A11. CHANGES IN THE COMPOSITION OF THE GROUP

There were no changes in the composition of the Group in the current quarter and the financial year-to-date.

A12. CHANGES IN CONTINGENT LIABILITIES OR CONTINGENT ASSETS

(a) As at 18 August 2023, the latest practicable date which is not earlier than 7 days from the date of issuance of this interim Financial Report, the net changes in the contingent liabilities of the Company to financial institutions and suppliers for banking and trade credit facilities granted to subsidiary companies since the preceding financial year ended 30 September 2022 recorded a decrease of approximately RM24.9 million. Total credit facilities granted to subsidiaries with corporate guarantees issued by the Company to the lenders and utilised by subsidiaries as at 18 August 2023 was approximately RM733.1 million and RM321.3 million respectively.

A12. CHANGES IN CONTINGENT LIABILITIES OR CONTINGENT ASSETS (CONT'D)

- (b) On 11 January 2019, the recipient of KTM Komuter Station, Perbadanan Aset Keretapi (“PAK”) has issued a certificate of non-completion (“CNC”) to Srijang Kemajuan Sdn Bhd (“SKSB”), a 99.99% owned subsidiary of the Company and stating that SKSB has failed to complete the construction of KTM Komuter Station (“Construction Works”) by 10 December 2016 and therefore PAK is entitled to impose liquidated ascertained damages (“LAD”) pursuant to the Development cum Lease Agreement (“DCLA”) dated 12 October 2012 entered between PAK and SKSB. The LAD will be calculated daily at a rate of RM4,438.36 from the revised completion date on 10 December 2016 (extension of time number 1) until the completion of the Construction Works.

On 28 February 2019, SKSB has written to dispute the validity of the CNC on the grounds that SKSB had on 10 January 2017 submitted extension of time (“EOT”) number 2 of which PAK has yet to assess SKSB’s application for EOT number 2 and on the same day, SKSB submitted EOT number 3 (“EOT 3”) in view of the delay by relevant authorities in approving the change of building design and use of building materials.

On 19 August 2019, PAK granted SKSB’s EOT number 2, for a period of up to 8 January 2017 (“EOT 2”).

On 13 January 2020, SKSB has written to appeal for the EOT 2 to be extended to 30 December 2017 instead of 8 January 2017.

On 15 June 2020, SKSB submitted EOT number 4 (“EOT 4”), for period from 11 April 2020 to 1 July 2020 together with the above mentioned EOT 2 (period from 11 December 2016 to 30 December 2017) and EOT 3 (period from 31 December 2017 to 10 April 2020).

On 23 November 2021, SKSB submitted EOT number 5 (“EOT 5”), or period from 10 June 2020 to 17 October 2021 together with the above mentioned EOT 2, EOT 3 and EOT 4.

On 13 March 2023, SKSB has handed over vacant possession of the KTM Komuter Station to PAK. SKSB will submit EOT number 6 in due course.

Based on legal opinion obtained, the directors of SKSB are of the opinion that SKSB’s LAD could not be estimated until and unless PAK has completed the assessment of EOT 3, EOT 4 and EOT 5 as the date by which SKSB is required to complete the Construction Works remains uncertain.

In view of the uncertainty, there is no revised completion date from which the LAD could be computed and PAK’s right to impose LAD pursuant to DCLA cannot be triggered. Accordingly, SKSB has not made any provision in the financial statements and only disclosed as contingent liabilities.

(i) Third quarter ended 30 June 2023

The Group recorded higher revenue of RM273.7 million for the current quarter as compared to the preceding year corresponding quarter of RM256.5 million but lower profit before tax of RM38.4 million for the current quarter as compared to the preceding year corresponding quarter of RM54.0 million mainly due to lower gross profit from the property and construction division following the completion of Inspirasi @ Mont Kiara in July 2022 and absent of sale of land held for property development.

(ii) Financial year-to-date (“YTD”) ended 30 June 2023 by Segments

Property and construction

Despite the higher revenue of RM406.5million for the current YTD as compared to the preceding YTD of RM370.3 million, this division recorded lower profit before tax of RM40.5 million for the current YTD as compared to the preceding YTD of RM50.1 million mainly due absent of sale of land held for property development.

As at 30.6.2023, the Group has locked-in unbilled sales value of RM910.4 million from which attributed sales revenue and profits will be recognised progressively as their development percentage of completion progresses and were mainly contributed from the ongoing development projects namely Hill Park Shah Alam (RM79.4 million), Nexus @ Kajang Station (RM32.6 million), Kajang East Avenue 1 shops (RM4.4 million), MIRAI Residences @ Kajang 2 Precinct 1 (RM218.4 million), Nexus @ Taman Pertama (RM93.8 million), TR2 Residence @ Jalan Tun Razak (RM344.9 million), Akina @ Kajang 2 Precinct 3 phase 1 (RM95.3 million) and Kajang East Avenue 2 shops (RM41.6 million).

Plantation

The division recorded lower revenue and profit before tax of RM244.8 million and RM29.6 million for the current YTD as compared to the preceding YTD of RM251.3 million and RM72.8 million respectively.

Excluding unrealised foreign exchange gains of RM2.6 million (preceding YTD: RM1.2 million), this division recorded profit before tax of RM27.0 million for the current YTD as compared to the preceding YTD of RM71.6 million. The decrease in revenue and profit before tax excluding unrealised foreign exchange gains was mainly due to lower sales of PK which resulted from lower average selling prices of RM1,651 per MT with PK sales volume of 12,534MT (preceding YTD: RM2,975 per MT with PK sales volume of 11,474MT) and higher average production cost. The lower sales from PK were mitigated by higher sales of CPO. The global inflationary pressure, energy price shock, rise in interest rates and Russia-Ukraine conflict also impacted the cost of production and resulted in the increase in energy and fertiliser costs.

Manufacturing

The division recorded lower of revenue and profit before tax of RM2.2 million and RM1.7 million in the current YTD as compared to the preceding YTD of RM3.4 million and RM2.5 million respectively mainly due to slow down in furniture sales orders from existing customers following the Russia-Ukraine conflicts.

This division revenue and profit before tax were mainly derived from the inter-group transactions on management fee and interest billings and charging which were eliminated at the Group level.

B2. COMMENT ON MATERIAL CHANGES IN THE PROFIT BEFORE TAX OF THE CURRENT QUARTER COMPARED WITH PRECEDING QUARTER

	Current Quarter 30.06.2023 RM'000	Immediate Preceding Quarter 31.03.2023 RM'000	Changes RM'000
Revenue	273,686	255,636	18,050

Profit after tax	24,653	27,453	(2,800)
Profit attributable to ordinary equity holders of the parent	21,635	25,057	(3,422)

The Group recorded higher revenue and profit before tax of RM273.7 million and RM38.4 million for the current quarter as compared to the preceding quarter of RM255.6 million and RM34.7 million respectively due to inclusion of unrealised foreign exchange gains of RM6.6 million in the current quarter as compared to RM5.0 million in the preceding quarter.

Excluding unrealised foreign exchange gains, the Group recorded profit before tax of RM31.8 million for the current quarter as compared to the preceding quarter of RM29.7 million. The increase in profit before tax excluding unrealised foreign exchange gains was mainly due to higher gross profit from plantation division following the increase in fresh fruit bunches production as disclosed in paragraph B(ii).

B3. VARIANCE OF ACTUAL PROFIT FROM PROFIT FORECAST AND PROFIT GUARANTEE

This is not applicable to the Group.

B4. CURRENT YEAR PROSPECTS

The Group's three (3) business segments in Malaysia comprising property development and construction, trading, hotel and property investment remained resilient amid the current challenging business environment.

Property development and construction, and trading segments:

The outlook for property development and construction, and trading segment for the financial year ending 30 September 2023 ("FY2023") is expected to expand at a more moderate pace amid a challenging business environment. Bank Negara Malaysia ("BNM") has raised the overnight policy rate ("OPR") on 3 May 2023 from 2.75% to current OPR at 3.00%, which is back to pre-crisis levels. While this will increase borrowing costs and impact consumer spending sentiment for the purchase of big-ticket items, we expect the continued recovery in the Malaysian economy and labour market to drive growth in the property sector.

As at 30.6.2023, the Group achieved take up rates for the launched development projects as follows:

- 46% for Nexus @ Taman Pertama (507 units of apartments) with GDV of approximately RM256.4 million which was launched in November 2020;
- 75% for MIRAI Residences @ Kajang 2 Precinct 1 (phase 1 & 2 totaling 1,496 units of apartments) with GDV of approximately RM473.2 million which was launched in September 2020 and in February 2021;
- 100% for Iris @ Hillpark Shah Alam (241 units of double-storey terrace) with GDV of approximately RM127.1 million which was launched in September 2021;
- 80% for TR2 Residence @ Jalan Tun Razak (Block A & B totaling 918 units of apartments) with GDV of approximately RM507.5 million which was launched in November 2021 and in June 2022; and
- 64% for Akina @ Kajang 2 Precinct 3 phase 1 (276 units double-storey terrace) with GDV of approximately RM198.4 million which was launched in September 2022.
- 89% for Kajang East Avenue 2 (32 units retail shops) with GDV of approximately RM46.5 million which was launched in March 2023.

The Group launched Akina @ Kajang 2 Precinct 3 phase 2 (171 units double-storey terrace) with GDV of approximately RM128.6 million in July 2023 and will launch the remaining landed residential development known as Kajang East Precinct 1 phase 3B (final phase) with estimated GDV of approximately RM19.0 million by end December 2023.

B4. CURRENT YEAR PROSPECTS (CONT'D)

Property development and construction, and trading segments: (cont'd)

The Group will continue to leverage on its available properties from the ongoing development projects with sales value of approximately RM551.8 million and monetise its inventories totaling RM72.9 million through virtual/digital marketing, rolling out more competitive rebates and timely completion of ongoing development projects.

The Group's unbilled sales of RM910.4 million would be able to sustain this division for the next two (2) years and the above new planned transit-oriented development launches which are strategically located in Kuala Lumpur, Cheras and Kajang will further strengthen the Group's future unbilled sales.

For the trading division, approximately 73% of the sales of building materials are contributed from the Group's development projects and it will continue to supply building materials to the Group's ongoing and future development projects.

Hotel and property investment segment:

Our retail properties namely Plaza Metro Kajang and Metro Point Complex, and RHR hotel continue to record better performances through increased business activities as people adapt to the endemic phase of Covid-19. Rental yield from this division is expected to average between 3% to 4% based on fair value as at 30 September 2022.

Our 3-star hotel namely RHR Hotel @ Kajang features 102 guest rooms, 1 ballroom, 2 meeting rooms, and 1 cafe has achieved average occupancy rate of 55% for the current YTD (YTD 2022: 53%) and continue to be supported by domestic business travelers and agencies.

Plantation segment:

Our plantation segment in Indonesia recorded higher fresh fruit bunches ("FFB") of 114,012MT in the current quarter, representing an increase of 22.6% from the preceding quarter of 93,009MT. For the 4th quarter ending 30 September 2023, we are expecting a 3% to 5% increase in FFB from the current quarter. The composition of the FFB produced by own estates and purchased from external estates can be referred to paragraph B(ii), Plantation segment,

As with other commercial crops, prolong drier or wetter weather will result in lower crop production. The Kalimantan region in Indonesia including at our plantation has been experiencing relatively heavier rainfall resulting in lower FFB production in the first and second quarter. Our plantation division continuously take proactive steps such as enhancing our water management system and also fine tuning the harvesting Standard Operating Procedures to mitigate the effect of higher average rain fall complimented with our on-going mechanisation of FFB collection and the use of software apps to track FFB evacuation from fields to the mill. The weather has started normalizing since March 2023 onwards and our FFB production has also increased.

This division is exposed to foreign exchange risk on its United States Dollar ("USD") and Ringgit Malaysia ("RM") denominated loans. For the current quarter ended 30 June 2023, this division recorded unrealised foreign exchange gains of RM6.6 million as compared to the immediate preceding quarter of RM5.0 million based on exchange rate of USD1:IDR15,026 and RM1:IDR3,213 as at 30 June 2023 due to the strengthening of the Indonesia Rupiah ("IDR") against RM and USD. The exchange rates movement is analysed as below:

As at 30.6.2023, USD1: IDR15,026 and RM1; IDR3,213

As at 31.3.2023, USD1: IDR15,062 and RM1; IDR3,407

As at 31.12.2022, USD1: IDR15,731 and RM1: IDR3,556

As at 30.9.2022, USD1: IDR15,247 and RM1: IDR3,281

B4. CURRENT YEAR PROSPECTS (CONT'D)

Plantation segment: (cont'd)

The crude palm oil (“CPO”) prices remain well supported due to good demand and tighter supply with current CPO price trading at approximately RM3,300/MT (net of export levy and duty) in Indonesia which augurs well for the Plantation Division. For the current quarter, the average CPO price achieved was at RM3,252 per MT as compared to the immediate preceding quarter of RM3,445 per MT. For the 4th quarter ending 30 September 2023, we are expecting an average CPO price at a range of between RM3,200 to RM3,400 per MT. We expect the CPO price to continue to be well supported as there are several international meteorological organisations that are predicting El-Nino dry weather effect by the second half of 2023 which may result in tighter global CPO supply. We will continue to focus on the estate management to further increase the production efficiencies including oil extraction rate and maximising the utilisation of the CPO mill to further capitalise on the higher CPO price.

Given the above, the Board of Directors expect the Group to achieve satisfactory results for the financial year ending 30 September 2023.
