The auditors' report on the financial statements for the financial year ended 31 December 2021 was not qualified.

A3. Seasonal and Cyclical Factors

The Group's business operation result was previously subjected to seasonality factors as the demand for new driving licences generally increases in the first half of the calendar year (i.e the First and Second Financial Quarters) due mainly to the long school holidays after the Government exams, where most 16-20 year olds would obtain their driving licences between the months of January to June. Therefore, revenue related to the "Jabatan Pengangkutan Jalan Malaysia" ("JPJ") in the first half of the calendar year (January – June) has historically been approximately 50% higher than the JPJ-related revenue recorded for the second half of the calendar year (July – December). However, the seasonal impact of JPJ test taking revenue had since diminished commencing from Financial Year ("FY") ended 30 June 2015 as revenue from other services increasingly contribute to a larger proportion of group revenue.
