A. EXPLANATION NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD ("MFRS") 134: INTERIM FINANCIAL REPORTING (CONT'D)

A2. Auditors' Report on Preceding Annual Financial Statements

The Auditors' Reports on the financial statements of the Company and its subsidiaries for the financial year ended 31 August 2021 were not qualified.

A3. Seasonality or Cyclicality of Operations

The Group's business operations are exposed to seasonality patterns as the Group generally experiences the highest quarterly sales in the second financial quarter (December to February) and lowest quarterly sales in the fourth financial quarter (June to August) in every financial year. This is primarily caused by the timing of the start of the academic year for national schools, which may adversely impact the Group's quarterly revenue, profit and cash flow.

Nevertheless, the Group takes the seasonality patterns into consideration in our cash flow planning. In addition, the Group has implemented strategies to reduce the seasonality patterns such as expanding our market shares for non-academic segment which is less prone to seasonality, and entering into new market segments.

A4. Unusual Items Affecting the Financial Statements

The deferment of the new academic year from January to March 2022 has affected the business operations of the Group where the book orders were also delayed from the first quarter to the second quarter of the financial year ending 31 August 2022, impacting our usual seasonality pattern.

Other than the above, there were no significant items affecting the assets, liabilities, equity, net income, or cash flows of the Group that were unusual in nature, size or incidence during the current financial quarter.

A5. Changes in Estimates

There were no material changes in the estimates that have a material effect in the current financial quarter and financial year-to-date.

A6. Debt and Equity Securities

Employees' Share Option Scheme ("ESOS")

During the current financial quarter, no new ordinary shares were issued pursuant to the exercise of the ESOS. As at the end of the current financial quarter, a total of 5,335,000 options granted have been exercised at this report

On 10 March 2022, the Company offered another 12,000,000 options at an exercise price of RM0.10 each to its eligible employees under the ESOS. None of the options granted under this tranche have been exercised as at the date of this report.

Save as disclosed above, there was no issuance, cancellation, repurchase, resale or repayment of debt and equity securities in the current financial quarter and current financial year-to-date.

A7. Dividend Paid

No dividend was paid by the Company in the current financial quarter.

B1. Review of Performance

<u>Current Quarter ended 28 February 2022 against Preceding Financial Year's Corresponding Quarter ended 28 February 2021</u>

The Group recorded a revenue of RM23.537 million for the current financial quarter as compared to RM24.184 million for the preceding financial year's corresponding quarter. This represents a slight decrease of RM0.647 million (equivalent to 2.68%), due to our Print Publishing Division, which showed a decrease of RM1.027 million, but this was cushioned by the increase in our Digital & Network Marketing Division of RM0.328 million.

The decrease in the contribution from the Print Publishing Division was due to the deferment of the school new academic year to March 2022 as mentioned in Note A4, coupled with the long festive season resulting in a delay of book orders as schools were still closed in most part of the current financial quarter. The increase in the revenue in our Digital & Network Marketing Division is a reflection in the increase in demand of our English competency assessment product, Linguaskill by Cambridge Assessment English.

The Group recorded a profit before tax ("PBT") of RM4.923 million for the current financial quarter visà-vis a PBT of RM5.536 million for the preceding financial year's corresponding quarter. This represents a decrease of RM0.613 million mainly due to the lower revenue achieved and partial reinstatement of staff salary cut previously, coupled with the discontinuation of government wages subsidy in the current financial quarter.

<u>Current Financial Year-to-Date ended 28 February 2022 against Preceding Financial Year's</u> <u>Corresponding Year-to-Date ended 28 February 2021</u>

The Group recorded a revenue of RM32.950 million for the current financial year-to-date as compared to RM38.671 million for the preceding financial year's corresponding year-to-date. This represents a decrease of RM5.721 million (equivalent to 14.79%), mainly due to our Print Publishing Division, which showed a decrease of RM5.568 million.

The decrease in the contribution from the Print Publishing Division was due to the deferment of the school new academic year to March 2022 as mentioned in Note A4, coupled with the long festive season resulting in a delay of book orders as anticipated.

The Group recorded a PBT of RM2.314 million for the current financial year-to-date vis-à-vis a PBT of RM5.812 million for the preceding financial year's corresponding year-to-date. This represents a decrease of RM3.498 million mainly due to the reasons mentioned above.

B2. Variation of Results for the Current Financial Quarter ended 28 February 2022 against the Immediate Preceding Financial Quarter

	Current Quarter 28.02.2022 RM'000	Preceding Quarter 30.11.2021 RM'000	Change RM'000
Revenue	23,537	9,413	14,124
Profit/(Loss) Before Tax	4,923	(2,609)	7,532

The Group recorded a revenue of RM23.537 million for the current financial quarter as compared to RM9.413 million for the immediate preceding financial quarter, representing an increase of RM14.124 million (equivalent to 150.05%). The increase in revenue was due to the deferment of the new academic year as mentioned above.

Similarly, the Group recorded a PBT of RM4.923 million for the current financial quarter as compared to a loss before tax of RM2.609 million for the immediate preceding financial quarter mainly due to the higher revenue achieved.

B3. Group's Prospects for the financial year ending ("FYE") 31 August 2022

Our Group's second financial quarter of FYE 31 August 2022 had performed within our expectations. Despite recording a year-on-year decrease of 2.68% and 7.81% in revenue and net profit respectively, the second financial quarter of FYE 31 August 2021, in actual fact, does not serve as a direct comparison due to the difference in the commencement of the new academic year for 2021 and 2022, which had affected the demand trends of our products for both financial quarters (thus affecting our usual seasonality patterns).

During FYE 31 August 2021, the academic year had begun on 20 January 2021 whereas for FYE 31 August 2022, the academic year had been delayed to 21 March 2022. As such, for the second financial quarter of FYE 31 August 2021 (December 2020 - February 2021), demand for our educational products during that quarter was derived before, during, and after the commencement of the academic year on 20 January 2021. However, for the second financial quarter of FYE 31 August 2022 (December 2021 – February 2022), the demand for our educational products was derived solely before the commencement of the academic year on 21 March 2022. Despite this, our Group's second financial quarter of FYE 31 August 2022 managed to perform comparably with the preceding year's quarter. This performance was in line with our anticipated growth prospects.

Demand for our educational products in the second quarter of FYE 31 August 2022 was largely in relation to our *Modul Aktiviti Integrasi Digital* series of workbooks targeting both Primary and Secondary School students and our newly launched flagship SPM guidebook, Masterclass SPM 2022. These titles have been well-received by teachers and students alike as they combine conventional print media and digital solutions to form a comprehensive, hybrid print publishing product, a notable feature of our Group's products which has been well known for in these recent years.

Moving forward, our Group is confident that the demand for our academic products will be encouraging in the third financial quarter of FYE 31 August 2022. This is primarily due to the commencement of the 2022 academic year in full force, resulting in an influx of demand for our educational products, such as workbooks and guidebooks, from students, teachers, schools, and retailers nationwide in preparation for the new schooling year. Further to that, our Group is capitalising on the market consolidation to increase our market share.

We will continue to monitor our risk management strategies, including cost reduction measures and liquidity management, which would benefit the Group as we strengthen our economies of scale and financial position. All things considered, notwithstanding unforeseen circumstances, our Group remains cautiously optimistic of our prospects for FYE 31 August 2022 despite these challenging times.
