A13. SHIPS, OFFSHORE FLOATING ASSET AND OTHER PROPERTY, PLANT AND EQUIPMENT

Included in ships, offshore floating asset and other property, plant and equipment are construction work-in-progress, mainly for the construction of ships totalling RM2,059.0 million (31 December 2024: RM1,481.6 million) and right-of-use assets amounting to RM158.3 million (31 December 2024: RM119.3 million).

The volatility of charter hire rates, expired charter contracts or contracts approaching expiry dates were identified as indications that the carrying amount of certain ships may be impaired. The Group has performed a review of the recoverable amount of the ships at the end of the quarter. The recoverable amount was based on the higher of fair value less costs of disposal or value-in-use, and determined at the cash generating unit ("CGU") level of each asset.

The review led to the recognition of net impairment losses of ships amounting to RM146.3 million in the current financial period as the recoverable amount of the ships was lower than their carrying value.

Goodwill is tested for impairment annually, or when circumstances indicate that the carrying value may be impaired. The Group's goodwill impairment test is a comparison of the goodwill's carrying value against its recoverable amount. The recoverable amounts are based on value-in-use for cash generating units ("CGU"), calculated using cash flow projections. The key assumptions used to determine the value-in-use of CGUs were disclosed in the annual consolidated financial statements for the year ended 31 December 2024.

The other intangible assets relate to the fair value of long-term customer contracts from acquisition of a subsidiary at the date of acquisition, which is amortised over the remaining contract periods.

QUARTERLY REPORT

FOR SECOND QUARTER ENDED 30 JUNE 2025

PART B – OTHER EXPLANATORY NOTES (continued)

Current quarter's performance against the quarter ended 30 June 2024

Group revenue of RM2,721.3 million was RM608.1 million or 18.3% lower than the quarter ended 30 June 2024 ("corresponding quarter") of RM3,329.4 million, while Group operating profit of RM755.2 million was RM37.0 million or 4.7% lower than the corresponding quarter's profit of RM792.2 million. The variances in Group performance by segments are further explained below.

Gas Assets & Solutions

Revenue of RM524.4 million was RM164.0 million or 23.8% lower than the corresponding quarter's revenue of RM688.4 million due to lower earning days from contract expiries, vessels disposal and lower charter rates in the current quarter.

Operating profit of RM239.4 million was RM9.8 million or 3.9% lower than the corresponding quarter's profit of RM249.2 million due to translation impact from strengthening of Ringgit Malaysia ("RM") against the United States Dollar ("USD") in the current quarter. Operationally, the segment's operating profit in the current quarter was comparable to the corresponding quarter.

Petroleum & Products

Revenue of RM1,290.3 million was RM22.4 million or 1.7% lower than the corresponding quarter's revenue of RM1,312.7 million, primarily driven by the translation impact from strengthening of RM against the USD in the current quarter. Operationally, the segment's revenue in the current quarter was higher than the corresponding quarter following higher freight rates and earning days achieved in the current quarter.

Operating profit of RM301.1 million was RM101.1 million or 25.1% lower than the corresponding quarter's profit of RM402.2 million due to lower margin from charter contracts and strengthening of RM as mentioned above.

Offshore

Revenue of RM454.3 million was RM22.9 million or 5.3% higher than the corresponding quarter's revenue of RM431.4 million contributed from recognition of revenue from the acquisition of a Floating, Production, Storage and Offloading unit ("FPSO").

The segment recorded an operating profit of RM227.5 million was RM154.3 million or 210.8% higher than the operating profit of RM73.2 million in the corresponding quarter primarily contributed by the transition of an FPSO from the construction phase to operational phase.

Marine & Heavy Engineering

Revenue of RM431.6 million was RM468.4 million or 52.0% lower than the corresponding quarter's revenue of RM900.0 million primarily due to lower revenue from ongoing Heavy Engineering projects, as several projects are nearing completion as well as newly secured projects were still in the early stages of execution.

Operating profit of RM12.7 million was RM66.4 million or 83.9% lower than the corresponding quarter's profit of RM79.1 million mainly due to lower project activity level, reflecting new projects commencement phase while the operating profit reported in the corresponding quarter was mainly due to the recognition of cost recovery claims.

Others, Eliminations and Adjustments

Others segment's operating loss was RM14.0 million or 121.7% higher than corresponding quarter's loss mainly due to lower interest income and higher corporate expenses.

QUARTERLY REPORT

FOR SECOND QUARTER ENDED 30 JUNE 2025

PART B – OTHER EXPLANATORY NOTES (continued)

Current 6 months period performance against the 6 months period ended 30 June 2024

Group revenue of RM5,537.4 million was RM1,430.3 million or 20.5% lower than the revenue for the 6-month period ended 30 June 2024 (“corresponding period”) of RM6,967.7 million mainly due to lower revenue from Marine and Heavy Engineering segment as most on-going projects are nearing completion, while newer projects are still at early stages. Additionally, the lower revenue in the Gas Assets & Solutions segment was primarily due to lower earning days resulting from contract expiries, vessel disposals and lower charter rates during the current period.

Group operating profit of RM1,612.4 million was RM61.8 million or 3.7% lower than the corresponding period’s profit of RM1,674.2 million mainly due to lower margin in the Petroleum & Product segment. In addition, the lower operating profit was also due to the lower level of project activities as new projects were at the beginning phases in the Marine & Heavy Engineering segment.

The decrease in the operating profit was however offset by the higher profit in the Offshore Business primarily contributed from the transition of an FPSO from the construction phase to operational phase.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

| <u>GROUP</u> | <u>Quarter Ended 30 June 2025 RM million</u> | <u>Quarter Ended 31 March 2025 RM million</u> |
|---|--|---|
| Revenue | 2,721.3 | 2,816.1 |

| Share of (loss)/profit of associates | (2.4) | 0.8 |
| Share of profit of joint ventures | 9.5 | 10.1 |
| Profit Before Tax | 484.3 | 735.4 |

Group revenue of RM2,721.3 million was RM94.8 million or 3.4% lower than the preceding quarter’s revenue of RM2,816.1 million due to lower earning days in the Gas Assets & Solutions segment as well as lower revenue from Marine and Heavy Engineering segment, as most on-going projects are nearing completion, while newer projects are still at early stages. This is offset by higher freight rates and earning days in Petroleum & Product segment.

Group operating profit of RM755.2 million was RM102.0 million or 11.9% lower than the preceding quarter's profit of RM857.2 million mainly due to lower earning days coupled with higher vessel operating cost in Gas Assets & Solutions segment. In addition, the lower operating profit was also contributed by lower margin in Petroleum & Product segment.

B3. REVIEW OF CONSOLIDATED STATEMENT OF FINANCIAL POSITION

| | As at 30 June 2025 RM million | As at 31 December 2024 RM million |
|--|-------------------------------------|---|
| Total assets | 56,450.6 | 60,435.2 |
| Total equity attributable to equity holders of the Corporation | 35,721.8 | 37,604.1 |
| Total liabilities | 20,038.4 | 22,121.7 |

The Group's total assets at RM56,450.6 million was lower by RM3,984.6 million or 6.6% mainly due to translation impact from strengthening of RM against USD for total assets and amortisation of finance lease receivables.

Total equity attributable to shareholders of the Company decreased by RM1,882.3 million or 5.0% mainly attributed from unfavourable movement of currency translation reserve following strengthening of RM against USD.

Total liabilities at RM20,038.4 million was lower by RM2,083.3 million or 9.4% from the weakening of the USD and payment to creditors.

B4. REVIEW OF CONSOLIDATED STATEMENT OF CASH FLOWS

| | Cumulative 6 Month Ended | |
|--|----------------------------|----------------------------|
| | 30 June 2025 RM million | 30 June 2024 RM million |

| Net cash used in financing activities | (1,508.0) | (1,393.8) |
| Net change in cash and cash equivalents | (400.0) | (1,358.9) |

The Group's net cash generated from operating activities of RM2,375.1 million was higher by 52.0% or RM812.5 million compared to RM1,562.6 million in the corresponding period, due to higher collection from customers.

The Group's net cash used in investing activities of RM1,267.1 million was lower by 17.1% or RM260.6 million compared to RM1,527.7 million in corresponding period mainly due to lower net fixed deposit placements and lower payment on capital expenditure for ships, property, plant and equipment in the current period.

The Group's net cash used in financing activities of RM1,508.0 million was higher by 8.2% or RM114.2 million compared to RM1,393.8 million in corresponding period mainly due to higher net repayment of interest-bearing loans and borrowings.

FOR SECOND QUARTER ENDED 30 JUNE 2025

PART B – OTHER EXPLANATORY NOTES (continued)

B5. GROUP CURRENT YEAR PROSPECTS

In the GAS segment, LNG carrier charter rates are expected to remain soft through 2025, primarily due to continued robust fleet expansion and subdued tonne-mile demand. Despite the market headwind, the Gas Assets & Solutions sub-segment remained committed to improve operational efficiency and cost containment for existing steam vessels and strengthening its fleet rejuvenation strategy through the deployment of new, modern, eco-efficient LNG and ethane carriers. The segment is also actively exploring strategic options including vessel lay-ups and redeployment opportunities for vessels that are currently off charter.

In the Petroleum & Products segment, the crude tanker market is expected to remain relatively healthy through the remainder of 2025, underpinned by a balanced supply-demand outlook. This is supported by the prospects of increased OPEC+ exports, particularly heading into the seasonally stronger winter months, and modest fleet expansion, which is projected to remain limited and help sustain market stability. Nevertheless, the shipping market continues to face uncertainty amid a dynamic geopolitical environment and tightening regulatory requirements. The Petroleum & Products segment remains proactive in seeking opportunities to expand its contract portfolio and optimise fleet utilisation.

The Offshore segment continues to be supported by a positive outlook, underpinned by sustained global energy demand that is driving investment in upstream developments and exploration. These favourable market conditions are accelerating the growth of Floating Production Storage and Offloading (FPSO) activities, particularly in key regions such as South America, West Africa and the Asia-Pacific. The Offshore segment remains focused on strengthening its market presence and pursuing strategic growth opportunities to capture long-term value.

In the Marine & Heavy Engineering segment, escalating trade tensions and prolonged geopolitical conflicts and policy changes are expected to continue to weigh on global economic growth by disrupting supply chains, altering trade flows and contributing to a more cautious investment sentiment. Despite these challenges, the Heavy Engineering sub-segment is focused on building a well-balanced portfolio by strengthening its conventional energy business and progressively expanding into the new energy sector. Concurrently, the Marine sub-segment will continue to pursue vessel repair and conversion projects, while enhancing yard infrastructure and optimising operational efficiency to sustain long-term competitiveness.

PART B – OTHER EXPLANATORY NOTES (continued)

Setting Aside OS

On 7 July 2020, GKL filed an Originating Summons to set aside parts of the Arbitral Award dated 8 April 2020. The proceeding of this Setting Aside OS was delayed due to the COVID-19 situation and the various applications filed by both Parties in relation to this matter:

(i) Setting Aside OS

GKL's Setting Aside OS was heard on 20 and 25 October 2021, 13 January 2022, 16 and 17 February 2022, 4 April 2022, 10 August 2022 and 23 September 2022. As announced on 30 December 2022, the High Court had dismissed GKL's Originating Summons to set aside parts of the Arbitral Award on 29 December 2022 with costs. Upon review of the written grounds of the High Court, GKL has been advised that it has legal grounds to appeal against the High Court's decision and has filed notices of appeal to the Court of Appeal on 19 January 2023. The appeal was originally fixed for hearing on 29 March 2024. On 27 March 2024, we were informed that the hearing has been rescheduled to 3 September 2024. On 25 July 2024 we were informed that the hearing has been rescheduled to 10 February 2025. On 10 February 2025, the hearing was adjourned by the Court of Appeal. At the case management on 14 February 2025 the hearing was rescheduled to 20 and 21 August 2025. The hearing proceeded on 20 and 21 August 2025. The Court of Appeal has reserved its decision and a further case management will be held on 4 September 2025 to schedule a decision date.

(ii) Injunction NOA

On 6 October 2020, GKL withdrew the Injunction NOA on the basis that a statutory stay of enforcement is automatically imposed on SSPC upon GKL's application to set aside SSPC's Award enforcement.

Additionally, GKL had filed an interim application preventing SSPC from enforcing the Award prior to the determination of the Setting Aside OS. This application was heard on 16 August 2021 and 1 October 2021. On 25 October 2021, the High Court dismissed GKL's interim application and decided that SSPC has the right to set off the award against the charter hire without full grounds of judgment. On 22 November 2021 GKL filed an appeal to the Court of Appeal against the High Court's decision which was heard on 6 July 2022. On 7 November 2022, the Court of Appeal dismissed GKL's appeal in respect of the interim application. General grounds were delivered orally and no written grounds were provided by the Court of Appeal.

ii) Malaysia Offshore Mobile Production (Labuan) Ltd (“MOMPL”) and PCPP Operating Company Sdn Bhd (“PCPP”)

Malaysia Offshore Mobile Production (Labuan) Ltd (“MOMPL”), MISC Berhad's wholly owned subsidiary, and PCPP Operating Company Sdn Bhd (“PCPP”) are parties to an Agreement for the Leasing, Operation and Maintenance of Two (2) Plain Mobile Offshore Production Unit Facilities for D30 and Dana Fields Development Project dated 28 November 2008 (“the Contract”).

PCPP is a joint operating company with shareholders comprising PETRONAS Carigali Sdn Bhd (40%) (“PCSB”), PT Pertamina Hulu Energi (30%) (“PPHE”) and PetroVietnam Exploration Production Corporation Ltd (30%) (“PVEP”).

A dispute has arisen between the parties in relation to the Contract and there are substantial sums due and owing to MOMPL. Attempts to resolve the matter by means of a commercial settlement agreement failed to materialise and MOMPL was constrained to proceed with legal proceedings against PCPP to seek to recover the sums outstanding to MOMPL for the lease rates, payment for completed variation works, early termination fees, reimbursement of demobilisation costs and associated costs under the Contract totalling to approximately USD99.8 million and service rates totalling approximately RM22.6 million. In this respect, the following actions have been filed:

PART B – OTHER EXPLANATORY NOTES (continued)

Adjudication

1. Adjudication proceedings under the Construction Industry Payment and Adjudication Act 2012 (“CIPAA”) was first commenced to recover MOMPL’s claim for the completed variation works amounting to approximately USD9.9 million. On 9 January 2019, MOMPL was awarded its entire claim of USD9.9 million plus interest and costs.
2. The second adjudication proceedings under CIPAA was commenced to recover the disputed demobilisation costs amounting to approximately USD4.8 million. On 7 October 2019, MOMPL received the second Adjudication decision dated 26 July 2019 where MOMPL was awarded its entire claim of USD4.8 million plus interest and costs.
3. The Federal Court (“FC”) had on 16 October 2019 made a ruling that the CIPAA, which provides the basis upon which the Adjudication Proceedings were commenced, only applies prospectively to construction contracts entered into after the date CIPAA became effective i.e. 15 April 2014. The MOMPL lease agreement is dated 28 November 2008 and as such, falls outside the purview of CIPAA.
4. In view of the FC decision, MOMPL has stayed its hand on moving for the enforcement of the Adjudication decisions and will focus on the Arbitration Proceedings in order to recover the monies owing by PCPP.
5. As far as MOMPL is aware, there is no pending application to set aside the said Adjudication decisions.

Arbitration

6. The first arbitration proceedings seek to claim for part of the outstanding sums amounting to approximately USD18.8 million and RM17.9 million. MOMPL’s Statement of Claim was filed on 21 December 2016.
7. MOMPL has re-filed the Notice of Arbitration for the second arbitration proceedings for part of the outstanding sums amounting to approximately USD81.0 million and RM4.7 million. PCPP has responded to the Notice of Arbitration on 15 July 2020.
8. The arbitral tribunal for both arbitration proceedings have now been constituted respectively and parties are in the midst of negotiating and finalising the terms of appointment. However, given the development in the filing of the Winding-up Proceedings, MOMPL has written to the arbitral tribunal for both the first and second arbitrations to request for the proceedings to be kept in abeyance until the Winding-up Proceedings is disposed of by the High Court.

Proceedings in Court

Originating Summons against PCPP for Early Termination Fees and Demobilisation Costs

9. On 7 August 2018 an Originating Summons was filed in the High Court to recover the undisputed portion of the early termination fees and demobilisation costs amounting to approximately USD42.3 million.
 - a. On 30 May 2019, the High Court, allowed PCPP’s application to stay the Originating Summons pending the disposal of the arbitration proceedings. MOMPL filed an appeal to the Court of Appeal (“CA”) against this decision which was heard on 12 April 2021. The CA set aside the stay application granted by the High Court and instead imposed a conditional stay on PCPP wherein PCPP is required to deposit a sum of USD7.8 million into a joint account held by both parties’ solicitors within 30 days, failing which MOMPL will be able to proceed with the full hearing in the High Court action against PCPP. PCPP failed to make any such deposit and therefore the Originating Summons was reinstated in the High Court at MOMPL’s request.

PART B – OTHER EXPLANATORY NOTES (continued)

- b. The matter was heard on both 7 October 2021 and 26 October 2021, the High Court decided the matter in favour of MOMP. MOMP has now been awarded the full sum claimed amounting to USD42.3 million together with interest and costs which is to be paid by PCPP. PCPP did not file any appeal against the High Court's decision however PCPP failed to pay the sum awarded to MOMP. Due to PCPP's failure to pay the sum awarded, MOMP proceeded to issue a Statutory Notice pursuant to Sections 465 and 466 of the Companies Act 2016 against PCPP on 14 December 2021.

Writ Action for Declaration against the Shareholders of PCPP

10. A writ action in the High Court was also filed on 13 August 2018 against PCSB, PPHE and PVEP (being the shareholders of PCPP) seeking for a declaration that the shareholders be liable for the amounts due and owing by PCPP to MOMP under the Contract. PCSB and PCPP filed applications in the High Court to strike out ("PCSB's Striking Out Application") and stay the proceedings pending the disposal of the arbitration proceedings ("PCPP's Stay Application") which were allowed on 26 October 2018 and 11 December 2018 respectively. MOMP appealed against both decisions to the Court of Appeal.
 - a. MOMP's appeal against PCSB's Striking Out Application by the High Court was dismissed by the Court of Appeal on 26 September 2019. MOMP has filed leave to appeal against the Court of Appeal's decision to uphold the High Court's decision to strike out the proceedings against PCSB to the Federal Court. On 18 August 2020, the Federal Court dismissed MOMP's appeal.
 - b. MOMP's appeal against PCPP's Stay Application by the High Court was heard by the Court of Appeal on 19 June 2020. The Court of Appeal has set aside the stay against the shareholders i.e. PCSB, PPHE and PVEP, whilst the stay against PCPP is affirmed. Pursuant to this decision, MOMP has proceeded to serve the cause papers out of jurisdiction on PPHE and PVEP. PVEP failed to respond to MOMP's claim and therefore MOMP applied for a summary judgment against PVEP. PPHE filed an application in the High Court of Malaysia to challenge the service of the cause papers in Indonesia which was heard on 11 August 2021. On 24 September 2021, the High Court allowed PPHE's application. MOMP has elected to await the outcome of the Winding-up Proceedings against PCPP and will consider whether to file a fresh claim against PCPP's shareholders thereafter.

Winding Up of PCPP

11. MOMP issued a Statutory Notice pursuant to Sections 465 and 466 of the Companies Act 2016 against PCPP on 14 December 2021 ("Statutory Notice"). PCPP failed to comply with the Statutory Notice and therefore on 25 March 2022, MOMP proceeded to file a winding-up petition against PCPP in the High Court ("Winding-up Petition"). The Winding-up Petition was heard on 6 September 2022 and a Winding-Up Order against PCPP was granted in the terms prayed for together with costs. This means that PCPP has been wound up and a liquidator has been appointed.

PART B – OTHER EXPLANATORY NOTES (continued)

Proceedings Post Winding Up of PCPP

12. On 24 October 2022, MOMPL filed its Proof of Debt against PCPP together with the supporting documents to substantiate its entire claim.
 - a. During the first creditor's meeting which was held on 11 April 2023, MOMPL was informed by PCPP's liquidator that it was PCPP's only creditor and that the liquidator has admitted the full amount of MOMPL's claim against PCPP amounting to USD121.9 million as stated in the Proof of Debt. The liquidator has since requested a cash call from PCPP's shareholders pursuant to the terms of the Joint Operating Agreement executed in respect of PCPP. PCSB responded to dispute the cash call. Following this, the liquidator requested for further information to support PCSB's position. Since there was no response, the liquidator instructed their solicitors to file an application for directions in the Winding Up Court for the cash call to be effectively ordered against PCSB, PPHE and PVEP.
 - b. On 15 August 2023 a Forms of Summons was filed by the liquidator to seek directions from the High Court for the cash call ("Application for Directions"). On 2 November 2023, the High Court allowed the liquidator's application to serve the court papers out of the jurisdiction, to allow the liquidator to serve the cause papers on PPHE and PVEP in Vietnam and Indonesia.
 - c. PCSB appointed solicitors and filed an application to intervene (for PCSB to be added as the party to the proceedings) and the Court allowed PCSB's application to intervene as a party to the liquidator's application on 8 January 2024. A further case management was fixed for 24 January 2024 for the Court to give directions on filing of affidavits, written submissions and to fix a hearing date for the liquidator's Application for Directions.
 - d. MOMPL also filed an application to intervene as a party to the liquidator's Application for Directions to enable MOMPL to actively participate in the proceedings. MOMPL's application to intervene was heard and allowed by the High Court on 23 January 2024.
 - e. On 29 July 2024, the liquidator withdrew the Application for Directions, with no liberty to file afresh and with costs of RM5,000 to be paid to MOMPL.
 - f. On 2 August 2024, MOMPL's solicitors wrote to the liquidator to inquire what further active steps are being taken to explore recovery. On 6 August 2024, the liquidator responded to confirm that upon the advice of PCPP's solicitors, the liquidator intends to commence arbitration proceedings against the shareholders of PCPP.

KPOC, in this regard, has filed an application to seek leave from the High Court to register and enforce the Final Award as a Judgment of the High Court (collectively, “Applications”).

The Applications were heard by the High Court on 15 April 2022 and 20 May 2022. After the completion of Hearing, the matter proceeded for Clarification on 21 July 2022.

On 30 August 2022, the High Court allowed MMHE’s application to set aside the Final Award pursuant to Section 37 of the Arbitration Act 2005, amongst others, on grounds that there was a breach of the rules of natural justice in connection with the making of the Final Award with costs in favour of MMHE for the sum of RM30,000 and further dismissed KPOC’s application for leave to register and enforce the Final Award as a Judgment of the High Court with the costs to MMHE of RM10,000.

On 20 May 2025, the High Court of Johor Bahru granted an ex-parte injunction in favour of MMHE, restraining TFO from registering the Notice of Arbitration (“NOA”), commencing or proceeding with arbitration in connection with the said Notice pending the determination by the High Court of its validity.

QUARTERLY REPORT

FOR SECOND QUARTER ENDED 30 JUNE 2025

PART B – OTHER EXPLANATORY NOTES (continued)

B12. DERIVATIVES

As part of the Group's efforts to hedge its interest rate risks, the Group entered into interest rate swap ("IRS") arrangements, a form of derivative to convert its interest exposure from floating rate into fixed rate. The maturity of the IRS arrangements coincides with the maturity of the original floating rate loans.

The Group had also entered into forward currency contracts to manage its foreign currency risk.

Details of the Group's derivative financial instruments outstanding as at 30 June 2025 are as follows:

| Contract/Tenure | Notional Value RM million | Fair Value as at 30 June 2025 RM million | |
|--|------------------------------|--|-------|
| | | | |
| <u>Foreign currency contracts</u> | | | |
| Within 1 year | 260.0 | | 3.5 |
| | 260.0 | | 3.5 |
| <u>Interest rate swaps</u> | | | |
| 1 year to 3 years | 4,979.6 | | 60.5 |
| More than 3 years | 8,408.9 | | 221.1 |
| | 13,388.5 | | 281.6 |

The Group had entered into IRS arrangements to hedge against adverse movements in interest rates in compliance with the facility agreement as well as forward currency contracts designated as hedges of expected future payments denominated mainly in United States Dollars.

There is no significant change for the financial derivatives in respect of the following since the last financial year ended 31 December 2024:

- (a) the credit risk, market risk and liquidity risk associated with these financial derivatives;
- (b) the cash requirements of the financial derivatives; and
- (c) the policy in place for mitigating or controlling the risks associated with these financial derivatives.

B13. FAIR VALUE CHANGES OF FINANCIAL LIABILITIES

The Group's derivative financial instruments such as interest rate swaps and foreign currency contracts are measured at fair value. The fair value of the derivative financial instruments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business at the end of reporting date. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include:

- (a) using recent arm's length market transactions;
- (b) reference to the current fair value of another instrument that is substantially the same; and
- (c) discounted cash flow analysis or other valuation models.
