarter loss before tax 4Q18 of RM12.3 million.

The above Group loss before tax for current quarter is mainly due to the accounting treatment on capitalisation of borrowing costs in accordance with MFRS 123 in relation to the Group's 641 acre landbank at Bukit Katil, Malacca. The borrowing costs incurred on the land is now charged to statement of profit or loss, as opposed to being capitalised in previous years.

Property Development

Encorp's core business division recorded lower revenue of RM41.3 million for the quarter 4Q19 as compared to the revenue of RM69.8 million in 4Q18. This is due to lower contributions from on-going property projects.

Loss before tax for the division in 4Q19 is RM12.5 million compared to a profit before tax of RM10.3 million in 4Q18 reflecting a significant decrease in profit between 4Q19 and 4Q18 of RM22.8 million. Decrease in profit for the quarter is due to charging out of interest expenses on Bukit Katil Land which was capitalised in prior year. The Group is currently in the process of renegotiating to revise certain terms and conditions of the Master Development Agreement for the Bukit Katil Land, subject to mutual agreement of the contracting parties. The potential positive effects arising from the renegotiation of the terms and conditions, if any, would be reflected in the interim financial statements of subsequent periods.

Based on the requirement in MFRS 123, borrowing costs incurred on an asset is not qualified for capitalisation if there are no substantial development activities undertaken to change the asset's condition.

EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 DECEMBER 2019 (contd.)

PART B: EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA (contd.)

B1. Performance review (contd.)

a) Performance of the current quarter against the preceding year corresponding quarter (4Q19 vs. 4Q18) (contd.)

Property Development (contd.)

The development plans for Bukit Katil land in Malacca have been impacted by overall soft property market. In addition, the delay on Kuala Lumpur-Singapore high speed rail ("HSR") project curtailed Encorp's earlier plans to leverage on the proximity of the future HSR Ayer Keroh station to develop a new township at Bukit Katil to ensure project feasibility.

Investment Property

The revenue for the investment property division in 4Q19 is RM1.8 million, a significant improvement of RM1.4 million from the revenue of RM0.4 million in 4Q18.

The management is reviewing its plans to intensity marketing plans and strengthen leasing activities to improve occupancy rate at Encorp Strand Mall as well as footfall traffic in this challenging current retail environment.

Concessionaire

The concession division recorded revenue of RM19.2 million in 4Q19 as compared to revenue of RM20.6 million in 4Q18.

Pursuant to the Privatisation Agreement, the concession income is payable by the Government following completion and handover of each cluster of the teachers' quarters up to the end of the concession period.

Accordingly, the Group is compensated with deferred payment income from the concession and it is recognised as revenue.

PART B: EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA (contd.)

B2. Comparison with Immediate Preceding Quarter

The revenue for the Group for 4Q19 of RM62.3 million is higher by RM22.3 million as compared to revenue for 3Q19 of RM40.0 million. Loss before tax in preceding quarter of RM5.3 million has increased by RM12.4 million to loss before tax of RM17.7 million.

Increase in loss before tax for current quarter as compared to immediate preceding quarter is due to charging out of interest expenses on Bukit Katil Land in current quarter.

B3. Commentary on prospects

The outlook of property sector is expected to remain challenging with large property overhang in certain subsectors. The volatility and uncertainty in the market arising from COVID-19 virus has affected various aspects of the economic activities including the tourism, consumer spending and supply chain. This has negatively affected the sentiment of potential house buyers.

Residential sector remains the key driver of the property market compared to other sectors as the transactions remain positive. Highrise commercial development on the other hand remains challenging given the high amount of ready stock and growing inventory contributing to a large overhang and fierce competition. We expect the landed residential market to remain active.

The Group shall continue to develop and introduce innovative marketing and pricing strategies to clear the unsold inventory units. As the landed residential development market continues to experience firm demand, the Group shall continue to launch its projects in Cahaya Alam which is located in a mature township coupled with excellent access.

B4. Variance from forecast profit and profit guarantee
