For the current quarter ended 31 July 2021, the Group recorded a revenue of RM13.409 million compared to preceding year corresponding quarter of RM8.680 million; an increase of RM4.729 million. For the current quarter under review, the Group recorded a loss before tax of RM2.603 million compared to a loss before tax of RM1.490 million for the preceding year corresponding quarter. #### **B3.** Commentary of Prospects

Growth of the Malaysian economy is expected to recover in 2021. However, Malaysia's economy is projected to grow by 4.5% in 2021, lower than initial projections of 6.0% as a result of the slower pathway in subduing the pandemic and slower than expected vaccine rollout, according to the "Malaysia Economic Monitor June 2021: Weathering the Surge" publication issued by the World Bank.

The Group anticipates the economic landscape for consumer packaging and printing services industry to remain challenging in the near future. As such, moving forward, the Group will be focusing on developing the face mask business in order to cushion any adverse impacts from the consumer packaging and printing services industry.

For the face mask business, the Group plans to gradually expand the production capacity of its face mask manufacturing operations up to 102 manufacturing lines for 3-ply face masks and 26 manufacturing lines for respirator face mask by 2023.

The Group will also plan to streamline its manufacturing processes to reduce the higher operating costs and focus in hiring competent procurement personnel to source for good quality raw material at a reasonable price in order to achieve a sustainable profit for its business.

The Group believes that the synergies between both business segments can be leveraged upon to create distinctive opportunities for growth and expansion. As such, the Group remains optimistic of its future prospects and growth in the coming financial year despite the challenging operating environment.
