## CITAGLOBAL AT COP29: EXPANDING GLOBAL RENEWABLE ENERGY

At COP29 in Baku, CITAGLOBAL strengthened its international renewable energy footprint through a strategic **Framework Agreement with the Port of Baku**. This milestone initiative, led by Tiza Green Energy LLC, a joint venture with Citaglobal Renewable Energy, will develop Azerbaijan's **first 5.4 MW solar PV facility with Battery Energy Storage System (BESS)**.

The project aligns with **Azerbaijan's 2050 clean energy targets**, demonstrating CITAGLOBAL's commitment to **scalable, commercially viable** renewable solutions. The signing, witnessed by Malaysian government officials, reinforces Malaysia's leadership in **green investments and international energy cooperation**.

CITAGLOBAL's participation at COP29 reflects its **dedication to driving energy transformation across emerging markets**, advancing its vision for a **sustainable, low carbon future**.

The agreement was signed on November 16, 2024, by **Tan Sri Dato' Sri Dr. Norza Zakaria**, President of Tiza Green Energy LLC and Executive Chairman and President of CITAGLOBAL, and **Dr. Taleh Ziyadov**, Director-General of the Port of Baku. The signing ceremony was witnessed by **Datuk Dr. Ching Thoo all Kim**, Secretary General of Malaysia's Ministry of Natural Resources and Environmental Sustainability, and **H.E. Ambassador Ahmad Kamrizamil Mohd Riza**.

## CHAIRMAN'S STATEMENT

### Dear Esteemed Shareholders,

FY2024 marked a pivotal year for CITAGLOBAL as we delivered our strongest financial performance since FY2017. With strong fundamentals, a clear vision, and a well-diversified portfolio, CITAGLOBAL is well-positioned for long-term success. Backed by our strong CEC orderbook and well-diversified portfolio of projects, we are on track for another year of strong growth in FY2025.

**YBHG. TAN SRI DATO' SRI (DR.)  
MOHAMAD NORZA BIN ZAKARIA**  
*Executive Chairman & President*

The Group registered a profit before taxation ("PBT") of RM25.0 million in FY2024, an 81% year-on-year increase and the highest PBT since FY2017. To reward our shareholders, the Board of Directors has declared a Final Single Tier Dividend of 1.0 sen per ordinary share for the financial year ended 31 December 2024.

A key driver of our improved results was the strong performance of Citaglobal Engineering Services Sdn Bhd ("CESSB"), our civil engineering, mechanical and engineering (M&E) services subsidiary and part of the Group's Civil Engineering & Construction ("CEC") segment.

CESSB continues to be the Group's crown jewel asset, consistently delivering growth on the operational and financial fronts. The acquisition of CESSB in November 2022 came with an aggregate net profit guarantee of RM60 million for three full financial years ending 2022, 2023 and 2024. I am pleased to note that CESSB appears to have met and even exceeded this target, pending final confirmation from our auditors.

In FY2024, we continued to make great strides towards our vision of an integrated, resilient conglomerate involved in diverse industries. The Group now comprises of three key segments: **New Growth Areas**, encompassing our New Energy, Environment, and Telecommunication divisions; **Primary Business**, which includes our CEC and Property divisions; and **Strategic Business & Diversified Portfolio**, which includes our Financial Services, Manufacturing, and Oil & Gas divisions. Our new structure will be

the foundation for sustainable growth and innovation across multiple sectors.

It is said that one man's trash is another man's treasure. We have bold plans for the Environment division, which we aim to transform into a stand-alone, publicly listed entity within five years. As a key step toward this goal, we have acquired a 55% stake in German-based LAWI Engineering GmbH, a renowned leader in renewable power plant technology, specialising in biomass and waste-to-energy solutions. Notably, LAWI's founder and CEO, Dieter Langer, has retained a 45% stake in the company, demonstrating his confidence in our vision and strategy.

LAWI brings to the Group a truly impressive record of execution and innovation. Under the leadership of Mr. Langer, LAWI has successfully completed more than 50 power plant projects across Southeast Asia, Korea, and Europe. Our partnership will accelerate our foray into eco-friendly, renewable energy solutions and position us as a regional leader in this industry.

The acquisition of our stake in LAWI comes on the heels of our joint development framework agreement (JDFA) with SUS Holding Limited, an indirect wholly-owned subsidiary of Shanghai SUS Environment Co., Ltd. group ("SUS Environment") to develop waste-to-energy projects in Pahang and biomass projects in Malaysia. SUS Environment, a China government-linked entity, is China's largest solid waste incinerator supplier and a leading developer of integrated environmental solutions.

## CHAIRMAN'S STATEMENT

(Cont'd)

Malaysia generates 38,000 tonnes of solid waste daily, occupying 150 acres of landfill space, equivalent to about 90 soccer fields, each year. Through modern technology and efficient waste management, we have the opportunity to convert this waste into renewable energy at scale. This will be truly transformative, comprehensively addressing Malaysia's waste disposal challenges while advancing the nation's transition to clean energy.

Elsewhere, our New Energy division achieved a remarkable milestone with the signing of a Framework Agreement with the Port of Baku, Azerbaijan, to establish a 5.4 MW solar photovoltaic (PV) facility. This marks CITAGLOBAL's first overseas green energy project and Azerbaijan's first commercial renewable energy facility integrating solar power with a cutting-edge Battery

Energy Storage System (BESS). Leveraging CITAGLOBAL's innovative MYBESS solutions will enable Baku to make progress towards its renewable energy targets, and set the stage for future deployments across the rest of Azerbaijan.

CITAGLOBAL's CEC division continues to demonstrate industry leadership and sustained growth with an expanding portfolio of major national, state-level and commercial projects.

Among our major recent project wins include over RM70 million in jobs for the Kuching Urban Transportation System ("KUTS") in Sarawak. When complete, KUTS will serve as a world-class, sustainable transportation system, alleviating traffic congestion and unlocking a new wave of economic growth for Sarawak. We are proud to be involved in this mega infrastructure project.

### REVIEW OF FINANCIAL PERFORMANCE

In FY2024, CITAGLOBAL recorded a revenue of RM294.0 million, a 43% increase from RM205.5 million in the preceding financial year ("FY2023"). The increase in revenue was driven by improved performance of the Group's CEC, Property and Manufacturing segment.

During the financial year under review, the Group registered a PBT of RM25.0 million, compared to RM13.8 million in the preceding year. The increase in PBT of RM11.2 million was due to improved contributions from the CEC, Property and Manufacturing segments.

CITAGLOBAL's balance sheet remains solid, with total assets as at 31 December 2024 recorded at RM680.3 million, while total liabilities stood at RM284.0 million. Meanwhile, the Group has short term deposits, cash and bank balances of RM44.9 million as of 31 December 2024, against total borrowings of RM103.1 million.

### THE YEAR AHEAD

In FY2025, we will remain committed to disciplined execution and completing the projects that we have secured over the last few years. We will also continue seizing high-growth opportunities across diverse sectors, which will provide multiple levers for growth for years to come.

Via our Environment and New Energy divisions, we will continue to ride the wave of ESG and renewable energy adoption in Malaysia and across the region.

The Malaysian government estimates that about RM180 billion in investments will be needed to upgrade the national grid and accelerate the adoption of renewable energy. About half of this massive investment is expected to be channelled into the installation of battery systems that will store, release and distribute energy. With electricity being a critical national resource, the importance of home-grown battery energy storage systems (BESS) such as MYBESS cannot be overstated.

We are also capitalising on growing demand for waste-to-energy and environmental management solutions, focusing on sustainable infrastructure.

With our business strategy fully aligned with Malaysia's green economy initiatives and global circular economy goals, we are well-positioned to emerge as a leading player in the energy transition, both in Malaysia and across South-east Asia.

Within the CEC segment, we are embarking on several initiatives, including strategic acquisitions and the expansion of our orderbook, reinforcing our financial strength and market position. As a leading player in Malaysia's civil engineering and construction industry, the CEC division stands to benefit from the wave of investment into major infrastructure projects across Malaysia, such as KUTS and the East Coast Rail Link ("ECRL").

Among the Group's key ongoing CEC projects that we are involved in include the construction of the Perlis Inland Port,

## CHAIRMAN'S STATEMENT

(Cont'd)

which is expected to transform Perlis into an international logistics hub, and the Klang Valley Electrified Double Track Phase 2 (KVDT 2) project.

CITAGLOBAL is also deepening its presence in property development with a selective, opportunity-driven approach focused on long-term value creation.

In November 2024, we signed a joint venture agreement with Tree Technologies to develop an eco-friendly industrial park with an estimated gross development value (GDV) of between RM321 and RM397 million in the Gebeng Industrial Estate in Kuantan, Pahang. The project sits on a highly strategically located parcel of land, minutes away from the Malaysia-China Kuantan Industrial Park (MCKIP) and just 5 kilometers away from the proposed East Coast Rail Link ("ECRL") station at Kuantan Port City.

In recent years, Kuantan has seen an influx of local and international investors looking to expand their manufacturing operations and enter the logistics sector. This trend has been accelerated by the increasing adoption of the China Plus One strategy, as businesses seek to diversify their manufacturing base in response to the ongoing US-China trade tensions.

Once the ECRL is completed in 2027, it will connect the Kuantan Port and Port Klang, the world's 11th busiest port by volume, making Kuantan as emergent as a key logistics hub and trading port for commodities and petrochemicals.

Leveraging our civil engineering and construction expertise, as well as our involvement in property development and renewable energy.

CITAGLOBAL is uniquely positioned to make this project a success. Our expertise in renewable energy, for instance, will be invaluable as we intend to integrate green elements and technologies to make this project a truly eco-friendly industrial park.

Elsewhere in downtown Kuala Lumpur, the Group has entered into a conditional Sale and Purchase Agreement with Bank Islam Malaysia Berhad for a 1.58-acre development land at Jalan Tun Razak, for RM73 million.

The strategic location of this asset, its high visibility, and excellent accessibility, along with its strong connectivity to public transport infrastructure, making it a highly desirable address in Kuala Lumpur. Given the increasing scarcity of sizable prime commercial land in the city, the Board is confident that the proposed acquisition presents a strategic opportunity for long-term value creation and growth.

The Property division currently has projects with a gross development value (GDV) of RM471 million. However, this figure is set to rise as we embark on new projects in FY2025 and years ahead.

In addition to these businesses, the performance outlook of the Group will also depend on the award of contracts arising from the

various memorandum of understanding collaborations and tender participations by the Group.

### ROUNDING OFF

I extend my deepest gratitude to the entire CITAGLOBAL family, our Board of Directors, senior management, and dedicated employees, whose integrity, commitment and perseverance have been instrumental to our success and continued growth. I also wish to sincerely thank our valued stakeholders, including our shareholders, business partners, financiers, customers, and government agencies. Your unwavering support and trust inspire us to push forward, and we truly appreciate your confidence in our vision.

As we embark on another exciting year at CITAGLOBAL, I also take this opportunity to extend a warm welcome to four distinguished professionals who have joined our leadership team. Their collective expertise, leadership, and strategic vision will undoubtedly contribute to our continued growth and success.

We are pleased to welcome YBhg. Puan Sri Datuk Seri Rohani Parkash Binti Abdullah and YM Raja Imran Jamalullail Raja Mufik Affandi as our new Independent Non-Executive Directors.

On behalf of the Board of Directors and the entire CITAGLOBAL team, I welcome them and wish them every success in their new roles. We look forward to their contributions as we continue to build a resilient, future-ready Group.

As we enter this next phase of growth, CITAGLOBAL is well-positioned to emerge as a leading player in energy transition, infrastructure development, and sustainable development. Together, we are building a stronger, more sustainable future for all.

MANAGEMENT  
DISCUSSION & ANALYSIS

CITAGLOBAL BERHAD IS PRINCIPALLY INVOLVED IN ENERGY, CIVIL ENGINEERING AND CONSTRUCTION, PROPERTY AND MANUFACTURING.

This Management Discussion and Analysis (“MDA”) of the Citaglobal Berhad (“the Company”) (“Citaglobal”) and its subsidiaries (“the Group”) is to provide the shareholders/stakeholders with an overview, understanding and appreciation of the financial and operating performances of the Group for the financial year ended 31 December 2024 (“FY2024”). Any information, assumptions, patterns and/or trends provided that is predictive or futuristic in nature should not be taken as absolute and/or construed to necessarily continue in the foreseeable future. This MDA should be read in conjunction with the Audited Financial Statements for the FY2024 and the related notes thereto.

The Group is principally involved in Energy, Civil Engineering and Construction (“CEC”), Property and Manufacturing. The Energy segment is principally engaged in onshore oil and gas downstream activities, renewable energy and power generation. The CEC segment is primarily involved in infrastructure construction contracts. The Property segment is principally involved in property investment, construction and development. The Manufacturing segment is the manufacturing of cold drawn bright steel products.

GROUP FINANCIAL PERFORMANCE

Revenue markedly increased from RM205.5 million in the financial year ended 31 December 2023 (“FY2023”) to RM294.0 million in the FY2024 by 43% or RM88.5 million. The higher revenue was due to the increase in revenues of RM58.3 million, RM22.3 million, RM3.2 million and RM10.0 million from the CEC, Property, Manufacturing and remaining segments, respectively. This was offset by the lower revenue of RM5.3 million from the Energy segment.

Profit before tax increased significantly from RM13.8 million in FY2023 to RM25.0 million in FY2024. The increase in profit before tax of RM11.2 million was due to the stronger results of RM12.1 million, RM2.1 million and RM2.0 million from the CEC, Property and Manufacturing segments, respectively. This was offset by the lower results of RM4.0 million and RM1.0 million from the Energy and remaining segments, respectively.

The financial results are further analysed in the following section of “Review of Operating Activities and Risks”:

<b>RM294.0</b> Million	<b>RM25.0</b> Million

## Energy

### REVENUE

**RM18.8** Million

### LOSS BEFORE TAX

**RM11.1** Million

### Review

The segment consists of the Oil & Gas, New Energy and Power Generation business divisions.

Revenue decreased by RM5.3 million from RM24.1 million in FY2023 to RM18.8 million in FY2024. The decrease was primarily due to the completion of the Engineering, Procurement, Construction, and Commissioning of a biogas plant project in the Power Generation division, coupled with lower trading orders. Additionally, delays in key projects adversely impacted revenue performance in the Oil & Gas division. However, the New Energy division benefited from the ECRL powerisation project, which contributed 41% of the division's total revenue upon achieving a project milestone.

The loss before tax increased by RM4.0 million from RM7.1 million in FY2023 to RM11.1 million in FY2024 mainly due to lower revenue and reduced gross margin contributions. Furthermore, investment expenses related to the development of the Large Scale Solar Farm, Hydropower Plant, and Rooftop Solar projects were incurred to establish market presence and establish future growth opportunities.

### Challenges

The Oil and Gas industry is projected to grow at a CAGR of 1.4% during the forecast period (2025-2030), presenting valuable opportunities to expand our client base and strengthen our presence, particularly in Sarawak and Sabah, through strategic partnerships. Additionally, our focus on service and maintenance activities will play a crucial role in enhancing recurring revenue streams. However, the Oil & Gas division faces intense competition, particularly in the Engineering, Procurement, Construction, and Commissioning and Topsides Major Maintenance (TMM) sectors. To stay ahead, we will prioritise the implementation of strategic cost management and maintain a competitive tender pricing against smaller competitors.

The New Energy division is expected to maintain a positive trajectory, though business process constraints continue to pose challenges. The world trend in sustainable energy industries is seeing more countries advancing research and development in energy storage system particularly in Battery Energy Storage Systems (BESS), Green Mobility, Hydrogen, Carbon Capture, Utilisation and Storage (CCSU) due to proactive policies, intensifying competition. While these industries hold potential, high initial investments are required.

Power generation is also in transition towards green initiatives, however, with the added costs involved in the transition, industry players are still bullish about the conventional usage of fossil fuels for the time being due to the quicker turn around time in setting up these power generation units. We have also been involved in quite a number of potential projects with the usage of Hydrogen as well as Mobile Battery Storage units which we expect the local utility companies will start to use very soon.

On the offshore power generation requirements, our involvement in the Explosion Proof Rotating Equipment still remains in a very niche segment whereby funding is required for additional investment in units to reduce the wait time when the clients require units. We still expect a strong turn around in FY2025 whereby O&G players will start once again to utilise our equipment.

### Prospects

In FY2025, the Oil & Gas division will focus on strengthening its pricing strategy to achieve a balance between competitiveness and profitability. This approach aims to increase bidding success rates, secure a robust order book, and drive strong revenue growth.

Key growth areas in the New Energy division shall remain in the Solar Photovoltaic Renewable Energy space such as the Large Scale Solar and the Roof Top solar in the Commercial and Industrial (C&I) sector. The Key differentiating factor will be the integration of BESS with the Solar PV solution. The homegrown MyBESS provides a significant advantage to the strategic growth of the renewable energy journey ahead.

### Civil Engineering and Construction

#### REVENUE

**RM163.7** Million

#### PROFIT BEFORE TAX

**RM38.2** Million

#### Review

In FY2024, the Civil Engineering and Construction (“CEC”) segment achieved a remarkable revenue of RM163.7 million, representing a significant increase of 55% compared to RM105.4 million in FY2023. This substantial growth in revenue was driven by several high-impact projects, including the Perlis Inland Port, the Kuching Urban Transport System (KUTS), the JPS Riverwall Kuching, and a variety of other construction and engineering works.

The segment also saw a notable improvement in its profitability, with Profit Before Tax (PBT) rising from RM26.0 million in FY2023 to RM38.2 million in FY2024, reflecting an impressive growth of 47%. This increase in profitability was primarily driven by better profit margins and efficient project execution.

Overall, FY2024 highlights the segment’s strong growth trajectory, propelled by strategic project wins and successful intersegment collaborations, positioning the segment for sustained success in the years to come.

#### Challenges

Despite the robust growth in FY2024, the segment encountered several challenges. Project delays and supply chain disruptions, particularly in the CEC industry, impacted timelines and necessitated additional management resources. Additionally, the rising costs of materials and labour, driven by inflation and market volatility, created pressure on maintaining profit margins, despite the management’s ongoing efforts to optimise designs and implement value engineering solutions.

The highly competitive environment within the CEC industry also presented challenges. With numerous competitors vying for key contracts, the CEC segment has to remain agile, continually innovating and refining its value proposition to retain its competitive edge.

Nevertheless, the segment’s ability to adapt to these challenges and manage its projects efficiently allowed it to sustain growth and profitability throughout the financial year.

#### Prospects

As at 31 December 2024, the CEC segment maintained a robust order book of RM 445.0 million, providing a solid foundation for future growth in the coming financial year.

Looking ahead, Citaglobal Engineering Services Sdn Bhd (CESSB) is pursuing several high-potential projects, including the Perlis Sanglang Port, Pengerang Integrated Development and others. Collectively, these projects are estimated to generate approximately RM400 million in revenue and if successful, will definitely enhance CESSB’s prospects.

Additionally, Citaglobal Land Sdn Bhd (CGL) is actively pursuing several large-scale infrastructure and building projects with key government agencies such as Jabatan Kerja Raya (JKR), Malaysian Airport (MAHB), and Kementerian Peralihan Tenaga dan Transformasi Air (PETRA). These projects include the Pahang flood mitigation projects with JPS, the underground dam in Langkawi under the “Bahagian Bekalan Air” (BBA), and the Sungai Rasau reservoir for flood mitigation and water supply. These initiatives present significant opportunities for revenue growth and diversification of the company’s portfolio.

With a strong order book, promising new projects, and active bids for major contracts, the segment is well-positioned for continued growth and success in the coming financial year.

### Property

#### REVENUE

**RM42.4** Million

#### PROFIT BEFORE TAX

**RM1.3** Million

#### Review

The property market has continued to face challenges, with cautious consumer spending and stricter bank policies contributing to a slow recovery. However, positive momentum is beginning to emerge, albeit gradually, primarily driven by the relaxation and flexibility of several government incentives aimed at boosting homeownership through the house ownership campaign.

In FY2024, our revenue increased to RM42.4 million, reflecting a 111% growth from RM20.1 million in the previous financial year. Profit before tax also improved by RM2.1 million, transitioning from a loss of RM0.8 million in FY2023 to a profit of RM1.3 million in FY2024.

The rise in revenue is primarily attributed to higher sales and progress billings from both new and ongoing mixed-development projects, which include residential and commercial components.

#### Challenges

The forecast for Malaysia's property sector in 2024 highlights several ongoing challenges, including delayed construction progress that has impacted project billings and collections, rising raw material costs, and increasing inflation. These factors pose significant obstacles for developers, complicating the ability to meet project timelines and manage costs effectively. Despite these challenges, Citaglobal Property Development Sdn Bhd (*formerly known as Sinergi Dayang Sdn Bhd*) ("CGPD") is committed to maintaining the growth momentum achieved in FY2023 and is strategically positioned to deliver another year of progress in FY2024. Central to this strategy is the ongoing, meticulous monitoring of contractors' performance and maintaining clear and effective communication throughout the construction process to ensure project timelines are adhered to.

CGPD also acknowledges the necessity of aligning its offerings with the evolving market demands. This requires refining construction monitoring processes, improving product quality, and ensuring that offerings remain competitive. Emphasising innovation and maintaining a balance between cost efficiency and high-quality standards will be critical in overcoming the challenges posed by rising material costs and inflation. Strategic planning and efficient project management will be key drivers in ensuring the company remains adaptable and resilient in a dynamic market environment.

In addition, CGPD is focused on strengthening its sales and marketing strategies to enhance market reach and drive sales. This includes bolstering its online presence through increased engagement on social media platforms to foster better customer interaction and support. Furthermore, the sales team is being trained to refine their closing techniques, enabling them to meet strategic sales objectives more effectively. By concentrating on these initiatives, CGPD aims to navigate the challenges of the property market in 2025, ensuring continued growth and success.

#### Prospects

As CGPD progresses into the forthcoming financial year, our strategic focus on adaptability, innovation, and sustainable growth remains pivotal in navigating the dynamic property market. While global uncertainties, driven by tighter monetary policies and escalating geopolitical tensions, continue to challenge the broader economy, Malaysia's property market presents promising growth opportunities in FY2025 and beyond. Despite these external factors, CGPD is well-positioned to navigate these challenges, ensuring continued value creation for CITAGLOBAL and long-term business success.

The strong sales performance of the Citaglobal D'Marina Phase 2A and Phase 2B projects in Kuantan highlights the positive outlook for the residential sector. With 99% and 8% of units sold respectively in Phase 2A and 2B in 2024, the projects have demonstrated strong demand and market appeal, bolstered by the robust branding of CGPD and CITAGLOBAL in Kuantan, Pahang. This success lays a solid foundation for further growth with the anticipated launching of Citaglobal D'Marina Phase 2C, which is expected to sustain momentum and reinforce our market presence. Looking ahead to 2025, we anticipate continued growth in urban development, particularly in emerging areas like Kuantan and the Klang Valley, fuelled by increasing demand for both affordable and high-end residential properties.

# MANAGEMENT DISCUSSION & ANALYSIS

## Prospects (Cont'd)

Furthermore, CGPD's expansion into commercial development in Sabah enhances our growth prospects for FY2025. The Semporna city center project, leveraging the region's burgeoning tourism sector to attract foreign investors, particularly from China and Korea, represents a significant milestone for the company. With 24% of commercial units sold in 2024, this development is poised to become a key revenue driver for CGPD in FY2025. As we look to 2025, we are confident that this venture, combined with a sustained focus on strategic residential and commercial projects, and new ventures targeted in the Klang Valley area, will contribute to our long-term growth trajectory. Our commitment to innovation, market expansion, and sustainable development will drive continued success and position CGPD as a key player in Malaysia's evolving property market.

## Manufacturing

## Review

The revenue of Citaglobal Industries Sdn Bhd increased from RM36.7 million in FY2023 to RM39.9 million in FY2024, reflecting a growth of 9% or RM3.2 million. This improvement was driven by a combination of the higher average steel price per metric tonne and increased sales tonnage in FY2024.

FY2024 marked a turnaround, registering a profit before tax of RM0.2 million, compared to a loss before tax of RM1.8 million in FY2023. This positive shift of RM2.0 million was primarily attributed to the higher gross profit margin per metric tonne achieved in FY2024.

## Challenges

The steel market in FY2024 faced volatile raw material costs, global economic uncertainties, and geopolitical tensions, which pressured profit margins. Despite these challenges, the management prioritised operational efficiencies and cost-control measures to mitigate market volatility.

## Prospects

Moving forward, the steel market will remain influenced by high inflation, energy price fluctuations, and geopolitical conflicts. The company is committed to adapting to these conditions through strategic initiatives and sustained operational improvements.

### Group

**TOTAL ASSETS**  
**RM680.3** Million

**TOTAL LIABILITIES**  
**RM284.0** Million

#### Total Assets And Liabilities

Total assets increased by RM141.2 million from RM539.1 million in FY2023 to RM680.3 million in FY2024. This was mainly contributed by the increase of RM78.2 million, RM33.7 million, RM24.1 million and RM14.7 million in contract assets, inventories, investments in associates and trade and other receivables, respectively. The increases in contract assets, inventories and trade and other receivables were in tandem with the marked increase in Group Revenue in the FY2024 compared to the preceding FY2023. The increase in investments in associates was mainly due to the acquisition of 30% equity stake in IFactors Sdn Bhd for RM21.2 million on 31 January 2024. However, the increase in total assets was offset by a net decrease of RM9.5 million in the remaining assets.

Total liabilities increased by RM119.3 million from RM164.7 million to RM284.0 million. This was mainly contributed by trade and other payables and loans and borrowings of RM72.2 million and RM40.7 million, respectively. The increases in trade and other payables and loans and borrowings were to support the higher revenue of the Group in the FY2024. The remaining liabilities of the Group show a net increase of RM6.4 million.

#### Shareholders' Fund

During the financial year, the Company issued 7,466,666 Consideration Shares at an issue price of RM1.50 per Consideration Share as the non-cash consideration and part payment for the acquisition of 25% equity stake in IFactors Sdn Bhd. At year end, the Group's shareholders' fund and short-term deposits, cash and bank balances were RM396.2 million (FY2023 : RM374.4 million) and RM44.9 million (FY2023 : RM61.1 million), respectively.

#### Dividend

On 26 February 2025, the Board of Directors resolved to declare a Final Single Tier Dividend of 1.0 sen per ordinary share for the financial year ending 31 December 2024. The date of entitlement and the date of payment in respect to the aforesaid final dividend will be determined and announced in due course.

#### Strategies

The Group is expected to stay its course and remain focused on the key areas of competency namely Energy, Civil Engineering and Construction, Property and Manufacturing.

The Group is in a transition phase to enhance its renewable energy and telecommunication divisions to contribute meaningfully to the Group.

The performance outlook will depend on the award of contracts from the Group's tender participations and the finalisation of joint venture agreements with strategic collaborative partners.

# SUSTAINABILITY STATEMENT

## ABOUT THIS REPORT

CITAGLOBAL presents our Annual Sustainability Statement for FY2024. This statement provides an overview of the Group's sustainability performance during the period of 1 January 2024 to 31 December 2024, unless otherwise stated.

Statement of information for this reporting cycle can be found in the Performance Data table. We have included data from the previous financial year for comparison purposes, providing stakeholders with a clearer picture of our sustainability progress.

## Our Commitment

CITAGLOBAL and its subsidiaries acknowledge that sustainability is a key aspect to our business operations as we seek to produce long term value for our stakeholders. We consistently strive to integrate sustainability into our core businesses, incorporating economic, environment, social and governance considerations into our decision-making and operation process.

In FY2024, we have made a major leap in our sustainability journey with the following :

- (a) Established a robust sustainability governance structure (refer to 'Sustainability Governance' section)
- (b) Conducted sustainability awareness training to our Board of Directors, senior management and all employees (refer to 'Sustainability Governance' section)
- (c) Conducted limited scale materiality assessments with internal and external stakeholders (refer to 'Material Matters' section)
- (d) Committed to calculating GHG emissions Scope 3 (category 6 business travel and category 7 employee commuting) (refer to 'Performance Data Table' section)
- (e) Developed targets and initiatives for our material matters (refer to 'Sustainability Framework' section)

The above has already borne fruit with the upgrading of our FTSE4Good ESG Grading band from 1-star in 2023 to 2-star in 2024.

We remain committed to be recognised as an organisation synonymous with sustainability, embedding sustainable strategies into business operations in four (4) pillars :

- (a) Economic strength
- (b) Environment stewardship
- (c) Advancing social impact
- (d) Robust governance

## SUSTAINABILITY STATEMENT

(Cont'd)

### Scope and Basis of Scope

This statement covers the Group's sustainability performance and progress of our business operations at various locations in Malaysia, including its headquarters and offices of the Energy, Civil Engineering & Construction, Property Development and Manufacturing segments. The criteria for consolidation are where the Group has operational control and the status of operation is active.

We have excluded the following from our reporting scope :

1. Operations which have insignificant impact on the Group's overall sustainability performance and progress.
2. Operations which were recently established in 2024. We are in the midst of collating data and will include it in our next cycle of reporting.
3. Our joint venture and associate companies as we do not have direct management control over them.

For a holistic view of our business, this report should be read in conjunction with the information available on our website at [www.citaglobal.my](http://www.citaglobal.my).

### Reporting Framework and Standards

This Statement is aligned with locally and globally recognised disclosure frameworks and benchmarks which are listed below :

- (a) Bursa Malaysia's Sustainability Reporting Guide (3rd Edition)
- (b) Global Reporting Initiative (GRI) Standards
- (c) Task Force on Climate-related Financial Disclosures (TCFD) Recommendations
- (d) United Nations Sustainable Development Goals (UNSDGs)

This Statement should be read in conjunction with the rest of the Annual Report and other sustainability-related disclosures on the Company's website, [www.citaglobal.my](http://www.citaglobal.my).

### Feedback

We seriously seek to enhance our sustainability programmes as well as the scope and depth of our reporting. We, therefore, welcome comments and constructive feedback from our stakeholders on specific sections of this statement, that can be strengthened. Please direct your feedback to our Sustainability Department, email : [sustainability@citaglobal.my](mailto:sustainability@citaglobal.my).

## OUR APPROACH TO SUSTAINABILITY

### Sustainability Governance

As a purpose-driven organisation, the Group prioritises the values of transparency, integrity and accountability when delivering and improving our Sustainability agenda, and believes that leadership plays an important role in achieving this objective. Therefore, in FY2024, we have enhanced our sustainability governance structure through the following :

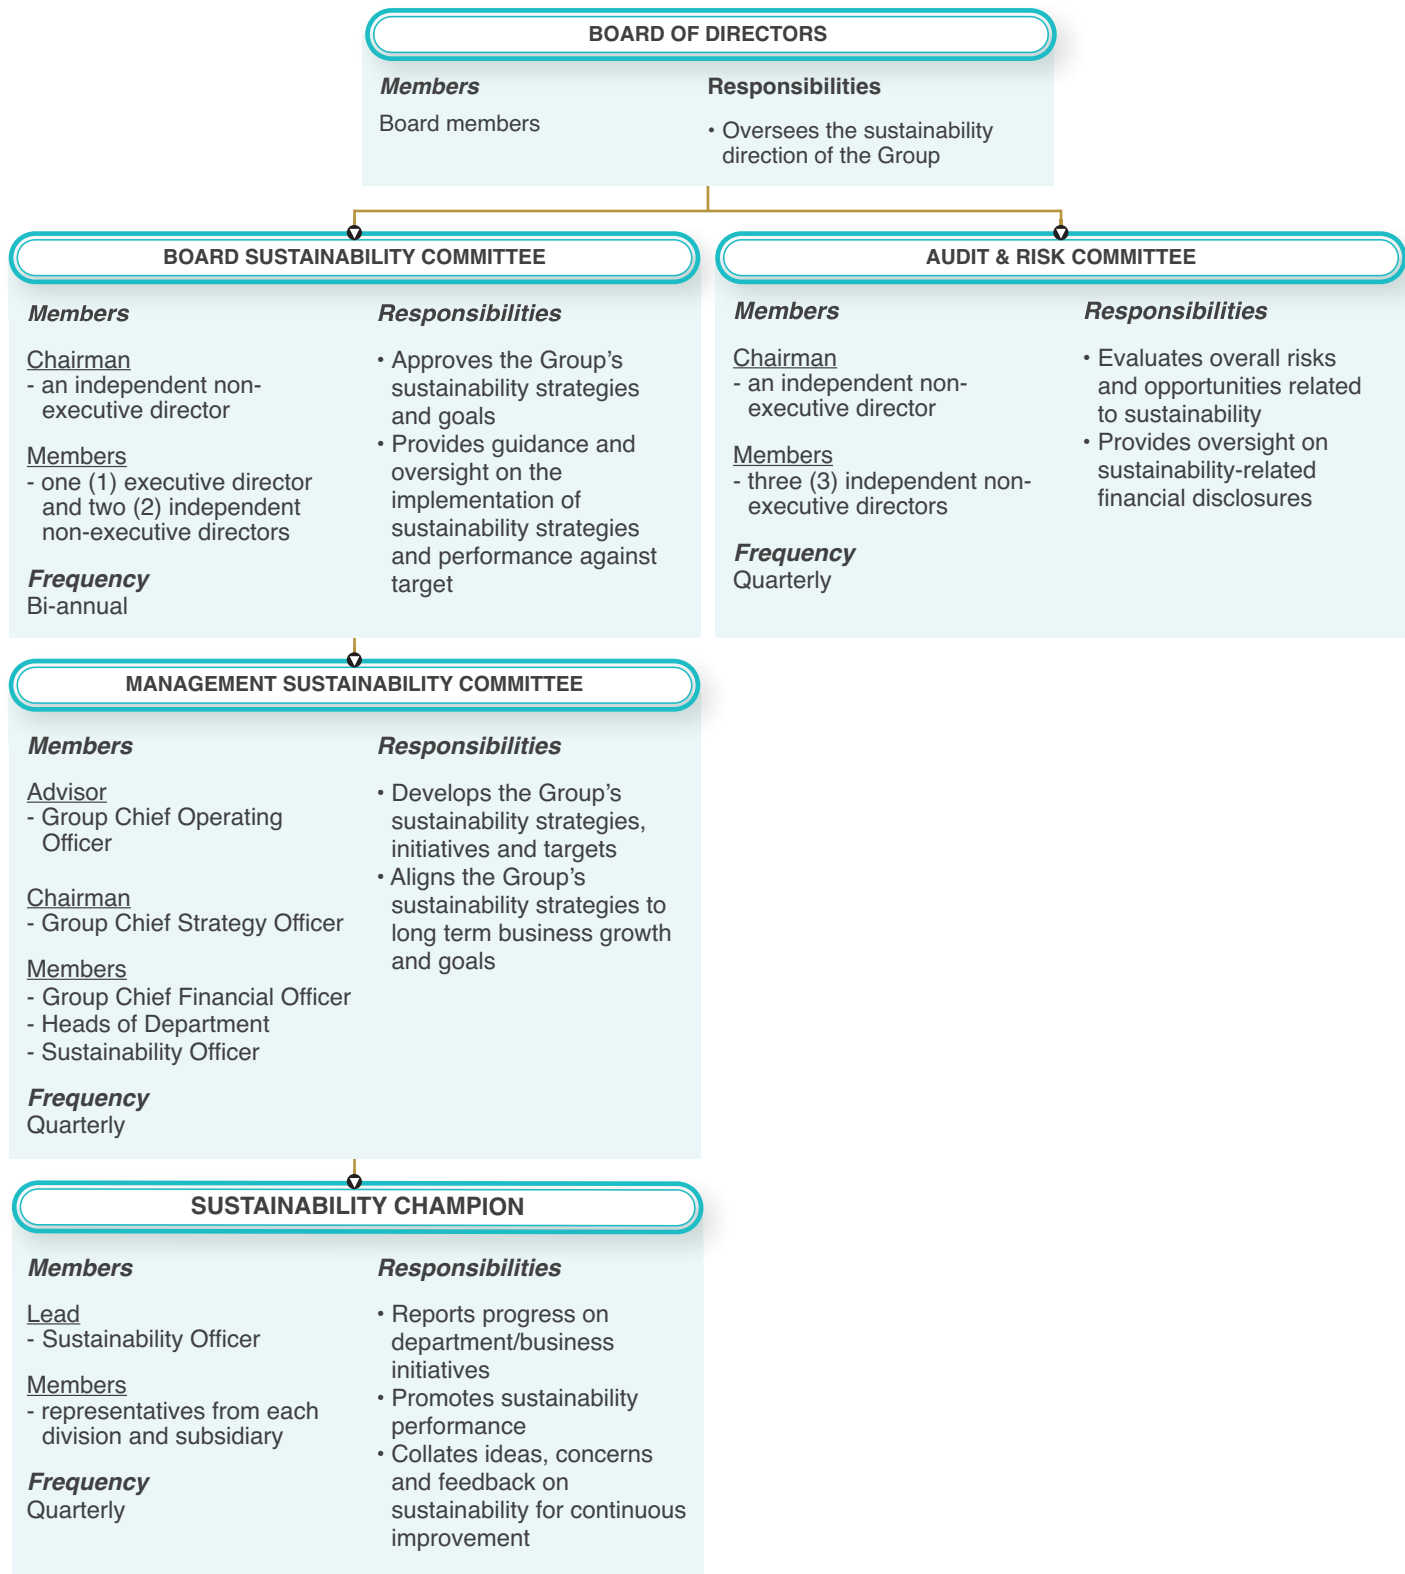

- (a) Re-named the Sustainability Steering Committee to Board Sustainability Committee (BSC), and established the Terms of Reference on 27 August 2024.
- (b) Appointment of a certified Sustainability Practitioner as Sustainability Officer to drive the alignment of corporate actions with long-term sustainability goals, ensuring environmental responsibility and business success
- (c) Formation of a Management Sustainability Committee (MSC) with the objective to provide advisory support and capacity building to operating companies. The Terms of Reference was established on 1 September 2024
- (d) Formation of Sustainability Champions, with the objective of day-to-day operations implementation

With the above, we have implemented the structure within the Group to ensure that accountability, roles and responsibilities of all parties regarding sustainability initiatives, issues and commitments are clearly outlined and implemented :

## SUSTAINABILITY STATEMENT

(Cont'd)

## SUSTAINABILITY STATEMENT

(Cont'd)

We have conducted the 1<sup>st</sup> Management Sustainability Committee meeting on 26 September 2024 to identify and propose a set of Sustainability Targets and Initiatives based on the ten (10) material matters. These Sustainability Targets and Initiatives were presented to the Board Sustainability Committee on 15 October 2024 for review and approval to put into practice across the Group.

We acknowledged that it is critical for our Board of Directors and senior management to understand the growing importance of sustainability practices and the potential impacts on our business operations, reputation, and long-term viability. Thus, we engaged a certified ESG Analyst and HRDF trainer to conduct a Sustainability Awareness briefing on 15 October 2024. This was followed by a townhall session whereby our Group COO conducted a sustainability briefing to all our employees on 5 November 2024.

We also collaborated with the Department of Environment Wilayah Persekutuan Kuala Lumpur in organising a briefing on 'Efficiency of Water, Energy and Waste Management' for the employees to appreciate our national efforts concerning this subject.

## SUSTAINABILITY STATEMENT

(Cont'd)

### Stakeholders Engagement

The Group actively and consistently engages with our stakeholders regarding varied concerns and interests, influences and impacts. We gain valuable understanding of our stakeholders' needs and expectations by engaging with them. This enables us to align our strategies, initiatives and decision-making processes with the interests of our stakeholders, ultimately contributing to long term value creation and sustainable development.

In FY2024, we have improved our stakeholders grouping as follows :

- (a) combined the regulatory and statutory bodies with government agencies, as they have similarity with regards to their impacts on the Group and our response to their needs and expectations.
- (b) Included 'local communities' in our stakeholders' group as we may have impact on them in the areas where we operate our business.

We reach out to our stakeholders through a variety of formal and informal communication channels. These platforms allow us to share knowledge and best practices while networking more effectively with market players and industry experts. Understanding our stakeholders' impact on the Group as well as our influence on them, enables the Group to proactively engage our stakeholders, keep them informed, manage their expectations, empower them to be involved, and may even mitigate some of the potential negative impacts.

### Material Matters

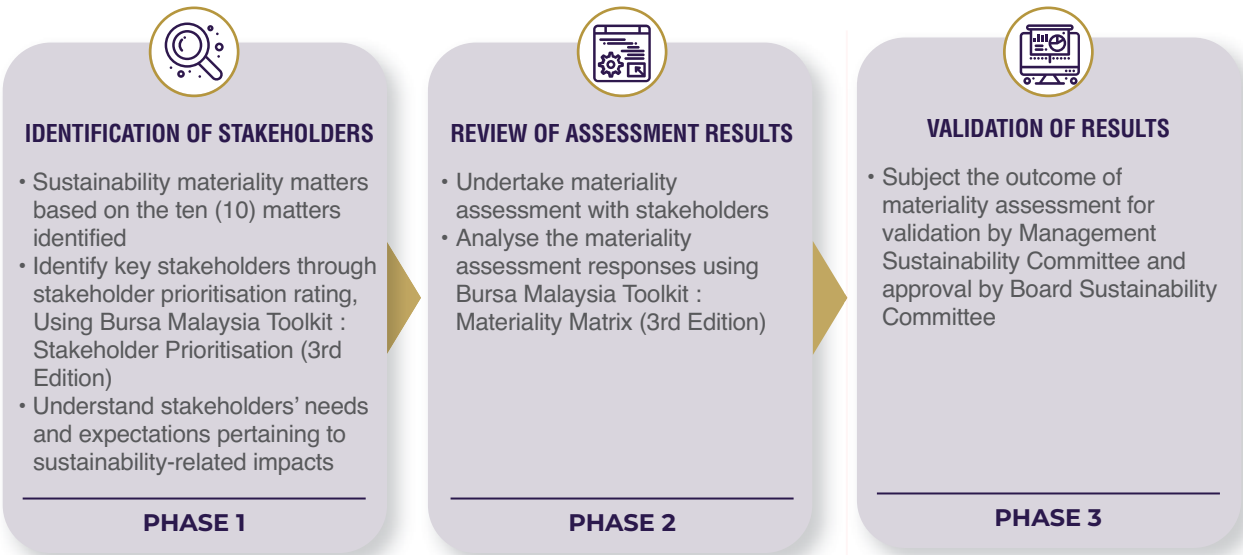

As an organisation, we are cognisant of the fact that our material matters can directly and indirectly impact our ability to create long term value to our stakeholders. In FY2023, the Group has conducted a limited scale materiality assessment, whereby a total of ten (10) material matters (versus eight (8) in FY2022) are aligned to the Group's strategic priorities and stakeholders' expectations. The Group also aims to conduct a comprehensive materiality assessment once every three (3) years and undertake an annual review of the relevance of our materiality matters.

The Group undertook a limited scale materiality assessment exercise from 25 November to 6 December 2024 that involved the participation of ninety one (91) internal and external stakeholders via a materiality questionnaire survey. The purpose of this materiality assessment is to ensure that the ten (10) existing material matters continue to be relevant, as well as reflect and incorporate the current sustainability trends and perspectives from our internal and external stakeholders into our strategies.

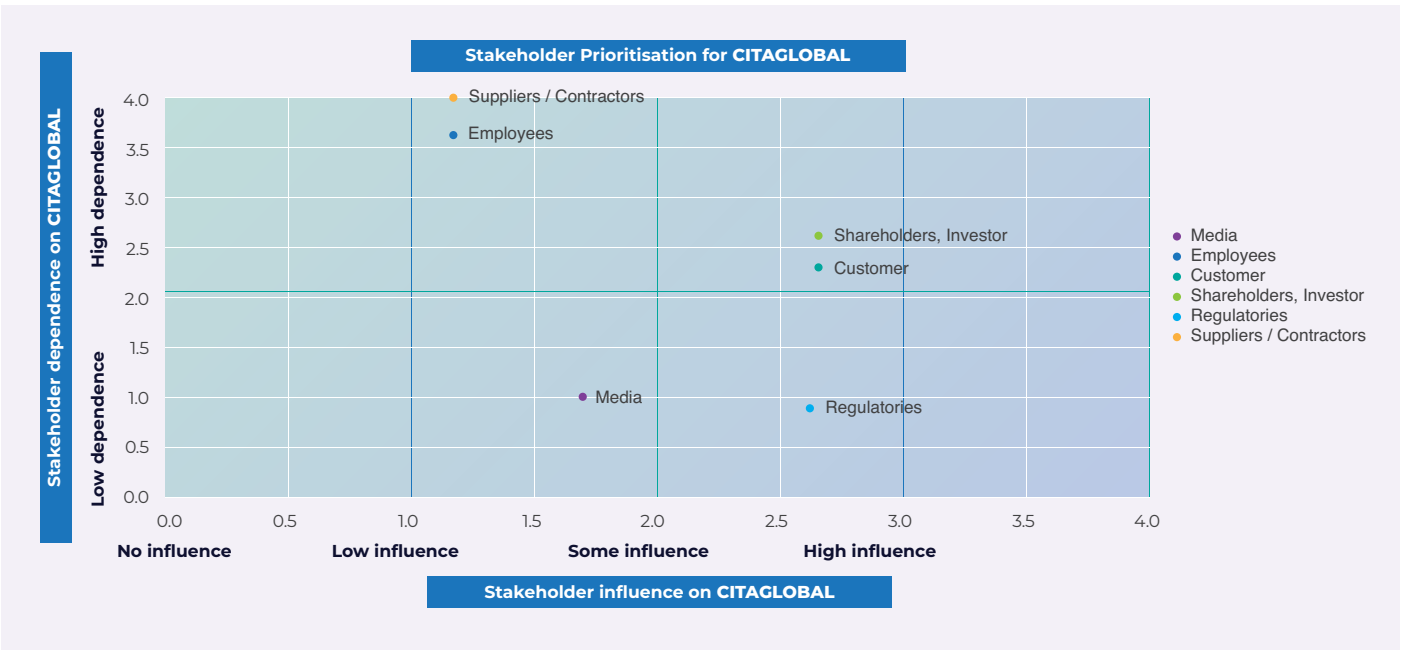

# SUSTAINABILITY STATEMENT

(Cont'd)

Our materiality assessment process consists of three (3) phases :

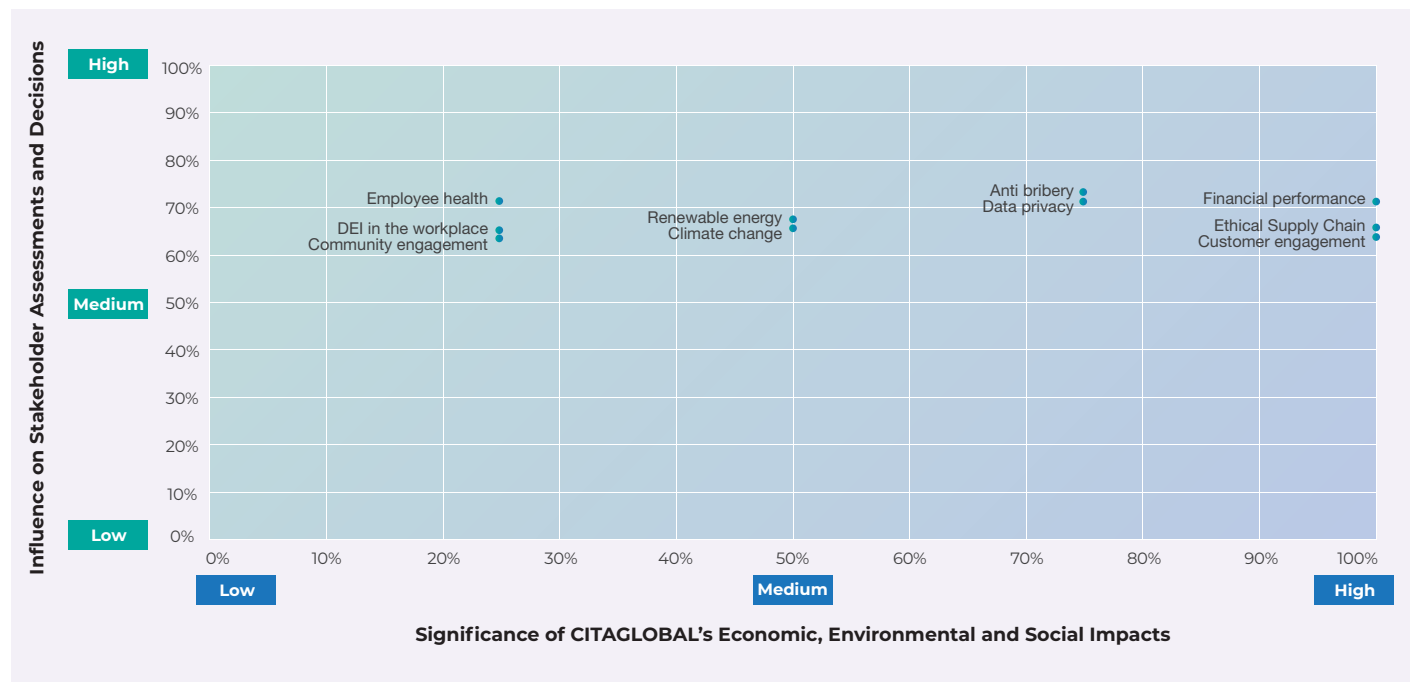

From the completed survey, we were able to assess the significance of each group of stakeholders by determining their influence and dependency, whose weightage was then reflected in the materiality matrix. The prioritisation of stakeholders is important as it indicates how significant different stakeholders are to the Group, which would then allow us to understand how a sustainability matter may be material. The matrix below indicates that the Group needs to have especially robust engagements with about half of our stakeholders.

## SUSTAINABILITY STATEMENT

(Cont'd)

The outcome of the questionnaire survey was plotted on a materiality matrix in accordance with the degree of materiality and the significant relevance of the Material Matters. This was done in order to identify the priority of the Material Matters. The results of the survey, in addition to the materiality matrix, were validated by the Management Sustainability Committee prior to the approval by the Board Sustainability Committee.

Based on the materiality matrix, and in comparison to the materiality matrix in FY2023, the following are the summaries :

- Economic matters, i.e. value creation, contract management and customer satisfaction are maintained as the key material matters
- Governance matters, i.e. anti-bribery & corruption and data security & privacy have increased in their significance compared to the Group's Economic, Environmental and Social Impact.
- Ranking was updated in order of importance of the material matters to our stakeholders : economic, governance, environment, social.

The Board Sustainability Committee and Management Sustainability Committee will continue to exercise oversight to address all of our material matters as well as use the assessment results to understand and prioritise our sustainability issues and formulate efficient sustainability strategies. We firmly believe that sustainability is an ongoing effort that demands dedication, perseverance and diligence, and is necessary in creating long-term value for society.

### Sustainability Framework

CITAGLOBAL recognises that sustainability is essential in attracting investments, improving reputation, driving innovation, and meeting regulations. We envision ourselves to be an organisation synonymous with sustainability, whereby we can serve our stakeholders and society while remaining profitable.

The Group aspires to embed sustainability within our business operations, and sustainability influences every decision we make across every level of our organisation, from strategic reviews and guidance from the Board of Directors, to the running of our operations. We will continue to monitor the Group's sustainability strategy and performance, focusing on the four (4) pillars : economic strength, environmental stewardship, advancing social impact and robust governance.

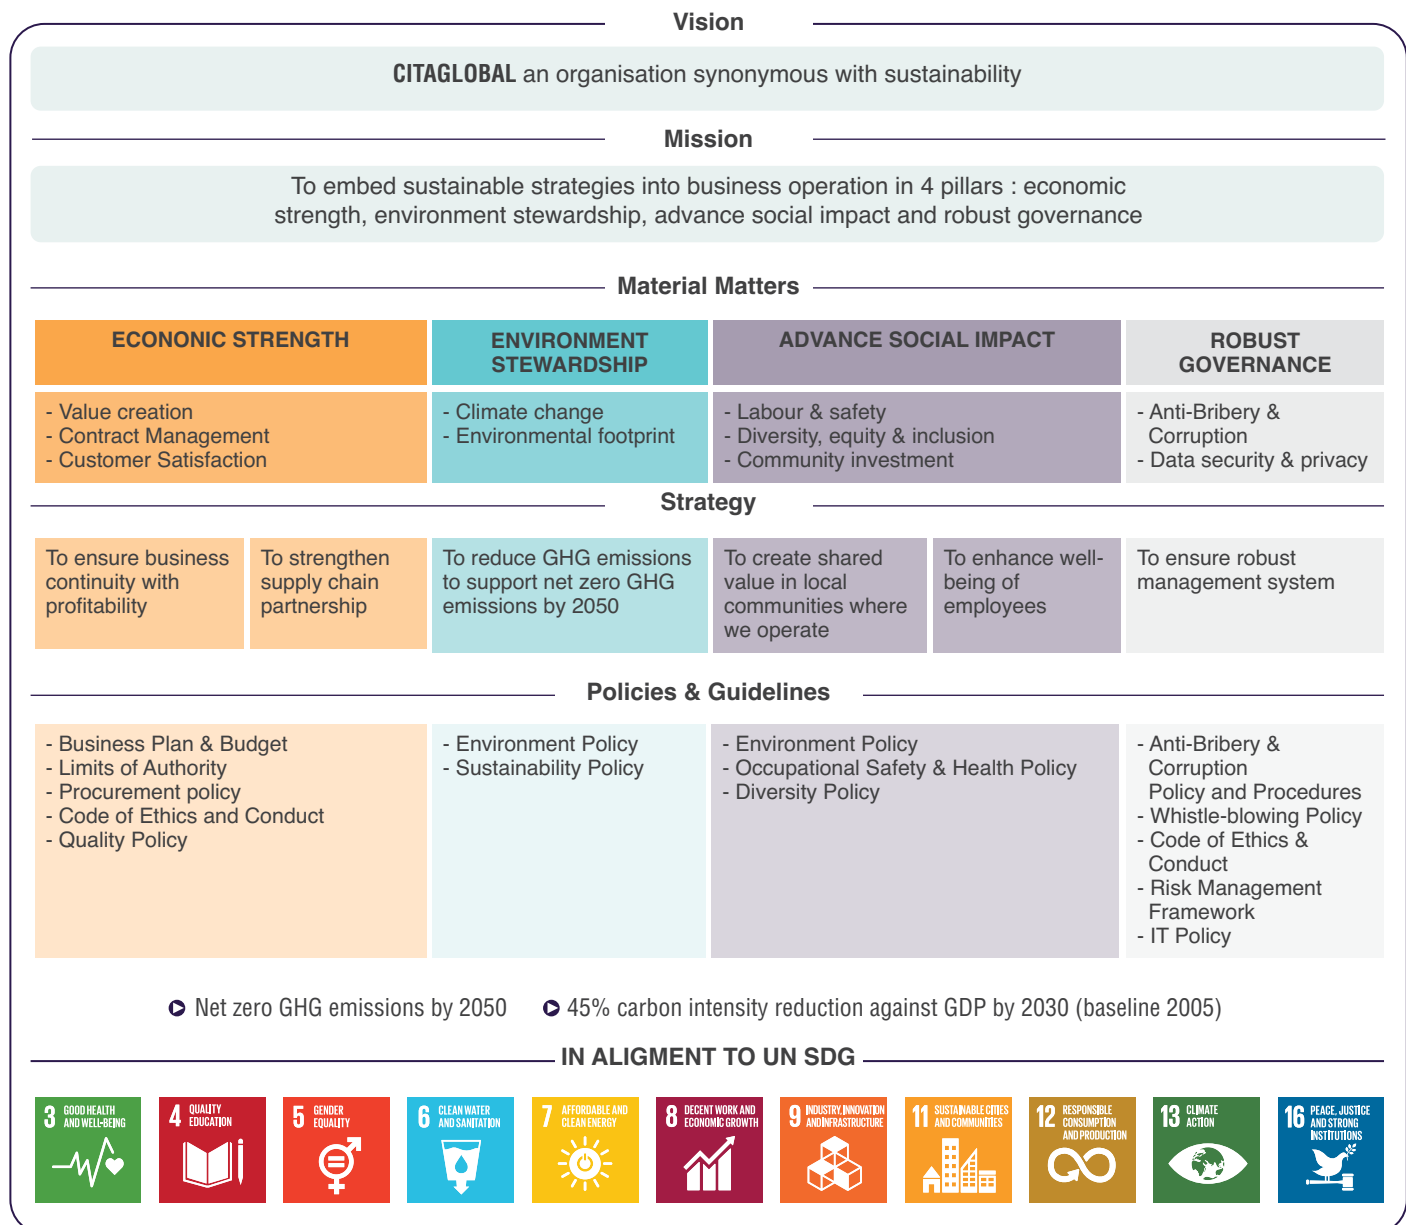

## SUSTAINABILITY STATEMENT

(Cont'd)

Cognisant of the impact that the Group has in respect to the global push towards Net Zero Carbon Emissions by 2050, the Board of Directors (Board), working hand-in-hand with the Executive Chairman & President, continues to oversee the Group's approach to sustainability. We have integrated the ten (10) material matters into each of the sustainability pillars and endeavor to align our operations and initiatives to the relevant eleven (11) United Nations Sustainable Development Goals ("UN SDGs").

The diagram below represents an overview of CITAGLOBAL sustainability framework which contains our planned sustainability strategies through the period 2025 to 2030.

## SUSTAINABILITY STATEMENT

(Cont'd)

In FY2024, to sharpen our focus on sustainability and business goals, and ensuring value generation from each material issue we address, the Management Sustainability Committee has identified and proposed the sustainability targets and initiatives to the Board Sustainability Committee for approval for implementation. The following sustainability targets and initiatives become our commitment to sustainability in FY2024.

Focused Areas	Material Matters	Targets	Initiatives
<b>Economic Strength</b> 	Value creation	To secure capacity quota of 200MWp for investment in renewable assets	Renewable Energy Business Plan
	Contract Management	> 80% local suppliers	Supplier management programme
	Customer Satisfaction	> 75% customer satisfaction (above par)	Customer management programmes
<b>Environment Stewardship</b> 	Climate change	Cleaner energy consumption at own facilities	Replacement of standard spotlight to solar spotlight
	Environmental footprint	(a) Annual reduction of water and electricity bills (b) Annual waste reduction	3R (reduce, reuse, recycle) campaign
<b>Advance Social Impact</b> 	Labour and Safety	Zero (0) LTI	HSE Implementation plan & programme
	Diversity, Equity and Inclusion	Employee turnover below 25%	Talent management programme
	Community investment	0.2% of total revenue	Local communities programme
<b>Robust Governance</b> 	Anti-Bribery & Corruption	Zero (0) incidents of corruption	(a) Training & awareness to all employees (b) Bribery & Corruption Risk assessment (c) Annual declaration by employee
	Data security & privacy	Zero (0) data loss / leakage	Disaster Recovery Plan

As a sustainability proponent, we constantly benchmark against industry and international best practices to further improve our sustainability practices. Our practices are mainly guided by the commitments we have made in our Sustainability Policy. We also have a set of robust policies that instill good business conduct, as listed below :

### UPHOLDING ETHICS AND INTEGRITY

- Code of Ethics for Employees
- Whistleblowing Policy and Procedures
- Limits of Authority
- Anti-Bribery & Corruption Policy and Procedures

### ENHANCING WORKPLACE ENVIRONMENT

### MANAGEMENT APPROACH TO MATERIAL MATTERS

As a responsible corporate citizen, CITAGLOBAL is dedicated to delivering meaningful progress towards our sustainability commitments, which will contribute positively to profit, people and planet. Our commitment to sustainability is inherent in all that we do and aims to support our customers' and nation's ambitious sustainability goals.

Here are a few milestones we have achieved since we started our journey toward sustainability in 2022. Our dedication to ESG best practices has been recognised with an upgraded FTSE4Good Bursa Malaysia ESG Rating from 1-star to 2-star in 2024.

We integrate sustainability considerations into our risk management process, governed by CITAGLOBAL Enterprise Risk Management Framework, which is based on the guidelines in ISO 31000:2018 Risk Management – Guidelines. This framework offers a structured and consistent approach to risk management across the Group, aiming to create and protect value as demonstrated through its elements. The implementation of the above stated risk management is detailed in the Risk Management Framework.

The Management Sustainability Committee (MSC) identified and deliberated the risks and opportunities for each material matters, considering their potential impact on the Group. Then MSC recommended these material matters to the Board Sustainability Committee for approval, which was then considered in the establishment or changes that derived our sustainability framework, strategy and initiatives (please refer to 'Sustainability Framework' section).

## 1. Value Creation & Performance

### Why is this important ?

CITAGLOBAL is committed to maintaining solid financial performance, with the ultimate goal to ensure long term resilience by leveraging our core activities and exploring new growth opportunities sustainably, enhancing investors and stakeholders' confidence. Focused on technology-driven sectors, we aspire to emerge as a prominent leader, empowering the future through innovation and strategic initiatives. The financial sustainability of CITAGLOBAL is vital to ensure the continued development in renewable energy and enhance energy efficiency, which will then have positive impacts to the environment and local communities.

### Our approach

We are steadfast in executing our business strategy in the following areas to ensure we maintain a healthy balance sheet and strong cash flow, whilst enhancing operational efficiencies through technological improvements and digital transformation to build business resilience and to fortify financial performance :

- Energy : primarily engaged in onshore oil and gas downstream activities, renewable energy and power generation
- Civil Engineering and Construction : primarily in infrastructure construction
- Property: primarily in property investment, construction and development
- Manufacturing : primarily in manufacturing of cold drawn bright steel products

### Our performance

In FY2024, we have secured several significant and high-impact projects in Malaysia (please refer to 'Management Discussion and Analysis' section), as well as the acquisition of waste-to-energy technology from LAWI Engineering GmbH, which consists of its patented combustion system for waste management.

TARGET 2024	INITIATIVE	FY2024 ACHIEVEMENT
To secure capacity quota of 200MW for investment in renewable assets	Renewable Energy Business Plan	Secured up to 200 mosques to install rooftop solar under the purview of Majlis Ugama Islam dan Adat Resam Melayu Pahang (MUIP), with an estimated total capacity of 8 MWp

## Risks and Opportunities

RISKS	OPPORTUNITIES
Poor financial performance and poorly structured business transaction threatens business continuity, value creation and loss of investment opportunities	Resilient, ability to withstand crisis, adapting and thriving even in the face of adversity
Reduced demand for goods and services due to shift in consumer preferences, change of government policies and economic uncertainties	

### Policies and Guidelines

Group-wide policies to ensure that the Group's strategic and operational objectives are effectively achieved :

- Business Plan & Budget
- Terms of Reference of the Finance & Investment Committee

## 2. Contract Management & Supply Chain

### Why is this important ?

Contract management is crucial to achieve good economic performance and a sustainable and responsible supply chain. This encompasses the oversight and administration of contracts among the various stakeholders in a project, i.e. customers, suppliers and contractors, which includes negotiating contract terms, monitoring compliance, resolving disputes, allocating resources, and monitoring budgets.

We acknowledge the significance and benefits of local sourcing, and we believe that in doing so, it can support local businesses which further contributes to the economic growth and well-being of the country.

### Our approach

We are implementing the guidelines provided in our Limits of Authority. This requires the advice and recommendation from the Finance and Investment Committee (FIC) to the management and the Board in the following topics :

- Discretionary capital expenditure
- All acquisitions, investments and divestment
- Setting up of new material business
- Corporate strategy and planning

## SUSTAINABILITY STATEMENT

(Cont'd)

We forge strategic partnerships with local suppliers to leverage shared resources, expertise and market insights, thus fostering business continuity, growth and innovation. In our commitment to transparency and traceability, we conducted Vendor Performance Evaluations to monitor and provide feedback to our vendors for improvement. The Group will ensure that our procurement practices are fair and transparent in order to award tenders to the most credible suppliers while also collaborating with socially and environmentally conscious suppliers.

### Our performance

In FY2024, 94% of our vendors were sourced locally, which is an increase compared to 83% in FY2023. This achievement was successfully accomplished due to the supplier management programme which included :

- (a) Supplier selection and sourcing
- (b) Supplier performance assessment
- (c) Long-term relationship with suppliers
- (d) Transparency in communication and traceability

TARGET 2024	INITIATIVE	FY2024 ACHIEVEMENT
> 80% local suppliers	Supplier management programme	94%

### Risks and Opportunities

RISKS	OPPORTUNITIES
Poorly drafted contracts and unethical practices can lead to regulatory violations, monetary fines and reputational risk	Achieve cost savings through stronger collaboration among the supply chain partners
Supply chain disruptions and vulnerabilities caused by geopolitical conflicts, wars and fears of global slowdown	Enhanced supply chain efficiency and sustainability performance
A non-performing supply chain may lead to production delays and inventory problems, and ultimately, financial losses.	

### Policies and Guidelines

Group-wide policies to ensure that the Group's strategic and operational objectives are effectively achieved :

- Limits of Authority Guideline
- Procurement Procedure
- Vendor Management Procedure

### 3. Customer Satisfaction

#### Why is this important ?

Customer satisfaction and loyalty are key factors in achieving long-term success, sustaining our business, remaining competitive and maintaining our reputation. Constructive customer feedback is vital for guiding innovation and continuous improvement. This will help the Group to understand customer needs, identify areas for enhancement, and ultimately improve the customer experience and product/service quality.

#### Our approach

CITAGLOBAL takes pride in serving our diverse customers with quality products and services. This is accomplished by ensuring continuous engagement with customers through various channels including obtaining periodic feedback via customer feedback platforms, business performance review meetings and during engagements.

The customer feedbacks are reviewed, analysed and then actionable plans are derived to improve products, services, and customer experiences. These will be discussed during the management review meeting.

#### Our performance

In FY2024, the Group has surpassed our customer's expectations, leading to higher positive customer feedback with 89% satisfaction. Our engagement with customers is through :

- Customer relationship building
- Formal meetings
- Customer feedback platforms
- Social media

TARGET 2024	INITIATIVE	FY2024 ACHIEVEMENT
> 75% customer satisfaction	Customer management programmes	89%

# SUSTAINABILITY STATEMENT

(Cont'd)

## Risks and Opportunities

RISKS	OPPORTUNITIES
Inability to meet customers' expectations may lead to loss of confidence, loss of business and negative word-of-mouth which could affect company's reputation	Effectively managed customer expectation can lead to increased customer retention, positive referrals, and enhanced brand reputation, ultimately driving business growth and profitability.

## Policies and Guidelines

- Quality Policy
- Code of Ethics and Conduct

## 4. Anti-Bribery & Corruption

### Why is this important ?

At CITAGLOBAL, ethical behavior is of paramount importance to us, and we take compliance with our established Code of Ethics and Conduct, Anti-Bribery & Corruption Policy and Procedures, and related policies seriously. The implementation of corporate liability involving commercial organisations under the Malaysian Anti-Corruption Commission (MACC) Act 2009 Section 17A which took effect on 1 June 2020 resonates with our objective of fostering a business environment free of bribery and corruption.

Bribery and corruption are not only against our values, but the destructive consequences arising from them could negatively impact the Group's employee morale, reputation and financial standing.

### Our approach

CITAGLOBAL has established its Anti-Bribery & Corruption (ABC) Policy and Procedures, which serves as a comprehensive framework outlining the guiding principles for effectively managing bribery and corruption risks across all our activities.

The Group has taken a proactive stance by implementing internal controls to prevent and detect corruption, adhering to proper approval processes for financial transactions, and a system of check and balance to ensure transparency and accountability. Risk assessments are conducted to identify corruption vulnerabilities in various aspects of our operations. Any incident related to actual or suspected violations of the ABC Policy and Procedures can be reported through our whistleblowing channel, [whistle@citaglobal.my](mailto:whistle@citaglobal.my).

## Our performance

In FY2024, we tracked our ABC initiatives using the MACC T.R.U.S.T. guiding principles, and reported no confirmed bribery & corruption incidents :

- T Top Level Commitment**
- Strong tone from the top via the ABC Policy and Procedures roll-out
- R Risk Assessment**
- Annual Bribery & Corruption Risk Assessment
- U Undertake Control Measures**
- Whistle blowing channel in place
  - Implementation of 'No Gift' Policy
  - Strict adherence to Limits of Authority
  - Code of Ethics and Conduct for employees and third parties
  - Conducting ABC assessment, targeting areas that have been identified as vulnerable to bribery & corruption
- S Systematic Review, Monitoring & Enforcement**
- T Training & Communication**
- Employee declaration on ABC policy compliance
  - Awareness session
  - ABC topic included in employee orientation

We have assessed five (5) operational areas out of the twelve (12) operational areas which were identified as highly vulnerable to bribery & corruption :

- Asset management
- Finance
- Procurement & Contracting
- Human Resources
- IT

## Risks and Opportunities

RISKS	OPPORTUNITIES
Legal consequences, damage to reputation, and loss of business opportunities	Fostering a culture of integrity and trust, gaining competitive advantage through ethical business practices
Reputational risks due to the absence of transparent and robust policies	Building stronger relationships with stakeholders

## 5. Data Security & Privacy

### Why is this important ?

CITAGLOBAL views data security and privacy as paramount elements for building trust, protecting customer privacy and stakeholders' data. We also comply with the regulatory requirements including the Personal Data Protection Act (PDPA) and industry best practices.

### Our approach

We have a comprehensive IT policy in place to ensure robust data security and privacy, which includes guidelines and procedures for data handling, access control, and network security, ultimately protecting sensitive information from unauthorised access or breaches.

### Our performance

In FY2024, we have successfully implemented a robust disaster recovery plan, which enhances our resilience by ensuring swift recovery from disruptions, minimising data loss, and maintaining business continuity. As of FY2024, the Group confirmed that we did not receive any substantiated complaints concerning breaches of customer privacy and losses of customer data.

### Risks and Opportunities

RISKS	OPPORTUNITIES
Data breaches and cyber-attacks could result in the loss of sensitive company and customer information, leading to significant reputational damage and loss of stakeholder trust	Strengthened stakeholder trust by ensuring robust data security measures, which enhances the organisation's reputation as a reliable and secure partner
Lack of technological adoption to support organisation's operations and growth	

### Policies and Guidelines

- IT Policy

## 6. Climate Change

### Why is this important ?

The climate affects every aspect of life. Consequently, climate change poses significant long-term risk to everyone's life. Addressing climate change and adapting our business activities to be resilient to climate-related risks, i.e. floods, heat, etc. are vital to CITAGLOBAL's long term sustainability.

### Our approach

CITAGLOBAL is committed to addressing climate change impact through the following :

- Awareness programmes on climate-related topics
- Conduct climate risk assessment
- Enhance sustainability reporting towards Task Force on Climate-related Financial Disclosures (TCFD) to internalise climate change considerations into business strategies as well as to respond to the needs of our key stakeholders

### Our performance

In FY2024, we conducted our inaugural sustainability awareness briefing to our Board of Directors and senior management team on 15 October 2024, and to our employees on 25 November 2024.

In responding to the ISO 9001:2015 amendment that requires organisations to consider climate change within their quality management systems, the relevant subsidiary has evaluated the significance of climate change issues to their operations, products and services, and integrated this consideration into their respective management system.

### Risks and Opportunities

RISKS	OPPORTUNITIES
Failure to adapt to climate change increases the likelihood and impact of damage to our assets, disruption to our operations and safety concern for our employees	Lower resource and energy consumption enables cost savings and improved performance
	Effective climate change management and disclosure improves stakeholders' trust and perception

## 7. Environmental Footprint

### Why is this important ?

CITAGLOBAL recognises the vital role water, energy and waste management play in sustaining life and ecosystems. As stewards of the environment, we are committed to responsible water, energy and waste management practices.

### Our approach

CITAGLOBAL commits to the Malaysian government's pledge under the Paris Agreement, aiming to reduce carbon intensity by 45% in 2030 and to achieve Net Zero by 2050. As a good corporate citizen, it is our responsibility to reduce our carbon footprint while also embracing opportunities to transit to a low-carbon economy.

Given these commitments, we are prioritising measures to reduce our operational greenhouse gas (GHG) emissions, thereby mitigating climate change and minimising environmental impact. CITAGLOBAL is also developing the Gebeng Industrial Estate in Kuantan, Pahang as an eco-friendly industrial park.

We have started collecting water, waste and emissions data in FY2023, and we aim to set a baseline for GHG inventories to be used as a reference point to measure future emissions reduction. At the same time, we are encouraging our employees to adopt a sustainable lifestyle through our green office initiatives.

We have committed to calculating Scope 3 emissions (business travel and employee commuting) in FY2024.

### Our performance

In FY2024, we have spearheaded the reduction of our carbon footprint with initiatives focused on energy conservation and waste reduction :

- (a) Awareness of employees to turn off the light when leaving a room
- (b) Unplug appliances when not in use
- (c) Reduce the use of plastic water bottles during meetings
- (d) Reuse printed paper
- (e) Replace eight (8) traditional spotlights with solar spotlights
- (f) Replace laptops with energy-efficient models, such as energy star-certified products

CITAGLOBAL has acquired waste-to-energy technology from LAWI Engineering GmbH, which consists of its patented combustion system for waste management projects.

We have secured up to 200 mosques to install rooftop solar panels under the purview of Majlis Ugama Islam dan Adat Resam Melayu Pahang (MUIP), with an estimated total capacity of 8 MWp. As an initial phase, we are starting with 12 mosques at the following locations:

1. Masjid Sultan Ahmad Shah, Sg Isap
2. Masjid Al-Falah, Sg Isap
3. Masjid Kampung Chengal Lempong, Balok
4. Surau Al-Furqan, Balok
5. Masjid Jamek Beserah
6. Surau As-Syakirin, Bandar Damansara, Beserah
7. Masjid Saiyidina Abu Bakar Siddik, Pekan Semambu
8. Masjid Tanjung Lumpur, Kuantan
9. Masjid Tengku Abdullah, Peramu
10. Masjid Cherok Paloh, Penor
11. Masjid Al-Mukmin, Tanah Putih, Pekan
12. Masjid Pulau Serai, Pekan

These twelve (12) mosques will collectively generate 600 kW of green energy. When all 200 sites are fully operational, the total capacity is estimated to reach 8 MW, which will help offset approximately 8,179 tCO<sub>2</sub> emissions annually. This calculation is based on Malaysia's grid emission factor of around 0.639 tCO<sub>2</sub>/MWh.

### Risks and Opportunities

RISKS	OPPORTUNITIES
Legal and regulatory risks on noncompliance with waste-related regulations and standards	Lower energy costs through the adoption of renewable energy sources and energy-efficient technologies
Increased operational costs due to inefficient energy use, affecting profitability and carbon footprint	Inculcate sustainable practices and values in employees and communities through our initiatives
Enhanced emissions-reporting obligations which may result in write-off, asset impairment, and early retirement of existing assets due to policy change (financial impact)

### 8. Labour & Safety

#### Why is this important ?

As a socially responsible employer, CITAGLOBAL is committed to protect the health, well-being, safety and development of our employees and our contractors. We believe that prioritising these will not only protect our most valuable asset, our people, but also foster a culture of trust, collaboration, and productivity.

#### Our approach

We remain guided by the principles outlined in the Malaysian Employment Act and the Occupational Safety and Health Act, which underscores our unwavering commitment to adhering to relevant legislations and regulations.

One of our goals is to achieve zero (0) accidents by fostering a strong healthy and safe at work culture. To realize this, we have in place a robust OSH management system to manage risks and improve OSH performance, ultimately aiming to prevent work-related injuries and illnesses.

To attract and retain a high-quality workforce, we provide competitive remuneration to all employees which includes both financial and non-financial modes of compensation. The benefits we provide our employees include:

#### Leave

- Maternity leave
- Paternity leave
- Compassionate leave
- Calamity leave
- Tertiary leave

#### Medical Benefits

- Outpatient (includes medical and optical)
- Medical screening

#### Insurance

- Group Personal Accident
- Group Term Life & Group Hospitalisation & Surgical

#### Our performance

Despite our efforts to ensure the safety of our employees at the workplace, in FY2024, there was one (1) employee fatality recorded due to road accident. Regardless, the Group

continues to strive to maintain a zero-fatality target to consistently expand efforts to evaluate our operating processes and strengthen our OSH policies and procedures.

In addition to the required HSE-related competency training such as CIDB Green Card (Safety Induction for Construction Workers), NIOSH OGSP (Oil and Gas Safety Passport), Authorised Gas Tester and Entry Supervisor (AGTES), etc. we also organised the following company-wide training at our headquarters to enhance understanding and awareness :

DATE	TOPICS
25 June 2024	Health screening and health talk
26 & 27 June 2024	OSHA (Amendment) Act 2022
5-7 August 2024	OSH Coordinator Training
18 December 2024	Health Talk on 'Stress Management and Mental Resilience'

#### Health Screening and Health Talk on 25 June 2024

# SUSTAINABILITY STATEMENT

(Cont'd)

In FY2024 our employees collectively underwent 4,073 hours of training across various categories, ensuring they are equipped with the skills and knowledge necessary to excel in their roles. This investment not only enhances individual performance but also contributes to the overall growth and innovation of our organisation.

### Risks and Opportunities

RISKS	OPPORTUNITIES

- Diversity Policy

## 9. Diversity, Equity & Inclusion

### Why is this important ?

CITAGLOBAL recognises that diversity is an essential element contributing to our sustainable development and we do not discriminate on the basis of ethnicity, age, gender, nationality, political affiliation, religious affiliation, marital status, education background or physical disability.

### Our approach

We have no specific target on employee composition in terms of gender, age or ethnicity, but we centre our initiatives on the following:

- Foster an inclusive culture – involving both women and men in fostering an inclusive culture that upholds the central principle of meritocracy
- Improve talent management – embedding diversity initiatives into the broader talent management process in order to support the development of all talent
- Develop a work environment that values and utilises the contributions of employees with diverse backgrounds, experiences and perspectives
- Create awareness in all employees of their rights and responsibilities with regards to fairness, equity and respect for all aspects of diversity

### Our performance

By end of FY2024, women constituted 20% of the board of directors. CITAGLOBAL targets to achieve at least 30% women directors to promote gender diversity and improve corporate governance.

To commemorate the significance of *International Women's Day* celebrated annually on 8 March, it is our cherished tradition to acknowledge the remarkable achievements and contributions of the women in our organisation.

As a token of our appreciation, chocolates will be distributed to all our female employees in celebration of this special day. This small gesture symbolises our gratitude and recognition of the strength, dedication and impact that each woman brings to our workplace.

CITAGLOBAL will continue to support and uplift one another as we strive towards a more inclusive and empowering environment for all.

We believe that celebrating diverse festive seasons can enhance diversity by acknowledging and appreciating various cultural traditions, fostering a sense of belonging, and promoting inclusivity.

## SUSTAINABILITY STATEMENT

## 10. Community Investment

### Why is this important ?

At CITAGLOBAL, we are committed to fostering positive change in the communities connected to our business operations. Through strategic community investments, we aim to enhance community well-being while reinforcing our long-term sustainability goals.

## Our approach

Corporate Social Responsibility (CSR) and community engagement initiatives are primarily driven by our Group Human Resources & Administration (HRA), in collaboration with each subsidiary operating at the project level. We also extend financial support to charitable and community-driven initiatives that resonate with our core values and operate within our areas of presence.

Looking ahead, CITAGLOBAL intends to expand both the scope and depth of our community investments, focusing on initiatives that align with our business activities, corporate values, and areas where we can deliver meaningful, lasting impact.

## Our performance

Our flagship CSR programme, ‘Jalinan Kasih CITAGLOBAL’, continues to uphold our annual tradition of giving back. Highlights of this initiative include:

## CORPORATE GOVERNANCE OVERVIEW STATEMENT

### CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board of Directors of Citaglobal Berhad (“**the Board**”) acknowledges the importance of the principles and recommendations outlined in the Malaysian Code on Corporate Governance (“**MCCG**”). The Board is fully committed to upholding high standards of corporate governance practices across the Group, with the aim of safeguarding and enhancing long-term shareholder value as well as the interests of all stakeholders.

The Board is pleased to present the Corporate Governance Overview Statement (“**CG Statement**”), which describes how the Group applied and complied with the three (3) principles outlined in the MCCG throughout the financial year under review:-

- (a) Principle A: Board leadership and effectiveness;
- (b) Principle B: Effective audit and risk management; and
- (c) Principle C: Integrity in corporate reporting and meaningful relationship with stakeholders.

This CG Statement is prepared in accordance with the Main Market Listing Requirements (“**MMLR**”) of Bursa Malaysia Securities Berhad (“**Bursa Securities**”). It aims to give an overview of the compliance level with the three (3) Principles outlined in the MCCG. This CG Statement should be read together with the Corporate Governance Report 2024 of the Company, which is available on the Company’s corporate website at [www.citaglobal.my](http://www.citaglobal.my).

### PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS

#### Board Responsibilities

The Board holds ultimate governance responsibility, providing strategic direction and oversight for the Group’s activities. This includes shaping the Group’s long-term strategy, ensuring operational excellence, implementing robust internal controls and risk management frameworks, and upholding regulatory compliance.

A clear distinction exists between the roles of the Board and Management, enabling the Group to maintain agility in an evolving business landscape. The Board is responsible for key decisions, such as approving financial results, strategic investments, and major agreements, while experienced Key Senior Management oversees day-to-day operations.

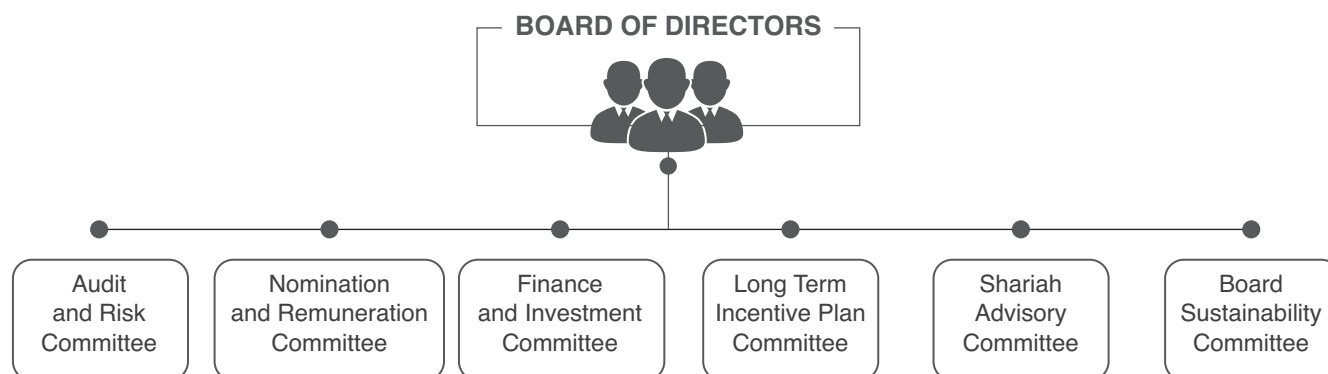

In line with sound corporate governance practices, the Board has established and implemented structured processes to support its members in fulfilling their roles and responsibilities. These include:

- (a) Assessing and adopting strategic plans that drive sustainable long-term value for the Group.
- (b) Overseeing the Group’s business operations to ensure effective and responsible management.
- (c) Identifying principal risks and ensuring the implementation of robust internal control systems, along with appropriate risk mitigation measures.
- (d) Reviewing the adequacy, effectiveness, and reliability of the Group’s internal controls and management information systems, ensuring compliance with applicable laws, regulations, rules, directives, and guidelines.
- (e) Overseeing and endorsing succession planning, covering the appointment, development, remuneration, and, when necessary, replacement of key executives.
- (f) Ensuring the formulation and execution of an investor relations program and a shareholder communication policy by Management to enhance transparency and engagement.

## CORPORATE GOVERNANCE OVERVIEW STATEMENT

(Cont'd)

To ensure efficient discharge of responsibilities, the Board has adopted a governance model whereby certain powers are delegated to appropriate Board Committees, outlined as follows:

### The Executive Chairman & President

YBhg. Tan Sri Dato' Sri (Dr.) Mohamad Norza Bin Zakaria was redesignated from Executive Chairman to Executive Chairman & President of the Company on 8 September 2021. The Board recognises that combining the roles of Chairman and President is crucial in the current commercial environment in which the Group operates. The dual role enhances credibility and instills confidence among external stakeholders, reinforcing the authority of the Chairman & President in successfully concluding commercial deals and transactions.

As Executive Chairman & President, he leads the Board by setting the overarching strategic direction and ensuring its effectiveness in governance, compliance, and long-term planning.

To maintain a balance of power and authority within the Board, the following measures are in place:

- The Board primarily comprises Independent Non-Executive Directors, who play a critical role in decision-making. They exercise independent judgement to safeguard the best interests of the Company and its minority shareholders.
- Board decisions require approval by a majority of Directors present at the meeting, ensuring that no single Director can exert undue influence over the decision-making process.

### Chairman of the Board should not be a member of the Audit and Risk Committee, Nomination Committee and Remuneration Committee

The Board acknowledges Practice 1.4 of the MCCG, which recommends that the Chairman of the Board should not be a member of the Audit and Risk Committee, Nomination Committee or Remuneration Committee.

While YBhg. Tan Sri Dato' Sri (Dr.) Mohamad Norza Bin Zakaria, the Executive Chairman & President, serves as a member of the Finance and Investment Committee ("FIC"), he remains cognisant of his distinct roles within the Board and the FIC. The FIC ensures comprehensive deliberation on all matters before making recommendations to the Board, with active participation from three (3) Non-Executive Directors and two (2) Executive Directors. As a result, all recommendations presented by the FIC to the Board are reached unanimously, effectively mitigating the risk of self-review and reinforcing sound governance practices.

### Qualified and Competent Company Secretary

In adherence to Practice 1.5 of the MCCG, the Board has full access to two (2) Company Secretaries, both of whom are members of the Malaysian Institute of Chartered Secretaries and Administrators (MAICSA) and are qualified to act as Company Secretaries under Section 235(2) of the Companies Act 2016.

The Board receives regular advice, updates, and notifications from the Company Secretaries to ensure compliance with applicable laws, regulations, and corporate governance standards. The Company Secretaries play a pivotal role in facilitating the proper convening of all Board and Board Committee meetings, ensuring the accurate documentation of discussions and decisions. Additionally, they are responsible for ensuring adherence to the Board's policies and procedures, as well as compliance with statutory and regulatory obligations.

## CORPORATE GOVERNANCE OVERVIEW STATEMENT

(Cont'd)

### Access to Information and Advice

The Board members have unrestricted access to Management and Company Secretaries, ensuring they receive comprehensive information regarding the Group's business and corporate affairs to effectively fulfill their duties. Additionally, the Board retains the option to seek independent external professional advice at the Group's expense whenever necessary.

To facilitate informed decision-making, Directors receive the agenda, minutes of previous meetings, and board papers in advance of Board or Board Committee meetings, allowing ample time for review and consideration.

The Board has also identified key areas for future enhancement:

- (i) Strengthening governance across Group entities to align expectations and improve the flow of information between the Board, Senior Management, and subsidiaries.
- (ii) Fostering greater engagement and trust between the Board and its subsidiaries through open and effective communication.

### Board Charter

The Company has established a Board Charter that clearly defines the roles, responsibilities, and authority of the Board of Directors, both individually and collectively, as well as Management in steering the Company's direction, management, and control. The Board Charter specifies matters reserved for the Board's consideration to ensure effective governance and oversight.

The Board remains committed to upholding high standards of corporate governance. The Board Charter will be reviewed and updated as and when necessary to ensure its continued relevance and to reinforce the Board's commitment to strong governance and effective oversight.

### Code of Ethics and Conduct

The Code of Ethics and Conduct sets forth the core principles and ethical standards that govern the behavior of Directors and employees across the Group. It defines the expectations for professionalism, integrity, and accountability in the execution of their duties and in representing the Group, ensuring that all actions align with the highest standards of ethical conduct and corporate responsibility.

### Whistle-Blowing Policy and Procedures

The Whistle-Blowing Policy and Procedures provide a confidential and secure channel for Directors, officers, employees, and the public to report any unethical, illegal, or improper conduct without fear of retaliation. This policy functions independently of other operational procedures, ensuring transparency and accountability within the Group.

Reports made under this policy should be directed to the Chairman of the Audit and Risk Committee, with the Board being informed of any significant or potentially impactful disclosures.

To submit a confidential report:

### Sustainability Policy

The Board has formalised the Group's strategies, demonstrating a strong commitment from both the Board and Management to continuously enhance the integration of sustainability principles into the organisation's culture and operations. This commitment underscores accountability and transparency in monitoring and reporting sustainability performance.

The Group's key sustainability impact areas include:

- Ensuring safe operations and services for employees and customers.
- Integrating environmental quality considerations into daily business activities.
- Fostering an inclusive and inspiring workplace, promoting diversity, and strictly prohibiting harassment.
- Adhering to legal, regulatory, and ethical standards in all aspects of business operations.

The Board ensures that the Company's sustainability strategies, priorities, targets, and performance are effectively communicated to both internal and external stakeholders. Additionally, performance evaluations of the Board and Senior Management include an assessment of their efforts in managing the Company's material sustainability risks and opportunities.

### Anti-Bribery and Corruption Policy and Procedure

With the enforcement of Section 17A of the Malaysian Anti-Corruption Commission Act 2009 (Amendment 2018) on 1 June 2020, the Group has implemented a comprehensive Anti-Bribery and Corruption ("ABC") Policy and Procedure to prevent improper solicitation, bribery and other corrupt practices in the course of business. This policy reflects the Group's firm commitment to ethical conduct, integrity, and accountability.

The Group conducts ongoing reviews of its anti-bribery and corruption management system to assess its effectiveness, ensuring all policies and procedures remain relevant, comprehensive as well as aligned with regulatory and industry best practices. These periodic evaluations also ensure that the Group's controls are reasonable, proportionate and in compliance with the Guidelines on Adequate Procedures issued by the Prime Minister's Department. In this view, the ABC Policy and Procedure was revised in August 2024, that reinforces the Group's governance framework and strengthens oversight in decision-making at the highest levels. In support of this initiative, an employee awareness programme was conducted in November 2024 to further embed understanding of the ABC Policy, relevant procedures and expected ethical behaviours across the Group.

Key governance policies, including the Diversity Policy, Board Charter, Code of Ethics and Conduct, Whistle-Blowing Policy and Procedures, Sustainability Policy, Anti-Bribery and Corruption Policy and Procedure and Conflict of Interest for Directors and Key Senior Management Policy, are publicly accessible on the Company's corporate website at [www.citaglobal.my](http://www.citaglobal.my), promoting transparency and accountability.

### Board Composition

For the financial year ended 31 December 2024, the Board comprised ten (10) members, consisting of:

- Two (2) Executive Directors;
- Seven (7) Independent Non-Executive Directors; and
- One (1) Non-Independent Non-Executive Director.

This composition is in compliance with Paragraph 15.02 of the MMLR of Bursa Securities, which mandates that at least two (2) directors or one-third (1/3) of the Board, whichever is higher, must be independent directors. Additionally, it aligns with Practice 5.2 of the MCCG, which recommends that at least half of the Board should comprise independent directors.

During the financial year under review, there were changes to the composition of the Board as below:-

Date of change	Name of Directors	Details
22 April 2024	Encik Aimi Aizal Bin Nasharuddin	Redesignated from Non-Independent Non-Executive Director to Executive Director of the Company.
19 September 2024	YM Raja Imran Jamalullail Bin Raja Mufik Affandi	Appointed as Independent Non-Executive Director of the Company.
15 November 2024	YBhg. Puan Sri Datuk Seri Rohani Parkash Binti Abdullah	Appointed as Independent Non-Executive Director of the Company.

## CORPORATE GOVERNANCE OVERVIEW STATEMENT

(Cont'd)

The Board Members bring a wealth of experience and expertise from diverse backgrounds, contributing to key areas such as oversight, strategy, performance, control, resource allocation and integrity matters. This collective diversity fosters a well-balanced approach to decision-making, ensuring representation from both major and minority shareholders.

While the Chairman of the Board holds the role of Executive Chairman & President, the Board is further strengthened by the presence of seven (7) Independent Non-Executive Directors, each with a distinguished record and expertise. Their independence ensures the inclusion of unbiased perspectives and sound judgement within the Board. The Independent Non-Executive Directors actively voice their concerns when needed, reinforcing proper checks and balances in the Board's decisions and policy implementation.

For detailed information on the Board members, please refer to the Directors' Profile section of this Annual Report.

### Tenure of Independent Directors

The Board is mindful of the importance of maintaining the independence of its Directors and acknowledges that the tenure of an Independent Director should not exceed a cumulative term of nine (9) years. Upon completion of this term, an Independent Director may continue to serve on the Board as a Non-Independent Director. If the Board wishes to retain an Independent Director beyond the nine (9) years, it will seek annual shareholders' approval through a two-tier voting process in accordance with Practice 5.3 of MCGG.

Following the assessment conducted during the financial year, the Board is satisfied with the level of independence demonstrated by all the Independent Directors and their continued ability to act in the best interests of the Company.

All Independent Directors maintain their independence from management and are free from any relationships that might compromise their objectivity. The Board recognises the values these Independent Directors bring, offering unbiased, objective judgements that contribute to balanced leadership within the Group. Their role also includes providing effective checks and balances, safeguarding the interests of minority shareholders and other stakeholders.

The Company will seek the shareholders' approval to retain three (3) Independent Non-Executive Directors who have served on the Board for more than nine (9) years as of the date of this CG Statement.

### Board Diversity

The Board acknowledges the importance of board diversity as a crucial driver for the sustainable growth of the Group. It maintains a non-discriminatory approach with regard to ethnicity, age, gender, nationality, political or religious affiliation, marital status, educational background or physical abilities.

The Nomination and Remuneration Committee ("NRC") is tasked with assessing and identifying suitable candidates for new Board appointments. Prior to presenting candidates for approval by the Board, the NRC thoroughly evaluates the balance and composition of the Board, considering a mix of skills, independence, experience and diversity, including gender, ethnicity and age.

On 15 November 2024, the Board appointed YBhg. Puan Sri Datuk Seri Rohani Parkash Binti Abdullah as an Independent Non-Executive Director of the Company. This appointment reflects the Company's commitment to increasing the representation of women within both the Board and Senior Management positions over the long term.

The Board is committed to providing fair and equal opportunities across the Group, recognising the value of diversity in both the boardroom and workplace. The Group upholds its commitment to promoting workplace diversity, ensuring fairness, accessibility, inclusivity and freedom from discrimination.

As of the date of this Annual Report, the diversity in the race/ethnicity of the existing Directors is as follows:-

	Race/Ethnicity				Gender		
	Malay	Chinese	Indian	Total	Male	Female	Total
<b>Number of Directors</b>	9	0	1	10	8	2	10

The existing Directors' age distribution falling within the respective age group is as follows:

<b>Age Group (Years)</b>	<b>31 - 40</b>	<b>51 - 60</b>	<b>61 - 70</b>	<b>70 -80</b>	<b>Total</b>
<b>Number of Directors</b>	2	3	3	2	10

## CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board is satisfied with the level of commitment demonstrated by the Directors in fulfilling their roles and responsibilities. This is evidenced by the attendance record of the Directors at Board meetings, reflecting their dedication and active participation.

The Board has complied with the minimum 50% attendance requirement as stipulated in the MMLR.

### Directors' Training

The Board acknowledges the critical importance of ongoing training to ensure Directors are equipped with the necessary skills to perform their responsibilities effectively. Each Director has the opportunity to propose their training needs, which are then assessed annually by the Nomination and Remuneration Committee. The Committee continuously evaluates and addresses the training requirements of the Directors, ensuring they remain professional and effective in their roles. Based on these assessments, the Committee makes relevant recommendations to the Board.

### Board Committees

To enhance the effective discharge of its fiduciary duties and responsibilities, the Board delegates certain responsibilities to Board Committees established for this purpose. Each Board Committee operates within clearly defined terms of reference, which have been approved by the Board. These Committees are granted unrestricted authority to investigate relevant issues and present their findings to the Board.

While the Board Committees have the authority to explore and assess matters, they do not have the power to make decisions on issues reserved for the Board. Instead, all recommendations made by the Committees are carefully deliberated by the Board as a whole before decisions are made.

#### (a) Audit and Risk Committee

The composition, functions, and a summary of activities of the Audit and Risk Committee are detailed in the Audit and Risk Committee Report included in this Annual Report.

Furthermore, the terms of reference governing the Audit and Risk Committee can be accessed for reference on the Company's website at [www.citaglobal.my](http://www.citaglobal.my).

#### (b) Nomination and Remuneration Committee

The principal objective of the Nomination and Remuneration Committee ("NRC") is to nominate and assess potential candidates for Board membership, ensuring an appropriate structure for succession and development. This includes establishing an effective process for director selection and tenure. Additionally, the NRC is tasked with reviewing and recommending to the Board the remuneration, compensation, and benefits packages of Executive Directors and Key Senior Management.

The roles and responsibilities, as well as activities of the NRC, are broadly categorised into the following:-

##### Nomination Functions

- Identifying and evaluating potential candidates for Board membership.
- Assessing the skills, experience, qualifications, and diversity of candidates.
- Ensuring a structured succession plan for Board positions.
- Establishing criteria and processes for director selection and tenure.

In discharging its responsibilities, the NRC performed the following activities during the financial year:-

- Reviewed the effectiveness and composition of the Board;
- Evaluated the performance of the Board and Board Committees and each of its members;
- Assessed the independence status of the Independent Non-Executive Directors;
- Recommended the re-election of Directors who retired pursuant to Clauses 117 and 118 of the Company's Constitution to the Board for approval;
- Reviewed and deliberated on the findings and outcomes of the assessments of the Board, Board Committees and Directors' self and peer evaluation;
- Reviewed the term of office, appointment and performance of the Audit and Risk Committee and each of its members;
- Reviewed and recommended the potential candidate for Legal Adviser to Executive Chairman & President to the Board for approval;
- Reviewed and recommended the appointment of Group Chief Operating Officer to the Board for approval;
- Reviewed and recommended the appointment of Deputy Chief Executive Officer of Citaglobal Telecommunication Sdn. Bhd. to the Board for approval;
- Reviewed and recommended the appointment of Chief Executive Officer of Environment Division to the Board for approval;
- Reviewed and recommended the appointment of YBhg. Puan Sri Datuk Seri Rohani Parkash Binti Abdullah as an Independent Non-Executive Director of Citaglobal Berhad to the Board for approval;
- Reviewed and recommended the appointment of YM Raja Imran Jamalullail Bin Raja Mufik Affandi as an Independent Non-Executive Director of Citaglobal Berhad to the Board for approval; and
- Reviewed and recommended the Succession Planning Proposal of Citaglobal Berhad to the Board for approval.

## CORPORATE GOVERNANCE OVERVIEW STATEMENT

### (b) Nomination and Remuneration Committee (Continued)

The NRC conducted an annual assessment of the Board's effectiveness. The results are then tabulated and presented to the NRC for its review and recommendation to the Board for notation. A summarised version of the results is circulated to each Director for their information. The criteria that are used in the assessments of the Board and Board Committees include the required mix of skills and experience and the effectiveness of the Board and Board Committees.

#### Remuneration Functions

- Reviewing and recommending remuneration, compensation, and benefits packages for Executive Directors and Key Senior Management.
- Ensuring that remuneration policies align with corporate objectives and shareholder interests.
- Monitoring and evaluating executive compensation programmes for effectiveness and alignment with industry standards and best practices.

During the financial year under review, the NRC met and discharged the following duties on remuneration matters:-

- Reviewed and recommended the remuneration package of Executive Directors for the financial year ended 31 December 2024 to the Board for approval;
- Reviewed and recommended the Directors' fees for Non-Executive Directors for the period from 1 July 2024 to 30 June 2025 to the Board for approval;
- Reviewed and recommended the Directors' benefits payable to Directors for the period from 1 July 2024 to 30 June 2025 to the Board for approval;
- Reviewed and recommended the proposed Directors' fees and meeting allowance payable to YBhg. Puan Sri Datuk Seri Rohani Parkash Binti Abdullah and YM Raja Imran Jamalullail Bin Raja Mufik Affandi to the Board for approval;
- Reviewed and recommended the Key Man Insurance for the Executive Chairman & President to the Board for approval;
- Reviewed and recommended the year 2023 bonus payout for Citaglobal employees to the Board for approval; and
- Reviewed and recommended the Business Trip Travel Policy to include Overseas Travel Business to the Board for approval.

#### Other Functions

During the financial year under review, the NRC met and discharged the following duties on other matters:-

- Reviewed the meetings attendance of the Board and members of the Board Committees for the financial year ended 31 December 2023; and
- Reviewed the training programmes attended by the Board members for the financial year ended 31 December 2023 and the training needs of the Directors for the financial year ending 31 December 2024.

The composition of the NRC of the Company and the details of attendance of meetings during the financial year under review are as follows:-

### Remuneration

The Board recognises the importance of offering appropriate and competitive remuneration to attract, retain and motivate Directors with the necessary calibre, expertise, and experience to lead the Group effectively. Remuneration for Executive Directors is closely tied to both individual and corporate performance, ensuring alignment with the Company's strategic goals. Non-Executive Directors' fees are determined based on their responsibilities, without their involvement in the process concerning their own fees.

The NRC formulates policies for evaluating compensation packages for Executive Directors and is responsible for reviewing and recommending remuneration packages and employment conditions to the Board for approval.

Executive Directors' remuneration includes a combination of basic salaries, monetary incentives, and fringe benefits linked to achieving corporate performance targets. The remuneration structure consists of both fixed (base salary) and variable (performance-based incentives) components. The Company may also offer competitive benefits, including fully expensed cars, company drivers, fuel expenses, private medical insurance, and life insurance, to attract and retain top talent. Business-related expenses, such as entertainment and travel, are reimbursed, ensuring that there is no additional compensation beyond the fixed remuneration.

Non-Executive Directors' remuneration consists of Directors' fees, meeting allowances, and other benefits based on their experience and level of responsibility. They do not receive commissions, profit percentages, or participate in performance-based bonuses or incentive plans. The NRC and Board review Non-Executive Directors' remuneration on an annual basis.

The details of the Directors' remuneration for the financial year ended 31 December 2024 are as follows:-

### PRINCIPLE B: EFFECTIVE AUDIT AND RISK MANAGEMENT

---

#### Audit and Risk Committee

The Audit and Risk Committee of the Company is composed of four (4) Independent Non-Executive Directors, with Encik Rosli Bin Shafiei serving as the Chairman of the Committee. This composition ensures that the Chairman of the Audit and Risk Committee is separate from the Chairman of the Board, in accordance with Paragraphs 15.09 and 15.10 of the MMLR and the recommendation of Practice 9.4 of MCCG, which requires all members of the Committee to be Independent Non-Executive Directors. None of the members have been appointed as alternate directors.

Furthermore, none of the Audit and Risk Committee members were former key audit partners, and the Board has no intention of appointing any former key audit partner to the Audit and Risk Committee to ensure the highest level of independence.

The Board believes that the collective expertise and experience of the Audit and Risk Committee members are sufficient to effectively oversee the financial reporting process, internal controls and governance. These responsibilities are outlined in the Committee's terms of reference.

The Terms of Reference for the Audit and Risk Committee remained unchanged in 2024. The revision made in 2023 expanded the Committee's scope to include the oversight of risk management and the review of conflict of interest situation involving Directors and Key Senior Management. The latest revision of the Terms of Reference, made on 26 February 2025, further clarifies and strengthens the Committee's roles and responsibilities related to sustainability. The Terms of Reference are available on the Company's website at [www.citaglobal.my](http://www.citaglobal.my).

The Audit and Risk Committee plays a critical role in assisting the Board by reviewing and scrutinising information to ensure its appropriateness, accuracy and completeness of disclosure. The Committee also ensures compliance with applicable financial reporting standards for the Group's financial statements. Furthermore, the Committee monitors the accuracy and integrity of the Group's quarterly and annual financial statements, submitting them to the Board for approval and ensuring their timely release as per the stipulated timeframe.

#### Assessment of External Auditors

The Audit and Risk Committee complies with Practice 9.3 of the MCCG by conducting an annual assessment of the suitability, objectivity and independence of the External Auditor. This evaluation is conducted using the prescribed External Auditors Evaluation Form, which assesses various factors including competence, experience, resources, audit quality, independence, the reasonableness of audit fees, and the quantum of non-audit fees.

The External Auditors are invited to attend Audit and Risk Committee meetings as necessary. During the financial year under review, meetings were held on 27 February 2024 and 26 November 2024, during which the External Auditors discussed the audit scope, financial statements, audit findings and other relevant matters in the absence of management.

The Audit and Risk Committee ensures the External Auditors implement a policy of partner rotation every 7 years to maintain their objectivity and independence, in line with professional and regulatory requirements. The Committee also reviews External Auditors' appointments, performance and remuneration on an annual basis, which includes both audit and non-audit services, to uphold their independence and objectivity.

The Group has established a Policy on the Provision of Non-Audit Services by External Auditors, ensuring that non-audit services are appropriately selected based on the External Auditors' skills and experience, and that fee levels for these services are considered relative to the audit fees to maintain independence.

The Audit and Risk Committee has expressed satisfaction with the External Auditors' performance, suitability and independence based on the quality of services provided and resources allocated to the audit, and the expertise of the professional employees assigned to the Group's audit.

### Risk Management and Internal Control Framework

The Board recognises that effective risk management is a fundamental component of good governance and sound management practices. Acknowledging that risk is inherent in all business activities, the Group does not seek to eliminate risk entirely but strives to identify, assess, prioritise and manage key risks in a manner that balances risk exposure with the potential benefits to the organisation.

In 2024, the Audit and Risk Committee continued to oversee the Group's risk management framework and processes. Management remains responsible for implementing risk management policies and procedures approved by the Board, which include the identification, evaluation and monitoring of risks within defined risk appetite parameters aligned to the Group's strategic and operational objectives.

The Board has an established independent internal audit function to provide objective assurance on the adequacy and effectiveness of the Group's governance, risk management and internal control systems. For the financial year ended 31 December 2024, the internal audit function was performed fully in-house by a dedicated team that reports directly to the Audit and Risk Committee.

Further details on the Group's risk management and internal control framework are disclosed in the Statement on Risk Management and Internal Control in this Annual Report.

### PRINCIPLE C: INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

#### Communication with Stakeholders

The Board places significant emphasis on transparent, consistent and coherent communications with the investing community, while balancing commercial confidentiality and adhering to regulatory considerations. To support this, the Board has formalised a Corporate Disclosure Policy and Procedures, which ensures that all information shared is comprehensive, accurate, timely and compliant with legal and regulatory requirements. This policy aims for accuracy, timeliness, factuality, informativeness, balance and broad dissemination in communications to the investing public.

Understanding the importance of transparency and accountability to shareholders, stakeholders and investors, the Board is committed to regular communication regarding the Group's performance and major developments. This includes timely releases of quarterly financial results, circulars, annual reports, corporate announcements and press releases.

Additionally, the Board seeks to foster long-term relationships with stakeholders by using appropriate channels for information disclosure. The Company's website, [www.citaglobal.my](http://www.citaglobal.my), hosts dedicated sections on Corporate Governance and Investor Relations, enhancing communication with stakeholders.

In line with the Company's sustainability commitment, shareholders are encouraged to opt for electronic notifications of information and communications. Shareholders are urged to receive the Annual Report, Notice of AGM and proxy form via email, promoting efficient and environmentally friendly communication methods.

#### Conduct of General Meetings

The Company values the Annual General Meeting ("AGM") as a crucial platform for engagement with shareholders, promoting direct two-way communication between shareholders, Directors and Senior Management. The Notice of AGM, sent at least 28 days before the meeting, outlines the details of the meeting, resolutions to be approved, and shareholder entitlements, including the right to appoint proxies, all designed to encourage active participation.

All Directors, Senior Management and External Auditors are in attendance at the AGM, and shareholders are encouraged to participate and raise questions related to the Annual Report, proposed resolutions and the Company's business. Responses, clarifications, and answers are provided by the Directors, Committee Chairs, Senior Management and other relevant personnel.

In line with paragraph 8.29A of the MMLR of Bursa Securities, poll voting was used at the previous AGM to ensure a transparent and efficient voting process for resolutions. An independent scrutineer was appointed to supervise the polling process, maintaining transparency and fairness in decision-making.

The minutes of the 19<sup>th</sup> AGM held on 4 June 2024 are available for reference on the Company's website at [www.citaglobal.my/shareholders-meeting/](http://www.citaglobal.my/shareholders-meeting/)

### KEY FOCUS AREAS AND FUTURE PRIORITIES

As Citaglobal Berhad continues to evolve as a multi-sector leader across new energy, environment, telecommunications, civil engineering and construction, property, financial services, manufacturing, and oil & gas, the Group remains steadfast in strengthening its corporate governance framework to support sustainable, innovative expansion. The following areas will shape the governance agenda moving forward:

#### 1. Strengthening Board Leadership and Oversight

- Continuously review and enhance Board and Committee compositions to ensure an optimal mix of skills, experience, and independence aligned with the Group's diversified business portfolio.
- Implement structured succession planning for the Board and key management roles to maintain leadership continuity and strategic agility.
- Enhance the effectiveness of the Board through periodic board evaluations, peer assessments, and action-oriented follow-ups.

#### 2. Deepening Governance of Sustainability and ESG

- Strengthen the integration of environmental, social, and governance (ESG) oversight at the Board level through the Board Sustainability Committee and Audit & Risk Committee.
- Advance ESG disclosures in line with global frameworks such as TCFD (Task Force on Climate-related Financial Disclosures), GRI (Global Reporting Initiative), and Bursa Malaysia Sustainability Reporting Guidelines.
- Drive accountability by setting measurable ESG performance targets across business units and linking these with executive performance.

#### 3. Enhancing Risk Management and Compliance

- Further develop the Enterprise Risk Management (ERM) framework to cover emerging risks, including cybersecurity, data privacy, ESG risks, geopolitical developments, and supply chain vulnerabilities.
- Embed risk ownership and compliance culture across all levels of the organisation, supported by ongoing awareness and training programs.
- Increase focus on business continuity planning and crisis response to enhance operational resilience.

#### 4. Aligning Executive Remuneration with Long-Term Value

- Regularly review and benchmark remuneration policies to ensure alignment with market practices, shareholder expectations and performance-driven outcomes.
- Promote pay-for-performance culture by incorporating sustainability KPIs and long-term value creation metrics into executive incentive schemes.

These focus areas reaffirm Citaglobal Berhad's commitment to sound corporate governance as a driver of trust, business sustainability, and long-term stakeholder value. As the Group scales its presence in strategic sectors, governance excellence will remain central to responsible growth and transformation.

### 5. Long Term Incentive Plan ("**LTIP**")

There was no option allocated or granted by the Company under the LTIP approved by the shareholders on 28 January 2016 to any parties during the financial year ended 31 December 2024.

## AUDIT AND RISK COMMITTEE REPORT

The Board of Directors of the Company is pleased to present the Audit and Risk Committee Report for the financial year ended 31 December 2024.

### ROLES OF AUDIT AND RISK COMMITTEE

The Audit and Risk Committee plays a crucial role in ensuring the transparency, integrity, and effectiveness of an organisation's financial reporting, risk management processes, and internal controls. Here are the primary roles and responsibilities of the Audit and Risk Committee of the Company:

1. Financial Reporting Oversight:
  - Reviewing and providing oversight of the Company's financial statements to ensure accuracy, completeness, and compliance with regulatory requirements.
  - Evaluating the effectiveness of the internal controls over financial reporting of the Company and its subsidiaries (“Group”).
2. Risk Management Oversight:
  - Identifying and assessing the major risks facing the Group, including financial, operational, strategic, and compliance risks.
  - Reviewing and monitoring the Group's risk management processes and policies to ensure they are adequate and effective in mitigating risks.
3. Internal Audit Oversight:
  - Overseeing the internal audit function to ensure it is independent, objective, and adequately resourced.
  - Reviewing and approving the internal audit plan, including scope, priorities, and resource allocation.
4. External Audit Oversight:
  - Selecting and recommending the appointment of external auditors, reviewing their independence, qualifications, and performance.
  - Reviewing the external audit plan, audit findings, and management's response to audit recommendations.
5. Compliance Oversight:
  - Monitoring the Group's compliance with laws, regulations, and internal policies.
  - Reviewing the effectiveness of the Group's compliance programs and procedures.
6. Communication and Reporting:
  - Communicating regularly with Management, internal auditors, external auditors, and other relevant stakeholders.
  - Reporting findings, recommendations, and significant issues to the Board of Directors.
7. Ethical and Governance Oversight:
  - Promoting ethical behavior and a culture of integrity throughout the Group.
  - Monitoring governance practices and ensuring adherence to corporate governance standards.

Overall, the Audit and Risk Committee plays a critical role in promoting transparency, accountability, and sound governance practices within the Company, ultimately contributing to its long-term success and sustainability.

- (f) Reviewed the audit and non-audit fees payable to the External Auditors for the financial year ended 31 December 2024 to ensure the level of non-audit services rendered by the External Auditors would not impair their objectivity and independence as External Auditors of the Company.
- (g) Discussed with the Management and the External Auditors the developments in respect to the Malaysian Financial Reporting Standards (MFRS) applicable to the financial statements of the Group and of the Company and their judgement of the items that may affect the financial statements.
- (h) Carried out private meetings with the External Auditors without the presence of the Executive Directors and Management of the Group.

## AUDIT AND RISK COMMITTEE REPORT

(Cont'd)

### **Internal Audit**

- (a) Reviewed the internal audit reports, audit recommendations made and management response to those recommendations and reviewed the follow-up audits to ensure that appropriate actions were timely taken and recommendations of the Internal Auditors were implemented.
- (b) Reviewed the Internal Audit Plan tabled by the Internal Auditors and agreed on the timing and frequency of the proposed audit areas.
- (c) Reviewed the adequacy of the scope, functions, competency and resources of the internal audit functions and the necessary authority to carry out its work.
- (d) Carried out private meetings with the Internal Auditors without the presence of the Executive Directors and Management of the Group.

### **Risk Management**

- a) Reviewed quarterly updates on the status of strategic and emerging risks, to monitor any significant risk exposures and assess the adequacy of mitigation strategies across the Group.
- b) Reviewed the Group's Bribery and Corruption Risk Assessment to ensure it effectively identified and evaluated key corruption-related risks across the Group. The Committee assessed the adequacy of controls, alignment with regulatory requirements, and consistency with the Group's established Anti-Bribery and Corruption (ABC) policy and procedures, as well as the robustness of mitigation strategies to support ethical conduct and protect the Group's integrity.
- c) Continued to promote a strong risk-aware culture and the institutionalisation of risk management across all business functions by fostering awareness and proactive risk mitigation as part of day-to-day activities and decision-making at all levels.

### **Integrity and Anti-Corruption matters**

The Audit and Risk Committee is also entrusted to oversee the following matters:

- (a) Ensures that the whistleblowing process is reliable and trustworthy.
- (b) Monitors and oversees the enforcement of Section 17A of the Malaysian Anti-Corruption Act 2009 and steps to be taken by the Company on the Corporate Liability Provisions of Section 17A to ensure adequate procedures and preventions are in place.

### **Related Party Transactions and Conflict of Interests**

The Audit and Risk Committee diligently reviewed and vigilantly monitored all related party transactions ("RPTs") and conflict of interest ("COI") situations within the Group, conducting a thorough assessment of any transactions, procedures, or practices that raised concerns regarding Management integrity. This comprehensive COI review was further extended to encompass Directors and Key Senior Management of the Group, ensuring a comprehensive evaluation of potential conflicts and maintaining a high standard of governance.

### **INTERNAL AUDIT FUNCTION**

The Audit and Risk Committee ("ARC") is responsible for overseeing the internal audit function to ensure it operates independently and effectively in providing assurance on the adequacy and effectiveness of the Group's governance, risk management and internal control systems.

In 2024, the Internal Audit function, which reports directly to the ARC, was fully internalised and strengthened with the recruitment of additional experienced professionals possessing diverse skill sets, including expertise in technical auditing and operational reviews. This strategic decision underscores the Group's commitment to building a robust in-house entity to provide focused and in-depth assurance tailored to the Group's specific risk profile and operational complexities.

The function continues to be led by Pn Zunaina Zaini, an associate member of the Institute of Internal Auditors (IIA) Malaysia. The ARC has ensured that the Internal Audit function is adequately resourced, equipped with the necessary tools and training, and operates

(Cont'd)

independently to enable the team to function effectively in its assurance provision on the adequacy and effectiveness of systems of risk management and internal controls taking into consideration the intricacies of the culture and working environment of the Group. The ARC regularly reviews the Internal Audit plan, scope of work and performance to ensure its alignment with the Group's strategic priorities, key risks and regulatory obligations.

The Internal Audit function adopted a systematic and risk-based approach in the execution of its annual audit plan for 2024, guided by the COSO Internal Control – Integrated Framework and the Institute of Internal Auditors' (IIA) International Professional Practices Framework (IPPF). The audit plan, approved by the ARC in November 2023, focused on key areas identified through the Group's risk assessment process, including strategic projects and initiatives implemented during the year.

All audit findings, observations and Management's responses, along with proposed action plans, were presented to the ARC on a quarterly basis. The ARC diligently reviewed these reports, provided guidance to Management on necessary improvements and monitored the timely implementation of agreed-upon actions through follow-up audits. This oversight ensures continuous improvement in the Group's internal control environment.

The ARC notes that the Internal Audit function is proactive in keeping abreast of evolving professional standards. The Internal Audit team is aware of the Global Internal Audit Standards (GIAS) issued by the Institute of Internal Auditors (IIA) in January 2024, which will take effect in January 2025. Preparations are underway to ensure the effective adoption and embedding of these updated standards within the Group's audit practices, demonstrating a commitment to maintaining high standards of internal audit excellence.

For the financial year ended 31 December 2024, the key process controls audited were as follows:

- Revenue and expenses
- Ethical and Sustainable Procurement Practices
- Selection and Management of Vendors, Subcontractors and Consultants
- Labour Practices and Standards
- Diversity, Equity and Inclusion
- Health and Safety
- Implementation of Anti-Bribery and Corruption
- Community Investment

The ARC has reviewed, discussed and assessed all significant matters highlighted by the Internal Auditors on financial reporting and operating issues. The ARC noted that there were no material misstatements, frauds and deficiencies in the systems of internal control not addressed by the Management. The ARC has also reviewed all significant judgements made by the Management as follows:-

- (a) impairment of assets and long-term contracts involving significant estimates of revenue and expenses;
- (b) impairment loss on receivables;
- (c) write-down of inventories;
- (d) depreciation method/estimation of useful lives of property, plant and equipment;
- (e) goodwill; and
- (f) investment in subsidiaries and associate.

The ARC is satisfied that the internal audit function has adequate resources, appropriate standing, and unrestricted access to all levels of Management and relevant information required to perform its duties. The Committee also affirms that the internal audit function remains free from any operational responsibilities, thereby maintaining its independence and objectivity. The ARC is also committed to supporting the continuous professional development of the internal audit team to keep pace with emerging risks and best practices.

The ARC is satisfied that the systems of internal controls are adequate and operating effectively. During the financial year under review, there was no material internal control failure that was reported that would have resulted in any significant loss to the Group. The total fees incurred for the internal audit function for the financial year ended 31 December 2024 was RM391,733.

## STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

### INTRODUCTION

The Board of Directors (“**the Board**”) is pleased to present its Statement on Risk Management and Internal Control for the financial year ended 31 December 2024 (“**Statement**”). This Statement is prepared in accordance with Paragraph 15.26(b) of Bursa Malaysia Securities Berhad (“**Bursa Securities**”)’s Main Market Listing Requirements (“**MMLR**”).

### BOARD’S RESPONSIBILITIES

The Board affirms its overall responsibilities of good practice of corporate governance and is committed to maintain a sound and effective risk management and internal control system with the primary objective of safeguarding shareholders’ investments and the Group’s assets. The system provides reasonable assurance in ensuring the effectiveness and efficiency of operations, reliability of financial reporting and compliance with applicable laws and regulations.

The Board acknowledges that the system of internal control could only provide a reasonable assurance against any material misstatement, omission, loss or fraud.

During the financial year under review, the Board is assisted by the Audit and Risk Committee (“ARC”), which regularly evaluates the adequacy and effectiveness of the risk management framework and internal controls. This evaluation involves identifying, assessing, monitoring and reporting on key business risks. This year, the ARC has further enhanced its review process by incorporating forward-looking risk assessments, considering emerging industry trends and macroeconomic factors in its quarterly deliberations.

The Management is entrusted with executing Board-approved policies related to risk management and internal controls. This responsibility encompasses identifying and evaluating the risks faced, and designing, implementing and monitoring an appropriate system of internal control. The Management also assigns accountabilities and responsibilities at appropriate levels within the Group as well as ensures that all the necessary resources are efficiently allocated to manage risks. In 2024, the Management has focused on strengthening the risk ownership at divisional/departmental levels through enhanced training programs and clearer risk reporting lines.

### RISK MANAGEMENT

In Citaglobal, risk management is integrated into our business planning, investment decisions, internal control and day-to-day operations to enhance ownership and agility in managing risks. It is the Board’s priority to ensure that uncertainties and investment risks in new business ventures are managed in order to safeguard the interest of the shareholders. Collectively, the Board oversees and reviews the conduct of the Group’s businesses while the Executive Director and Management execute measures and controls to ensure that the risks are effectively managed.

The established Enterprise Risk Management (“ERM”) Framework outlines the risk policy, risk governance and structure, risk measurement and risk operations and system for the Group. The Boards have implemented the risk management processes to identify, assess, monitor, report and mitigate risks impacting the Group’s business and supporting activities in accordance with ISO 31000:2018 – Principles and Guidelines on Implementation. In the current year, the ERM Framework was further embedded across the organisation through the implementation of a standardised risk assessment template and a centralised risk register accessible to key personnel.

The key aspects of the risk management framework are:

# STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(Cont'd)

The Group has an established and structured process for the identification, assessment, communication, monitoring, and continual review of risks as well as the effectiveness of risk mitigation strategies and controls at the divisional and enterprise levels.

On an annual basis, the Group’s key and strategic enterprise risks are reviewed to identify the material risks to the Group and to identify the emerging risks or trending risks that may materially impact the Group. The exercise studies both internal data points (risk register, incidents and exceptions) as well as external data points (regional / global risk reports as well as industry practices) to assist with the identification and analysis of existing risks and possibly new risks for the years to come. Subsequently, the appropriate mitigation action plan is developed, monitored and reported to the ARC quarterly.

Other key elements of the risk management and internal control system and the Board’s review mechanisms are as follows:

- a) Clearly defined operating structure with well-defined delegation of responsibilities and accountabilities for the Group’s operating units. Various Board and Management Committees have been established to assist the Board in discharging its duties with clearly defined Terms of Reference (TOR) that are periodically reviewed and updated:

Board Committees	Management Committees
01 Audit & Risk Committee	01 Group Management Committee
02 Nomination & Remuneration Committee	02 Management Assurance Committee
03 Finance & Investment Committee	03 Tender & Business Development Working Committee
04 Long Term Incentive Plan Committee	04 Contracts and Agreement Working Committee
05 Shariah Advisory Committee	05 Management Sustainability Committee
06 Board Sustainability Committee	

- b) Organisation structure with well-defined lines of responsibilities, delegation and accountabilities for the Group’s operating units.
- c) Formalised and documented internal policies and procedures to guide employees’ day-to-day work and ensure compliance with internal controls and relevant laws and regulations. These policies and procedures are periodically reviewed and updated to ensure the documents remain current and relevant. During the year, several key policies, including the Procurement Policy, Anti-Bribery & Corruption Policy and Procedures, and Directors and Key Senior Management’s Conflict of Interest Policy, underwent significant updates to reflect best practices and regulatory changes.
- d) Established Limits of Authority (LOA) that defines lines of responsibilities, limits for capital expenditures, contract awards, significant transactions for approvals by Board and Management; depending on the value/materiality.

## Risk Profiling

A comprehensive risk profiling exercise was conducted to ensure that the Group’s risk exposures are properly mitigated and updated to reflect the current economic environment and new regulations imposed by the government which impacted the Group’s risk exposures.

The likelihood and impact of the risks have been assessed and evaluated against the Group’s risk appetite and tolerance level while appropriate key risk indicators and mitigation plans have been identified for the risks. The status of the principal risks and key risk indicator performances are then reported to the Management Assurance Committee, Audit and Risk Committee and the Board for their deliberation and guidance on a quarterly basis.

Recognising the evolving risk landscape due to the Group’s business growth and expansion in 2024, the risk management role has actively progressed in tandem with these developments. Rigorous risk identification and assessment processes were carried out on strategic new business initiatives to ensure early identification of key risks and appropriate mitigation measures were implemented. This proactive assessment also served to facilitate informed decision-making by providing a clear understanding of potential risks and rewards associated with each new venture.

Recognising that effective risk management is critical to achieving strategic objectives, the Group continues to foster a culture where risk awareness, proactive identification and mitigation are embedded into daily operations and decision-making at all levels.

## STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(Cont'd)

### INTERNAL AUDIT FUNCTION

The Internal Audit provides an independent and objective assurance on the efficiency and effectiveness of governance, risk management and internal controls implemented by the Group. This is to support the Audit and Risk Committee in the discharge of their oversight over governance and internal controls responsibilities. The Audit and Risk Committee has full access to the services of the Internal Audit and receive reports on all audits that are performed via quarterly Audit and Risk Committee meetings.

In 2024, the internal audit function was fully internalised and strengthened with the recruitment of additional experienced personnel possessing diverse skill sets in areas such as technical auditing and operational reviews. This strategic move allows for a more dedicated and in-depth focus on Citaglobal's specific risk landscape and business operations. The in-house internal audit function continues to be led by Pn Zunaina Zaini, an associate member of the Institute of Internal Auditors (IIA) Malaysia. The Board and the ARC recognises the importance of a well-resourced internal audit function and have ensured that the department is adequately staffed and equipped with the necessary tools and training to effectively execute its responsibilities and provide robust assurance to the Board.

All audits were performed with integrity, objectivity, confidentiality and competency and in accordance with the Institute of Internal Auditors (IIA) International Professional Practices Framework (IPPF) and the established Internal Audit Charter. These standards are consistent with the principles of good internal auditing highlighted in corporate governance guidelines.

The Internal audit adopts a systematic and risk-based approach in reviewing the Group's governance, risk management and internal controls, guided by the COSO (i.e. The Committee of Sponsoring Organisations of the Treadway Commission) Internal Control – Integrated Framework. The Internal audit also performs a risk based annual audit plan by assessing the risk profile, materiality, past audit history, business developments, feedbacks and requests, organisational changes, new regulations, result of reviews by other assurance providers and any other significant changes and developments within and outside the Group.

The internal audit function is also aware of the Global Internal Audit Standards (GIAS) issued by the Global Institute of Internal Auditors in January 2024, which will take effect in January 2025. The internal audit function has commenced preparations for the adoption of these updated standards to ensure they are effectively embedded within the Group's audit practices, further enhancing the quality and rigor of the internal audit activities.

All audit reports on audit findings and observations, together with recommendations and Management's action plans to enhance the systems of internal control are presented to the Audit and Risk Committee quarterly. The Audit and Risk Committee reviews the reports and reports to the Board on significant control issues noted. Follow-up audits are carried out to ascertain if the Management's actions are effectively and timely implemented, ensuring continuous improvement in the control environment.

During the financial year ended 31 December 2024, the cost incurred for the internal audit function amounted to RM391,733. The increase as compared to previous year reflects the expanded resources and the continued investment in strengthening the in-house internal audit function to provide comprehensive and effective assurance.

### OTHER RISK MITIGATION PROCESSES

The Board has also adopted various other processes to complement the system of internal control which include:

- a) Board Charter and Code of Ethics and Conduct which assist the Directors and employees of the Group in defining the expected minimal ethical standards and conducts in discharging their responsibilities; and
- b) Whistle-Blowing Policy and Procedures that provides a channel for legitimate concerns to be raised by employees or other stakeholders to the Audit and Risk Committee's Chairman.

The Board Charter, Code of Ethics and Conduct and Whistle-Blowing Policy and Procedures of the Group are available for reference on the Company's website at [www.citaglobal.my](http://www.citaglobal.my).

## STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(Cont'd)

### BOARD ASSURANCE AND LIMITATION

The Board has received assurances from the Executive Chairman & President, the Group Chief Operating Officer, the Group Chief Financial Officer and the Head of Internal Audit and Risk Management that, to the best of their knowledge, the Group's risk management and system of internal control, in all material aspects, are operating effectively.

The Board confirms that there is an ongoing process for identifying, evaluating and managing significant risks faced by the Group. While the Board reiterates that the risk management and systems of internal control are continuously improved in line with evolving business developments, it should also be noted that all the risk management systems and systems of internal control can only manage rather than eliminate the risks of failure to achieve business objectives. Therefore, these systems of internal control and risk management in the Group can only provide reasonable but not absolute assurance against all material misstatements, frauds and losses.

While the Group has Board representatives in the associated companies, the Group does not have management control in their operations. Accordingly, the associated companies have not been dealt with and considered for the purposes of this Statement.

### REVIEW OF STATEMENT BY THE EXTERNAL AUDITORS

Pursuant to Paragraph 15.23 of the Bursa Securities' MMLR, the External Auditors have conducted a limited assurance engagement on this Statement for inclusion in the Annual Report for the financial year ended 31 December 2024. Their assurance engagement was performed pursuant to the scope set out in Audit and Assurance Practice Guide ("AAPG") 3: Guidance for Auditors on Engagements to Report on the Statement on Risk Management in accordance with ISAE 3000 (Revised 2015) and Internal Control issued by Malaysian Institute of Accountants.

Based on their procedures, the External Auditors have reported to the Board that nothing has come to their attention that causes them to believe that this Statement is not prepared, in all material respect, in accordance with disclosure required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidance for Directors of Listed Issuers as set out, nor it is factually inaccurate. AAPG 3 does not require the External Auditors to consider whether this Statement covers all risks and controls, or to form an opinion on the adequacy and effectiveness of the Group's risk and control system.

### BOARD'S CONCLUSION

For the financial year under review, the Board is of the view that the systems of internal control and risk management, procedures and processes in place are reasonable, adequate and effective in safeguarding the assets of the Group, interests of shareholders and other stakeholders.

## DIRECTORS' RESPONSIBILITY STATEMENT

The Directors are responsible for ensuring that the annual financial statements of the Group and of the Company are drawn up in accordance with the applicable approved Malaysian Financial Reporting Standards (**MFRS**), International Financial Reporting Standards (**IFRS**) and the provisions of the Companies Act 2016 and the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The annual financial statements are prepared with reasonable accuracy from the accounting records of the Group and Company so as to give a true and fair view of the financial position of the Group and of the Company as at 31 December 2024, and their financial performance and cash flows for the financial year ended.

In the preparation of the annual financial statements, the Directors have also:-

- Adopted the appropriate and relevant accounting policies and applied them consistently;
- Made judgements and estimates that are reasonable and prudent; and
- Assessed the Group's and the Company's ability to continue as going concern, and confirmed that the annual financial statements are prepared using the going concern basis of accounting.

The Directors are also responsible for:-

- Ensuring that the Group and the Company keep proper accounting and other records to enable the explanation of transactions and preparation of financial statements; and
- Taking the necessary steps to ensure appropriate systems and internal controls are in place to safeguard the assets of the Group and of the Company, as well as to prevent and detect fraud and any other irregularities.

The Directors confirmed that they have complied with the above requirements for the annual financial statements for the financial year ended 31 December 2024.

Such dividend, will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 December 2025.

### RESERVES AND PROVISIONS

There were no material transfers to or from reserves and provisions during the financial year other than those disclosed in the financial statements.

### BAD AND DOUBTFUL DEBTS

Before the financial statements of the Group and of the Company were prepared, the directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and had satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts.

## DIRECTORS' REPORT

(Cont'd)

### BAD AND DOUBTFUL DEBTS (CONTINUED)

At the date of this report, the directors are not aware of any circumstances which would render the amount written off for bad debts or the amount of allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent.

### CURRENT ASSETS

Before the financial statements of the Group and of the Company were prepared, the directors took reasonable steps to ensure that any current assets which were unlikely to be realised in the ordinary course of business including their values as shown in the accounting records of the Group and of the Company had been written down to an amount which they might be expected to be realised.

At the date of this report, the directors are not aware of any circumstances that would render the values attributed to the current assets in the financial statements of the Group and of the Company misleading.

### VALUATION METHODS

At the date of this report, the directors are not aware of any circumstances which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

### CONTINGENT AND OTHER LIABILITIES

At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liabilities in respect of the Group and of the Company that has arisen since the end of the financial year.

In the opinion of the directors, no contingent or other liability of the Group and of the Company has become enforceable, or is likely to become enforceable, within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

### CHANGE OF CIRCUMSTANCES

At the date of this report, the directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

### ITEMS OF MATERIAL AND UNUSUAL NATURE

In the opinions of the directors,

- (i) the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
- (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

The Group and the Company had total cash outflows for leases of RM4,050,394 (2023: RM4,585,301) and RM1,561,583 (2023: RM1,181,658) respectively.

The accompanying notes form an integral part of these financial statements.

# NOTES TO THE FINANCIAL STATEMENTS

## 1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of Bursa Malaysia Securities Berhad. The Company's registered office is at Level 7, Menara Milenium, Jalan Damanlela, Pusat Bandar Damansara, Damansara Heights, 50490 Kuala Lumpur, Wilayah Persekutuan. The Company's principal place of business is at Level 9, Block 4, Menara TH Plaza Sentral, Jalan Stesen Sentral 5, KL Sentral, 50470 Kuala Lumpur, Wilayah Persekutuan.

The principal activities of the Company are investment holding and provision of management services to its subsidiaries. The principal activities of the subsidiaries are set out in Note 9 to the financial statements.

There have been no significant changes in the nature of these principal activities during the financial year.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 16 April 2025.

## 2. BASIS OF PREPARATION

### 2.1 Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

### 2.2 Basis of measurement

The financial statements of the Group and of the Company have been prepared on the historical cost basis, except as otherwise disclosed.

### 2.3 Use of estimates and judgement

The preparation of financial statements in conformity with MFRSs requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenue and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group's and the Company's accounting policies. Although these estimates and judgement are based on the Directors' best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4 to the financial statements.

### 2.4 Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which they operate ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is also the Company's functional currency, and has been rounded to the nearest thousand, unless otherwise stated.

### 2.5 Adoption of amendments to MFRSs

The Group and the Company have adopted the following applicable amendments to MFRSs for the current financial year:

MFRS 7	Financial Instruments: Disclosures
MFRS 16	Leases
MFRS 101	Presentation of Financial Statements
MFRS 107	Statement of Cash Flows

## 2. BASIS OF PREPARATION (CONTINUED)

### 2.5 Adoption of amendments to MFRSs (Continued)

The adoption of the above amendments to MFRSs did not have any significant effect on the financial statements of the Group and of the Company and did not result in significant changes to the Group's and the Company's existing accounting policies, except as discussed below:

#### *Amendments to MFRS 16 Leases*

The amendments clarify how an entity should subsequently measure the leaseback liability that arise in a sale and leaseback transaction to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right-of-use it retains. Although MFRS 16 includes requirements on how to account for a sale and leaseback at the date the transaction takes place, it has not specified how to measure the sale and leaseback transaction when reporting after that date.

#### *Amendments to MFRS 101 Presentation of Financial Statements*

The amendments include specifying that an entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period; clarifying that classification of a liability is unaffected by the likelihood of the entity to exercise its right to defer settlement of the liability for at least twelve months after the reporting period; clarifying how lending conditions affect classification of a liability; and clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

The latest amendments to MFRS 101 clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. As such, the amendments specify that covenants to be complied with after the reporting date do not affect the classification of debt as current or non-current at the reporting date. Instead, the amendments require an entity to disclose information about these covenants in the notes to the financial statements.

#### *Amendments to MFRS 107 Statement of Cash Flows and MFRS 7 Financial Instruments: Disclosures*

Amendments to MFRS 107 and MFRS 7 respond to investors' concerns that some supplier finance arrangements – also referred to as supply chain finance, trade payables finance or reverse factoring arrangements – used by entities are not sufficiently visible, hindering investors' analysis.

The disclosure requirements require entities to disclose information that would enable users of financial statements to assess how supplier finance arrangements affect an entity's operations; including the effects supplier finance arrangements have on an entity's liability, cash flows and exposures to liquidity risk. The new disclosure requirements would also inform users of financial statements on how an entity might be affected if the arrangements were no longer available to it.

### 2.6 New MFRSs and amendments to MFRSs that have been issued, but yet to be effective

- (ii) The Group and the Company plan to adopt the above applicable new MFRSs and amendments to MFRSs when they become effective. A brief discussion on the above significant new MFRSs and amendments to MFRSs that may be applicable to the Group and the Company are summarised below.

#### ***MFRS 18 Presentation and Disclosure in Financial Statements***

MFRS 18 replaces MFRS 101 Presentation of Financial Statements. It retains many requirements from MFRS 101 without modification.

MFRS 18 introduces two subtotals which are to be presented in the statement of profit or loss – including “operating profit”, which has been specifically defined. Income and expenses shall be presented in five categories: operating, investing, financing, income taxes and discontinued operations.

MFRS 18 requires disclosure of explanations of the entity’s company-specific measures that are related to the statement of profit or loss, referred to as management-defined performance measures (“MPMs”). The entity is required to reconcile MPMs to a total or subtotal required by MFRS 18 or another MFRS Accounting Standards. MFRS 18 also requires other disclosures, including how each MPM is calculated, what the MPM communication about the entity’s financial performance, and any changes made to the MPMs in the year.

MFRS 18 adds new principles for aggregation and disaggregation of information. It requires the entity to classify the expenses in the “operating” category in the profit or loss by nature or function, or both. The entity that classifies operating expenses by functions are required to disclose in the notes to the financial statements, the amount of depreciation, amortisation, employee benefits, impairment losses and write-downs of inventories included in each line in the operating category. Subject to materiality, MFRS 18 requires items presented or disclosed as “other” to be labelled and/or described in as faithfully representative and as precisely as possible.

#### ***Amendments to MFRS 121 The Effects of Changes in Foreign Exchange Rates***

Amendments to MFRS 121 respond to stakeholder feedback and concerns about diversity in practice in accounting for a lack of exchangeability between currencies.

Applying the Amendments, entities will be applying a consistent approach in determining if a currency can be exchanged into another currency. These amendments provide guidance on the spot exchange rate to use when a currency is not exchangeable into another currency and the disclosures entities need to provide to enable users of financial statements to understand the impact on the entities’ financial performance, financial position and cash flows as a result of a currency being not exchangeable into another currency.

#### 2.6 New MFRSs and amendments to MFRSs that have been issued, but yet to be effective (Continued)

- (ii) The Group and the Company plan to adopt the above applicable new MFRSs and amendments to MFRSs when they become effective. A brief discussion on the above significant new MFRSs and amendments to MFRSs that may be applicable to the Group and the Company are summarised below. (Continued)

##### ***Amendments to MFRS 9 Financial Instruments and MFRS 7 Financial Instruments: Disclosures***

These narrow scope amendments to MFRS 9 clarify the requirements, including:

- clarify the classification of financial assets, particularly those with environmental, social and corporate governance and similar features. The Amendments clarify how the contractual cash flows on such financial assets should be assessed, specifically the assessment of interest focuses on what an entity is being compensated for, rather than how much compensation it receives. Nonetheless, the amount of compensation the entity receives may indicate that it is being compensated for something other than basic lending risks and costs.
- clarify the date on which a financial asset or a financial liability settled via electronic payment systems is derecognised. The Amendments permit an entity to derecognise a financial liability before it delivers cash on the settlement date if specified criteria are met.
- define contracts referencing nature-dependent electricity, specifying the conditions under which such contracts qualify for the own-use exemption and would not be treated as financial instruments.
- permit an entity to apply hedge accounting when contracts referencing nature-dependent electricity are used as hedging instruments.

Amendments to MFRS 7 introduces new disclosure requirements relating to:

- investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features that do not relate directly to basic lending risks and costs.
  - contracts referencing nature-dependent electricity to help users of financial statements understand its impact on the amount, timing and uncertainty of an entity's future cash flows and financial performance.
- (iii) The Group and the Company are currently assessing the impact of initial application of the above applicable new MFRSs and amendments to MFRSs. Nevertheless, the Group and the Company expect that the initial application is unlikely to have material financial impacts to the current year and prior year financial statements of the Group and of the Company.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION

Unless otherwise stated, the following material accounting policy information have been applied consistently to all the financial years presented in the financial statements of the Group and of the Company.

#### 3.1 Basis of consolidation

##### **(a) Subsidiaries and business combination**

The Group applies the acquisition method to account for business combinations from the acquisition date when the acquired set of activities meets the definition of a business and control is transferred to the Group.

##### **(b) Associates**

Investment in associates is accounted for in the consolidated financial statements of the Group using the equity method.

## NOTES TO THE FINANCIAL STATEMENTS

(Cont'd)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

#### 3.2 Separate financial statements

In the Company's statement of financial position, investment in subsidiaries, joint ventures and associates are measured at cost less any accumulated impairment losses.

Contributions to subsidiaries are amounts for which the settlement is neither planned nor likely to occur in the foreseeable future is, in substance, considered as part of the Company's investment in the subsidiaries.

#### 3.3 Financial instruments

##### Financial assets – subsequent measurement and gains and losses

###### Debt instruments at amortised cost

The Group and the Company subsequently measure these assets at amortised cost under the effective interest method. The gross carrying amount is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

##### Financial liabilities – subsequent measurement and gains and losses

The Group and the Company subsequently measure financial liabilities at amortised cost under the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

#### 3.4 Property, plant and equipment

Property, plant and equipment (other than freehold land and building, leasehold land and building and low cost apartments) are measured at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land and building, leasehold land (right-of-use asset) and building and low cost apartments are measured using revaluation model, based on valuations by external independent valuers, less accumulated depreciation on buildings and any accumulated impairment losses recognised after the date of revaluation. Any accumulated depreciation as at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

The revaluation reserve is transferred to retained earnings as the assets are used. The amount of revaluation reserve transferred is the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost.

Upon disposal, any revaluation surplus relating to the particular asset being sold is transferred to retained earnings.

Freehold land has an unlimited useful life and therefore is not depreciated. Assets under construction included in property, plant and equipment are not depreciated as these assets are not yet available for use.

All other property, plant and equipment and right-of-use assets are depreciated on straight-line basis by allocating their depreciable amounts over their remaining useful lives.

	Useful lives
Freehold building	25 years
Leasehold land (Right-of-use asset)	41 years
Leasehold building	41 years
Low cost apartments	29 - 44 years
Network facilities	4%
Fabrication yard	11% - 35%
Plant, machinery and equipment	10% - 20%
Motor vehicles	20%
Furniture, fittings and office equipment	10% - 30%
Renovations	10%
Container/Cabin	10% - 20%

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

#### 3.5 Inventories

Inventories are measured at the lower of cost and net realisable value.

Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

##### (a) Raw materials

Purchase costs on weighted average cost basis.

##### (b) Finished goods and work-in-progress

Costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. These costs are assigned on a weighted average cost basis.

#### Property under development and completed properties

The cost of property under development recognised in profit or loss is determined with reference to the specific costs incurred on the property sold and an allocation of any nonspecific costs based on the relative sale value of the property sold.

The cost of unsold completed properties is determined on a specific identification basis.

#### 3.6 Revenue and other income

##### Financing components

The Group and the Company have applied the practical expedient for not to adjust the promised amount of consideration for the effects of a significant financing components as the Group and the Company expect that the period between the transfer of the promised goods or services to the customer and payment by the customer will be one year or less.

##### (a) Construction contracts

Construction service contracts comprise multiple deliverables that require significant integration service and therefore accounted as a single performance obligation.

Under the terms of the contracts, control of the asset is transferred over time as the Group create or enhance an asset that the customer controls as the asset is created or enhanced. The progress towards complete satisfaction of a performance obligation is determined by the proportion of construction costs incurred for work performed to-date bear to the estimated total construction costs (an input method).

Billings are made with a credit term of 30 to 60 days, which is consistent with market practice, therefore, no element of financing is deemed present. The Group become entitled to invoice customers based on achieving a series of performance-related milestones.

The Group recognised a contract asset for any excess of revenue recognised to-date over the billings-to-date. Any amount previously recognised as a contract asset is reclassified to trade receivables at the point when invoice is issued or timing for billing is due to passage of time. If the milestone billing exceeds the revenue recognised to-date and any deposit or advances received from customers then the Group recognise a contract liability for the difference.

The Group's obligation to repair and make goods of any defect, imperfection, shrinkage or any other fault which have become apparent within a period range from 12 months to 24 months after the date of practical completion of the construction works.

##### (b) Property development

Contracts with customers may include multiple distinct promises to customers and therefore are accounted for as separate performance obligations. In the contract with customer contains more than one performance obligation, when the stand-alone selling price are not directly observable, they are estimated based on expected cost plus margin approach.

## NOTES TO THE FINANCIAL STATEMENTS

(Cont'd)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

#### 3.6 Revenue and other income (Continued)

##### (b) Property development (Continued)

For practical expediency, the Group apply revenue recognition to a portfolio of contracts (or performance obligations) with similar characteristics in the property development business if the Group reasonably expect that the effects on the financial statements would not differ materially from recognising revenue on each individual contracts (or performance obligations) within that portfolio.

Revenue from residential properties is recognised as and when the control of the asset is transferred to the customer. Based on the terms of the contract and the laws that apply to the contract, control of the asset is transferred over time as the Group's performance do not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. The progress towards complete satisfaction of a performance obligation is determined by the proportion of property development costs incurred for work performed to date bear to the estimated total property development costs (an input method).

The consideration is due based on the scheduled payments in the contract, therefore, no element of financing is deemed present. When a particular milestone is reached in excess of the scheduled payments, a contract asset will be recognised for the excess of revenue recognised to date under the input method over the progress billings to-date and include deposits or advances received from customers. When the progress billings to-date and include deposits or advances received from customers exceeds revenue recognised to date then the Group recognises a contract liability for the difference.

For residential properties, as part of the statutory requirements, the Group's obligations are to rectify any defects that become apparent within the defect liability period of 24 months after the customer takes vacant procession of the building. No provision for rectification costs has been made as at the end of the financial year as there has been no known material defect reported.

##### (c) Sale of goods

Revenue from manufactures and sales of goods are recognised at a point in time when control of the products has been transferred, being when the customer accepts the delivery of the goods.

Sales are made with a credit term of 30 to 60 days, which is consistent with market practice, therefore, no element of financing is deemed present. A receivable is recognised when the customer accepts the delivery of the goods as the consideration is unconditional other than the passage of time before the payment is due.

Where consideration is collected from customer in advance for sale of good, a contract liability is recognised for the customer deposits. Contract liability would be recognised as revenue upon sale of goods to the customer.

##### (d) Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered because the customer receives and uses the benefits simultaneously. This is determined based on the time elapsed (output method).

##### (e) Rental income

Rental income is recognised on a straight-line basis over the term of the lease.

## NOTES TO THE FINANCIAL STATEMENTS

### 4. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

Significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have significant effect in determining the amount recognised in the financial year include the following:

#### 4.1 Impairment of goodwill

Goodwill is tested for impairment annually and at other times when such indicators exist. This requires an estimation of the value-in-use of the cash-generating units to which goodwill is allocated. In determining the value-in-use of a cash-generating unit, the management estimates the discounted cash flows using reasonable and supportable inputs about sales, gross profit margin and other operating expenses based on past experience, current events and reasonably possible future developments. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

The carrying amount of the Group's goodwill and key assumptions used to determine the recoverable amount for different cash-generating units, including sensitivity analysis, are disclosed in Note 6 to the financial statements.

#### 4.2 Revenue recognition for construction and property development

The Group recognised construction and property development revenue and expenses in profit or loss by using the progress towards complete satisfaction of performance obligation. The progress towards complete satisfaction of performance obligation is determined by the proportion that construction or property development costs incurred for work performed to date bear to the estimated total construction or property development costs.

Significant judgement is required in determining the progress towards complete satisfaction of performance obligation, the extent of the construction or property development costs incurred, the estimated total construction and property development revenue and expenses, as well as the recoverability of the projects. In making the judgement, the Group evaluate based on past experience and by relying on the work of specialists.

The carrying amounts of property development costs, contract assets and contract liabilities are disclosed in Note 12 and 13 to the financial statements.

#### 4.3 Impairment of investment in subsidiaries

The Company assesses whether there is any indication that the cost of investment in subsidiaries is impaired at the end of each reporting date. Impairment is measured by comparing the carrying amount of an asset with its recoverable amount. Recoverable amount is measured at the higher of the fair value less cost to sell for that asset and its value-in-use. In determining the value-in-use of the subsidiaries, management estimates the discounted cash flows using reasonable and supportable inputs about sales, gross profit margins and other operating expenses based on past experience, current events and reasonably possible future developments. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

The carrying amount of investment in subsidiaries are disclosed in Note 9 to the financial statements.

## NOTES TO THE FINANCIAL STATEMENTS

### 4. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONTINUED)

Significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have significant effect in determining the amount recognised in the financial year include the following: (Continued)

#### 4.4 Impairment of trade receivables and contract assets

The impairment provisions for trade receivables and contract assets are based on assumptions about risk of default and expected loss rate. The Group use judgement in making these assumptions and selecting inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

The Group use a provision matrix to calculate expected credit losses for trade receivables and contract assets. The provision rates depend on the number of days that a trade receivable is past due. The Group groups the receivables according to the customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forward-looking estimates and expected credit losses is a significant estimate. The amount of expected credit losses is sensitive to changes in circumstances and of forecasted economic conditions over the expected lives of the trade receivables and contract assets. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

The information about the impairment losses on the Group's trade receivables is disclosed in Note 30.2(i) to the financial statements.

### 5. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

The carrying amount of property, plant and equipment and right-of-use asset pledged to financial institutions for banking facilities granted to the Group as mentioned in Note 20 to the financial statements are as follows:

	Group	
	2024	2023
	RM'000	RM'000
Freehold land	17,400	17,400
Freehold building	4,772	4,961
Leasehold land (right-of-use asset)	8,649	8,862
Leasehold building	3,915	4,011
	34,736	35,234

The carrying amount of assets under hire purchase arrangements are as follows:

	Group	
	2024	2023
	RM'000	RM'000
Motor vehicles	906	1,055

The hire purchase assets are pledged as security for the related hire purchase liabilities as disclosed in Note 20(c) to the financial statements.

The freehold land and building and low-cost apartments are stated at valuation based on an independent professional valuation performed by Messrs Raine & Horne International Zaki + Partners Sdn Bhd and Azmi & Co (Pahang) Sdn Bhd using the market value basis in year 2023.

The leasehold land and building are stated at valuation based on an independent professional valuation performed by Messrs Raine & Horne International Zaki + Partners Sdn Bhd using the market value basis in year 2020.

Level 3 fair values of freehold land and building, leasehold land and building and low cost apartments were revalued using the sales comparison approach. Sales prices of comparable land and buildings in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square foot of comparable land and buildings.

Had the revalued freehold land and building, leasehold land and building and low cost apartments been carried at historical cost less accumulated depreciation, the carrying amount of each class of properties would have been as follows:

	Group	
	2024	2023
	RM'000	RM'000
Freehold land	13,322	13,322
Freehold building	1,615	1,679

### 6. INTANGIBLE ASSETS (CONTINUED)

#### 6.1 Goodwill

The carrying amounts of goodwill allocated to the CGU are as follows:

	Group	
	2024	2023
	RM'000	RM'000
Citaglobal Land Sdn Bhd ("CGU 1")	9,800	9,800
Citaglobal Engineering Services Sdn Bhd ("CGU 2")	134,207	134,207
	144,007	144,007

The recoverable amount of the goodwill has been determined based on a value-in-use calculation using cash flow projections from financial budgets approved by management covering a three-year period. The same method has also been used in the previous financial year.

#### CGU 1

Based on the sensitivity analysis performed, management believes that there is no reasonably possible change in key assumptions that would cause the carrying values of the CGU to exceed its recoverable amount. The estimated recoverable amount of CGU 1 exceeds the carrying amount of CGU 1. As a result of the analysis, management did not identify an impairment for this CGU.

#### CGU 2

In the previous financial year, the Group completed the PPA exercise within the stipulated time period resulting in retrospective adjustments to the intangible asset.

Based on the sensitivity analysis performed, management believes that there is no reasonably possible change in key assumptions that would cause the carrying values of the CGU to exceed its recoverable amount. The estimated recoverable amount of CGU 2 exceeds the carrying amount of CGU 2. As a result of the analysis, management did not identify an impairment for this CGU.

The pre-tax discount rate applied to the cash flow projections is as follows:

	Group	
	2024	2023
CGUs		
Discount rate	15%	13%

#### Key assumptions used in the value-in-use calculations

The calculation of value-in-use for the CGUs is most sensitive to the following assumptions:

- (i) The basis used to determine the future potential earnings are historical revenues, remaining book orders and possible future developments.
- (ii) Gross margin is the forecasted margin as a percentage of revenue over the three-year projection period. These are based on the average gross margins of the existing projects.
- (iii) Discount rate was estimated based on the industry weighted average cost of capital. The discount rate applied to the cash flow projections is pre-tax and reflects management's estimate of the risks specific to the CGUs at the date of assessment.

At 31 December	256,992	253,972

In the previous financial year, loans that are part of the net investments represent amount owing by subsidiary which is non-trade in nature, unsecured and non-interest bearing. The settlement of the amount is neither planned nor likely to occur in the foreseeable future as it is the intention of the Company to treat these amounts as long-term source of capital to the subsidiary. As this amount is, in substance, a part of the Company's net investment in the subsidiary, it is stated at cost less accumulated impairment loss, if any.

The movement in accumulated impairment loss is as follows:

	Company 2024 RM'000	2023 RM'000
At 1 January	220,206	213,303
Impairment loss during the year (Note 25)	-	6,903
At 31 December	220,206	220,206

In the previous financial year, the additional impairment losses on investment in certain subsidiaries are based on recoverable amount of the subsidiaries.

	(161,514)	(176,071)	(176,754)	(183,296)

#### Warrant reserve

The warrant reserve relates to the portion of proceeds from the rights issue of ICPS with warrants ("Warrants B"). The warrant reserve was arrived at based on the theoretical fair value of RM0.1546 per warrant determined based on the binomial option pricing model. As and when the Warrants B are exercised, the related balance in the warrant reserve will be transferred to the share capital account. Each Warrants B carries the right to subscribe for one (1) new ordinary share in the capital of the Company at an exercise price of RM0.16.

Pursuant to the share consolidation in the previous financial year, the exercise price of the Warrants B had adjusted from the existing price of RM0.16 each to RM0.80 each. The theoretical fair value of the Warrant B had adjusted from the existing value of RM0.1546 each to RM0.773 each.

The Warrants B will be expired on 5 May 2031. At the expiry of the Warrants B, the balance in the warrant reserve will be transferred to retained earnings.

#### Revaluation reserve

The revaluation reserve represents increases in the fair value of freehold land and building, leasehold land and building and low-cost apartments, net of tax, and decreases to the extent that such decrease relates to an increase on the same asset previously recognised in other comprehensive income.

#### Exchange reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign subsidiary whose functional currencies are different from that of the Group's presentation currency as well as the foreign currency differences arising from monetary items which form part of the Group's net investment in foreign subsidiary, where the monetary item is denominated in either the functional currency of the reporting entity or the foreign subsidiary or another currency.

### 28. EARNINGS PER SHARE

#### Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the financial year attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial year:

	Group	
	2024 RM'000	2023 RM'000
<b>Basic</b>		
Profit attributable to owners of the Company	14,792	9,308
Weighted average number of ordinary shares for basic earnings per share (units)	421,140	405,316
Basic earnings per ordinary share (sen)	3.51	2.30

#### Diluted earnings per share

Diluted earnings per share is calculated by dividing the net profit for the financial year attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial year plus the weighted average number of the ordinary shares that would be issued on conversion of the potential dilutive ordinary shares into ordinary shares, calculated as follows:

	Group	
	2024 RM'000	2023 RM'000
<b>Diluted</b>		
Profit attributable to owners of the Company	14,792	9,308
Weighted average number of ordinary shares for basic earnings per share (units)	421,140	405,316

#### 30.2 Financial risk management

The Group's and the Company's activities are exposed to a variety of financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, foreign currency risk and interest rate risk. The Group's and the Company's overall financial risk management objective is to optimise value for their shareholders. The Group use derivative financial instruments, such as, foreign exchange contracts to hedge certain exposures. The Group and the Company do not trade in financial instruments.

The Board of Directors reviews and agrees to policies and procedures for the management of these risks, which are executed by the Group's senior management. The audit committee provides independent oversight to the effectiveness of the risk management process.

### 30. FINANCIAL INSTRUMENTS (CONTINUED)

#### 30.2 Financial risk management (Continued)

##### (i) Credit risk

Credit risk is the risk of financial loss to the Group that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group has a credit policy in place and the exposure to credit risk is managed through the application of credit approvals, credit limits and monitoring procedures. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment.

##### Trade receivables and contract assets

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables and contract assets is represented by the carrying amounts in the statements of financial position.

The carrying amount of trade receivables and contract assets are not secured by any collateral or supported by any other credit enhancements. In determining the recoverability of these receivables, the Group consider any change in the credit quality of the receivables from the date the credit was initially granted up to the reporting date. The Group has adopted a policy of dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults.

##### Credit risk concentration profile

The Group determine the credit risk concentration of its trade receivables and contract assets by industry sector profile on an ongoing basis. The credit risk concentration profile of the Group's trade receivables and contract assets at the reporting date are as follows:

	2024		Group		2023	
	RM'000	%		RM'000	%

##### (i) Credit risk (Continued)

##### Trade receivables and contract assets (Continued)

##### Credit risk concentration profile (Continued)

The Group apply the simplified approach to providing for impairment losses prescribed by MFRS 9, which permits the use of the lifetime expected credit loss provision for all trade receivables and contract assets. To measure the impairment losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The impairment losses also incorporate forward looking information.

For construction contracts, as there are only a few customers, the Group assessed the risk of loss of each customer individually based on their financial information, past trend of payments and external credit ratings, where applicable.

The information about the credit risk exposure on the Group's trade receivables and contract assets are as follows:

### 30. FINANCIAL INSTRUMENTS (CONTINUED)

#### 30.2 Financial risk management (Continued)

##### (i) Credit risk (Continued)

###### Other receivables and other financial assets

For other receivables and other financial assets (including investment securities, cash and cash equivalents and derivatives), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties. At the reporting date, the Group's and the Company's maximum exposure to credit risk arising from other receivables and other financial assets is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

The Group and the Company consider the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group and the Company compare the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment.

Some intercompany loans between entities within the Group are repayable on demand. For loans that are repayable on demand, impairment losses are assessed based on the assumption that repayment of the loan is demanded at the reporting date. If the borrower does not have sufficient highly liquid resources when the loan is demanded, the Group and the Company will consider the expected manner of recovery and recovery period of the intercompany loan.

Other than the credit-impaired other receivables, the Group and the Company consider these financial assets to have low credit risk. As at the reporting date, the Group and the Company had recognised loss allowance for impairment for other receivables as disclosed in Note 11 to the financial statements.

###### Financial guarantee contracts

The Company is exposed to credit risk in relation to financial guarantees given to banks in respect of loans granted to certain subsidiaries. The Company monitors the results of the subsidiaries and their repayment on an on-going basis. The maximum exposure to credit risks amounts to RM103,784,442 (2023: RM93,981,491) representing the maximum amount the Company could pay if the guarantee is called on as disclosed in Note 33. As at the reporting date, there was no loss allowance for impairment as determined by the Company for the financial guarantee.

The financial guarantees have not been recognised since the fair value on initial recognition was not material as the guarantee is provided as credit enhancement to subsidiaries' secured borrowings.

##### (ii) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations when they fall due. The Group's and the Company's exposure to liquidity risk arise primarily from mismatches of the maturities between financial assets and liabilities. The Group's and the Company's exposure to liquidity risk arise principally from trade and other payables, loans and borrowings.

### 30. FINANCIAL INSTRUMENTS (CONTINUED)

#### 30.2 Financial risk management (Continued)

##### (iv) Interest rate risk

Interest rate risk arises on interest-bearing financial instruments recognised in the statements of financial position. It will affect the Group's income or the value of its holdings of financial instruments.

The Group's exposures to interest rate risk for changes in interest rates mainly arise from its short term borrowings and term loans with floating interest rate. Interest rate risk is managed by the Group on an on-going basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates.

##### Sensitivity analysis for interest rate risk

At the end of the financial year, if interest rates had been 25 basis points lower/higher, with all other variables held constant, the Group's profit/(loss) after tax would have been RM200,978 (2023: RM93,960) higher/lower, arising mainly as a result of lower/higher interest expense on floating rate loans and borrowings.

##### (v) Fair value measurement

The carrying amounts of the current portion of borrowings are reasonable approximations of fair values due to the insignificant impact of discounting.

The carrying amounts of cash and cash equivalents, receivables, payables and short term borrowings are reasonable approximation of fair values due to the relatively short term nature of these financial instruments.

There has been no transfer between Level 1, Level 2 and Level 3 during the financial year (2023: no transfer in either direction).

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of lease liabilities of the Group is categorised as Level 2.

### 31. CAPITAL MANAGEMENT

The primary objective of the Group's and of the Company's capital management is to ensure that they maintain a strong credit rating and healthy capital ratio in order to support their business and maximise shareholder value. The Group and the Company manage their capital structure and make adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group and the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies and processes during the financial year ended 31 December 2024 and 31 December 2023.

The debt-to-equity ratios at 31 December 2024 and 31 December 2023 are as follows:

### 32. SEGMENTAL REPORTING (CONTINUED)

Other non-reportable segments comprise investment holding, telecommunications and financial services business which are below the quantitative thresholds for determining operating segments.

The inter-segment transactions have been entered into in the normal course of business and have been established on terms and conditions that are not materially different from those obtainable in transactions with unrelated parties.

#### Segment profit

Segment performance is used to measure performance as the Executive Chairman and President believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Performance is evaluated based on operating profit or loss which is measured differently from operating profit or loss in the consolidated financial statements.

#### Segment assets and liabilities

The total of segment assets and liabilities is measured based on all assets and liabilities (excluding investment in associates) of a segment, as included in the internal reports that are reviewed by the Executive Chairman and President.

### 35. MATERIAL LITIGATION

There are no material litigations against or taken by the Group other than the following:

- (a) Citaglobal Berhad (Citaglobal or the Company) Writ of Summons and Statement of Claim Served to UMD Energy Sdn Bhd in The High Court in Kuala Lumpur bearing Suit No. WA-22NCC-299-05/2023

The Company via Citaglobal Energy Sdn Bhd, a wholly-owned subsidiary of the Company had on 24 May 2023 served a Writ of Summons and Statement of Claim to UMD Energy Sdn Bhd ("UMD") ("Defendant") in the High Court of Kuala Lumpur via Suit No. WA-22NCC-299-05/2023 ("Writ").

The Plaintiff's claim against the Defendant pertains to the alleged payment default in relation to the promise of the Defendant to pay the Plaintiff the sum of RM1,556,228.01 being the profit sharing due and payable to the Plaintiff following the closure and discontinuance of the project known as Provision of Engineering, Procurement, Constructions, Installation and Commissioning (EPCIC) of PM309 Gas Ledang Redev Segment 2 Development Project ("the project"). The Plaintiff and the Defendant were executing the said project as a consortium. The project had been discontinued by the Client, Petronas Carigali Sdn Bhd. Pursuant to the discontinuance of the project and payments received from the Client, the Defendant had promised to pay the Plaintiff vide a letter dated 14 November 2022 the sum of RM1,556,228.01 in 4 instalments commencing 31 March 2023. The Defendant had failed to make payment.

Pursuant to the Writ, the Plaintiff has claimed from the Defendant the following:

- (i) The sum of RM1,556,228.01; and
- (ii) Interest at the rate of 5% per annum from the date of filing of the suit until full payment of the judgment sum.

The aforesaid Writ did not have any material financial and operational impacts on the Group for the financial year ended 31 December 2024.

### 35. MATERIAL LITIGATION (CONTINUED)

There are no material litigations against or taken by the Group other than the following: (Continued)

- (b) Writ and Statement of Claim Served by UMD Energy Sdn Bhd in The High Court in Kuala Lumpur bearing Suit No. WA-22NCC-411-06/2023

The Company via Citaglobal Energy Sdn Bhd ("Defendant"), a wholly-owned subsidiary of the Company had on 20 June 2023 received a Writ and Statement of Claim from UMD Energy Sdn Bhd ("UMD") ("Plaintiff") in the High Court of Kuala Lumpur ("Court") via Suit No. WA-22NCC-411-06/2023 ("Writ").

Pursuant to the Writ, the Plaintiff claimed the following reliefs against the Defendant:

- (i) A declaration that the Defendant is not entitled to charge the admin fees of RM1,169,129.42 from the Plaintiff;
- (ii) A declaration that the Defendant is not entitled to charge the interest of RM3,588,518.72 from the Plaintiff as the Defendant is not a licensed money lender;
- (iii) Defendant is to return RM3,500,673.87 to the Plaintiff within 7 days from the judgement date;
- (iv) Interest at the rate of 5% per annum from the date of filing of the suit until full payment of the judgement sum;
- (v) Costs on a solicitor-client basis; and/or
- (vi) Any further and/or other relief which the Court deems fit and reasonable.

Nevertheless, the Company is of the opinion that it has a good defence to the suit and the aforesaid Writ did not have material financial and operational impacts on the Company for the financial year ended 31 December 2024.

The High Court has fixed 14 to 17 and 22 to 23 April 2025 for the trial for both cases.

Further announcements on the material developments of the above litigations will be made to Bursa Malaysia Securities Berhad.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF CITAGLOBAL BERHAD

(Incorporated in Malaysia)

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of **Citaglobal Berhad**, which comprise the statements of financial position as at 31 December 2024 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 96 to 170.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2024, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

### Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Independence and Other Ethical Responsibilities*

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Group

---

#### Goodwill (Note 4.1 and 6 to the financial statements)

---

The Group has significant balances of goodwill attributable to acquisition of subsidiaries. The goodwill is tested for impairment annually. We focused on this area because the directors estimate the discounted cash flows using inputs about sales, gross profit margins and other operating expenses based on past experience, current events and possible future developments in determining the value-in-use of a cash generating unit. When value-in-use calculations are undertaken, the directors estimate the expected future cash flows from the cash-generating units and choose a suitable discount rate in order to calculate the present value of those cash flows.

#### Our response:

Our audit procedures included, among others:

- comparing the actual results with previous budgets to understand the performance of the business;
- comparing the Group's assumptions to externally derived data, if any, and discussing with the management the key assumptions to the projections;
- testing the mathematical accuracy of the impairment assessment; and
- discussing the management's sensitivity analysis of key assumptions on the impact of these key assumptions and inputs that are expected to be most sensitive to the recoverable amount.

(Incorporated in Malaysia) (Cont'd)

## Key Audit Matters (Continued)

### Group (Continued)

---

#### **Revenue recognition for construction business and property development (Note 4.2, 12, 13 and 22 to the financial statements)**

---

We focused on this area because the amount of revenue recognised in the construction business and property development require the directors to apply judgement and estimation. The Group recognised construction and property development revenue in the profit or loss by using the progress towards complete satisfaction of performance obligation. The progress towards complete satisfaction of performance obligation is determined by the proportion that construction and property development costs incurred for work performed to date bear to the estimated total construction and property development costs. Significant judgement is required in determining the progress towards complete satisfaction of performance obligation, the extent of the construction and property development costs incurred, the estimated total construction and property development revenue and expenses, as well as the recoverability of the projects.

#### **Our response:**

Our audit procedures on a sample of projects included, among others:

- reading the terms and conditions of sample of agreements with customers;
- understanding the design and implementation of controls over the Group's process in recording project costs, in preparing project budgets and in calculating the progress towards completion;
- discussing the progress of the projects and expected outcome with the respective project directors to obtain an understanding of the basis on which the estimates are made; and
- testing the mathematical computation of the recognised revenue and expenses during the financial year.

---

#### **Trade receivables and contract assets (Note 4.4, 11 and 13 to the financial statements)**

---

We focused on this area because the directors made subjective judgements over assumptions about risk of default and expected loss rate. In making the assumptions, the directors are to select inputs to the impairment calculations, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of the reporting period. The assessment of the correlation between historical observed default rates, forward-looking estimates and expected credit losses is a significant estimate.

#### **Our response:**

Our audit procedures included, among others:

- understanding the design and implementation of controls associated with monitoring and discussing the management's assessment of the expected credit losses of trade receivables and contract assets as at 31 December 2024;
- discussing the progress of the projects and expected outcome with the respective project directors;
- understanding of significant credit exposures which were significantly overdue or deemed to be in default through timelines stated in the construction contracts; and
- checking subsequent receipts, customer correspondences, and discussing the levels of activity of selection customers with management's explanation on recoverability of significantly past due balances.

### Key Audit Matters (Continued)

#### Company

#### Investment in subsidiaries (Note 4.3 and 9 to the financial statements)

The Company assesses whether there is any indication that the cost of investment in subsidiaries is impaired at the end of each reporting date. Impairment is to be measured by comparing the carrying amount of an asset with its recoverable amount. Recoverable amount is to be measured at the higher of the fair value less cost to sell for that asset and its value-in-use. We focused on this area because the directors estimate the discounted cash flows using inputs about sales, gross profit margins and other operating expenses based on past experience, current events and possible future developments in determining the value-in-use of a cash generating unit. When value-in-use calculations are undertaken, the directors estimate the expected future cash flows from the cash-generating units and choose a suitable discount rate in order to calculate the present value of those cash flows.

#### Our response:

#### Our audit procedures included, among others:

- comparing the actual results with previous budgets to understand the performance of the business;
- comparing the Company's assumptions to externally derived data, if any as well as our discussion with the Company in relation to key assumptions;
- testing the mathematical accuracy of the impairment assessment; and
- discussing the management's sensitivity analysis of key assumptions by discussing the impact of these key assumptions and inputs that are expected to be most sensitive to the recoverable amount.

### Information other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

## INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF CITAGLOBAL BERHAD

(Incorporated in Malaysia) (Cont'd)

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF CITAGLOBAL BERHAD

### Auditors' Responsibilities for the Audit of the Financial Statements (Continued)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

3. A proxy may but does not need to be a member of the Company. A member entitled to attend, participate and vote at the Meeting may appoint any person as his proxy to attend, participate and vote instead of the member at the Meeting. There are no restrictions on the qualifications of the proxy. A proxy appointed to attend, participate and vote at the Meeting shall have the same rights as the member, including the right to speak at the Meeting.
4. In the case of a corporate member, the instrument appointing a proxy must be either under its common seal or under the hand of an officer or attorney duly authorised.
5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("**omnibus account**"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each omnibus account it holds.
6. Appointment of proxy and registration for voting

The instrument appointing a proxy and the power of attorney or other authority (if any), under which it is signed or a duly notarised certified copy of that power or authority, must be deposited not less than forty-eight (48) hours before the time for holding the meeting or adjournment thereof through either one of the following avenues:-

### In hard copy Form of Proxy

To be deposited at the office of the Share Registrar, Securities Services (Holdings) Sdn. Bhd. at Level 7, Menara Milenium, Jalan Damanlela, Pusat Bandar Damansara, Damansara Heights, 50490 Kuala Lumpur, Wilayah Persekutuan; or

### By electronic Form of Proxy

To be submitted via fax at +603 20949940 or +603 2095 0292 or email to [info@sshsb.com.my](mailto:info@sshsb.com.my).

7. If you have submitted your proxy form(s) and subsequently decide to appoint another person or wish to participate in the 20th AGM by yourself, please write to [info@sshsb.com.my](mailto:info@sshsb.com.my) to revoke the earlier appointed proxy twenty-four (24) hours before this Meeting.

## Explanatory Notes: -

### 1. Audited Financial Statements for the financial year ended 31 December 2024

This Agenda item is for discussion only, as Section 340(1)(a) of the Act does not require formal shareholder approval for the Audited Financial Statements. Therefore, it has not been put forward for voting.

### 2. Ordinary Resolutions 1 and 2 - Directors' Fees and Benefits Payable

Pursuant to Section 230(1) of the Act, which stipulates that the fees and any benefits payable to the Directors of a listed company and its subsidiaries must be approved at the general meeting.

The Nomination and Remuneration Committee ("**NRC**") has recommended, and the Board of Directors has affirmed, that the Directors' fees amounting to RM1,250,000 for the period from 1 July 2025 to 30 June 2026 be proposed for shareholders' approval at the 20th AGM.

## NOTICE OF ANNUAL GENERAL MEETING

(Cont'd)

If approved, the proposed Ordinary Resolution 1 will authorise the payment of Directors' fees to the Directors of the Company and its subsidiaries for the specific period, payable monthly in arrears upon the completion of each month of service.

If approved, the proposed Ordinary Resolution 2 will authorise the payment of Directors' benefits to the Non-Executive Directors ("NEDs") of the Company. The benefits include meeting allowances, calculated based on the current Board size, the number of scheduled and unscheduled Board and Committees meetings, the participation of NEDs in such meetings, and other benefits-in-kind.

Should the approved Directors' fees and benefits prove insufficient due to an expanded Board size, the Company will seek shareholders' approval at the next AGM for additional Directors' fees and benefits to cover any shortfall.

### 3. Ordinary Resolutions 3 to 7 - Re-election of Directors

Clause 118 of the Company's Constitution stipulates that one-third (1/3) of the Directors shall retire from office and be eligible for re-election at each AGM. All Directors shall retire from office at least once every three (3) years but shall be eligible for re-election.

Clause 117 provides that any Director appointed to fill a casual vacancy or as an addition to the existing Board shall hold office until the conclusion of the next AGM and shall be eligible for re-election. However, such Directors shall not be considered in determining the rotation of retiring Directors at that meeting.

In assessing the eligibility of the Directors for re-election at the forthcoming 20th AGM, the NRC considered the following:-

- (i) Directors' self-assessment and peer-to-peer performance evaluation;
- (ii) Evaluation of the effectiveness of the Board and its Committees; and
- (iii) For Independent Non-Executive Directors ("INEDs"), an assessment of their independence and ability to act in the best interest of the Company.

The Board has endorsed the NRC's recommendation for the retiring Directors in accordance with Clauses 117 and 118 of the Company's Constitution. All retiring Directors have consented to their re-election and abstained from deliberations and voting on their own eligibility during the relevant NRC and Board meetings.

### 4. Ordinary Resolution 8 - Reappointment of Auditors

The Audit and Risk Committee conducted a thorough assessment of the suitability and independence of the External Auditors and recommended the reappointment of Baker Tilly Monteiro Heng PLT as the Company's External Auditors for the financial year ending 31 December 2025. Following this, the Board carefully reviewed and endorsed the Committee's recommendation for presentation to shareholders for approval at the upcoming 20th AGM under Ordinary Resolution 8.

### 5. Ordinary Resolutions 9 to 11 - Retention of Independent Non-Executive Directors

The Board has assessed the independence of Rosli Bin Shafiei, Datuk Idris Bin Haji Hashim J.P., and Dato' Syed Kamarulzaman Bin Dato' Syed Zainol Khodki Shahabudin and is confident that they will continue to provide independent perspectives, thereby safeguarding the interests of minority shareholders.

The Board recognises their leadership qualities, industry expertise, and extensive experience, which are expected to contribute positively to the Board and its Committees in an impartial manner.

Accordingly, the Board recommends their retention as Independent Non-Executive Directors, subject to shareholders' approval through a two-tier voting process, in accordance with the Guidance to Practice 5.3 of the Malaysian Code on Corporate Governance.

## NOTICE OF ANNUAL GENERAL MEETING

### 6. Ordinary Resolution 12 - Authority to Issue Shares Pursuant to the Companies Act 2016

The proposed Ordinary Resolution 12 seeks to renew the authority granted to the Company's Directors at the 19th AGM held on 4 June 2024 ("**Previous Mandate**") to issue and allot shares at their discretion without convening a general meeting, provided that the total number of shares issued does not exceed 10% of the Company's total issued shares at any given time (hereinafter referred to as the "**General Mandate**").

The renewed General Mandate will empower the Directors to promptly issue shares for potential fund-raising activities, including but not limited to further share placements, to support future investment projects, working capital, and/or acquisitions. This authority will remain in effect until the next AGM, unless revoked or varied by the Company at a general meeting.

### 7. Special Resolution - Proposed Amendments to the Constitution of the Company

The Proposed Special Resolution, if passed, will enhance administrative efficiency and provide greater clarity to the Constitution. The Proposed Amendments are annexed to the Annual Report 2024.

#### Personal Data Privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, participate, speak, and vote at the 20th AGM and/or any adjournment thereof, a member of the Company:

- (i) Consents to the collection, use, and disclosure of their personal data by the Company (or its agents) for the processing and administration of proxies and representatives appointed for the AGM (including any adjournment thereof), as well as for the preparation and compilation of attendance lists, minutes, and other related documents. This also enables the Company (or its agents) to comply with applicable laws, listing rules, regulations, and/or guidelines (collectively, the "Purposes").
- (ii) Warrants that if they disclose the personal data of their proxy(ies) and/or representative(s) to the Company (or its agents), they have obtained the prior consent of such individuals for the collection, use, and disclosure of their personal data for the Purposes.
- (iii) Agrees to indemnify the Company against any penalties, liabilities, claims, demands, losses, and damages arising from a breach of this warranty.
