PART B - EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS FOR THE ACE MARKET

B1. Review of Performance

Current quarter against previous year preceding quarter

The Group recorded revenue of RM20.3 million for the current quarter ("Q3FY2022"), a slight reduction of RM17K as compared to revenue of RM20.4 million in previous year's corresponding quarter ("Q3FY2021"). In tandem with the higher amortization on cloud-based software, the Group reported a lower profit before tax of RM1.2 million as compared to profit before tax of RM2.6 million in Q3FY2021. As a result, the Group registered profit attributable to equity holders of the parent company of RM800K as compared to profit attributable to equity holders of the parent company of RM1.6 million for Q3FY2021.

Current cumulative period against previous year cumulative period

The Group recorded revenue of RM54.9 million, a decrease of RM1.1 million as compared to the corresponding financial period in the previous year. The decrease in revenue was driven by the lower revenue from the China segment due to Covid-19 lock down in various major cities and restrictive government policy relating to the property sector. The Group reported loss before tax of RM3.2 million as compared to profit before tax of RM6.2 million in preceding year's corresponding financial period. This was mainly attributable to the one-off impairment cost on contract asset and amortization on cloud-based software. As a result, the Group registered loss attributable to equity holders of the parent company of RM4.4 million as compared to profit attributable to equity holders of the parent company of RM4.4 million for the corresponding quarter last year.

B2. Comparison with Preceding Quarter's Results

	Current Quarter Ended 30.09.2022 RM '000	Preceding Quarter Ended 30.6.2022 RM '000
Revenue	20,346	19,395
Gross Profits	19,605	18,389
Gross Margin	96.0%	95.0%
Profit/(Loss) Before Tax	1,198	(2,430)

The Group registered a higher revenue of RM20.3 million for current quarter ("Q3FY2022") as compared to RM19.4 million in preceding quarter ("Q2FY2022") mainly due to sales improvement in both China and Indonesia segment.

As a result, the Group recorded a profit before tax of RM1.2 million for Q3FY2022 as compared to loss before tax of RM2.4 million in Q2FY2022, which represents an increase of RM3.6 million.

B3. Business Prospects

Malaysian market response to our award-winning mobile internet X-series products has been favorable as Malaysia had transitioned to endemic since Q2 2022. Our mobile internet solutions with IR 4.0 help businesses streamline the business processes by decreasing reliance on human resources, improve service level and system connectivity at all times at anywhere. The change of our solution's pricing model from conventional outright purchase to annual licensing, will continue to improve the recurring revenue over the long term in IFCA's Malaysia segment.

The unexpected prolonged strict lockdowns in China since first quarter of the financial year had severely impacted the Group's business there. Although there is slight improvement in Q3 Y2022 in our China market but the China market situation was worrying by the chain effect of the Zero Covid policy, Evergrande liquidity crisis and the government's "three red lines" policy, which led to tightening of cash and slowdown of activities in the local property sector.

Indonesia segment continues to contribute positively to revenue and earnings. We expect this growth to continue in Q4Y2022.

As at 30 September 2022, the Group has unbilled orders in hand amounting to RM33.9 million.

B4. Profit Forecast

The Group has not provided any profit forecasts in any public documents for the current quarter under review.

The effective tax rate is higher than the Malaysian statutory tax rate due to certain entities utilization of unabsorbed losses and overseas tax incentives granted to High-Tech enterprise.
