Practice 6.1

The board should undertake a formal and objective annual evaluation to determine the effectiveness of the board, its committees and each individual director. The board should disclose how the assessment was carried out its outcome, actions taken and how it has or will influence board composition.

For Large Companies, the board engages an independent expert at least every three years, to facilitate objective and candid board evaluation.

Note: For a Large Company to qualify for adoption of this practice, it must undertake annual board evaluation and engage an independent expert at least every three years to facilitate the evaluation.

Application	:	Applied
Explanation on application of the practice	:	<p>The effectiveness of the board is vital to the success of the Group and the Company undertakes a formal evaluation each year in order to assess the effectiveness of the Board and Board Committees.</p> <p>During the financial year 2021, an annual assessment of the effectiveness of the board as a whole, individual directors, Board Committees and independence of its independent directors was conducted. The assessment was led by the Nomination Committee's Chairperson and supported by the Company Secretary. The annual assessment was considered by the Nomination Committee, which then made recommendation to the Board to discharge its duties and responsibilities.</p> <p>The assessment of the Board is based on 5 main areas relating to Board composition and competencies, Board succession, Board meeting organisation and effectiveness, Board Chairman's roles and responsibilities and Board effectiveness. Amongst the most important criteria for evaluating board performances are:</p> <ul style="list-style-type: none">• individual Board member's understanding of the Company's mission and strategic plan;• Board members' understanding and knowledge of the Company's business;• time commitment in deliberation and meaningful participation in the Board meetings; and• Board meetings are conducted in a manner that allows for open and constructive communication, encourages focused discussions, critical questioning and the expression of various viewpoints and timely resolution of issues related to the Board meetings.

	<p>The assessment criteria for Board Committees includes the Board Committees' structure and composition, roles and responsibilities, meetings and communication as well as the collective skills and expertise of the Committee members.</p> <p>For individual Director's evaluation, the assessment criteria include abilities and competencies, calibre and personality, objectivity and contribution to the activities of the Board and Board Committees.</p> <p>Each member of the Nomination Committee receives the Board performance evaluation questionnaires and separate Committee performance evaluation forms. The assessment of the Nomination Committee's performance shall be carried out by individual members of the Nomination Committee. All Board members are required to assess their own performance by completing the Director's performance evaluation form.</p> <p>The Company Secretary shall compile the results for submission to the Nomination Committee for review and assessment. The Chairperson of the Nomination Committee shall then report the findings and/or recommendations to the Board. All assessments and evaluations carried out by the Nomination Committee in the discharge of all its functions are properly documented and kept confidential.</p> <p>The performance of those Directors who are subject to re-election at the forthcoming AGM is assessed by the Nomination Committee whereupon recommendations are submitted to the Board for decision on the tabling of the proposed re-election of the Directors concerned for shareholders' approval. In accordance with the Company's Constitution, all Directors shall retire from office once at least in each three years, but shall be eligible for re-election. A Director seeking re-election will abstain from all deliberations regarding his re-election to the Board.</p> <p>During 2021, the Nomination Committee reviewed the required mix of skills, experience and other qualities, including core competencies which Non-Executive Directors should bring to the Board and was of the view that current composition of Non-Executive Directors reflects a good mix of Directors with diverse professional backgrounds and a wide range of experiences in business, finance, legal, sustainability and general management that contributed effectively in leading and directing the management and affairs of the Group.</p> <p>The Nomination Committee also evaluated the effectiveness of the Board as a whole, the various Committees and assessing the contribution of each individual Director. Good and effective communication was established among Board members and Board Committee members on official and unofficial basis and major policies and corporate proposals were vigorously debated and scrutinised before putting to a vote.
