

# BRIGHT PACKAGING INDUSTRY BHD

## ENVIRONMENTAL POLICY

BRIGHT PACKAGING INDUSTRY BHD is committed in protecting the environment and ensure necessary effort is taken to reduce the impact on the environment from its industrial operations in line with the Environmental Quality Act, 1974.

In line with that objective, BRIGHT PACKAGING INDUSTRY BHD is committed in safeguarding the environment to achieve the goal of sustainable development through implementing the following practices:

- ❖ To carry out business activities in accordance with established legal and regulatory framework, those relating to environmental quality.
- ❖ To practise “Zero Open Burning” policy on domestic and scheduled waste generated from its operations and employees living quarters provided by the organization.
- ❖ To identify the sources of waste generated and initiate waste reduction by quantifying waste generated and disposed. Encourage 3R activities (Reuse, Recycle and Reduce) and waste reduction, 5% year-on-year waste reduction goal.
- ❖ To plan, implementing, monitoring and measuring predetermined activities to mitigate environmental impacts and greenhouse Gas (GHG), 10% reduction on GHG year-on-year. Establish membership in a voluntary sustainability initiative.
- ❖ To commit to net-zero and automatically join the Business Ambition for 1.5°C and the Race to Zero
- ❖ To explore opportunities to enhance renewable energy and reduce fossil fuels usage.
- ❖ Initiate plans to conserve energy and natural resources.
- ❖ To initiate Water Conservation activities and ensure water discharge into public drain are not contaminated or hazardous. Initiate annual laboratory test to monitor.
- ❖ To promote and provide awareness of environmental conservation and biodiversity through training to all employees and stakeholders and
- ❖ Ensure awareness of the environmental policy is disseminated to be understood and practiced by employees and all stakeholders within next 12 months.
